Assessment Requirements for DEFCMD001 Marshal aircraft

Release: 1

Assessment Requirements for DEFCMD001 Marshal aircraft

Modification History

Release 1. This is the first release of this unit of competency in the DEF Defence Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- allocating and prioritising aircraft parking
- identifying hazards, assessing risks and implementing control measures
- implementing aircraft security, access and ordnance procedures
- implementing the correct procedures in an aircraft emergency or accident
- marshalling aircraft by day and by night
- participating in aircraft safety briefings or debriefings
- using marshalling signals
- working in a team.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- aircraft danger zones
- day and night marshalling signals
- effects of wind on aircraft
- emergency drills including:
 - basic firefighting drill
 - basic first aid drill
 - crowd control
- environmental and safety factors
- how and when to notify emergency service/s
- marshalling, support and aircraft equipment selection and serviceability
- operational procedures for an aircraft fire/accident and emergency
- relevant manufacturer procedures
- relevant organisational policies and procedures
- relevant standard Australian Defence Force (ADF) marshalling signals
- restrictions imposed on aircraft in confined areas
- security, access and ordnance requirements
- special circumstances/procedures including:

- aircraft with droop stops
- aircraft with no prop/rotor brake
- installation of locking, protection or security devices
- tasking information and procedures.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or other simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including operational procedures, regulations, codes of practice and operation manuals.
