Employability Skills Summary

Employability Skills Summary for DEF31111 Certificate III in Driving in a Threat Environment

Employability Skills are part of a unit of competency.

Employability Skills statements from a selection of units of competency from the DEF31111 Certificate III in Driving in a Threat Environment have been reproduced in the table below. This table provides an example of Employability Skills for the qualification because Employability Skills within a qualification will vary depending on the qualification packaging options.

Employability	Employability Skills Statement
Skill	Defence qualifications have core units (which must be achieved) and elective units (where there is a choice of units which must be achieved) so different Employability Skills Summaries are possible within the one qualification, depending on the package of core units and chosen elective units.
Communication	direct a vehicle at night
	follow instructions/directives
	give feedback/assistance to other team members in an appropriate manner
	• read and implement written or verbal orders and procedures
	• read maps and use navigational aids
	• rectify and/or report any vehicle faults
	report information verbally
	• respond to directions from a co-driver and a guide, both with
	and without the assistance of external aids
	use verbal and non-verbal communication techniques including hand signals, language style, active listening
Teamwork	apply knowledge of composition of teams and roles and responsibilities of team members
	apply team work principles and strategies
	conduct assessment as a team activity
	contribute to team activities
	encourage other team members
	participate in a team
	recognise individual differences in the workplace, to value these
	differences and to adjust behaviour to account for these
	differences
	use techniques for supporting others
Problem solving	analyse difficult terrain to determine whether it is trafficable, and if so, what are the implications for vehicle preparation, safety of passengers and load planning
	apply contingency actions that minimise risk

