Modification History

Release	Comments
Release 2	This version released with CUA Creative Arts and Culture Training Package version 2.0. Updated assessment conditions section. Updated modification history section to reflect changed name of training package.
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 1.0.

Performance Evidence

Evidence of the ability to:

- operate professional audio equipment to meet production requirements on at least two occasions
- follow safety procedures when operating audio equipment
- work collaboratively during productions.

Note: If a specific volume or frequency is not stated, then evidence must be provided for each of the above points at least once.

Knowledge Evidence

To complete the unit requirements the individual must:

- describe features, formats and purpose of audio production documentation
- describe features of, and operating procedures for, industry-standard audio mixing consoles, amplifiers, speakers and equalisers
- describe the characteristics of sound in a range of environments
- explain audio effects and provide examples of when to use them
- describe techniques for amplifying music to suit varying live environment conditions
- describe typical faults and problems that occur in a live audio environment, and provide examples of how to address them
- provide examples of health and safety issues relevant to working with electricity and noise.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in creative arts industry environments. The assessment environment must include access to professional audio equipment used for live productions or events.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.
