AHCPHT406 Control Phase II mushroom substrate process

Release: 1

AHCPTH406 Control Phase II mushroom substrate process

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Application

This unit of competency describes the skills and knowledge required to control Phase II of mushroom substrate.

It applies to individuals who analyse information and exercise judgement to complete a range of advanced skilled activities and demonstrate deep knowledge in a specific technical area. They have accountability for the work of others and analyse, design and communicate solutions to a range of complex problems. All work is carried out to comply with workplace procedures.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Production horticulture (PHT)

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Confirm the requirements for Phase II mushroom substrate preparation	1.1 Monitor and manage Phase II mushroom substrate process and ensure that all equipment is operated safely 1.2 Check to ensure all temperature probes are functioning correctly 1.3 Ensure site quarantine protocols and farm and personal hygiene requirements are followed 1.4 Assess condition and quality of compost before filling
2. Carry out Phase II	2.1 Monitor placement of probes in air and substrate

Element	Performance criteria
process	2.2 Check the evenness of filling and the amount filled 2.3 Ensure doors are secure and vents and thermostats are set at completion of filling 2.4 Measure and record key factors and critical points 2.5 Adjust equipment settings to ensure optimum conditions for each Phase II sub-stage 2.6 Take random representative samples for laboratory testing 2.7 Determine ammonia levels before cool down for spawning

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

This unit is equivalent to AHCPHT406A Control Phase II mushroom substrate process.
