## Unit Descriptor

<p><b>Unit descriptor</b></p>	<p>This competency standard covers the skills required to systematically generate and develop innovative ideas in the workplace. It is a generic standard, which may be customised for different work contexts within the cultural industries.</p> <p>This competency standard requires the skills to interpret or observe a need and develop a detailed idea. This requires the creative generation and discussion of a number of ideas or solutions and accepting positive and negative feedback. Ideas should be tested in order to establish and present a workable outcome which meets the needs of the end user.</p> <p>This standard of competency could be completed by anyone in the cultural industries above entry and basic operational levels. Its six elements cover all six <i>innovation @ work</i> skills which are central to innovative thinking. Examples of how this unit works in practice can be found in the Supporting Information section of the Training Package.</p> <p>No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.</p>
