AMPA3091 Implement a Quality Assurance program for rendering plant

Release: 1

AMPA3091 Implement a Quality Assurance program for rendering plant

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Application

This unit describes the skills and knowledge required to implement a Quality Assurance (QA) program in a rendering plant.

This unit is applicable to workers in a rendering plant responsible for overseeing or being part of the implementation of a QA program.

All work should be carried out to comply with workplace procedures, customer requirements and product specifications.

This unit applies to individuals who work under broad direction and take responsibility for their own work including limited responsibility for the work of others. They provide and communicate solutions to a range of predictable problems.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

This unit must be delivered and assessed in the context of Australian meat processing standards and regulations.

Pre-requisite Unit

Nil.

Unit Sector

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Implement the QA program for the	1.1 Clearly explain QA procedures and requirements to relevant personnel

Element	Performance criteria
rendering plant	1.2 Coach and monitor staff in the introduction of work instructions and operating procedures
	1.3 Introduce and monitor verification and recording procedures
	1.4 Conduct internal audit to validate the QA program

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

This unit is equivalent to MTMP3090B Implement a Quality Assurance program for rendering plant.
