Assessment Requirements for AMPA3134 Overview of the NLIS Pork

Release: 1

Assessment Requirements for AMPA3134 Overview of the NLIS Pork

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must describe the mob based National Livestock Identification System (NLIS) for pigs.

The candidate must:

- describe the history of the NLIS and its benefit to industry
- describe the nature and function of a PIC
- describe and interpret the data contained on an NVD
- complete a review of an NVD as received by a meat processor
- identify the various types of NLIS identification (tattoos and tags) for pigs
- identify the various NLIS regulations that apply to producers, saleyards and meat processors
- describe the function of the kill sheet
- take appropriate steps to minimise workplace health and safety risks when working with livestock

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- the NLIS(Pork) system, including the origin and nature of the system, its commercial importance, role in food safety and importing country requirements, role in traceability
- the fundamental benefits of the NLIS to industry
- NLIS identification systems (tattoos and tags) and their purpose and function in the NLIS
- NLIS regulatory requirements in relation to abattoirs
- the purpose of a (National Vendor Declaration) NVD
- the information contained on an NVD
- the nature and purpose of Property Identification Codes
- purpose, nature of and regulations underpinning the use of PICs
- the role of Post-Sale Summaries (PSSs)
- the function of the kill sheet

Assessment Conditions

Assessment must be conducted in the workplace.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
