Assessment Requirements for AHCNAR304 Undertake direct seeding

Release: 1

Assessment Requirements for AHCNAR304 Undertake direct seeding

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- use direct seeding methods on revegetation sites, according to revegetation plans
- conduct work according to site procedures, regulations, work health and safety, other relevant legislation, and manufacturer specifications
- prepare the site for seeding with consideration to environmental impacts
- conduct seeding to maximise germination response
- complete seeding operations in line with site stability and environmental requirements
- operate, clean, maintain and store equipment safely and according to manufacturer instructions and organisational requirements
- apply work health and safety practices in the context of own work
- apply biosecurity measures in the context of own work

Knowledge Evidence

The candidate must demonstrate knowledge of:

- environmental procedures
- seasonality of plants identified for seeding
- equipment processes, technical capability and limitations
- equipment safety requirements
- fertiliser characteristics and application methods
- seeding methods
- soil dynamics

Assessment Conditions

Assessors must satisfy current standards for RTOs.