Approved Page 3 of 8

supervisor and taking remedial action understand work environment including all operational road transport situations, including a variety of road, terrain, weather and vegetation conditions and a range of threatening situations. Planning and organising camouflage vehicle from observation, surveillance and detection carry out contingency actions to prevent or minimise damage to the person, the vehicle and the load, both when travelling alone and in convoy with other vehicles configure a vehicle for night driving plan tasks and discuss with a supervisor prepare a vehicle for driving at night prepare a vehicle for driving at night using night fighting equipment prepare other for tactical employment and operational driving self-management encourage other team members ensure personal behaviour shows sensitivity to the differences between colleagues Learning learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook learn about occupational health and safety requirements for driving a vehicle at night learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques		
Confirm the ability to reduce vulnerability through preparation of the vehicle, the use of carnouflage and concealment, and the application of contingency actions that minimise risk deal with contingencies related to an emergency that may occur navigate vehicle at night using navigational equipment report any faults with night fighting equipment to appropriate personnel, rectify and/or return equipment prepare vehicle, which may include reporting deficiencies to the supervisor and taking remedial action understand work environment including all operational road transport situations, including a variety of road, terrain, weather and vegetation conditions and a range of threatening situations carry out contingency actions to prevent or minimise damage to the person, the vehicle from observation, surveillance and detection carry out contingency actions to prevent or minimise damage to the person, the vehicle and the load, both when travelling alone and in convoy with other vehicles configure a vehicle for night driving plan tasks and discuss with a supervisor prepare a vehicle for driving at night prepare a vehicle for driving at night prepare for reconnaissance of the terrain to be traversed by map and/or visual observation, identifying potential hazards prepare vehicle for tactical employment and operational driving self-management Earming Learning Learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook learn about occupational health and safety requirements for driving a vehicle at night learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position learn about tactical deployment of operational driving techniques		
of the vehicle, the use of camouflage and concealment, and the application of contingency actions that minimise risk edeal with contingencies related to an emergency that may occur navigate vehicle at night using navigational equipment report any faults with night fighting equipment to appropriate personnel, rectify and/or return equipment understand work environment including all operational road transport situations, including a variety of road, terrain, weather and vegetation conditions and a range of threatening situations. Planning and organising - camouflage vehicle from observation, surveillance and detection carry out contingency actions to prevent or minimise damage to the person, the vehicle and the load, both when travelling alone and in convoy with other vehicles - configure a vehicle for night driving plan tasks and discuss with a supervisor prepare a vehicle for driving at night - prepare for reconnaissance of the terrain to be traversed by map and/or visual observation, identifying potential hazards - prepare vehicle for tactical employment and operational driving - encourage other team members - ensure personal behaviour shows sensitivity to the differences between colleagues - learn about Occupational health and safety requirements for driving a vehicle at night - learn about standing orders, routine orders, procedures manuals, doctrine pamphiets, job guides and other publications - learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position - learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving		apply tactical deployment drills
application of contingency actions that minimise risk deal with contingencies related to an emergency that may occur navigate vehicle at night using navigational equipment report any faults with night fighting equipment to appropriate personnel, rectify and/or return equipment prepare vehicle, which may include reporting deficiencies to the supervisor and taking remedial action understand work environment including all operational road transport situations, including a variety of road, terrain, weather and vegetation conditions and a range of threatening situations Planning and organising camouflage vehicle from observation, surveillance and detection carry out contingency actions to prevent or minimise damage to the person, the vehicle and the load, both when travelling alone and in convoy with other vehicles configure a vehicle for night driving plan tasks and discuss with a supervisor prepare a vehicle for driving at night prepare for reconnaissance of the terrain to be traversed by map and/or visual observation, identifying potential hazards prepare vehicle for tactical employment and operational driving encourage other team members ensure personal behaviour shows sensitivity to the differences between colleagues Learning Learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook learn about occupational health and safety requirements for driving a vehicle at night learn about tactical deployment procedures manuals, doctrine pamphlets, job guides and other publications learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques		, , , , , , , , , , , , , , , , , , , ,
deal with contingencies related to an emergency that may occur navigate vehicle at night using navigational equipment report any faults with night fighting equipment to appropriate personnel, rectify and/or return equipment personnel, rectify and/or return equipment prepare vehicle, which may include reporting deficiencies to the supervisor and taking remedial action understand work environment including all operational road transport situations, including a variety of road, terrain, weather and vegetation conditions and a range of threatening situations Planning and organising camouflage vehicle from observation, surveillance and detection carry out contingency actions to prevent or minimise damage to the person, the vehicle and the load, both when travelling alone and in convoy with other vehicles configure a vehicle for night driving plan tasks and discuss with a supervisor prepare a vehicle for driving at night prepare a vehicle for driving at night prepare a vehicle for driving at night using night fighting equipment prepare for reconnaissance of the terrain to be traversed by map and/or visual observation, identifying potential hazards prepare vehicle for tactical employment and operational driving encourage other team members ensure personal behaviour shows sensitivity to the differences between colleagues Learning learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook learn about occupational health and safety requirements for driving a vehicle at night learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques		
navigate vehicle at night using navigational equipment report any faults with night fighting equipment to appropriate personnel, rectify and/or return equipment prepare vehicle, which may include reporting deficiencies to the supervisor and taking remedial action understand work environment including all operational road transport situations, including a variety of road, terrain, weather and vegetation conditions and a range of threatening situations Planning and organising camouflage vehicle from observation, surveillance and detection carry out contingency actions to prevent or minimise damage to the person, the vehicle and the load, both when travelling alone and in convoy with other vehicles configure a vehicle for night driving plan tasks and discuss with a supervisor prepare a vehicle for driving at night prepare a vehicle for driving at night using night fighting equipment prepare a vehicle for driving at night using night fighting equipment prepare evehicle for tactical employment and operational driving Self-management Self-management encourage other team members encourage other team members ensure personal behaviour shows sensitivity to the differences between colleagues Learning learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook learn about occupational health and safety requirements for driving a vehicle at night learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques		
