Assessment Requirements for AMPA3009 Split carcass

Release: 1

Assessment Requirements for AMPA3009 Split carcass

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must split the carcass.

The candidate must:

- split carcasses accurately with no soft siding
- split carcasses in accordance with workplace and health and safety requirements
- perform routine cleaning and maintenance as specified in the work instructions
- use communication skills relevant to work instructions and Standard Operating Procedures (SOPs)

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- routine maintenance that forms part of the work instructions for splitting the carcass
- operation of the carcass splitting saw (where applicable)
- problems caused by soft siding carcasses
- relevant work instructions and Standard Operating Procedures (SOPs)
- workplace health and safety requirements for operating, cleaning and maintaining the saw
- regulatory requirements
- sources of contamination and cross-contamination for carcass splitting

Assessment Conditions

Competency must be assessed at the normal speed of production and over a period of time.

Competency must be demonstrated in accordance with workplace requirements.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
