FNS30115 Certificate III in Financial Services

Modification History

Release	Comments
Release 2	This version released with FNS Financial Services Training Package version 1.1. Release 2 created to correct typographical error
Release 1	This qualification first released with FNS Financial Services Training Package version 1.0

Qualification Description

This qualification is designed to reflect the job role of entry level employees working across the entire financial services industry who perform duties relating to administrative, clerical and customer service roles in banking, credit management, insurance and retail financial services. Individuals at this level apply knowledge and skills to demonstrate autonomy and judgement and to take limited responsibility in known situations under general supervision.

FNS40915 Certificate IV in Superannuation

Modification History

Release	Comments
Release 2	This version released with FNS Financial Services Training Package version 1.1 Release 2 created to correct typographical error
Release 1	This qualification first released with FNS Financial Services Training Package version 1.0

Qualification Description

This qualification is designed to reflect job roles requiring specialist understanding of financial products and services working in superannuation environments. Individuals in these roles apply specialist knowledge and skills to work autonomously and exercise judgement in completing routine and non-routine activities relating to administering income streams, assisting with meeting industry compliance requirements, establishing and maintaining employer accounts and processing benefits claims and payments. They apply solutions to a defined range of superannuation problems, and analyse and evaluate information from a variety of relevant sources

Licensing/Regulatory Information

No licensing or certification requirements apply to this qualification at the time of publication. However, some units will specify relevant licensing, legislative and/or regulatory requirements that impact on the unit. Refer to the FNS Implementation Guide Companion Volume for guidance on requirements.

Entry Requirements

Nil.

Packaging Rules

Total number of units = 13

3 core units plus

10 elective units

The elective units consist of:

- 5 from Group A
- 3 from Group A or Group B.

Of the remaining 2 units:

- 2 may be from Group A or Group B
- 2 may be from a Certificate IV in any endorsed training package or accredited course
- 1 may be from a Certificate III in any endorsed training package or accredited course.

The elective units chosen must be relevant to the work outcome and meet local industry needs.

Core Units

BSBWHS201 Contribute to health and safety of self and others

FNSCUS402 Resolve disputes

FNSINC401 Apply principles of professional practice to work in the financial services industry

Elective Units

Group A - Superannuation

FNSSUP301 Process superannuation fund payments

FNSSUP303 Process superannuation contributions

FNSSUP401 Process complex superannuation benefit or insurance claim

FNSSUP402 Assist in meeting superannuation compliance requirements

FNSSUP403 Administer retirement income streams

FNSSUP404 Establish and customise employer accounts

FNSSUP406 Establish and maintain fund or plan

FNSSUP407 Assess complex superannuation benefit or insurance claim

FNSSUP408 Participate in fund review practices

FNSSUP508 Provide effective information to members

Group B - General

BSBSMB411 Manage specialist external advisory services

BSBCUE405 Survey stakeholders to gather and record information

BSBCUS301 Deliver and monitor a service to customers

BSBCUS403 Implement customer service standards

BSBITS401 Maintain business technology

BSBSUS301 Implement and monitor environmentally sustainable work practices

FNSINC402 Develop and maintain in-depth knowledge of products and services used by an organisation or sector

FNSSMS401 Process self-managed superannuation contribution

FNS41815 Certificate IV in Financial Services

Modification History

Release	Comments
Release 2	This version released with FNS Financial Services Training Package version 1.1 Release 2 created to correct typographical error
Release 1	This qualification first released with FNS Financial Services Training Package version 1.0

Qualification Description

This qualification is designed to provide a flexible general purpose pathway in the financial services industry. It is intended to meet the training needs of employees with roles that involve working across a range of duties in the financial services sector where a specialist qualification is not the most suitable qualification to meet their training needs. Individuals in these roles apply theoretical and technical knowledge and skills to work autonomously and exercise judgement in completing routine and non-routine activities.

Licensing/Regulatory Information

Work functions in the occupational areas where this qualification may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Entry Requirements

Nil.

Packaging Rules

Total number of units = 13

1 core units plus

12 elective units

The elective units consist of:

- 8 from the electives below or from a Certificate IV in the FNS Training Package (a minimum of 6 units must have an FNS code).

Of the remaining 4 units:

- up to 4 may be from the electives
- up to 4 may be from a Certificate IV or Diploma qualification in any currently endorsed training package or accredited course
- up to 2 may be from a Certificate III qualification in any currently endorsed training package or accredited course.

The elective units chosen must be relevant to the work outcome and meet local industry needs.

Note: Where the packaging of this qualification meets the rules of a specialist qualification at this level, then the specialist qualification and not the generic qualification must be awarded. This includes where applicable, any entry requirements.

Core Units

FNSINC401 Apply principles of professional practice to work in the financial services industry

Elective Units

Entry level skill units

BSBWHS201 Contribute to health and safety of self and others

FNS41915 Certificate IV in Personal Injury Management

Modification History

Release	Comments
Release 2	This version released with FNS Financial Services Training Package version 1.1 Release 2 created to correct typographical error
Release 1	This qualification first released with FNS Financial Services Training Package Version 1.0.

Qualification Description

This qualification reflects job roles requiring well-developed skills and a broad knowledge base in a wide variety of contexts within the personal injury management sector. It may involve supervision or leadership and guidance with some limited responsibility for others. Individuals in these roles apply theoretical and technical knowledge and skills to work autonomously and exercise judgement in completing routine and non-routine activities. The qualification allows for specialisation in: claims management, return to work or underwriting.

Licensing/Regulatory Information

No licensing or certification requirements apply to this qualification at the time of publication. However, some units will specify relevant licensing, legislative and/or regulatory requirements that impact on the unit. Refer to the FNS Implementation Guide Companion Volume for guidance on requirements.

Entry Requirements

Nil.

Packaging Rules

Total number of units = 13

4 core units plus

9 elective units

The elective units consist of:

- all 4 units in one of the following streams:
 - Group A Claims Management
 - Group B Return to Work
 - Group C Underwriting

Of the remaining 5 units:

- up to 5 may be from Group A, B, C or D
- up to 2 may be from a Certificate III, Certificate IV or Diploma in any currently endorsed training package or accredited course.

The elective units chosen must be relevant to the work outcome and meet local industry needs.

Note: Units selected from other training packages or accredited courses must not duplicate units selected from or available within the Financial Services or Business Services Training Packages.

Core Units

FNSCUS401 Participate in negotiations

FNS50315 Diploma of Finance and Mortgage Broking Management

Modification History

Release	Comments
Release 2	This version released with FNS Financial Services Training Package version 1.1 Release 2 created to correct typographical error
Release 1	This qualification first released with FNS Financial Services Training Package version 1.0

Qualification Description

This qualification reflects management roles in finance and mortgage broking where work is undertaken independently, through an aggregator, or involves managing a workplace team. At this level individuals are expected to apply theoretical knowledge and specialised skills in a range of situations and to display initiative and judgement in planning activities. They have autonomy in performing complex technical operations and may be responsible for the work of others within broad but generally well-defined parameters.

Licensing/Regulatory Information

No licensing or certification requirements apply to this qualification at the time of publication. However, some units will specify relevant licensing, legislative and/or regulatory requirements that impact on the unit. Refer to the FNS Implementation Guide Companion Volume for guidance on requirements.

Entry Requirements

Nil

Packaging Rules

Total number of units = 15

10 core units plus

5 elective units

The elective units consist of:

- 3 from the electives below.

Of the remaining 2 units:

- up to 2 may be from the electives
- up to 2 may be from Certificate IV, Diploma or Advanced Diploma in any currently endorsed training package or accredited course.

The elective units chosen must be relevant to the work outcome and meet local industry needs.

Core Units

BSBRSK401 Identify risk and apply risk management processes

FNSCUS501 Develop and nurture relationships with clients, other professionals and third party referrers

FNSFMB401 Prepare loan application on behalf of finance or mortgage broking clients

FNSFMB402 Identify client needs for broking services

FNSFMB403 Present broking options to client

FNSFMB502 Identify and develop broking options for clients with complex needs

FNSFMB503 Present broking options to client with complex needs

FNSFMB504 Implement complex loan structures

FNSFMK505 Comply with financial services legislation and industry codes of practice

FNSINC401 Apply principles of professional practice to work in the financial services industry

Elective Units

BSBINM401 Implement workplace information system

BSBMGT502 Manage people performance

BSBMGT517 Manage operational plan

BSBMGT605 Provide leadership across the organisation

BSBSMB405 Monitor and manage small business operations

BSBSUS501 Develop workplace policy and procedures for sustainability

BSBWHS303 Participate in WHS hazard identification, risk assessment and risk control

FNSFMB501 Settle applications and loan arrangements in the finance and mortgage broking industry

FNSORG502 Develop and monitor policy and procedures

FNSPRM601 Establish, supervise and monitor practice systems to conform with legislation and regulations

FNSPRM602 Improve the practice

FNSPRM603 Grow the practice

FNSRSK501 Undertake risk identification

FNSRSK502 Assess risks

FNSRSK602 Determine and manage risk exposure strategies

TAEDEL402A Plan, organise and facilitate learning in the workplace

FNS50615 Diploma of Financial Planning

Modification History

Release	Comments
Release 2	This version released with FNS Financial Services Training Package version 1.1 Release 2 created to correct typographical error
Release 1	This qualification first released with FNS Financial Services Training Package version 1.0

Qualification Description

This qualification is for financial planners who provide a range of standard financial planning services and individuals providing specialist para-planning services. Individuals in these roles require well-developed skills and a broad knowledge base of the financial planning sector and the ASIC regulatory framework. Individuals in these roles have autonomy in performing technical operations, apply solutions to a range of often complex problems, and analyse and evaluate information from a variety of sources. They apply initiative to plan, coordinate and evaluate their own work and provide guidance to others.

Licensing/Regulatory Information

Work functions in the occupational areas where this qualification may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Entry Requirements

Nil.

Packaging Rules

Total number of units = 15

9 core units plus

6 elective units

The elective units consist of:

- 4 from the electives below

Of the remaining 2 units:

- up to 2 may be from the electives
- up to 2 may be from a Certificate IV, Diploma or Advanced Diploma in any currently endorsed training package or accredited course.

Note: Para-planners must select:

- FNSFPL508 Conduct complex financial planning research

The elective units chosen must be relevant to the work outcome and meet local industry needs.

In packaging these units for qualifications it is important to note that each of the FNSASIC503 series units can only be counted once towards the issuance of a Diploma qualification, although they may be assessed and issued as Statements of Attainment as often as is required for industry compliance and participants' need.

In practice this means that should a participant achieve accreditation for say, FNSASICU503 Provide advice in superannuation, any future accreditation (and Statements of Attainment) they receive for any other units in this FNSASIC503 series cannot be counted towards a Diploma qualification.

Core Units

BSBITU402 Develop and use complex spreadsheets

FNSASICZ503* Provide advice in financial planning

FNSFPL501 Comply with financial planning practice ethical and operational guidelines and regulations

FNSFPL502 Conduct financial planning analysis and research

FNSFPL503 Develop and prepare financial plan

FNSFPL504 Implement financial plan

FNSFPL505 Review financial plans and provide ongoing service

FNSFPL506 Determine client requirements and expectations

FNSINC401 Apply principles of professional practice to work in the financial services industry

Elective Units

- BSBCUS501 Manage quality customer service
- BSBINM401 Implement workplace information system
- BSBSMB405 Monitor and manage small business operations
- BSBSUS501 Develop workplace policy and procedures for sustainability
- FNSASIC301 Establish client relationship and analyse needs
- FNSASIC302 Develop, present and negotiate client solutions
- FNSASICQ503* Provide advice in first home saver market linked accounts
- FNSASICU503* Provide advice in superannuation
- FNSASICX503* Provide advice in life insurance
- FNSASICY503* Provide advice in insurance broking
- FNSCUS501 Develop and nurture relationships with clients, other professionals and third party referrers
- FNSCUS502 Monitor client requirements
- FNSCUS503 Review business performance
- FNSCUS505 Determine client requirements and expectations
- FNSCUS506 Record and implement client instructions

FNS50815 Diploma of Integrated Risk Management

Modification History

Release	Comments
Release 2	This version released with FNS Financial Services Training Package version 1.1 Release 2 created to correct typographical error
Release 1	This qualification first released with FNS Financial Services Training Package version 1.0

Qualification Description

This qualification provides cross-industry competencies relating to finance, compliance, corporate governance, strategy and business continuity for specialist financial and related risk management roles in a range of organisations. Individuals in these roles have autonomy in performing technical operations, apply solutions to a range of often complex problems, and research, analyse and evaluate information from a variety of sources. They apply initiative to plan, coordinate and evaluate their own work and provide guidance to others.