report any faults with night fighting equipment to appropriate personnel, rectify and/or return equipment prepare vehicle, which may include reporting deficiencies to the supervisor and taking remedial action understand work environment including all operational road transport situations, including a variety of road, terrain, weather and vegetation conditions and a range of threatening situations Planning and organising camouflage vehicle from observation, surveillance and detection carry out contingency actions to prevent or minimise damage to the person, the vehicle and the load, both when travelling alone and in convoy with other vehicles configure a vehicle for night driving plan tasks and discuss with a supervisor prepare a vehicle for driving at night prepare a vehicle for driving at night using night fighting equipment prepare avehicle for tactical employment and operational driving Self-management Self-management encourage other team members encourage other team members ensure personal behaviour shows sensitivity to the differences between colleagues Learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook learn about occupational health and safety requirements for driving a vehicle at night learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques		deal with contingencies related to an emergency that may occur
Initiative and enterprise • prepare vehicle, which may include reporting deficiencies to the supervisor and taking remedial action • understand work environment including all operational road transport situations, including a variety of road, terrain, weather and vegetation conditions and a range of threatening situations Planning and organising • camouflage vehicle from observation, surveillance and detection carry out contingency actions to prevent or minimise damage to the person, the vehicle and the load, both when travelling alone and in convoy with other vehicles • configure a vehicle for night driving • plan tasks and discuss with a supervisor • prepare a vehicle for driving at night • prepare a vehicle for driving at night using night fighting equipment • prepare for reconnaissance of the terrain to be traversed by map and/or visual observation, identifying potential hazards • prepare vehicle for tactical employment and operational driving Self-management • encourage other team members • ensure personal behaviour shows sensitivity to the differences between colleagues Learning • learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook • learn about occupational health and safety requirements for driving a vehicle at night • learn about tanding orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications • learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position • learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques		navigate vehicle at night using navigational equipment
Initiative and enterprise Prepare vehicle, which may include reporting deficiencies to the supervisor and taking remedial action understand work environment including all operational road transport situations, including a variety of road, terrain, weather and vegetation conditions and a range of threatening situations camouflage vehicle from observation, surveillance and detection carry out contingency actions to prevent or minimise damage to the person, the vehicle and the load, both when travelling alone and in convoy with other vehicles configure a vehicle for night driving plan tasks and discuss with a supervisor prepare a vehicle for driving at night prepare a vehicle for driving at night using night fighting equipment prepare for reconnaissance of the terrain to be traversed by map and/or visual observation, identifying potential hazards prepare vehicle for tactical employment and operational driving encourage other team members ensure personal behaviour shows sensitivity to the differences between colleagues Learning Learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook learn about occupational health and safety requirements for driving a vehicle at night learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques		• report any faults with night fighting equipment to appropriate
supervisor and taking remedial action understand work environment including all operational road transport situations, including a variety of road, terrain, weather and vegetation conditions and a range of threatening situations camouflage vehicle from observation, surveillance and detection carry out contingency actions to prevent or minimise damage to the person, the vehicle and the load, both when travelling alone and in convoy with other vehicles configure a vehicle for night driving plan tasks and discuss with a supervisor prepare a vehicle for driving at night prepare a vehicle for driving at night prepare a vehicle for driving at night using night fighting equipment prepare for reconnaissance of the terrain to be traversed by map and/or visual observation, identifying potential hazards prepare vehicle for tactical employment and operational driving self-management encourage other team members ensure personal behaviour shows sensitivity to the differences between colleagues Learning learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook learn about occupational health and safety requirements for driving a vehicle at night learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques		personnel, rectify and/or return equipment
understand work environment including all operational road transport situations, including a variety of road, terrain, weather and vegetation conditions and a range of threatening situations camouflage vehicle from observation, surveillance and detection carry out contingency actions to prevent or minimise damage to the person, the vehicle and the load, both when travelling alone and in convoy with other vehicles configure a vehicle for night driving plan tasks and discuss with a supervisor prepare a vehicle for driving at night prepare a vehicle for driving at night prepare a vehicle for driving at night using night fighting equipment prepare for recomnaissance of the terrain to be traversed by map and/or visual observation, identifying potential hazards prepare vehicle for tactical employment and operational driving encourage other team members ensure personal behaviour shows sensitivity to the differences between colleagues Learning learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques	Initiative and enterprise	<u> </u>
Planning and organising - camouflage vehicle from observation, surveillance and detection carry out contingency actions to prevent or minimise damage to the person, the vehicle and the load, both when travelling alone and in convoy with other vehicles - configure a vehicle for night driving - plan tasks and discuss with a supervisor - prepare a vehicle for driving at night - prepare a vehicle for driving at night using night fighting equipment - prepare for reconnaissance of the terrain to be traversed by map and/or visual observation, identifying potential hazards - prepare vehicle for tactical employment and operational driving - encourage other team members - ensure personal behaviour shows sensitivity to the differences between colleagues - learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook - learn about occupational health and safety requirements for driving a vehicle at night - learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications - learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position - learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques		
