Assessment Requirements for AMPA3030 Operate pelt puller

Release: 1

Assessment Requirements for AMPA3030 Operate pelt puller

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must operate a pelt puller.

The candidate must:

- operate a pelt puller to workplace standards
- apply relevant workplace health and safety and regulatory requirements
- report defective operation of puller clearly, accurately and promptly
- report malfunctions of puller or pelt removal not achieving workplace requirements
- apply communication skills relevant to work instructions and Standard Operating Procedures (SOPs)
- take corrective action as specified in work instructions

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- general operation of the puller
- work instructions for the operation and routine maintenance of the pelt puller
- relevant workplace health and safety and regulatory requirements
- emergency procedures relating to pelt puller and positioning of carcase
- potential for contamination and cross-contamination and the required corrective actions

Assessment Conditions

Competency must be demonstrated at normal chain speed.

Assessment must be conducted in an operating processing plant.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
