AURASA001 Apply automotive workplace safety fundamentals

Release: 1

AURASA001 Apply automotive workplace safety fundamentals

Modification History

Release	Comment
Release 1	New unit of competency.

Application

This unit describes the performance outcomes required to apply automotive workplace safety fundamentals. It involves preparing for the task, and identifying basic workplace emergency and safety practices and procedures.

It applies to those undertaking a Vocational Education and Training in Schools (VETiS) or pre-vocational qualification as preparation to entering the automotive service and repair or automotive manufacturing industry. The unit is designed for use in a highly supervised context and is not suitable for use in a vocational qualification.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Competency Field
