Assessment Requirements for AHCLPW304 Carry out inspection of designated area

Release: 1

Assessment Requirements for AHCLPW304 Carry out inspection of designated area

Modification History

Release Number	TP Version	Comments
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- define the scope and criteria on which to base inspection
- define the hazards and risks to work health and safety and the environment associated with the inspection
- conduct inspections, complying with statutory requirements and enterprise protocols for entry to private property
- conduct inspections in a manner that minimises environmental impacts
- operate equipment and vehicles according to organisation procedures
- establish environmental impacts caused by the presence of the target
- document the inspection findings and recommend follow up actions
- apply work health and safety practices in the context of own work
- take precautions to minimise environmental risks during inspection

Knowledge Evidence

The candidate must demonstrate knowledge of:

- risk management processes
- characteristics of inspection targets
- inspection procedures and techniques
- monitoring techniques
- reporting protocols
- relevant legislative and regulatory requirements including environmental protection legislation

Assessment Conditions

Assessors must satisfy current standards for RTOs.