• carry out contingency actions to prevent or minimise damage to the person, the vehicle and the load, both when travelling alone and in convoy with other vehicles • configure a vehicle for night driving • plan tasks and discuss with a supervisor • prepare a vehicle for driving at night • prepare a vehicle for driving at night using night fighting equipment • prepare for reconnaissance of the terrain to be traversed by map and/or visual observation, identifying potential hazards • prepare vehicle for tactical employment and operational driving • encourage other team members • ensure personal behaviour shows sensitivity to the differences between colleagues Learning • learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook • learn about occupational health and safety requirements for driving a vehicle at night • learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications • learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position • learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques		
• carry out contingency actions to prevent or minimise damage to the person, the vehicle and the load, both when travelling alone and in convoy with other vehicles • configure a vehicle for night driving • plan tasks and discuss with a supervisor • prepare a vehicle for driving at night • prepare a vehicle for driving at night using night fighting equipment • prepare for reconnaissance of the terrain to be traversed by map and/or visual observation, identifying potential hazards • prepare vehicle for tactical employment and operational driving • encourage other team members • ensure personal behaviour shows sensitivity to the differences between colleagues Learning • learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook • learn about occupational health and safety requirements for driving a vehicle at night • learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications • learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position • learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques	Planning and	camouflage vehicle from observation, surveillance and detection
the person, the vehicle and the load, both when travelling alone and in convoy with other vehicles configure a vehicle for night driving plan tasks and discuss with a supervisor prepare a vehicle for driving at night prepare a vehicle for driving at night using night fighting equipment prepare for reconnaissance of the terrain to be traversed by map and/or visual observation, identifying potential hazards prepare vehicle for tactical employment and operational driving self-management encourage other team members ensure personal behaviour shows sensitivity to the differences between colleagues Learning learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook learn about occupational health and safety requirements for driving a vehicle at night learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques	0	• carry out contingency actions to prevent or minimise damage to
 configure a vehicle for night driving plan tasks and discuss with a supervisor prepare a vehicle for driving at night prepare a vehicle for driving at night using night fighting equipment prepare for reconnaissance of the terrain to be traversed by map and/or visual observation, identifying potential hazards prepare vehicle for tactical employment and operational driving encourage other team members ensure personal behaviour shows sensitivity to the differences between colleagues learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook learn about occupational health and safety requirements for driving a vehicle at night learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques 	organisms	
 plan tasks and discuss with a supervisor prepare a vehicle for driving at night prepare a vehicle for driving at night using night fighting equipment prepare for reconnaissance of the terrain to be traversed by map and/or visual observation, identifying potential hazards prepare vehicle for tactical employment and operational driving encourage other team members ensure personal behaviour shows sensitivity to the differences between colleagues learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook learn about occupational health and safety requirements for driving a vehicle at night learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques 		and in convoy with other vehicles
 prepare a vehicle for driving at night prepare a vehicle for driving at night using night fighting equipment prepare for reconnaissance of the terrain to be traversed by map and/or visual observation, identifying potential hazards prepare vehicle for tactical employment and operational driving encourage other team members ensure personal behaviour shows sensitivity to the differences between colleagues learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook learn about occupational health and safety requirements for driving a vehicle at night learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques 		configure a vehicle for night driving
 prepare a vehicle for driving at night using night fighting equipment prepare for reconnaissance of the terrain to be traversed by map and/or visual observation, identifying potential hazards prepare vehicle for tactical employment and operational driving encourage other team members ensure personal behaviour shows sensitivity to the differences between colleagues learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook learn about occupational health and safety requirements for driving a vehicle at night learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques 		plan tasks and discuss with a supervisor
equipment prepare for reconnaissance of the terrain to be traversed by map and/or visual observation, identifying potential hazards prepare vehicle for tactical employment and operational driving encourage other team members ensure personal behaviour shows sensitivity to the differences between colleagues learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook learn about occupational health and safety requirements for driving a vehicle at night learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques		prepare a vehicle for driving at night
prepare for reconnaissance of the terrain to be traversed by map and/or visual observation, identifying potential hazards prepare vehicle for tactical employment and operational driving Self-management encourage other team members ensure personal behaviour shows sensitivity to the differences between colleagues Learning learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook learn about occupational health and safety requirements for driving a vehicle at night learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques		
encourage other team members ensure personal behaviour shows sensitivity to the differences between colleagues learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook learn about occupational health and safety requirements for driving a vehicle at night learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques		1 1
ensure personal behaviour shows sensitivity to the differences between colleagues learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook learn about occupational health and safety requirements for driving a vehicle at night learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques		prepare vehicle for tactical employment and operational driving
ensure personal behaviour shows sensitivity to the differences between colleagues learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook learn about occupational health and safety requirements for driving a vehicle at night learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques	Self-management	encourage other team members
 learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook learn about occupational health and safety requirements for driving a vehicle at night learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques 	Sen-management	• ensure personal behaviour shows sensitivity to the differences
Handbook, Vehicle user's handbook learn about occupational health and safety requirements for driving a vehicle at night learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques		between colleagues
 driving a vehicle at night learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques 	Learning	<u> </u>
doctrine pamphlets, job guides and other publications learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques		
driving procedures, actions at a halt and occupation of a hide or administrative position • learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving techniques		
procedures and the employment of operational driving techniques		driving procedures, actions at a halt and occupation of a hide or
		procedures and the employment of operational driving
Technology • conduct serviceability check of the vehicle using night fighting equipment	Technology	

