Assessment Requirements for AMPA2071 Pack meat products

Release: 1

Assessment Requirements for AMPA2071 Pack meat products

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must pack meat products in accordance with regulatory, workplace and customer requirements.

The candidate must:

- demonstrate the inspection and selection of meat products prior to packaging
- select and blend meat cuts and trimmings to meet customer specifications (where appropriate)
- pack and arrange product to workplace, customer and regulatory requirements
- accurately weigh a variety of products
- inspect packaging for defects and take appropriate action
- comply with workplace health and safety requirements for packing including safe handling
- use communication skills relevant to work instructions

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- how a variety of products may need to be arranged for packing
- relevant labelling requirements
- requirements for inspection and grading of meat prior to packaging and the action to be taken if meat is outside specifications
- packaging requirements for the range of meat products to be packaged
- workplace, customer and regulatory requirements related to packing products

Assessment Conditions

Assessment must be conducted in an operating meat processing plant.

Competency must be demonstrated at a rate of packing that meets workplace requirements over a period of time.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
