**Assessment Requirements for
CPPCLO2034 Maintain storage area and
cleaning equipment**

Release: 1

Assessment Requirements for CPPCLO2034 Maintain storage area and cleaning equipment

Modification History

Release	Comment
Release 1	This version first released with CPP Property Services Training Package Version 5.0.

Performance Evidence

A person must demonstrate the ability to:

- select and properly use PPE and safely store and maintain cleaning equipment in three different types of storages.

Performance must include:

- selecting, using, and maintaining personal protective equipment (PPE);
- manual handling techniques;
- communicating effectively with supervisors; and
- understanding, clarifying, and following supervisor or client instructions
-

Knowledge Evidence

A person demonstrating competency in this unit must identify:

- common requirements for storage of equipment, chemicals, and consumables and reasons for storage methods
- PPE, cleaning solutions, vehicle security elastic straps and nets
- key procedures for keeping storage areas accessible and free of obstacles including the cleaning storage areas: commercial, industrial and vehicle
- principles of first-in first-out storage of chemicals and consumables
- workplace requirements for undertaking all aspects of maintaining storage area and cleaning equipment including:
 - key workplace health and safety, hygiene and environmental regulations
 - use of safety data sheets (SDS) and selection, care and use of PPE
 - safe handling of cleaning equipment and cleaning agents
 - manual handling techniques
- methods for communicating and clarifying work requirements with supervisors and clients; verbally, in person or via phone, via electronic medium such as text and email, electronic or written reports

- workplace procedures for:
 - health and safety, hygiene and environmental care
 - identifying and understanding the requirements of manufacturers' instruction for storing cleaning chemicals and equipment
 - communicating and clarifying work requirements with supervisor, team members or client
 - notifying supervisor, team members or client of work completion; verbal communication in person or by phone, written communication including hard copy cleaning schedules, text or electronic form
 - use and care of equipment; including checking electrical safety tags to ensure safe use of equipment
 - tidying work areas, disposing of soil and waste, cleaning equipment and PPE, and storing equipment and chemicals
 - methods for completing basic regulatory and company documentation
 - reporting incidents; accidents and injury, damage to or breakages in the cleaning area or cleaning equipment, theft and threats to personal security

Assessment Conditions

As a minimum, assessors must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment of performance must be undertaken in the workplace and/or under realistic workplace conditions which reflect:

- the use of industry-standard equipment such as, PPE, cleaning solutions, vehicle security elastic straps and nets.
- performing tasks/activities to the level of proficiency and within timelines that would be expected in a workplace; and
- following standard and authorised work practices, safety requirements and environmental constraints.

Assessors are responsible for ensuring that candidates have access to:

- appropriate documents, materials, tools equipment and personal protective equipment currently used in industry;
- legislation and regulations; and
- workplace policies and procedures.