Licensing/Regulatory Information

No licensing or certification requirements apply to this qualification at the time of publication. However, some units will specify relevant licensing, legislative and/or regulatory requirements that impact on the unit. Refer to the FNS Implementation Guide Companion Volume for guidance on requirements.

Entry Requirements

Nil.

Packaging Rules

Total number of units = 12

4 core units plus

8 elective units

The elective units consist of:

- 5 from the electives below.

Of the remaining 3 units:

- up to 3 may be from the electives
- up to 3 may be from a Certificate IV or Diploma in any currently endorsed Training Package or accredited course.

The elective units chosen must be relevant to the work outcome and meet local industry needs.

Core Units

BSBR501 Manage risk

FNSORG502 Develop and monitor policy and procedures

FNSRSK501 Undertake risk identification

FNSRSK502 Assess risks

Elective Units

Managing financial risk

BSBMGT517 Manage operational plan

FNSACC501 Provide financial and business performance information

FNSACC609* Evaluate financial risk

FNSINC401 Apply principles of professional practice to work in the financial services industry

FNSORG505 Prepare financial reports to meet statutory requirements

FNS51015 Diploma of Financial Markets

Modification History

Release	Comments
Release 2	This version released with FNS Financial Services Training Package version 1.1 Release 2 created to correct typographical error
Release 1	This qualification first released with FNS Financial Services Training Package version 1.0

Qualification Description

This qualification reflects job roles in financial markets involving duties in the areas of client advising, operations and dealing. Individuals in these roles have autonomy in performing technical operations, apply solutions to a range of often complex problems, and research, analyse and evaluate information from a variety of sources. They apply initiative to plan, coordinate and evaluate their own work and provide guidance to others.

Licensing/Regulatory Information

Work functions in the occupational areas where this qualification may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Entry Requirements

Nil.

Packaging Rules

Total number of units = 9

4 core units plus

5 elective units

The elective units consist of:

- 3 from the electives below.

Of the remaining 2 units:

- up to 2 may be from the electives
- up to 2 may be from a Certificate IV, Diploma or Advanced Diploma in any currently endorsed training package or accredited course.

The elective units chosen must be relevant to the work outcome and meet local industry needs.

In packaging these units for qualifications it is important to note that each of the FNSASIC503 series units can only be counted once towards the issuance of a Diploma qualification, although they may be assessed and issued as Statements of Attainment as often as is required for industry compliance and participants' need.

In practice this means that should a participant achieve accreditation for say, FNSASICT503 Provide advice in managed investments, any future accreditation (and Statements of Attainment) they receive for any other units in this FNSASIC503 series cannot be counted towards a Diploma qualification.

Core Units

FNSFMK501 Analyse financial markets and information

FNSINC401 Apply principles of professional practice to work in the financial services industry

FNSRSK502 Assess risks

BSBCOM406 Conduct work within a compliance framework

FNS51715 Diploma of Applied Anti-Money Laundering and Counter Terrorism Financing Management

Modification History

Release	Comments
Release 2	This version released with FNS Financial Services Training Package version 1.1 Release 2 created to correct typographical error
Release 1	This qualification first released with FNS Financial Services Training Package version 1.0

Qualification Description

This qualification is designed for individuals in anti-money laundering and counter terrorism financing (AML/CTF) job roles. Individuals in these roles have autonomy in performing technical operations, apply solutions to a range of often complex problems, and research, analyse and evaluate information from a variety of sources. They apply initiative to plan, coordinate and evaluate their own work and provide guidance to others. Individuals have particular obligations in providing designated services under the AML/CTF Act. These relate to customer due diligence, reporting and record keeping.

Licensing/Regulatory Information

Work functions in the occupational areas where this qualification may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Entry Requirements

Nil.

Packaging Rules

Total number of units = 10

FNS51815 Diploma of Financial Services

Modification History

Release	Comments
Release 2	This version released with FNS Financial Services Training Package version 1.1 Release 2 created to correct typographical error
Release 1	This qualification first released with FNS Financial Services Training Package version 1.0

Qualification Description

This qualification is designed to provide a general purpose pathway into the financial services industries. It is also intended to provide an effective development option for those candidates for whom the specialist qualification pathways in the Financial Services Training Package are not yet appropriate. Individuals in these roles apply solutions to a range of often complex problems, and analyse and evaluate information from a variety of sources. They apply initiative to plan, coordinate and evaluate their own work and provide guidance to others or teams within defined guidelines.

Licensing/Regulatory Information

No licensing or certification requirements apply to this qualification at the time of publication. However, some units will specify relevant licensing, legislative and/or regulatory requirements that impact on the unit. Refer to the FNS Implementation Guide Companion Volume for guidance on requirements.

Entry Requirements

Nil.

Packaging Rules

Total number of units = 10

1 core units plus

9 elective units

The elective units consist of:

- 7 from the electives below or any Diploma qualification in the FNS Release 1 Training Package (5 units must have FNS code).

Of the remaining 2 units:

- up to 2 may be from the electives
- up to 2 may be from a Certificate IV, Diploma or Advanced Diploma qualification in any currently endorsed training package or accredited course.

The elective units chosen must be relevant to the work outcome and meet local industry needs.

Note: Where the packaging of this qualification meets the rules of a specialist qualification at this level, then the specialist qualification and not the generic qualification must be awarded. This includes where applicable, any entry requirements.

Core Units

FNS60215 Advanced Diploma of Accounting

Modification History

Release	Comments
Release 2	This version released with FNS Financial Services Training Package version 1.1 Release 2 created to correct typographical error
Release 1	This qualification first released with FNS Financial Services Training Package version 1.0

Qualification Description

This qualification is designed to reflect the role of individuals working in accounting and seeking professional identification. At this level individuals are expected to apply theoretical and technical skills in a range of situations and to display initiative and judgement in planning activities. They have autonomy in performing complex operations and can be responsible for planning, coordinating and evaluating the work of others within broad but generally well-defined parameters.

Licensing/Regulatory Information

Work functions in the occupational areas where this qualification may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

This qualification includes units that comprise an approved Tax Practitioner Board (TPB) course in Australian taxation law and commercial law. Persons seeking registration with the TPB should check current registration requirements with the Board.

FNS60415 Advanced Diploma of Financial Planning

Modification History

Release	Comments
Release 2	This version released with FNS Financial Services Training Package version 1.1 Release 2 created to correct typographical error
Release 1	This version first released with FNS Financial Services Training Package version 1.0

Qualification Description

This qualification is for financial planners who provide a comprehensive range of financial planning services across a variety of product environments, including those involving complex issues and/or innovative strategies. Individuals in these roles require well-developed skills and a broad knowledge base of the financial planning sector and the ASIC regulatory framework. At this level individuals are expected to apply specialist skills and knowledge in a range of situations to deal with complex situations and issues. They work across a broad range of technical or management functions with accountability for personal outputs and for team outcomes.

Licensing/Regulatory Information

Work functions in the occupational areas where this qualification may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Entry Requirements

The entry requirement for this qualification is completion of the following units of competency, from the core of the Diploma in Financial Planning or their equivalent from a previous version of the FNS Training Package. These are:

- FNSASICZ503* Provide advice in financial planning
- FNSFPL501 Comply with financial planning practice ethical and operational guidelines and regulations
- FNSFPL502 Conduct financial planning analysis and research
- FNSFPL503 Develop and prepare financial plan

- FNSFPL504 Implement financial plan
- FNSFPL505 Review financial plans and provide ongoing service
- FNSFPL506 Determine client requirements and expectations
- FNSINC401 Apply principles of professional practice to work in the financial services industry

The entry requirement can be met by evidence of equivalent competency to the above units through recognition of prior learning (RPL).

Packaging Rules

Total number of units = 11

8 core units plus

3 elective units

The elective units consist of:

- 3 from the electives below
- up to 3 may be from an Advanced Diploma in any currently endorsed training package or accredited course.

The elective units chosen must be relevant to the work outcome and meet local industry needs.

FNSASIC503 units previously completed successfully and granted competency for cannot be selected as elective units in this qualification.

Units selected from other Training Packages or accredited courses must not duplicate units selected from or available within the FNS Financial Services or BSB Business Services Training Packages.

In packaging these units for qualifications it is important to note that each of the FNSASIC503 series units can only be counted once towards the issuance of a Diploma qualification, although they may be assessed and issued as Statements of Attainment as often as is required for industry compliance and participants' need.

In practice this means that should a participant achieve accreditation for say, FNSASICT503 Provide advice in managed investments, any future accreditation (and Statements of Attainment) they receive for any other units in this FNSASIC503 series cannot be counted towards a Diploma qualification.

Core Units

- FNSFPL508 Conduct complex financial planning research
- FNSFPL601 Provide technical and professional guidance
- FNSFPL602 Determine client requirements and expectations for clients with complex needs
- FNSFPL603 Provide comprehensive monitoring and ongoing service
- FNSFPL604 Develop complex and innovative financial planning strategies
- FNSFPL605 Present and negotiate complex and innovative financial plans
- FNSFPL606 Implement complex and innovative financial plan
- FNSPRM601 Establish, supervise and monitor practice systems to conform with legislation and regulations

Elective Units

- BSBINM601 Manage knowledge and information
- BSBINN502 Build and sustain an innovative work environment
- BSBMGT605 Provide leadership across the organisation
- BSBMGT617 Develop and implement a business plan
- BSBSMB405 Monitor and manage small business operations
- BSBSUS501 Develop workplace policy and procedures for sustainability
- FNSASICQ503* Provide advice in first home saver market linked accounts
- FNSASICR503* Provide advice in margin lending
- FNSASICS503* Provide advice in foreign exchange
- FNSASICT503* Provide advice in managed investments
- FNSASICU503* Provide advice in superannuation
- FNSASICV503* Provide advice in derivatives
- FNSASICW503* Provide advice in securities
- FNSASICX503* Provide advice in life insurance
- FNSASICY503* Provide advice in insurance broking
- FNSCUS505 Determine client requirements and expectations
- FNSCUS506 Record and implement client instructions
- FNSFMK502 Analyse financial market products for client

- FNSFMK503 Advise clients on financial risk
- FNSIAD501 Provide appropriate services, advice and products to clients
- FNSIBK403 Place client insurances with insurers and confirm insurance cover with clients
- FNSIBK515 Monitor broking client requirements and establish loss control programs
- FNSIBK507 Review service performance
- FNSIBK508 Implement changes to broking client's insurance program
- FNSINC501 Conduct product research to support recommendations
- FNSPRM602 Improve the practice
- FNSPRM603 Grow the practice

FNS60515 Advanced Diploma of Superannuation

Modification History

Release	Comments
Release 2	This version released with FNS Financial Services Training Package version 1.1 Release 2 created to correct typographical error
Release 1	This qualification first released with FNS Financial Services Training Package version 1.0.

Qualification Description

This qualification is designed to flexibly reflect job roles with team and business result responsibilities in superannuation environments. At this level individuals are expected to apply specialist skills and knowledge in a range of situations to deal with complex situations and issues relating to business systems, compliance and working with trustees and/or outsourced service providers. They work across a broad range of technical or management functions with accountability for personal outputs and for team outcomes.

