**Release: 3**

# Assessment Requirements for AMPS201 Package product using thermoform process

## Modification History

Release	Comments
Release 3	This version released with AMP Australian Meat Processing Training Package Version 5.0.
Release 2	This version released with AMP Australian Meat Processing Training Package Version 4.0.
Release 1	This version released with AMP Australian Meat Processing Training Package Version 2.0.

## Performance Evidence

The individual must package processed meat products using a thermoform process.

Individuals must:

- identify where labels and other raw materials are stored
- demonstrate correct loading procedure at machine speed
- demonstrate correct loading procedure for labels
- change dates on the coders
- correctly load and unload films
- join films
- line up printed film
- identify flaws in packaging film
- demonstrate a full label change
- set machine to different product specifications
- perform a full changeover within the specified time
- apply communication and mathematical skills relevant to work instructions and Standard Operating Procedures (SOPs)
- implement the hygiene procedures for the thermoforming machinery.

## Knowledge Evidence

The individual must demonstrate a basic factual, technical and procedural knowledge of:

- relevant regulatory requirements
- how the thermoforming machine works

- reasons for changing the different settings
- temperature requirements and the importance of correct temperature
- hygiene requirements and their importance
- need to adjust tracking and the procedure to make adjustment
- packaging specifications for a range of products for cartons, tubs and pouches
- principles of thermoforming
- use of oxygen absorbers if required under work instructions
- use-by date or packed-on date for a range of products and the importance of these dates
- which films are used for which products
- causes and corrective actions for re-packs
- thermoforming equipment and accessories.

## **Assessment Conditions**

Competency must be demonstrated over time and under typical operating conditions for the enterprise.

Assessment must occur in the workplace under normal production conditions.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time.

Assessors must satisfy the current standards for RTOs.
