Assessment Requirements for AMPR303 Calculate yield of carcass or product

Release: 1

Assessment Requirements for AMPR303 Calculate yield of carcase or product

Modification History

Release	TP Version	Comment
1	AMPv1.0	Initial release

Performance Evidence

Evidence must demonstrate the candidate's consistency of performance over time at production speed.

The candidate must:

- weigh whole carcase or product prior to cutting or trimming into components
- estimate yield to identify and rectify inaccurate calculations
- explain the principles of calculation of yield
- apply relevant regulatory and workplace health and safety requirements
- use communication skills relevant to the task
- use mathematical skills relevant to the task

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- principles of calculation of yield
- relevant regulatory and workplace health and safety requirements
- steps in calculating yield

Assessment Conditions

Competency must be demonstrated over time and under typical operating conditions for the enterprise.

Assessment must occur in the workplace under normal operating conditions or in a simulated environment.

The following three forms of assessment must be used:

- observation/simulation
- quiz of underpinning knowledge
- workplace referee or third-party report of performance over time

Assessors must satisfy current standards for RTOs.
