AURAAA002 Determine retail rates for automotive products and services

Release: 1

AURAAA002 Determine retail rates for automotive products and services

Modification History

Release	Comment
Release 1	New unit of competency.

Application

This unit describes the performance outcomes required to calculate fixed and variable costs to determine retail labour rates and cost of products and services for sale in automotive service and repair workplaces.

It applies to those working in administrative and sales areas of an automotive workplace who are required to calculate costs of products and services to ensure business profitability.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Competency Field