Licensing/Regulatory Information

Work functions in the occupational areas where this qualification may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Entry Requirements

The entry requirement for this qualification is completion of 5 units of competency, comprising:

FNSINC402A Develop and maintain in-depth knowledge of products and services used by an organisation or sector (from FNS50714 or FNS50711 Diploma of Superannuation, or equivalent)

and

4 superannuation elective units (SUP code) from:

- FNS50714 Diploma of Superannuation, or

- FNS50711 Diploma of Superannuation, or
- FNS50904 Diploma of Finance (Superannuation) (SUPR code), or equivalent.

Packaging Rules

Total number of units = 12

2 core units plus

10 elective units

The elective units consist of:

- 2 from Group B
- 5 from Group A, Group B, Group C or Group D

Of the remaining 3 units:

- 3 may be from the electives below
- 2 may be from a Diploma in any endorsed training package or accredited course
- 1 may be from an Advanced Diploma in any endorsed training package or accredited course.

The elective units chosen must be relevant to the work outcome and meet local industry needs.

Units selected from other training packages or accredited courses must not duplicate units selected from or available within the Financial Services or Business Services Training Packages.

Core Units

FNSCUS601 Establish, manage and monitor key relationships

FNSINC401 Apply principles of professional practice to work in the financial services industry

Elective Units

Group A - Superannuation advice

FNSASICU503* Provide advice in superannuation

FNSCUS505 Determine client requirements and expectations

FNSCUS506 Record and implement client instructions

FNSIAD501 Provide appropriate services, advice and products to clients

FNSINC501 Conduct product research to support recommendations

Group B - Fund trustee

FNSSUP601 Liaise with and support trustees

FNSSUP602 Manage official complaints procedures and proceedings

FNSSUP603 Integrate investment strategy with fund operations

Group C - Self-managed superannuation funds

FNSSMS601 Provide advice in self-managed superannuation funds

FNSSMS602 Apply taxation requirements to advising in self-managed superannuation funds

FNSSMS603 Apply legislative and operational requirements when advising in self-managed superannuation funds

Group D - Organisational support

BSBCOM602 Develop and create compliance requirements

BSBCOM603 Plan and establish compliance management systems

BSBMGT605 Provide leadership across the organisation

FNSORG602 Develop and manage financial systems

FNSORG603 Establish and prepare operational guidelines in a financial services organisation

FNSORG604 Establish outsourced services and monitor performance

FNSPRM605 Establish or review marketing, client services and supplier relationships

FNSPRM606 Establish or review human resources, administration and information support

FNSRSK601 Develop and implement risk mitigation plan

FNSSAM602 Identify and evaluate marketing opportunities in the financial services industry

FNSSAM603 Tailor financial products to meet customer needs

FNSSAM604 Establish agreements with intermediaries for product distribution

Group E - General

BSBINN501 Establish systems that support innovation

BSBITB501 Establish and maintain a workgroup computer network

BSBSUS501 Develop workplace policy and procedures for sustainability

FNSACC505 Establish and maintain accounting information systems

FNSCUS505 Determine client requirements and expectations

- FNSCUS506 Record and implement client instructions
- FNSIAD501 Provide appropriate services, advice and products to clients
- FNSINC501 Conduct product research to support recommendations
- FNSORG501 Develop and manage a budget
- FNSORG504 Monitor and supervise work practices to meet financial services regulatory requirements
- FNSSMS501 Invest self-managed superannuation funds assets
- FNSSMS505 Support trustee in the selection and performance monitoring of outsourced services
- FNSSUP501 Supervise complaints procedures
- FNSSUP504 Provide advanced customer service to superannuation clients

*Note the following prerequisite unit requirements:

Unit in this qualification	Prerequisite unit
FNSASICU503 Provide advice in superannuation	FNSINC501 Conduct product research to support recommendations FNSIAD501 Provide appropriate services, advices and products to clients FNSCUS505 Determine client requirements and expectations FNSCUS506 Record and implement client instructions

Assessment Requirements for FNSACC301 Process financial transactions and extract interim reports

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- accurately enter and balance deposits and withdrawals
- process and balance petty cash transactions
- check and verify supporting documentation
- apply relevant security measures for preparing and banking receipts
- batch monetary items and prepare deposit facilities
- accurately enter data into accounting systems and process journal entries according to organisational policy and procedures and legislative requirements
- prepare and authorise journals and check journal processing reports
- extract, check and correct a trial balance
- file documentation to meet all organisational and regulatory requirements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify a range of accounting conventions, processes and procedures
- describe banking procedures and guidelines
- outline typical errors that can be made in processing financial transactions
- describe forms of 'proof of lodgement'
- describe types of 'special transactions'
- identify and describe the key features of:
 - industry codes of practice
 - legislative and regulatory requirements relevant to the work
 - organisational policy and procedures

- explain the security procedures for handling cheques, vouchers and cash
- describe the key features of a range of reports.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the accounting field of work and include access to:

- common office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSACC302 Administer subsidiary accounts and ledgers

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- monitor accounts, following organisational policy and procedures and industry compliance requirements
- identify bad and doubtful debts in a timely manner
- plan effective recovery actions
- follow bank account reconciliation processes
- use relevant data entry systems accurately.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and describe the key features of:
 - accounting principles and practices
 - accounting systems
 - bank account reconciliation processes
- describe how bad or doubtful debts are identified
- describe the key requirements of:
 - legal systems and procedures
 - relevant legislation or regulations
 - industry codes of practice
 - industry compliance requirements
- outline the key requirements of organisational policy and procedures relating to reconciling and monitoring financial accounts
- describe measures to collect monies and features of recovery plans

- explain the features and uses of financial spreadsheets.
-

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the accounting field of work and include access to:

- common office equipment, technology, software and consumables
- integrated financial software system and data.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSACC303 Perform financial calculations

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to use a range of common calculation methods and techniques for conducting routine financial calculations and transactions.

It applies to individuals who use literacy and numeracy skills to perform common computational tasks as part of an operational job role.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Accounting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Obtain data and resources for financial calculations	1.1 Obtain input data and verify as relevant for workplace calculations 1.2 Determine outcomes of calculations and confirm from task specifications 1.3 Acquire relevant resources and equipment to perform calculations effectively 1.4 Develop simple spreadsheets where necessary to perform calculations that may be repeated

ELEMENT	PERFORMANCE CRITERIA
2. Select appropriate methods and carry out financial calculations	<p>2.1 Use hand held calculators to perform calculations, and identify and obtain other equipment that may be required</p> <p>2.2 Perform calculations to complete work requirements using appropriate techniques</p> <p>2.3 Recheck data used in calculations against task specifications</p>
3. Check calculations and record outcomes	<p>3.1 Check results to ensure calculations are accurate and meet required outcomes, and recognise and correct common computational errors where required</p> <p>3.2 Record calculation results to industry standards and enterprise requirements</p> <p>3.3 Store or electronically file calculation worksheets according to organisational policy and procedures, for future use</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 3.1	<ul style="list-style-type: none"> Interprets instructions and carefully analyses information for errors and discrepancies
Writing	3.2	<ul style="list-style-type: none"> Accurately records information using correct spelling, grammar and conventions
Numeracy	1.2, 1.4, 2.2, 2.3	<ul style="list-style-type: none"> Accurately performs mathematical calculations including addition, subtraction, multiplication, division, percentages, fractions, decimals and straight line graphs to undertake financial computations
Navigate the world of work	3.3	<ul style="list-style-type: none"> Follows organisational protocols, policy and procedures relevant to own role
Get the work done	1.1-1.4, 2.1, 2.2, 3.1-3.3	<ul style="list-style-type: none"> Plans, organises and implements tasks according to organisational requirements Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for FNSACC303 Perform financial calculations

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the of the ability to:

- apply mathematical techniques and methods of calculation
- effectively use office equipment and software to enter data and complete calculations
- check for accuracy of computational results
- record calculation worksheets used for future reference and use.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe how to complete the following calculations:
 - goods and services tax (GST)
 - simple interest
 - compound interest
 - basic loan calculations
 - straight line depreciation
- describe typical computational errors and ways to check for errors
- outline tools and sources of information to assist with financial calculations
- describe the key organisational policy and procedures relating to record keeping and filing.
-

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the accounting field of work and include access to:

- common office equipment, technology, software and consumables
- hand held calculators
- financial services industry documentation and specialist software
- information technology systems and databases.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSACC401 Process business tax requirements

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to maintain business taxation accounting records and process lodgements and returns in accordance with Australian Taxation Office (ATO) requirements, excluding income tax. Documentation for business activity statements (BAS) must be authorised by a registered BAS agent.

It applies to individuals who, within their level of authority, apply specialised knowledge and follow defined procedures to administer and process information.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Accounting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Maintain accounting records for taxation purposes	1.1 Access and correctly interpret taxation accounting system 1.2 Establish and maintain adequate records to support taxation accounting system 1.3 Comply with specific taxation requirements for business documents

ELEMENT	PERFORMANCE CRITERIA
2. Establish and maintain process for managing business tax returns	2.1 Establish accounting process to manage taxation lodgements process 2.2 Maintain sufficient and current records to comply with lodgement requirements 2.3 Establish and meet lodgement schedule requirements
3. Process business tax returns and lodgements	3.1 Identify and appropriately use required returns and lodgements 3.2 Process accounting data to comply with taxation reporting requirements 3.3 Draft returns and lodgements for review by authorised personnel

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 3.1	<ul style="list-style-type: none"> Interprets documentation from a variety of sources and records, gathers and consolidates financial information
Writing	1.2, 1.3, 2.2, 3.3	<ul style="list-style-type: none"> Records information accurately using correct spelling, grammar and terminology Drafts text and prepares numerical information for reports and forms
Oral Communication	3.3	<ul style="list-style-type: none"> Participates in verbal exchanges using questioning and active listening to convey and clarify information and instructions
Numeracy	1.2, 3.2, 3.3	<ul style="list-style-type: none"> Accurately performs mathematical calculations and interprets and analyses financial data to achieve requirements
Navigate the world of work	1.3, 2.2, 3.2	<ul style="list-style-type: none"> Recognises and complies with relevant regulatory requirements, protocols, policy and procedures
Get the work done	1.1, 1.2, 2.1-2.3, 3.1-3.3	<ul style="list-style-type: none"> Plans, organises and implements efficient systems to meet organisational requirements Organises work tasks according to defined requirements, taking responsibility for process and schedule needs

		<ul style="list-style-type: none"> • Uses analytical techniques to gather information and identify and evaluate options • Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for FNSACC401 Process business tax requirements

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- maintain accounting records for taxation purposes
- establish and maintain an administrative process for managing business taxation returns
- prepare and process business taxation returns according to Australian taxation requirements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and describe the key Australian Taxation Office (ATO) and legislative requirements for business taxation returns
- identify and accurately explain a range of accounting terminology
- outline requirements for lodgement schedules
- describe the key administrative procedures in a financial services organisation or business unit.
-

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the accounting field of work and include access to:

- common office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSACC402 Prepare operational budgets

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to prepare and document operational budgets for a variety of organisations.

