Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 2.0.

Performance Evidence

Evidence of the ability to:

- research and select ideas for public artworks through research and collaboration with others
- identify and coordinate required resources for selected ideas
- explore and experiment with a range of advanced techniques to create multiple public artworks or a single major work that:
    - meets the requirements of particular sites
    - demonstrates command of advanced techniques
    - considers and complies with legislative requirements
- review and evaluate work against objectives.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe intellectual property considerations relevant to art works for public spaces
- summarise the main aspects of historical and contemporary public artwork and how they can inform own design ideas
- describe features of different types of sites and key considerations for developing works of art to suit
- explain different roles and responsibilities of people typically involved in public art
- describe how the elements and principles of design may be applied and challenged when creating art for public spaces
- explain key safety requirements for public space artwork.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in creative arts industry environments. The assessment environment must include access to:

- equipment, tools and materials relevant to the art form
- sites for which the artworks are designed
- relevant information sources.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.
