Assessment Requirements for CSCSAS014 Monitor and review security systems

Release: 1

Assessment Requirements for CSCSAS014 Monitor and review security systems

Modification History

Release	Comments
1	These Assessment Requirements were released in CSC Correctional Services Training Package release 1.0 and meet the Standards for Training Packages.

Please refer to the advice in the CSC Assessment Guide.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least two occasions.

- supervising, coordinating and monitoring all security equipment and strategies required by the security system of the work site and consistent with work role, responsibilities and delegation
- anticipating and interpreting the efficiencies and risks of the security system and incidents against security plans and procedures
- providing advice on the implementation of security technology and the resources required to maintain the security system
- coordinating team responses at incidents and deploying back-up and specialist resources in response to incidents and alarms
- coping with a high degree of pressure
- using a range of communication equipment and information sources during incidents
- evaluating security incidents and potential risks or emergencies

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- organisation's policies and procedures related to the use of security, surveillance and information equipment and emergency response
- codes and alarms
- organisation's records and information system
- code of conduct
- communication techniques

Assessment Conditions

Valid assessment of this unit requires a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when monitoring and reviewing the security system, including coping with difficulties, irregularities and breakdowns in routine.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