It applies to individuals who use specialised knowledge and systematic approaches to undertake strategic financial activity for an organisation.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Accounting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare budget	<p>1.1 Confirm budget objectives are consistent with organisational aims, projects and forecasts</p> <p>1.2 Clearly define cash, expenditure and revenue items and ensure relevance to identified objectives of budget</p> <p>1.3 Conduct discussions and negotiations with stakeholders that budget applies to in manner that promotes goodwill and ongoing cooperation</p>

ELEMENT	PERFORMANCE CRITERIA
2. Set budget timeframe	<p>2.1 Identify and include milestones and performance indicators in budget</p> <p>2.2 Break down annual budgets into seasonal periods in accordance with operating trends</p>
3. Document budget	<p>3.1 Present data in format that is easily understood and appropriate to budget reporting</p> <p>3.2 Complete and distribute reports within timelines for specified periods and projects</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2	<ul style="list-style-type: none"> Analyses potentially complex information from a range of sources and relates specific aspects of information to requirements
Writing	1.1, 1.3, 3.1	<ul style="list-style-type: none"> Accurately records financial information and uses clear language and logical structure in preparing reports and presentations to convey information
Oral Communication	1.3	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning to elicit the views and opinions of others and to confirm requirements
Numeracy	1.1-1.3	<ul style="list-style-type: none"> Performs mathematical calculations and uses estimating and forecasting techniques to consolidate and analyse financial data
Interact with others	1.3	<ul style="list-style-type: none"> Recognises the importance of building rapport during discussions, collaborations and negotiations
Get the work done	1.1, 2.1, 2.2, 3.1, 3.2	<ul style="list-style-type: none"> Develops plans to manage and report on routine and non-routine tasks with logically sequenced steps Uses analytical processes to identify appropriate process milestones and performance indicators Uses digital systems and programs to assist with planning, implementing, monitoring and reporting

FNSACC403 Make decisions in a legal context

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to make decisions, particularly relating to compliance issues, in a legal context. It is intended to satisfy the requirement for a course of study in commercial law at an introductory or foundation level, covering Australian legal systems and processes.

It applies to individuals who within their area of responsibility use specialised knowledge to make decisions that require consideration of the legal context.

No licensing, legislative or certification requirements apply to this unit at the time of publication

Unit Sector

Accounting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Examine legal context for financial services work	1.1 Identify Australian legal systems and processes 1.2 Identify functions of courts and other regulatory bodies 1.3 Identify implications of relevant legislation, regulation and legal precedent, and apply in making operational decisions 1.4 Seek advice and guidance to evaluate and moderate decision processes
2. Identify compliance requirements	2.1 Accurately interpret compliance requirements 2.2 Review legislative and regulatory sources of information

ELEMENT	PERFORMANCE CRITERIA
	regularly to identify changes to compliance requirements
3. Develop procedures to ensure compliance	<p>3.1 Develop procedures in consultation with others to address compliance requirements</p> <p>3.2 Establish timetables to meet compliance requirements to align with statutory deadlines</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.3, 2.1, 2.2	<ul style="list-style-type: none"> Categorises, consolidates and interprets complex regulatory and legislative information
Writing	1.4, 3.1	<ul style="list-style-type: none"> Prepares documentation using clear language, formats and terminology specific to requirements, audience and purpose
Oral Communication	1.4, 3.1	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning to clarify thinking and elicit opinions of others
Navigate the world of work	1.3, 2.1, 2.2, 3.1	<ul style="list-style-type: none"> Contributes to the development of procedures to meet legislative requirements Identifies organisational implications of new or changed legislation or regulations
Interact with others	1.4, 3.1	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with internal and external stakeholders to seek or share information Collaborates and cooperates with others to achieve joint outcomes
Get the work done	1.3, 3.1, 3.2	<ul style="list-style-type: none"> Organises work to meet organisational requirements, taking responsibility for process, compliance and schedule needs Makes critical and non-critical decisions in relatively complex situations, taking relevant legislation, regulation and legal precedent into consideration Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for FNSACC403 Make decisions in a legal context

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- access information on relevant legislation, statutes, regulation and legal judgements
- draw conclusions, having regard to the facts and relevant law
- review and assist to develop organisational procedures to meet compliance requirements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and explain the key features of Australian legal systems and processes, and the context in which they operate including:
 - basic principles, current statute and common law
 - roles and responsibilities of key organisations
 - constitutional considerations
 - separation of powers
 - basic principles of the law of torts, particularly relating to:
 - negligence
 - negligent misstatement
 - courts and regulatory bodies
- identify and describe the main features of current legislation and its general impact on business operations in the areas of:
 - consumer law
 - corporations law, including different business organisational structures and regulations for:
 - public and private companies
 - trusts

- partnerships
- sole traders
- property law
- superannuation law
- taxation law
- identify the key decisions in case law and interpret findings.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the accounting field of work and include access to:

- common office equipment, technology, software and consumables
- internet
- relevant legislative and regulatory documentation.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSACC404 Prepare financial statements for non-reporting entities

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to develop a range of commonly required financial reports for entities that do not have a statutory duty to file financial reports with government agencies and regulators.

It applies to individuals who use specialised knowledge and systematic approaches to collate and prepare financial information.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Accounting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Compile data	1.1 Systematically code, classify and check data for accuracy and reliability in accordance with organisational policy and procedures 1.2 Check internal and external financial data to ensure consistency and accuracy
2. Prepare reports	2.1 Present charts, diagrams and supporting data in appropriate

ELEMENT	PERFORMANCE CRITERIA
	<p>manner</p> <p>2.2 Prepare reports, following clear and appropriate structure and format that conforms with organisational requirements</p> <p>2.3 Ensure statements and data are error free and comprehensive, and cross-check full report against original data and accounting standards</p> <p>2.4 Make any necessary corrections and obtain verification and authorisation by relevant persons</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 2.3	<ul style="list-style-type: none"> Analyses, matches and interprets information from a variety of sources, paying attention to accuracy and reliability of data
Writing	2.1, 2.2, 2.4	<ul style="list-style-type: none"> Accurately records, classifies and checks financial information in written documents Uses clear language and logical structure in preparing reports and presentations to convey information
Oral Communication	2.1, 2.4	<ul style="list-style-type: none"> Presents information using clear language and correct terminology Uses questioning and active listening to convey and clarify information and instructions

FNSACC405 Maintain inventory records

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to comply with organisational inventory procedures, reconcile inventory records to general ledgers, record inventory flows, prepare schedules and produce ad hoc reports.

It applies to individuals who use specialised financial knowledge and follow procedures to ensure compliance with required standards.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Accounting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Process inventory purchase	1.1 Record purchase of inventory from appropriate documentation in subsidiary ledger 1.2 Maintain periodic and perpetual records of inventory
2. Record inventory flows	2.1 Apply inventory flow assumptions as appropriate 2.2 Value inventory using appropriate valuation rules
3. Reconcile inventory	3.1 Reconcile all inventory records to accounts in accordance with

ELEMENT	PERFORMANCE CRITERIA
records to general ledgers	organisational policy, procedures and practices 3.2 Identify and action discrepancies according to organisational policy, procedures and practices
4. Prepare inventory schedules and ad hoc reports	4.1 Develop and document schedules of inventory turnover and other procedures 4.2 Prepare spreadsheets and ad hoc reports on inventory status as required or requested

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 3.2	<ul style="list-style-type: none"> Reviews documentation from a range of sources and matches and analyses information for accuracy, completeness and possible discrepancies
Writing	1.1, 1.2, 4.1, 4.2	<ul style="list-style-type: none"> Records information accurately using correct spelling, grammar and conventions Prepares concise and logically structured reports and schedules appropriate to the audience and purpose
Oral Communication	4.2	<ul style="list-style-type: none"> Uses active listening and questioning to clarify and confirm information and instructions
Numeracy	1.1, 1.2, 2.1, 2.2, 3.1, 3.2, 4.1, 4.2	<ul style="list-style-type: none"> Performs mathematical calculations, including financial ratios, to check accuracy, consolidate and report on financial data
Navigate the world of work	3.1, 3.2	<ul style="list-style-type: none"> Recognises and complies with relevant protocols, policies and procedures
Get the work done	1.2, 2.1, 2.2, 3.1, 3.2, 4.1, 4.2	<ul style="list-style-type: none"> Plans, sequences and implements tasks to meet organisational requirements Recognises and responds to predictable problems and implements solutions to address data integrity issues Uses digital systems and programs to assist with planning, implementing, monitoring and reporting

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to modify and operate an integrated computerised accounting system. This is generally under supervision and encompasses processing transactions within the system, maintaining the system, producing reports and ensuring system integrity.

It applies to individuals who within their area of responsibility use specialised knowledge, information technology and coordination skills to establish and maintain an organisational system.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Accounting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Implement integrated accounting system	1.1 Implement general ledger, chart of accounts and subsidiary accounts in accordance with organisational requirements, procedures and policy 1.2 Set up customers, suppliers and inventory items in system to

ELEMENT	PERFORMANCE CRITERIA
	<p>meet organisational requirements and reporting requirements of goods and services tax (GST)</p> <p>1.3 Use appropriate technical help to solve any operational problems</p>
2. Process transactions within system	<p>2.1 Collate, code and classify input data before processing</p> <p>2.2 Process wide range of cash and credit transactions in service and trading environment</p> <p>2.3 Use general journal to make any balance day adjustments for prepayments and accruals</p> <p>2.4 Regularly review system output to verify accuracy of data input and make adjustments for any detected processing errors</p> <p>2.5 Perform end of financial year rollover</p>
3. Maintain system	<p>3.1 Add any new general ledger accounts, customer, supplier, inventory and fixed asset records as required</p> <p>3.2 Maintain and update existing chart of accounts, customer, supplier, inventory and fixed asset records and subsidiary accounts</p> <p>3.3 Customise chart of accounts to meet reporting requirements of organisation</p>
4. Produce reports	<p>4.1 Generate reports to indicate financial performance and financial position of organisation and for GST purposes as required or requested</p> <p>4.2 Generate reports to ensure that subsidiary ledgers and accounts reconcile with general ledger</p> <p>4.3 Generate reports, which ensure that bank account reconciles with bank statement, over at least two reporting periods</p>
5. Ensure system integrity	<p>5.1 Regularly back-up system to ensure against loss or corruption of data</p> <p>5.2 Restore data from back-ups in event of loss or corruption of current data</p> <p>5.3 Maintain secure record of all processed transactions for audit purposes</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 2.1, 2.4, 3.1, 4.1-4.3	<ul style="list-style-type: none"> • Accesses, manages and analyses financial information and data from a range of sources and reports • Collates, codes and classifies data, checking for accuracy and reliability
Writing	1.2, 3.1, 3.2	<ul style="list-style-type: none"> • Accurately records and checks financial and textual information in documentation and systems • Uses correct spelling, grammar and terminology when entering data and preparing reports
Oral Communication	1.3	<ul style="list-style-type: none"> • Uses questioning and active listening to clarify and convey information and instructions
Numeracy	1.1, 2.1-2.5	<ul style="list-style-type: none"> • Performs mathematical calculations and uses mathematical problem-solving strategies to analyse financial data and reports
Navigate the world of work	1.1, 1.2	<ul style="list-style-type: none"> • Recognises and complies with relevant legislative and regulatory requirements, protocols, policies and procedures
Get the work done	1.1-1.3, 2.1-2.5, 3.1-3.3, 4.1-4.3, 5.1-5.3	<ul style="list-style-type: none"> • Organises work to meet organisational requirements, taking responsibility for process, compliance and scheduling needs • Makes critical and non-critical decisions in relatively complex situations, taking relevant legislation and regulation into consideration • Recognises and responds to predictable problems and implements solutions to issues that have the potential to impact on the data entry and reporting process • Uses digital systems and programs for planning, implementing, monitoring and reporting purposes • Implements security requirements related to the management of digital data

Assessment Requirements for FNSACC406 Set up and operate a computerised accounting system

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- set up an organisation's chart of accounts by modifying an established integrated financial software system
- implement an integrated accounting system, ensuring integrity of the data
- process transactions within the integrated system and generate reports and print, if required
- maintain the integrated system.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and describe the key features of organisational procedures and policy relating to operating a computerised accounting system
- identify and describe the key principles and practices of accrual and double-entry accounting
- explain the key requirements of relevant financial services industry legislation relating to computerised accounting systems
- identify and explain the key features and characteristics of information included in relevant source documents of financial data
- describe the key features of a chart of accounts.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the accounting field of work and include access to:

- a range of common office equipment, technology, software and consumables
- an integrated commercial financial software system and associated data
- the internet.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSACC407 Produce job costing information

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit covers the skills and knowledge required to calculate and record the job costs of products and services.

