Assessment Requirements for CPPCLO2036 Maintain external surfaces

Release: 1

Assessment Requirements for CPPCLO2036 Maintain external surfaces

Modification History

Release	Comment
Release 1	This version first released with CPP Property Services Training Package Version 5.0.

Performance Evidence

A person must demonstrate the ability to:

- select and use external surface cleaning maintenance equipment and cleaning agents to clean; and
- maintain, using a different technique in each instance, four different types of external surfaces, including at least:
 - one external surface with dry soiling; and
 - one external surface with wet soiling.

Performance must include:

- selecting, using, and maintaining personal protective equipment (PPE);
- manual handling techniques;
- communicating effectively with supervisor or clients;
- understanding, clarifying, and following supervisor or client instructions;
- safely using cleaning equipment and preparing and using cleaning agents;
- disposing of collected soil and waste; and
- using efficient cleaning methods.
-

Knowledge Evidence

A person demonstrating competency in this unit must identify:

- the effects of wet and dry soils on external surfaces including: timber, tile, laminate, painted surface and canvas
- cleaning techniques and equipment including:
 - scrubbing, mopping, sweeping, polishing, vacuum and pressure cleaning
 - industry-standard equipment such as, glass cleaning agents, ladders, pressure hoses, dry and wet lint free cloths, lint free towels, microfibre clothes, mops, and squeegees.

- cleaning agents; cleaning solutions for external surfaces; including hard surface cleaning solutions for brick and glass, low environmental impact cleaning solutions, solvent cleaners, stain removal agents
- manufacturers' instructions for mixing and using cleaning chemicals and stain remover
- workplace requirements for undertaking all aspects for maintenance of external surfaces including:
 - key workplace health and safety, hygiene and environmental regulations
 - use of safety data sheets (SDS) and selection, care and use of PPE
 - identifying and understanding the requirements of manufacturers' instructions for mixing and using cleaning chemicals
 - safe handling and usage of cleaning equipment and cleaning agents
 - manual handling techniques for moving furniture and fittings
- methods for communicating and clarifying work requirements with supervisors and clients; verbally, in person or via phone, via electronic medium such as text and email, electronic or written reports
- workplace procedures for:
 - health and safety, hygiene and environmental care
 - communicating and clarifying work requirements with supervisor, team members or client
 - notifying supervisor, team members or client of work completion; verbal communication in person or by phone, written communication including hard copy cleaning schedules, text or electronic form
 - use and care of equipment; including checking electrical safety tags to ensure safe use of equipment
 - tidying work areas, disposing of soil and waste, cleaning equipment and PPE, and storing equipment and chemicals
 - reporting incidents; accidents and injury, damage to or breakages in the cleaning area or cleaning equipment, theft and threats to personal security
-

Assessment Conditions

As a minimum, assessors must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment of performance must be undertaken in the workplace and/or under realistic workplace conditions which reflect:

- the use of industry-standard equipment such as, glass cleaning agents, ladders, pressure hoses, dry and wet lint free cloths, lint free towels, microfibre clothes, mops, and squeegees.
- performing tasks/activities to the level of proficiency and within timelines that would be expected in a workplace; and
- following standard and authorised work practices, safety requirements and environmental constraints.

Assessors are responsible for ensuring that candidates have access to:

- appropriate documents, materials, tools equipment and personal protective equipment currently used in industry;
- legislation and regulations; and
- workplace policies and procedures.
