Assessment Requirements for AMPX213 Despatch meat product

Release: 1

Assessment Requirements for AMPX213 Despatch meat product

Modification History

Release	TP Version	Comment
1	AMPv1.0	Initial release

Performance Evidence

The candidate must be observed placing orders at a despatch point and loading products into transport.

The candidate must:

- identify species and various meat products for storage
- handle product according to hygiene requirements
- monitor refrigerated temperature on a regular basis
- rotate stock
- apply relevant communication and mathematical skills
- arrange and consolidate orders to customer and workplace requirements
- record information accurately and legibly
- seek advice where necessary from relevant sources when working with new products, technology or changes in work practices
- use correct manual handling techniques for transferring product to storage facilities
- maintain clean holding rooms

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- storage requirements for products
- recording procedures for loadout of product
- regulatory requirements related to storage and handling of product
- temperatures for storage of meat products
- workplace requirements for despatch of meat
- appropriate storage facilities for individual products

Assessment Conditions

Competency must be demonstrated under conditions similar to the speed of production and within the parameters of the role and responsibilities.

Assessment must occur in the workplace under normal enterprise or production conditions or in a simulated environment.

The following forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy current standards for RTOs.