It applies to individuals who, within their area of responsibility, use specialised knowledge and analytical skills to prepare organisational information relating to financial data.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Accounting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Gather and record operating and cost data	1.1 Extract data from established systems 1.2 Systematically code, classify and check data for accuracy and reliability in accordance with organisational policy and procedures
2. Produce cost reports	2.1 Assign costs to specified products and services 2.2 Reconcile data to ensure calculations are accurate and comply with organisational procedures 2.3 Obtain cost information advice from all sections of

ELEMENT	PERFORMANCE CRITERIA
	<p>organisation when formulating budgets</p> <p>2.4 Ensure structure and format of budgets and reports are clear and conform to management information and relevant legislative requirements</p> <p>2.5 Identify variances against budget</p> <p>2.6 Ensure reports are error free, comprehensive, and comply with management requirements and organisational practices</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.2, 2.4, 2.6	<ul style="list-style-type: none"> Analyses information from a range of sources, checking for accuracy and reliability in data and identifying correct procedures in textual information
Writing	2.3, 2.4	<ul style="list-style-type: none"> Accurately records information using correct spelling, grammar and terminology Uses organisational formats and logically structures information when preparing correspondence and reports
Oral Communication	2.3	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning to elicit and convey relevant information
Numeracy	1.2, 2.1-2.6	<ul style="list-style-type: none"> Performs calculations and uses mathematical problem-solving strategies to check the accuracy and reliability of financial data and statistics
Navigate the world of work	1.2, 2.2, 2.4, 2.6	<ul style="list-style-type: none"> Recognises and complies with relevant organisational protocols, policy and procedures
Get the work done	1.1, 1.2, 2.1-2.6	<ul style="list-style-type: none"> Plans, sequences and implements tasks to meet organisational requirements Recognises and responds to predictable problems and implements solutions to address data issues Uses digital technologies and systems to access, enter, update and present information

Assessment Requirements for FNSACC407 Produce job costing information

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- gather and record operating and costs data
- generate and prepare a range of reports relating to job costs.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe the key features of organisational operating procedures relevant to job costing
- explain common routines for recording and storing data
- identify and describe the key generally agreed accounting principles relevant to:
 - costing
 - internal control (including statutory reporting)
 - budgetary control (double-entry bookkeeping and accrual accounting)
- identify and analyse methods of data protection, including back-ups and security
- identify and describe the key financial legislation relating to taxable transactions and reporting requirements.
-

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the accounting field of work and include access to:

- a range of common office equipment, technology, software and consumables
- financial services product information
- information about workplace policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSACC501 Provide financial and business performance information

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to analyse and report on a broad range of financial and business performance information and encompasses assessing clients' needs, analysing data and preparing advice.

It applies to individuals who, within their level of authority, apply specialised knowledge, systematic approaches and analytical techniques to research and prepare customised information for clients.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Accounting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Assess client needs	1.1 Clarify and confirm expectations and objectives of client to ensure mutual understanding of client goals 1.2 Identify client's specific legal and financial requirements when establishing, structuring and financing a business 1.3 Discuss financial options and processes with client to develop

ELEMENT	PERFORMANCE CRITERIA
	<p>suitable plans for provision of information and achievement of client goals</p> <p>1.4 Regularly review progress of plans against agreed criteria and clearly communicate results to client</p> <p>1.5 Monitor client objectives to identify changes in client needs</p> <p>1.6 Regularly obtain, analyse and incorporate feedback on client services</p> <p>1.7 Investigate shortfalls in customer service and formulate and implement proposals for overcoming them</p>
2. Analyse data	<p>2.1 Seek advice on reliability and accuracy of data from appropriate authorities and sources in accordance with organisational procedures</p> <p>2.2 Compile and reconcile data to ensure statements are accurate and comply with organisational procedures, statutory requirements and standard financial reporting principles</p> <p>2.3 Analyse revenues and costs in accordance with standard accounting techniques and consistent with organisation's objectives</p> <p>2.4 Analyse all data and reports in accordance with standard financial analysis techniques</p> <p>2.5 Evaluate information in relation to financial performance of a business, specifically profitability, efficiency and financial stability</p> <p>2.6 Ensure analysis is consistent with client's business and personal objectives</p> <p>2.7 Undertake evaluation to assess financial potential of the business, its future funding requirements and statutory obligations</p>
3. Prepare advice	<p>3.1 Ensure advice provides client with realistic view of business financial performance and compliance, including significant taxation issues and comparisons of options</p> <p>3.2 Use suitable methods of presentation and formats, language and forms of documentation to convey information to client</p> <p>3.3 Provide advice about how risks and contingencies and future cash flows may be identified and quantified, and advise client of risk management options and rights and obligations</p> <p>3.4 Advise client on new or alternative sources and features of short-term and long-term finance</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.6, 2.2-2.4	<ul style="list-style-type: none"> Researches and analyses financial information and data from a range of sources to identify key aspects relevant to requirements
Writing	1.1, 1.3, 2.1, 3.1-3.4	<ul style="list-style-type: none"> Prepares correspondence, plans and reports using logical structure and organisational formats appropriate for the purpose Uses clear language and concepts appropriate for the audience to convey and clarify explicit information and requirements
Oral Communication	1.1, 1.3, 1.4, 2.1, 3.1-3.4	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning techniques to elicit the views and opinions of others and to confirm understandings Uses appropriate formats, language, tone and pace when providing advice and conveying information to clients
Numeracy	1.1-1.3, 2.1-2.7, 3.1, 3.3, 3.4	<ul style="list-style-type: none"> Performs mathematical calculations and uses mathematical problem-solving strategies to analyse trends and compare and benchmark financial information
Navigate the world of work	2.1-2.4, 3.1, 3.3	<ul style="list-style-type: none"> Recognises and follows relevant legislative and regulatory requirements, and explicit and implicit protocols, policies and procedures, and meets expectations of clients and those associated with own role
Interact with others	1.1-1.6, 3.2-3.4	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with clients, colleagues and others to seek or provide information
Get the work done	1.6, 1.7, 2.1-2.7, 3.1	<ul style="list-style-type: none"> Plans, organises and implements tasks according to organisational and legislative requirements, taking responsibility for process, compliance and reporting needs Makes critical and non-critical decisions in relatively complex situations, taking relevant client and organisational requirements into consideration Recognises and responds to problems and improvement opportunities by systematically analysing relevant information, generating and evaluating options, and selecting the most appropriate

		option <ul style="list-style-type: none"> • Uses digital technologies to access, extract and share relevant information to achieve required outcomes

Assessment Requirements for FNSACC501 Provide financial and business performance information

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- access clients' needs and analyse their financial data
- prepare and document appropriate advice for clients that:
 - complies with financial legislation and accounting standards, practices and principles
 - assesses taxation, compliance and business viability issues faced by clients
 - assesses risk management options and practices.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the key requirements of taxation legislation relating to deductions, allowances and charges
- list the key areas that can cause significant taxation issues
- compare and contrast forecasting techniques
- identify and explain the key features of government financial policy and secretary's financial management instructions
- explain the key requirements of relevant corporations and consumer legislation
- describe a range of methods for presenting and formatting financial data
- identify and explain the key principles of cash flow and budgetary control
- identify and categorise sources of information on financial products and markets
- outline a range of risks and contingencies and risk management options relating to financial and business performance
- outline client rights and responsibilities.
-

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the accounting field of work and include access to:

- a range of common office equipment, technology, software and consumables.

FNSACC502 Prepare tax documentation for individuals

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to prepare non-complex income tax returns for individuals in accordance with statutory requirements, and encompasses gathering and verifying data, calculating taxable income and reviewing compliance requirements.

It applies to individuals who use systematic approaches and follow specific guidelines to ensure compliance requirements are met.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. This unit is designed to meet educational requirements of the Tax Practitioner Board (TPB). Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Accounting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Gather client data and verify client, organisational and legislative requirements	1.1 Determine client's tax documentation preparation requirements 1.2 Conduct research to identify updates or additions to compliance requirements relevant to client circumstances, and establish recording and reporting requirements 1.3 Gather current data from appropriate sources, and identify assessable income and allowable deductions

ELEMENT	PERFORMANCE CRITERIA
	1.4 Complete and record amounts in accordance with organisational and legislative requirements 1.5 Identify discrepancies or any unusual features and conduct research to resolve, or refer to appropriate authority 1.6 Identify accrued or prepaid income and expenditure, and record adjustments to value of assets and liabilities
2. Identify, record and present client's tax documentation	2.1 Calculate client's tax obligations, in accordance with legislative requirements and information gathering practices 2.2 Prepare relevant documentation within established timelines 2.3 Seek advice and guidance from specialist to evaluate and moderate decision processes 2.4 Discuss and confirm documentation with client to obtain client signature, authorisation and endorsement, ensuring legislative requirements are met
3. Lodge tax documentation	3.1 Submit relevant documentation to Australian Taxation Office (ATO) within established timelines 3.2 Advise client of current tax obligations and that advice from taxation authorities is to be followed 3.3 Respond to tax office enquiries and meet taxation audit requirements, when applicable, in timely manner

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Assessment Requirements for FNSACC502 Prepare tax documentation for individuals

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- research, critically evaluate and apply new or changed legislative requirements and apply where relevant to the preparation of the client's tax documentation
- identify client data required to calculate taxable income
- prepare tax documentation for an individual that complies with:
 - Australian taxation law and Australian Taxation Office (ATO) rulings
 - accounting principles and practices
 - organisational policy and procedures
- provide advice to client on tax documentation presented and obtain verification and approval.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and explain ethical considerations and legislative requirements relevant to the preparation of tax documentation for individual taxpayers, including:
 - conflict of interest
 - responsibilities of tax agents including Code of Professional Conduct obligations under the Tax Agent Services Act (TASA) and Tax Agent Services Regulations (TASR)
- identify and explain the following key elements of Australian tax law as it relates to tax documentation for individual taxpayers:
 - the rules and principles of Australian tax law including an understanding of the legal environment in which these principles operate, basics of the legal system, constitutional considerations and separation of powers

- key aspects of the income tax law covering concepts of:
 - residence and source
 - related elements of international tax
 - assessable income
 - deductions (including general, specific and decline in value)
 - tax rebates and offsets
 - tax accounting
 - income test definitions that include reportable superannuation and fringe benefits tax (FBT)
- key aspects of relevant principles and application of the capital gains tax (CGT), FBT and termination payment rules for individual taxpayers
- basic concept of goods and services tax (GST)
- administrative aspects of the taxes identified above including documentation, tax collection and withholding mechanisms, assessments, obligations, rulings, penalties and audits
- specific and general anti-avoidance tax rules for individuals
- describe the key sources of information and data required to calculate taxable income
- describe the key features of organisational policy and procedures relating to the preparation of tax documentation for individual taxpayers
- outline the key accounting principles and practices relevant to the preparation of tax documentation for individual taxpayers.
-

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the accounting field of work and include access to:

- common office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

This unit is designed to meet the education requirements of the Tax Practitioner Board (TPB). Where registration with the TPB is sought, assessment must reflect the conditions described by the regulator which stipulate that a significant amount (at least 40%) must be completed under some form of independent supervision. Where recognition of prior learning (RPL) is used, it must also meet the requirements of the Board's policy on RPL.

Details of requirements can be accessed on the TPB website at: <http://www.tpb.gov.au>

FNSACC503 Manage budgets and forecasts

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to prepare, document and manage budgets and forecasts, and encompasses forecasting estimates and monitoring budgeted outcomes.

