Assessment Requirements for AMPA2008
Shackle animal

Release: 1

Assessment Requirements for AMPA2008 Shackle animal

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must shackle and hang an animal on a processing rail after stunning.

The candidate must:

- check all equipment for faults to allow safe operation of shackling equipment
- identify defects in shackling gear and equipment
- shackle an animal according to workplace and workplace health and safety requirements
- apply communication skills relevant to work instructions and Standard Operating Procedures (SOPs)
- take corrective action immediately if animals are ineffectively stunned
- apply relevant regulatory requirements

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- workplace health and safety requirements related to the shackling of animals
- the consequences of incorrect shackling of animals
- relevant regulatory requirements
- work instructions related to shackling animals

Assessment Conditions

This unit must be assessed on a working chain and at normal production speed.

The candidate must be competent at normal chain speed.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
