# Assessment Requirements for BSBCOM601 Research compliance requirements and issues

**Release: 1**

# Assessment Requirements for BSBCOM601 Research compliance requirements and issues

## Modification History

| Release | Comments |
|---------|----------|
| Release 1 | This version first released with BSB Business Services Training Package Version 1.0. |

## Performance Evidence

Evidence of the ability to:

- access and interpret information on relevant Australian and international standards
- collaborate with others to identify and document the purpose and scope of the compliance research
- plan the research requirements including:
  - selecting an appropriate research methodology
  - preparing a research plan
  - getting approval for the plan from appropriate people
- carry out the research according to the approved plan including:
  - collecting, organising, analysing and interpreting data
  - reviewing and discussing analysis and preliminary outcomes with relevant l personnel
- prepare and distribute report of the research outcomes according to organisational requirements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

## Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain compliance requirements relevant to the organisational research methods
- explain elements of relevant compliance program/management systems
- describe quantitative and qualitative data analysis techniques relevant to compliance related research
- list relevant Australian and international standards
- identify relevant organisational policies and procedures
- identify sources of information relevant to compliance related research.

## Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the compliance field of work and include access to:

- organisational information and Australian and international standards related to compliance requirements
- relevant personnel
- computer resources and business equipment
- case studies and, where possible, real situations.

Assessors must satisfy NVR/AQTF assessor requirements.