It applies to individuals who use specialised knowledge and analytical skills to prepare and manage strategic organisational information.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Accounting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare budget	<p>1.1 Clearly define cash, expenditure and revenue items and ensure relevance to identified objectives of budget</p> <p>1.2 Ensure budget objectives are clear and consistent with organisational aims and projects</p> <p>1.3 Conduct discussions and negotiations with stakeholders in manner that promotes understanding, goodwill and ongoing cooperation</p>

ELEMENT	PERFORMANCE CRITERIA
	1.4 Identify and include milestones and performance indicators in budgets to monitor financial performance and break down annual budgets into seasonal periods in accordance with operating trends
2. Forecast estimates	<p>2.1 Provide realistic, ethical and attainable estimates of future cash flow, costs and revenues, and support with verifiable evidence and source documentation</p> <p>2.2 Identify relevant data for forecasts and anticipate changes in circumstances</p> <p>2.3 Establish assumptions and parameters and review for accuracy, relevance and compliance with organisational procedures and policy</p> <p>2.4 Identify financial risks and initiate protection strategies in accordance with organisational procedures and policy</p>
3. Document budget	<p>3.1 Present data in format that is easily understood and appropriate to budget reporting</p> <p>3.2 Complete reports within timelines and distribute for specified periods and projects</p> <p>3.3 Identify trends, issues and comparisons and report in structured format to ensure transparency and validity of analysis</p> <p>3.4 Identify feasibility by comparing projections with market growth and development</p>
4. Monitor budget outcomes	<p>4.1 Analyse budget variances in accordance with organisational procedures, and make recommendations based on analysis to client or designated person</p> <p>4.2 Review budget processes and implement as required</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.2, 2.2, 2.3, 3.3, 3.4, 4.1, 4.2	<ul style="list-style-type: none"> Researches, consolidates and evaluates a range of information and financial data, identifying key aspects needed for work requirements and analysing trends

Writing	2.1, 2.3, 3.1-3.3, 4.1	<ul style="list-style-type: none"> Prepares specific and logically structured written and graphical information for a range of audiences and purposes Uses clear and concise language, incorporating correct spelling, grammar, terminology and conventions, to convey accurate information
Oral Communication	1.3, 3.1, 4.1	<ul style="list-style-type: none"> Presents financial information to a range of personnel using language and concepts appropriate for the audience Uses active listening and questioning to elicit and convey information in verbal exchanges
Numeracy	1.1, 1.2, 1.4, 2.1-2.4, 3.1-3.4, 4.1	<ul style="list-style-type: none"> Performs mathematical calculations and uses a range of mathematical problem-solving techniques to analyse, estimate and forecast financial data
Navigate the world of work	1.2, 2.3, 2.4, 4.1	<ul style="list-style-type: none"> Takes responsibility for adherence to organisational policy and procedures, and legal and ethical requirements
Interact with others	1.2, 2.3, 2.4, 4.1	<ul style="list-style-type: none"> Uses collaborative and inclusive techniques to build rapport and establish and maintain positive relationships with a range of stakeholders
Get the work done	1.1, 1.2, 1.4, 2.1-2.4, 3.2-3.4, 4.1, 4.2	<ul style="list-style-type: none"> Organises work according to organisational procedures, using some analytical processes, and taking responsibility for sequencing and scheduling tasks to achieve efficient outcomes Identifies and responds to budgeting problems by systematically analysing relevant information, generating and evaluating options, and selecting the most appropriate option for the client Uses digital technologies to access, extract and share relevant information to achieve required outcomes

Assessment Requirements for FNSACC503 Manage budgets and forecasts

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- prepare, document and present budgets and forecasting estimates that:
 - accurately apply accounting principles and practices
 - follow organisational policy and procedures
- monitor budget outcomes periodically.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- discuss the key purpose and objective of budgets and forecasts, including relevance of milestones and key performance indicators
- discuss issues relating to ethical considerations for budgetary forecasting and projections to explain the strength of assumptions and forecast reliabilities
- describe types and sources of data and information required for budgeting and forecasting
- outline a range of expenditure and revenue items relevant to budgeting and forecasting
- compare and contrast forecasting techniques
- identify the key features of organisational procedures and policy relevant to budgeting and forecasting
- identify and explain the key principles and practices of:
 - accrual accounting
 - budgetary control
 - corporate governance
 - double-entry bookkeeping
 - statistical analysis and measures of variance.

-

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the accounting field of work and include access to:

- common office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSACC504 Prepare financial reports for corporate entities

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to prepare financial reports for a reporting entity and encompasses compiling and analysing data and meeting statutory reporting requirements.

It applies to individuals who use specialised knowledge and analytical skills to prepare financial reports that meet specific compliance requirements.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Pre-requisite Unit

BSBFIA401 Prepare financial reports

FNSACC301 Process financial transactions and extract interim reports

Unit Sector

Accounting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Compile data	1.1 Systematically code, classify and check data for accuracy and

ELEMENT	PERFORMANCE CRITERIA
	reliability in accordance with organisational policy, procedures and accounting standards 1.2 Use conversion and consolidation procedures to compile data in accordance with organisational policy and procedures 1.3 Ensure accurate transfer of data to computerised systems as required 1.4 Record valuations in compliance with relevant accounting standards 1.5 Identify and record effects of taxation
2. Prepare reports	2.1 Present charts, diagrams and supporting data in appropriate format 2.2 Ensure structure and format of reports are clear and conform to statutory requirements and organisational procedures 2.3 Ensure statements and data are error free, comprehensive and comply with statutory requirements and organisational procedures

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.3, 1.5, 2.3	<ul style="list-style-type: none"> Researches, structures and analyses information from a range of sources to determine work requirements Proofreads and checks work for accuracy and completeness
Writing	1.1, 1.3, 1.5, 2.1, 2.2	<ul style="list-style-type: none"> Prepares logically structured written and graphical information in required formats for business reports and presentations Uses clear language, terminology and concepts appropriate for the audience and purpose to convey information
Oral Communication	2.1	<ul style="list-style-type: none"> Presents financial information to a range of personnel using language and concepts appropriate for the audience
Numeracy	1.1-1.5	<ul style="list-style-type: none"> Uses mathematical equations to perform calculations, estimations and forecasting to analyse data and achieve

		required outcomes
Navigate the world of work	1.1-1.2, 1.4, 2.2, 2.3	<ul style="list-style-type: none"> • Takes responsibility for adherence to organisational policy and procedures and legislative requirements
Get the work done	1.1-1.5, 2.1-2.3	<ul style="list-style-type: none"> • Plans, sequences and implements tasks according to organisational and legislative requirements • Uses problem-solving processes to identify and analyse reporting issues and develop options to resolve issues with the potential to have a negative impact • Uses digital technologies and software packages, including spreadsheets and databases, to complete requirements

Assessment Requirements for FNSACC504 Prepare financial reports for corporate entities

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- access and accurately compile data and prepare reports for corporate entities that comply with:
 - organisational policy and procedures
 - relevant accounting standards
 - statutory and other relevant requirements of reporting bodies.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and explain current business taxation requirements
- identify and explain current financial legislation and statutory requirements relating to taxable transactions and reporting requirements
- discuss ethical considerations in relation to conflict of interest, confidentiality and disclosure requirements
- explain the key features of integrated computerised accounting systems
- describe a range of methods and formats for presenting financial data
- outline options, methods and practices for recording and reporting deductions, benefits and depreciation
- identify and describe the key requirements of organisational policy and procedures relating to the preparation of financial reports
- identify and explain the key principles of double-entry bookkeeping and accrual accounting

- identify and explain business legal requirements relating to delegated authorities, reporting periods and taxation payment timings.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the accounting field of work and include access to:

- office equipment, technology, software and consumables
- organisational records, policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSACC505 Establish and maintain accounting information systems

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to identify and record system requirements, evaluate alternative systems and acceptance test systems, prepare system documentation, implement reporting systems and records, monitor systems and review reporting procedures.

It applies to experienced individuals who use specialised technical knowledge, systematic approaches and analytical skills to effectively establish an organisational system.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Accounting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify and record system requirements	1.1 Prepare comprehensive specifications based on requirements of potential users that include system objectives, document specifications, and security and records requirements 1.2 Review features of any existing system and records to establish their suitability and usability 1.3 Establish recording processes according to accepted practice

ELEMENT	PERFORMANCE CRITERIA
	and in accordance with legislation and codes of practice
2. Evaluate alternative systems	<p>2.1 Compare and measure features of various systems against user requirements to enable identification of alternative systems and solutions</p> <p>2.2 Carry out cost–benefit analysis of alternative systems and solutions, and document recommendations</p>
3. Evaluate acceptance test system	<p>3.1 Test system in operational environment to ensure compliance with user requirements, company policy and guidelines, system specifications and relevant legislation or industry codes of practice</p> <p>3.2 Obtain formal confirmation from all users on acceptability of new system or system changes against all criteria and system specifications</p>
4. Prepare system documentation	<p>4.1 Prepare system documentation thoroughly and accurately, using easily understood language and in clear format to support system implementation and training</p> <p>4.2 Consult users to ensure clarity, accuracy, thoroughness and usability of system documentation</p> <p>4.3 Make system documentation easily accessible, and constantly review and update to ensure currency and accuracy</p>
5. Implement reporting systems and records	<p>5.1 Carry out implementation in accordance with specified guidelines and timelines, and establish contingency plans to deal with any potential delays or problems</p> <p>5.2 Establish effective training schedules and programs to support implementation</p> <p>5.3 Transfer all data from existing to new or modified system and records without error or loss</p> <p>5.4 Update systems and records regularly to identify ongoing benefits and threats to organisation</p> <p>5.5 Maintain files within organisational and statutory requirements, and identify and remedy discrepancies</p> <p>5.6 Ensure integrity of systems and records complies with organisational and statutory requirements</p> <p>5.7 Monitor transactions to identify taxation and other liabilities</p>
6. Monitor reporting systems	<p>6.1 Analyse and account for transactions, and correctly relate to accounting period</p> <p>6.2 Communicate and promote processes for recording and</p>

ELEMENT	PERFORMANCE CRITERIA
	<p>classifying transactions to support internal verification of records</p> <p>6.3 Standardise sources of input data and documentation in structured formats to minimise errors</p> <p>6.4 Maintain back-ups in accessible location to safeguard data in accordance with organisational and audit requirements</p>
7. Review reporting procedures	<p>7.1 Systematically check sources of input data and documentation records for accuracy and reliability</p> <p>7.2 Establish reporting requirements and analyse regularly to identify variations and compliance with established processes for recording and classifying transactions</p> <p>7.3 Maintain written reports, explanatory notes and financial results to support source documentation</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.4, 1.5, 2.1, 4.3, 6.1, 7.1, 7.2	<ul style="list-style-type: none"> Researches and evaluates technical and non-technical information from a range of sources to determine benchmarks and requirements
Writing	1.1, 1.2, 2.2, 3.2, 4.1-4.3, 6.2, 6.3, 7.3	<ul style="list-style-type: none"> Prepares, reviews and maintains a range of documents to ensure clarity of meaning, accuracy, currency and consistency of information Uses clear and concise language in a logical format and structure to convey information appropriate to the audience and purpose
Oral Communication	1.1, 3.2, 4.2, 6.2	<ul style="list-style-type: none"> Uses appropriate vocabulary to explain technical and non-technical information to a range of personnel Uses active listening and questioning to obtain feedback and clarify understanding
Numeracy	2.1, 2.2, 5.7, 6.1, 7.3	<ul style="list-style-type: none"> Performs mathematical calculations and uses a range of mathematical problem-solving techniques to analyse, estimate and compare financial data and numerical information

FNSACC601 Prepare and administer tax documentation for legal entities

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to identify taxation requirements for complex lodgements and returns for legal entities. It involves gathering, analysing and processing taxation related data to prepare tax documentation, and to review and apply compliance requirements.