Approved Page 4 of 8

- fit specialist 'blackout' lighting equipment to vehicles
- obtain specialist equipment appropriate to the task and checked for serviceability
- use technology

Approved Page 5 of 8

Packaging Rules

17 units of competency are required for this qualification including:

- 9 core units
- 8 elective units

Choose a minimum of 6 elective units from the elective list below.

Choose the remaining 2 elective units from either the elective list below, or elsewhere within this training package, or another endorsed training package, or accredited course.

Where a pre-requisite unit is attached to an elective unit it is identified by this symbol \bot .

The pre-requisite units attached to any of the elective units must be undertaken and are additional to the number of elective units required for the qualification.

The elective units should be selected from the units that most closely align to an individual's occupational outcomes. Electives selected must not duplicate outcomes of other units.

Elective units selected must not duplicate content already covered by other units in this qualification.

Code	Core Units
DEFEQ001C	Work with equity and diversity
DEFTP001B	Operate a vehicle in an environment of threat □ DEFTP002B Operate a vehicle at night □ DEFTP003B Operate a vehicle over difficult terrain □ DEFTP004B Operate a vehicle using night fighting equipment (NFE) □ TLIF2010A Apply fatigue management strategies □ TLIF3013A Coordinate breakdowns and emergencies
DEFTP002B	Operate a vehicle at night ∟ DEFTP003B Operate a vehicle over difficult terrain ∟ TLIH3002A Plan and navigate routes
DEFTP003B	Operate a vehicle over difficult terrain L TLIF3013A Coordinate breakdowns and emergencies
DEFTP004B	Operate a vehicle using night fighting equipment (NFE)
BSBCMN311B	Maintain workplace safety
TLIF2010A	Apply fatigue management strategies

Approved Page 6 of 8

TLIF3013A	Coordinate breakdowns and emergencies
TLIH3002A	Plan and navigate routes
Code	Elective Units
DEFCA011	Operate Defence communications equipment
DEFEO201C	Respond to fire
DEFRI001B	Treat risk within Defence at an operational level
DEFRI002B	Conduct risk assessment in a Defence environment
DEFTP005B	Operate a multi-axle trailer L TLID2004A Load and unload goods/cargo L TLIF3013A Coordinate breakdowns and emergencies
BSBSUS201A	Participate in environmentally sustainable work practices
PUACOM001C	Communicate in the workplace
PUACOM002B	Provide services to clients
PUAEME001B	Provide emergency care
PUATEA001B	Work in a team
TLIB2119A	Carry out maintenance on trailers
TLIB2008A	Carry out inspection on trailers
TLIB2029B	Use and maintain minor mechanical equipment
TDTC197B	Drive vehicle
TLIC2002A	Drive light rigid vehicle
TLIC3003A	Drive medium rigid vehicle
TLIC3004A	Drive heavy rigid vehicle
TLID1001A	Shift materials safely using manual handling methods
TLID2004A	Load and unload goods/cargo
TLID2016A	Load and unload explosive and dangerous goods

Page 7 of 8 Government Skills Australia

TLIE2008A	Process workplace documentation
TLIF2012A	Apply safe procedures when handling/transporting dangerous goods or explosives

Page 8 of 8 Government Skills Australia
