AVI20713 Certificate II in Aviation Transport Protection (Checked Baggage Screener)

Release 1

AVI20713 Certificate II in Aviation Transport Protection (Checked Baggage Screener)

Modification History

Release 1. This is the first release of this qualification in AVI08 Aviation Training Package Version 5.0.

Description

Rationale:
This qualification is designed for Aviation Transport Protection within the Aviation Industry. Successful achievement of the qualification will require competence in units of competency that relate to the job role requirements defined as aligned at AQF Level 2.

This qualification reflects the skills and knowledge required for a Checked Baggage Screener in the Australian Aviation Industry.

Job role:
This qualification is aligned to the occupational role of:

- Aviation Transport Protection Officer – Checked Baggage Screener.

Entry Requirements

There are no entry requirements for this qualification.

Employability Skills Summary

The following table contains a summary of the employability skills as identified by the Aviation Industry for this qualification. This table should be interpreted in conjunction with the detailed requirements of each unit of competency packaged in this qualification. The outcomes described here are broad industry requirements that may vary depending on packaging options.

Employability Skill	Industry/enterprise requirements for this qualification include:
Communication	• Use communication systems and procedures required for aviation transport protection operations • Read and interpret relevant regulations, instructions, signs and labels applicable to aviation transport protection operations • Speak clearly and directly on matters related to aviation transport protection operations • Write documents as part of duties, including completion of relevant forms and incident reports • Negotiate issues with others, where appropriate, in the course of aviation transport protection operations • Recognise and interpret non-verbal signs, signals and behaviour • Use relevant communication equipment.
Teamwork	• Collaborate with others in the course of aviation transport protection operations • Participate in to the resolution of any interpersonal conflicts that may arise during aviation transport protection operations • Avoid and prevent the harassment of others in the workplace • Work with persons of different ages, gender, race, religion, political persuasion
Problem solving	• Identify and solve or report problems arising in the course of aviation transport protection operations • Recognise problems that may occur in the course of aviation transport protection operations including hazards and risks and take appropriate action to report or resolve the problems within limits of responsibility • Use mathematics to carry out calculations related to activities involved in aviation transport protection operations.
Initiative and enterprise	• Modify activities dependent on differing situations and contingencies that may arise during aviation transport protection operations • Take appropriate initiatives in a range of situations such as those above • Respond appropriately to any changes in equipment, standard operating procedures and the working environment.

Planning and organising	• Follow and apply operational and emergency plans, systems and procedures • Comply with regulations and codes of practice • Follow and apply workplace security and safety management systems • Collect and interpret information needed in the course of aviation transport protection operations • Organise and plan own work activities • Manage time and priorities in the course of aviation transport protection operations.
Self management	• Interpret and apply regulations, standard operating procedures and instructions • Follow work plans and schedules • Check own work performance.
Learning	• Adapt own competence in response to any changes in aviation transport protection operations • Assist others in the workplace to develop their competence where applicable • Participate in updating own knowledge and skills required for aviation transport protection activities.
Technology	• Use the equipment and materials required during aviation transport protection operations • Follow and apply operational and servicing instructions for equipment used during aviation transport protection operations • Follow and apply work health and safety (WHS)/occupational health and safety (OHS) procedures when using aviation transport protection equipment and facilities.

Packaging Rules

Requirements for achievement of the qualification:

A successful assessment outcome for a total of **13 units** of competency comprising:
8 core units listed below
plus
5 elective units, which may be taken from the elective units listed below, or may include **up to 3 units** that may be drawn with appropriate contextualisation from a qualification at the same level or a higher level in this Training Package or any other endorsed Training Package or accredited course, provided that the units contribute to the vocational outcome of the qualification.
Where imported units are selected, care must be taken to ensure that all pre-requisite units specified are complied with.

Core units:

Field		Unit	
E	**Communication and Calculation**	CPPSEC2001A	Communicate effectively in the security industry
F	**Safety Management**	AVIF2020B	Employ fatigue management practices in the aviation workplace
G	**Teamwork**	AVIG2002B	Work effectively in the aviation industry
I	**Customer Service**	AVII3011C	Provide quality customer service
K	**Technology**	AVIK2001B	Use computers in the aviation screening workplace
O	**Security**	AVIO2005B	Conduct screening using explosive trace detection (ETD)
		AVIO2010B	Screen articles to enter an airside security zone or landside security zone

Z	Situation Awareness	AVIZ2050B	Maintain security awareness and vigilance in the aviation workplace

Elective units:

Field		Unit	
C	**Driving Vehicle**	AVIC2001A	Drive on the airside
		TLIC1051A	Operate commercial vehicle
E	**Communication and Calculation**	AVIE2005B	Conduct radio procedures in the aviation airport environment
F	**Safety Management**	AVIF2023A	Follow occupational health and safety procedures
		AVIF2024A	Conduct housekeeping activities
G	**Teamwork**	AVIG2003A	Work in a socially diverse environment
L	**Resource Management**	AVIL2005A	Complete routine administrative tasks
		AVIL2006A	Promote effective workplace practice
O	**Security**	AVIO2004B	Conduct frisk search of persons
		AVIO2006B	Control access to and exit from an airside security zone or landside security zone at an airport
		AVIO2008A	Manage the flow of items for screening by X-ray screening equipment
		AVIO2009B	Screen articles by interpreting X-ray images
		AVIO2011B	Screen people to enter an airside security zone or landside security zone
		AVIO2013A	Undertake emergency response action to a security threat
		AVIO2014A	Manage disruptive and/or unlawful behaviour
		AVIO2015A	Apply and monitor workplace security procedures

		AVIO4003A	Implement airside access
		CPPSEC1007A	Apply walk through metal detection procedures
		CPPSEC1008A	Apply hand-held metal detection procedures
		CPPSEC2002A	Follow workplace safety procedures in the security industry
		CPPSEC2004B	Respond to security risk situation
		CPPSEC2012A	Monitor and control individual and crowd behaviour
		CPPSEC2014A	Operate basic security equipment
		CPPSEC2015A	Patrol premises
		CPPSEC2018A	Monitor electronic reporting facility
		CPPSEC3001A	Maintain workplace safety in the security industry
		CPPSEC3002A	Manage conflict through negotiation
		CPPSEC3003A	Determine response to security risk situation
		CPPSEC3005A	Prepare and present security documentation and reports
		CPPSEC3007A	Maintain security of environment
		CPPSEC3017A	Plan and conduct evacuation of premises
		CPPSEC3019A	Operate specialised security equipment
		CPPSEC3020A	Monitor security from control room
P	**Administration and Finance**	AVIP2001A	Capture records into a records keeping system
