Assessment Requirements for AMPA2146 Perform skin fleshing operation

Release: 1

Assessment Requirements for AMPA2146 Perform skin fleshing operation

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must operate fleshing machinery in a fellmongering process.

The candidate must:

- feed skins for flesher to workplace and health and safety requirements
- flesh skins to workplace and health and safety requirements
- de-burr skins (where applicable) to workplace and health and safety requirements
- apply relevant regulatory requirements.

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- workplace health and safety hazards associated with skin fleshing
- workplace health and safety requirements and safety procedures for operating fleshing equipment
- features of well fleshed skins
- operation of the fleshing machine
- quality requirements for fleshing skins in accordance with workplace requirements and customer specifications
- relevant regulatory requirements.

Assessment Conditions

Assessment must be conducted in an operating fellmongering plant.

Competency must be demonstrated at the normal rate of throughput for a fleshing machine.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time.

Assessors must satisfy the current standards for RTOs.
