Assessment Requirements for AHCPHT309 Supervise mushroom substrate preparation

Release: 1

Assessment Requirements for AHCPHT309 Supervise mushroom substrate preparation

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- observe and report non-compliance with farm quality standards
- organise the process of mushroom substrate preparation
- coordinate work activities so that standards relating to productivity, workflow requirements, farm procedures and quality are met
- record and report production information

Knowledge Evidence

The candidate must demonstrate knowledge of:

- principles and practices for supervising mushroom substrate preparation
 - casing function, application, required depth and required surface structure
 - impact on mushroom production cycle of deviations of mushroom substrate quality from farm standards for substrate
 - overview of mushroom production cycle
 - overview of Phase I and Phase II substrate production
 - relevant legislation and industry codes of practice
 - site quarantine protocols
 - standards and procedures for workplace health and safety, food safety, HACCP, quality systems, emergency procedures, organisational structure and workplace communication channels and protocols

Assessment Conditions

Assessors must satisfy current standards for RTOs.