It applies to individuals who use specialised knowledge and systematic approaches and who follow specific guidelines to ensure compliance requirements are met.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. This unit is designed to meet educational requirements of the Tax Practitioner Board (TPB). Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Pre-requisite Unit

FNSACC502	Prepare tax documentation for individuals
-----------	---

Unit Sector

Accounting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the</i>	<i>Performance criteria describe the performance needed to</i>

ELEMENT	PERFORMANCE CRITERIA
<i>essential outcomes.</i>	<i>demonstrate achievement of the element.</i>
1. Identify taxation requirements for complex lodgements and returns	1.1 Identify and confirm suitability of legal entities within client's organisational structure 1.2 Conduct research to identify updates or additions to compliance requirements relevant to client's circumstances, and establish recording and reporting requirements 1.3 Determine client's tax documentation preparation requirements
2. Gather and analyse data relevant to client's tax position	2.1 Identify and collect client data relevant to tax documentation requirements 2.2 Analyse data to extract relevant tax information and identify any discrepancies requiring verification or research for resolution 2.3 Obtain advice and guidance from specialist to evaluate and moderate decision processes
3. Prepare and present tax documentation	3.1 Calculate client's tax obligations, in accordance with legislative requirements and information gathering practices 3.2 Prepare tax documentation to comply with relevant Australian Taxation Office (ATO), legislative and organisational recording and reporting requirements 3.3 Present and confirm documentation with clients to obtain client signature, authorisation and endorsement, ensuring legislative requirements are met
4. Lodge tax documentation	4.1 Submit relevant tax documentation to the ATO within established timelines 4.2 Advise client of current tax obligations and that any advice from taxation authorities is to be followed 4.3 Respond to tax office enquiries and meet taxation audit requirements, when applicable, in timely manner

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description

Reading	1.1-1-3, 2.1, 2.2	<ul style="list-style-type: none"> • Researches and critically analyses information from a range of sources to identify key aspects relevant to requirements
Writing	3.2, 3.3, 4.2, 4.3	<ul style="list-style-type: none"> • Prepares a range of written texts to specifications using clear language and correct terminology and conventions appropriate for the audience and purpose
Oral Communication	2.3, 3.3, 4.2	<ul style="list-style-type: none"> • Effectively participates in verbal exchanges using active listening and questioning techniques to elicit, clarify and confirm information with a range of personnel
Numeracy	3.1, 3.2	<ul style="list-style-type: none"> • Performs calculations and uses a range of mathematical problem-solving techniques to analyse requirements and prepare reports
Navigate the world of work	1.2, 3.2, 3.3, 4.1, 4.3	<ul style="list-style-type: none"> • Recognises and responds to relevant Acts, regulatory requirements, explicit and implicit protocols, policies and procedures, and meets expectations associated with own role • Ensures currency of knowledge relating to legislation, regulations and policies applicable to taxation legislation and requirements
Interact with others	2.3, 3.3, 4.2	<ul style="list-style-type: none"> • Selects and uses appropriate conventions and protocols when communicating with others to achieve specific outcomes
Get the work done	3.2, 4.1, 4.3	<ul style="list-style-type: none"> • Takes responsibility for planning, sequencing and prioritising complex tasks and own workload for efficiency and effective outcomes • Uses systematic analytical problem-solving processes in complex, routine and non-routine situations, gathering information and identifying and evaluating options against criteria • Considers whether others should be involved in making decisions, using collaborative processes as part of the decision-making process, where appropriate • Evaluates effectiveness of systems and processes to inform decisions on how to implement improvements • Recognises and anticipates a range of problems, implementing contingency plans when appropriate • Uses digitally based technologies and systems to assist in achieving required outcomes

Assessment Requirements for FNSACC601 Prepare and administer tax documentation for legal entities

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- research and critically evaluate new or changed legislative requirements and apply where relevant to the preparation of the client's tax documentation
- provide taxation advice to clients in line with individual requirements
- identify legal entity tax data required to calculate taxable income
- prepare tax documentation for legal entities that complies with:
 - Australian taxation law and Australian Taxation Office (ATO) rulings and lodgement schedules
 - accounting principles and practices
 - organisational policy and procedures
- present tax documentation to the client for verification and approval.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and explain ethical considerations and legislative requirements relevant to the preparation of tax documentation for legal entities, including:
 - conflict of interest
 - responsibilities of tax agents including Code of Professional Conduct obligations under the Tax Agent Services Act (TASA) and Tax Agent Services Regulations (TASR)
 - government tax policy documents issued by Reviews, Treasury and Board of Taxation
 - explanatory materials in relation to legislation
 - statutes

- court and Administrative Appeals Tribunal decisions
- Commissioner of Taxation's interpretive guidance in Rulings and Determinations
- explain critical and key elements of Australian tax law as it relates to tax documentation for legal entities such as companies, trusts, partnerships and sole traders including:
 - the rules and principles of Australian tax law, with an understanding of the legal environment in which these principles operate, basics of the legal system, constitutional considerations and separation of powers
 - the key aspects of income tax law covering concepts of residence and source, related elements of international tax, assessable income, deductions, tax rebates and offsets, and tax accounting
 - the key aspects of taxes that extend the ordinary income tax base, including relevant principles and application of the capital gains tax (CGT) and fringe benefits tax (FBT) rules
 - goods and services tax (GST)
 - taxation aspects of superannuation law
 - administrative aspects of the taxes identified above including documentation, tax collection and withholding mechanisms, assessments, obligations, rulings, penalties and audits
 - specific and general anti-avoidance tax rules
- describe the key sources of information and taxable transactions data required to calculate taxable income, including:
 - allowable deductions
 - capital gains
 - financial adjustments such as write-offs and revaluations
 - income
 - payments
 - purchases
 - superannuation payments
- describe the key features of organisational policy and procedures relating to the preparation of tax documentation for legal entities
- outline the key accounting principles and practices relevant to the preparation of tax documentation for the different types of legal entities.
-

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the accounting field of work and include access to:

- common office equipment, technology, software and consumables
- an integrated financial software system and data.

Assessors must satisfy NVR/AQTF assessor requirements.

Note: The identification of the unit FNSACC502 Prepare tax documentation for individuals as a prerequisite does not require that it be certificated prior to this unit. This unit and its prerequisite may be delivered and assessed together.

This unit is designed to meet regulatory requirements of the Tax Practitioner Board (TPB). Where registration with the TPB is sought, assessment must reflect the conditions described by the regulator which stipulate that a significant amount (at least 40%) must be completed under some form of independent supervision. Where recognition of prior learning (RPL) is used, it must also meet the requirements of the Board's policy on RPL.

Details of requirements can be accessed on the TPB website at: <http://www.tpb.gov.au>

FNSACC602 Audit and report on financial systems and records

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to supervise an audit of financial systems and prepare the appropriate reports, including assessing options, identifying information sources, determining audit strategies, monitoring progress, reviewing data, verifying financial statements and determining appropriate reporting formats.

It applies to experienced individuals who use specialised knowledge and systematic approaches to analyse and evaluate financial information against specified criteria and compliance requirements.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Pre-requisite Unit

FNSACC506 A	Implement and maintain internal control procedures
----------------	--

Accounting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
---------	----------------------

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Assess options	<p>1.1 Identify statutory requirements from assessment of terms of reference, and client objectives and obligations</p> <p>1.2 Review and analyse client activities and procedures to establish familiarity with systems and guide selection of appropriate audit methodologies</p> <p>1.3 Develop financial audit methodologies to identify significant features of audit and establish criteria for conducting audit in accordance with professional auditing standards</p>
2. Identify information sources	<p>2.1 Identify audit financial data sources from evaluation of organisation's information systems</p> <p>2.2 Create audit lines of enquiry to support audit objectives and reduce audit risk to acceptable level</p>
3. Determine audit strategies	<p>3.1 Establish client financial business characteristics from analysis of general economy, industry and client's provided information</p> <p>3.2 Assess client's inherent financial risk through value chain risk analysis</p> <p>3.3 Identify internal control procedures for financial transactions through discussion with client and established professional standards</p> <p>3.4 Ensure audit methodologies use established sampling and selection techniques in manner consistent with internal control procedures and substantive testing</p>
4. Schedule resources and timelines and monitor progress	<p>4.1 Establish timeframes and allocate personnel to functions and tasks based on audit lines of enquiry</p> <p>4.2 Review resource use regularly, and develop and monitor intermittent reports with resource allocation and timeframes adjusted through discussion and agreement with client and in accordance with professional accounting standards</p>
5. Review data and verify statements	<p>5.1 Identify significant strengths and weaknesses in controls and rank in accordance to audit objectives</p> <p>5.2 Obtain and evaluate evidence on financial systems and controls under review using established testing procedures and in accordance with criteria identified in audit methodology</p> <p>5.3 Test management assertions to achieve audit objectives</p> <p>5.4 Gather sufficient appropriate audit evidence as basis for expert</p>

ELEMENT	PERFORMANCE CRITERIA
	opinion 5.5 Verify financial statements as materially misstated or correct
6. Determine reporting formats	6.1 Identify and document financial operational functions, services and systems in accordance with standard formats 6.2 Ensure format is consistent with documentation requirements of auditor and professional auditing standards 6.3 Formulate and provide financial audit opinions, including recommendations, to client in established and acceptable format

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 2.1, 3.1, 3.3, 5.1- 5.3	<ul style="list-style-type: none"> Analyses and synthesises complex textual information to determine auditing requirements and parameters
Writing	1.3, 4.2, 5.1, 5.5, 6.1-6.3	<ul style="list-style-type: none"> Prepares logically constructed reports, using appropriate formats, supported by relevant evidence and recommendations Uses clear language, terminology and conventions to convey and clarify findings and recommendations

Assessment Requirements for FNSACC602 Audit and report on financial systems and records

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- assess client risk and determine financial audit strategy and methodology
- schedule resources and timelines, and monitor progress
- review data, verify financial statements and determine reporting formats that comply with:
 - organisational financial internal control policy and procedures
 - relevant legislative requirements and professional standards.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and explain the key features of current financial legislation and statutory requirements relating to internal control, taxable transactions and reporting requirements
- identify and explain the key features of current, relevant professional accounting standards
- outline the duties and responsibilities of auditors
- discuss professional standards and ethical considerations for management and handling of files and records
- identify and explain the key principles of:
 - auditing
 - internal control
- compare and contrast testing procedures and methods of enquiry.
-

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the accounting field of work and include access to:

- common office equipment, technology, software and consumables
- an integrated financial software system and data.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSACC603 Implement tax plans and evaluate tax obligations

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to assess taxation liabilities, optimise tax positions, establish processes and plans, evaluate tax policies and review tax compliance for legal entities.

