Assessment Requirements for CPPSPS3009 Maintain swimming pool and spa stock

Release: 1

Assessment Requirements for CPPSPS3009 Maintain swimming pool and spa stock

Modification History

Release 1.

Supersedes and is equivalent to CPPSPS3009A.

Unit of competency upgraded to reflect Standards for Training Packages 2012.

This version first released with CPP Property Services Training Package Version 6.0.

Performance Evidence

To demonstrate competency in this unit, a person must maintain swimming pool and spa stock in a one swimming pool and spa service and retail organisation.

In doing this, the person must meet the performance criteria for this unit.

Knowledge Evidence

To be competent in this unit, a person must demonstrate knowledge of:

- requirements of jurisdictional legislation and regulations relating to maintaining swimming pool and spa stock, including those for work health and safety (WHS) and protection of the environment
- workplace procedures for maintaining swimming pool and spa stock, including interpreting work orders and reporting problems
- Australian Competition and Consumer Commission product safety guidelines
- Commonwealth, state or territory legislation, and local government regulations, Australian standards, and codes of practice impacting on swimming pool and spa stocks and supplies relating to:
 - chemicals
 - dangerous goods
 - emergencies
 - private and public swimming pools and spas
 - product recall
 - WHS
- stock databases and information systems to support management of supplier information and goods requisition
- processes for:
 - identifying swimming pool and spa stock requirements
 - obtaining and documenting information on swimming pool and spa stock from suppliers
 - obtaining approval for swimming pool and spa stock orders
 - placing and recording orders for swimming pool and spa stock

- safely receiving, checking, handling, storing and recording deliveries of swimming pool and spa stock
- using and maintaining stock control and stocktaking systems
- safely handling and storing swimming pool and spa chemicals, including:
 - documentation requirements
 - emergency response procedures
 - equipment types and functions
 - handling and storage requirements
 - hazards and risks of storing, preparing, using and disposing of chemicals
 - injury, dangerous occurrence and incident reporting requirements
- securely maintaining storage conditions
- responding to emergency situations involving hazardous swimming pool and spa stock, and completing records of responses
- stock layout and storage locations and conditions for swimming pool and spa stock items
- product knowledge, including manufacturers' specifications for equipment and chemicals being used
- routes of entry to storage areas and potential symptoms of exposure from chemicals
- types of swimming pool and spa chemicals.
- HAZCHEM code system
- WHS and environmental management issues and processes relating to the handling and disposal of swimming pool and spa stock.

Assessment Conditions

Assessors must satisfy the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment of performance must be undertaken in the workplace or in a simulated workplace environment. Tasks are to be performed to the level of proficiency and within the time limits expected in a workplace.

Assessors are responsible for ensuring that the person demonstrating competency has access to:

- work site/s and specifications to maintain swimming pool and spa stock
- swimming pool and spa stock-control system
- appropriate documents, safety data sheets (SDSs), tools, equipment and PPE currently used in industry
- requirements of appropriate sections of legislation and regulations
- relevant workplace policies and procedures.
