Assessment Requirements for DEFRNG012 Manage training areas and ranges

Release: 1

Assessment Requirements for DEFRNG012 Manage training areas and ranges

Modification History

Release	Comments
1	These Assessment Requirements were released in DEF Defence Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- accessing interpreting and applying Range Standing Orders and other instructions and policy
- liaising and negotiating
- developing, implementing and modifying plans
- directing and controlling all aspects of range management
- exercising Defence regulations relevant to Defence practice areas
- exercising tact and judgement in a command and control environment
- interpreting and applying technical information
- reading and understanding technical specifications, maps, diagrams, traces
- representing mathematical ideas in appropriate format
- solving problems and making decisions
- managing training area and range security
- monitoring and maintaining training areas and ranges

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- communications equipment and systems
- composition of teams and roles and responsibilities of team members

- Defence practice areas (DPA) – areas of land, sea or air declared for the purpose of conducting Defence operations or practices under Defence Force Regulations (DFR) Part XI, by the Minister for Defence and notified in the Commonwealth of Australia Gazette
- local alert and warning systems
- locally available resources, their capabilities and access to them
- nature of local hazards and plans, including effects on the provision of communications
- principles of risk assessment and risk management
- range danger area traces
- Range Standing Orders, instructions, clearance certificates and standard operating procedures (SOP) relevant policies, publications, legislation and regulations
- team work principles and strategies
- weapons/systems characteristics

Assessment Conditions

Competency should be assessed in an actual workplace or in a simulated environment, with access to equipment and infrastructure appropriate to the outcome. Competency should be demonstrated over time to ensure the candidate is assessed across a variety of situations.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
