Assessment Requirements for DEFFIN029 Provide validation and assurance of costs

Release: 1

Assessment Requirements for DEFFIN029 Provide validation and assurance of costs

Modification History

Release 1. This is the first release of this unit of competency in the DEF Defence Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying data analysis tools and techniques
- identifying cause and consequence of potential costing errors
- identifying errors in calculations
- identifying risks and risk appropriate control measures
- reviewing documentation for completeness and accuracy
- undertaking research and critical analysis
- using deductive reasoning and evaluation techniques related to information analysis and corroboration.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- costing techniques and procedures
- estimate test procedures and practices
- key accounting principles relevant to costing
- organisation evaluation procedures.
- relevant legislation and organisational policy and procedures.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations, current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations, current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational

situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or other simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- acceptable means of simulated assessment.
