**Release: 2**

## Assessment Requirements for CUASET301 Construct soft scenery

### Modification History

Release	Comments
Release 2	This version released with CUA Creative Arts and Culture Training Package version 2.0. Updated assessment conditions section. Updated modification history section to reflect changed name of training package.
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 1.0.

### Performance Evidence

Evidence of the ability to:

- construct soft scenery elements for at least one production
- follow safety procedures
- meet deadlines
- work collaboratively.

Note: If a specific volume or frequency is not stated, then evidence must be provided for each of the above points at least once.

### Knowledge Evidence

To complete the unit requirements the individual must:

- describe the features of a range of materials used for soft scenery construction, the context in which they are used and the reason for using them
- describe techniques used to construct different soft scenery items and the reasons for using them
- describe typical formats for technical drawings used in set construction plans and the way in which they are used during the process of constructing soft scenery items
- explain organisational safety requirements in relation to safe manual-handling techniques and working with hazardous substances.

## Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in creative arts industry environments. The assessment environment must include access to:

- materials, tools and equipment required to construct soft scenery
- a work space in which construction can take place.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.
