Assessment Requirements for AMPR203 Select, weigh and package meat for sale

Release: 1

Assessment Requirements for AMPR203 Select, weigh and package meat for sale

Modification History

Release	TP Version	Comment
1	AMPv1.0	Initial release

Performance Evidence

Evidence must demonstrate the candidate's consistency of performance over time.

The candidate must:

- identify meat products
- identify the most appropriate packaging for products
- prepare meat order to customer requirements
- identify sub-standard products and take required action
- weigh items correctly following regulatory requirements
- over wrap meat items according to weather conditions and customer requirements
- use wrapping materials appropriately
- price items accurately according to displayed price
- use, read and interpret scales, calculators, cash registers
- explain regulatory requirements related to weighing products
- work with team members
- apply relevant workplace health and safety and regulatory requirements
- record mathematical information accurately
- report equipment faults, either verbally or in writing according to workplace requirements
- seek advice from colleagues when working with new products or equipment
- use relevant communication skills

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- regulatory requirements related to weighing products
- the effects of poor wrapping techniques on meat quality
- relevant workplace health and safety and regulatory requirements

Assessment Conditions

Competency must be demonstrated over time and under typical operating conditions for the enterprise.

Assessment must occur in the workplace under normal enterprise conditions or in a simulated environment.

The following three forms of assessment must be used:

- quiz of underpinning knowledge
- demonstration in the workplace or simulated environment
- workplace referee or third-party report of performance over time

Assessors must satisfy current standards for RTOs.
