Assessment Requirements for DEFGEN025 Control engineering and logistic processes

Release: 1

Assessment Requirements for DEFGEN025 Control engineering and logistic processes

Modification History

Release	Comments
1	These Assessment Requirements were released in DEF Defence Training Package release 1.0 and meet the Standards for Training Packages.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- allocating appropriate resources
- directing, briefing, coordinating and monitoring personnel
- providing reports and appropriate documentation

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

Operational knowledge of:

- characteristics, technical capabilities, effects, employment and limitations of equipment
- operation to be performed
- material, personnel skills and other requirements for the operations
- operational environment
- reporting requirements and procedures associated with the operations

Assessment Conditions

Competency should be assessed in an actual workplace or in a simulated environment, with access to equipment and infrastructure appropriate to the outcome. Competency should be demonstrated over time to ensure the candidate is assessed across a variety of situations.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