It applies to experienced individuals who use analytical and problem-solving skills to prepare plans and strategic advice for clients.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. This unit is designed to meet educational requirements of the Tax Practitioner Board (TPB). Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Pre-requisite Unit

Accounting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>

ELEMENT	PERFORMANCE CRITERIA
1. Assess legal entity's tax obligations	<p>1.1 Quantify history and trends of legal entity's tax obligations arising from its historical taxable transactions, using standard accounting techniques</p> <p>1.2 Analyse data from current transactions to resolve discrepancies and ambiguities and confirm suitability of legal entity</p> <p>1.3 Conduct research to identify updates or additions to compliance requirements relevant to maximising client's benefit and establish recording and reporting requirements</p> <p>1.4 Identify legal entity's tax obligations by analysing data on taxable transactions</p> <p>1.5 Schedule payments of tax obligations by applying methods of determinations and tax bases</p>
2. Develop tax plans	<p>2.1 Assess implications of schedule on tax entity's operations and structure</p> <p>2.2 Develop financial management strategies to ensure alignment of cash flow with incidence and schedules of tax obligations</p> <p>2.3 Develop management process and record-keeping systems to implement financial management strategies and ensure maintenance of audit trail</p> <p>2.4 Document management processes that include application of compliance requirements</p> <p>2.5 Estimate future taxation obligations from income and expenditure forecasts using standard accounting techniques</p>
3. Evaluate and advise on tax plan	<p>3.1 Prepare budgets in accordance with income and expenditure forecasts, and periodically review to ensure accuracy of tax obligation estimates</p> <p>3.2 Analyse variances between actual tax obligations and tax plan to identify errors or adjustment required to financial management strategies or management process</p> <p>3.3 Monitor and evaluate performance of tax plans and advise accordingly</p> <p>3.4 Monitor and review tax documentation to ensure it complies with legislative and professional requirements</p> <p>3.5 Analyse evidence of non-compliance to diagnose origin and develop resolution</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.2, 1.3	<ul style="list-style-type: none"> • Accesses and critically analyses complex information from a range of sources to identify key aspects relevant to requirements • Carefully checks data and information for accuracy, completeness and reliability
Writing	2.4, 3.3	<ul style="list-style-type: none"> • Prepares logically structured written documentation for a range of purposes and audiences using clear language and correct terminology and conventions
Oral communication	3.3	<ul style="list-style-type: none"> • Effectively participates in verbal exchanges using active listening and questioning techniques to elicit, clarify and confirm information
Numeracy	1.1, 1.2, 1.4, 1.5, 2.2, 2.5, 3.1, 3.2	<ul style="list-style-type: none"> • Performs complex calculations and uses a range of mathematical problem-solving techniques to analyse trends, benchmarks and performance indicators
Navigate the world of work	2.3, 2.4, 3.2, 3.4, 3.5	<ul style="list-style-type: none"> • Recognises and responds to relevant Acts, regulatory requirements, explicit and implicit protocols, policies and procedures, and meets expectations associated with own role • Ensures currency of knowledge relating to legislation, regulations and policies applicable to taxation legislation and professional requirements

Assessment Requirements for FNSACC603 Implement tax plans and evaluate tax obligations

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- research and critically evaluate new or changed legislative requirements and apply where relevant to the preparation of the client's tax documentation
- identify legal entity's tax data required to calculate taxable income
- provide taxation advice to clients in line with individual requirements
- prepare tax documentation and tax plans for legal entities that comply with:
 - Australian taxation law and Australian Taxation Office (ATO) rulings and lodgement schedules
 - accounting principles and practices
 - tax entity's organisational policy and procedures
- evaluate tax plan for compliance with legislative requirements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and explain ethical considerations and legislative requirements relevant to the preparation of tax documentation for legal entities, including:
 - conflict of interest
 - responsibilities of tax agents including Code of Professional Conduct obligations under the Tax Agent Services Act (TASA) and Tax Agent Services Regulations (TASR)
 - government tax policy documents issued by Reviews, Treasury and Board of Taxation
 - explanatory materials in relation to legislation

- statutes
- court and Administrative Appeals Tribunal decisions
- Commissioner of Taxation's interpretive guidance in Rulings and Determinations
- explain critical and key elements of Australian taxation law as it relates to tax documentation for legal entities such as companies, trusts, partnerships and sole traders including:
 - the rules and principles of Australian tax law, with an understanding of the legal environment in which these principles operate, basics of the legal system, constitutional considerations and separation of powers
 - the key aspects of income tax law covering concepts of residence and source, related elements of international tax, assessable income, deductions, tax rebates and offsets, and tax accounting
 - the key aspects of taxes that extend the ordinary income tax base, including relevant principles and application of the capital gains tax (CGT) and fringe benefits tax (FBT) rules
 - goods and services tax (GST)
 - taxation aspects of superannuation law
 - administrative aspects of the taxes identified above including documentation, tax collection and withholding mechanisms, assessments, obligations, rulings, penalties and audits
 - specific and general anti-avoidance tax rules
- describe the key sources of information and taxable transactions data required to calculate taxable income, including:
 - allowable deductions
 - capital gains
 - financial adjustments such as write-offs and revaluations
 - income
 - payments
 - purchases
 - superannuation payments
- describe the key features of organisational policy and procedures relating to the preparation of tax documentation for legal entities
- outline the key accounting principles and practices relevant to preparation of tax documentation for the different types of legal entities
- discuss ethical considerations for the preparation of returns, including the Code of Professional Conduct's disclosure and confidentiality requirements
- outline financial management strategies used to optimise tax position.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the accounting field of work and include access to:

- common office equipment, technology, software and consumables
- an integrated financial software system and data.

Assessors must satisfy NVR/AQTF assessor requirements.

Note: The identification of the unit FNSACC502 Prepare tax documentation for individuals as a prerequisite does not require that it be certificated prior to this unit. This unit and its prerequisite may be delivered and assessed together.

This unit is designed to meet regulatory requirements of the Tax Practitioner Board (TPB). Where registration with the TPB is sought, assessment must reflect the conditions described by the regulator, which stipulate that a significant amount (at least 40%) must be completed under some form of independent supervision. Where recognition of prior learning (RPL) is used, it must also meet the requirements of the Board's policy on RPL.

Details of requirements can be accessed on the TPB website at: <http://www.tpb.gov.au>

FNSACC604 Monitor corporate governance activities

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to research corporate governance reporting trends, examine corporate governance standards and practices, and review compliance to develop and implement processes and procedures for meeting corporate governance obligations.

It applies to individuals who use and maintain current and specialised knowledge and analytical skills to provide advice on organisational processes to meet compliance and management requirements.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Accounting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish corporate governance standards and practices	1.1 Monitor application of and adherence to professional and legal accounting standards to identify emerging trends and interpretations of statutory and other regulatory requirements 1.2 Research audit reports and practices to assess methodologies and recommendations

ELEMENT	PERFORMANCE CRITERIA
2. Identify corporate governance reporting trends	<p>2.1 Analyse organisational practices to identify corporate governance obligations and performance</p> <p>2.2 Examine queries from statutory and other regulatory authorities for corporate governance failure to assess change effects on internal control procedures</p> <p>2.3 Assess content and structure of reports, returns and processes for review to evaluate policies being followed by organisation</p>
3. Determine processes for corporate governance adherence	<p>3.1 Analyse and monitor internal control procedures to determine performance indicators for compliance with corporate governance requirements</p> <p>3.2 Evaluate information technology systems to determine their use and suitability for recording data from operations and transactions for corporate governance obligations</p> <p>3.3 Establish management processes to support corporate governance</p> <p>3.4 Establish reporting plans to ensure completion of compliance requirements within scheduled timeframes</p>
4. Review corporate governance compliance	<p>4.1 Assess achievement of performance indicators and review against key result areas</p> <p>4.2 Monitor compliance preparation processes and review in line with corporate governance requirements</p> <p>4.3 Analyse failures in compliance to diagnose shortcomings and to remedy processes in line with corporate governance requirements</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 2.1-2.3, 3.1, 3.2, 4.1	<ul style="list-style-type: none"> Accesses and critically analyses complex documentation, including relevant corporate governance legislation, to identify key information relevant to requirements
Writing	3.3, 3.4	<ul style="list-style-type: none"> Produces a range of written documentation, matching style of writing to the audience and purpose

		<ul style="list-style-type: none"> • Uses clear language, correct terminology, grammar and spelling to convey meaning
Numeracy	1.2, 2.3	<ul style="list-style-type: none"> • Accurately analyses financial and numerical information embedded in a range of texts and tasks to evaluate requirements
Navigate the world of work	1.1, 1.2, 2.1-2.3	<ul style="list-style-type: none"> • Ensures currency of knowledge relating to legislation, regulations and policies applicable to governance and professional requirements • Takes full responsibility for following policies, procedures and legislative requirements and identifies organisational implications of changes to legislation or regulations
Interacts with others	1.2, 2.1, 2.2	<ul style="list-style-type: none"> • Consults with personnel on internal procedures using questioning and active listening to elicit, convey and clarify information
Get the work done	1.1, 2.1-2.3, 3.1-3.4, 4.1-4.3	<ul style="list-style-type: none"> • Plans, organises, implements and reviews systems and processes to manage compliance with relevant regulations and legislation • Takes responsibility for planning, sequencing and prioritising complex tasks and own workload for efficiency and effective outcomes • Uses systematic analytical problem-solving processes in complex, routine and non-routine situations, gathering information and identifying and evaluating options against criteria • Evaluates the effectiveness of systems and processes to inform decisions on how to implement improvements • Recognises and anticipates a range of problems, implementing contingency plans when appropriate • Recognises opportunities to develop and apply new ideas • Uses a range of digital technologies to access, extract and share relevant information to achieve required outcomes

Assessment Requirements for FNSACC604 Monitor corporate governance activities

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- research corporate governance reporting trends
- determine processes for monitoring corporate governance adherence
- examine and review corporate governance standards and practices following:
 - professional accounting standards
 - organisational policy and procedures
 - statutory and regulatory requirements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- access and accurately interpret authority regulations and requirements
- identify and explain the key features of current financial legislation, and statutory and regulatory requirements
- explain the current formats required for submission of statutory returns
- discuss ethical considerations relating to compliance and governance
- outline the key management processes that support corporate governance
- identify and explain the forms and functions of employee records
- identify and explain the key principles of:
 - internal control
 - valuation and common methods of depreciation
- discuss the significance of performance indicators and key result areas relevant to monitoring corporate governance activities.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the accounting field of work and include access to:

- common office equipment, technology, software and consumables
- an integrated financial software system and data
- corporate governance documentation and organisational operational policy and procedures information.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSACC605 Implement organisational improvement programs

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to review current organisational improvement programs, contribute to strategic development, develop options for improvement and establish systems to support changes in resources management.

It applies to experienced individuals who use systematic approaches and problem-solving skills to evaluate operational effectiveness and implement change.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Accounting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Review programs	1.1 Compare program costs and estimates with budget allocations and financial projections 1.2 Analyse impact of revenue, cost and operational changes on program, together with project completion costs plus program objectives and estimate using standard financial analysis and resource management techniques 1.3 Evaluate program outcomes and performance against

ELEMENT	PERFORMANCE CRITERIA
	<p>objectives to identify variations, contingencies and scope for review and development</p> <p>1.4 Assess financing options, including costs, timeframes and expected returns, against program goals and objectives</p>
2. Contribute to strategic development	<p>2.1 Develop long-term financial objectives and resource management objectives to support organisational goals and aims</p> <p>2.2 Identify trends and environmental factors through consultation and use of standard financial analysis and resource management techniques</p> <p>2.3 Make realistic assessments of financial and resource management implications of external influencing factors on future objectives and present position</p> <p>2.4 Evaluate organisational strengths and weaknesses against external relationships and environmental factors</p>
3. Develop options for improvement	<p>3.1 Identify causes of variations in projected organisational outcomes, and develop and implement appropriate contingency plans to minimise losses</p> <p>3.2 Regularly review organisational plans to encompass changes to operational environment and assess factors influencing achievement of objectives</p> <p>3.3 Identify and evaluate improvement options against organisational weaknesses</p>
4. Establish systems to support change	<p>4.1 Ensure strategic reviews monitor program allocations, including analysis of resource management needs, information technology needs and management processes</p> <p>4.2 Monitor expenditure and revenue items to ensure compliance with budget and variations identified</p> <p>4.3 Systematically communicate aims and goals of identified changes to staff and personnel using recognised communication processes and techniques</p> <p>4.4 Ensure information on changes is readily available, and develop procedures and guidelines to promote absorption of changes into organisational practices</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.4, 4.2	<ul style="list-style-type: none"> Critically analyses complex documentation including relevant organisational policy and strategies to identify and consolidate relevant information
Writing	2.1, 2.2, 3.1, 4.3, 4.4	<ul style="list-style-type: none"> Uses clear language, concepts and terminology to effectively produce a range of written documentation that matches style of writing to the audience and purpose
Oral Communication	2.2, 4.3	<ul style="list-style-type: none"> Participates effectively in verbal exchanges using active listening and questioning to elicit, convey and clarify information with a wide range of personnel
Numeracy	1.1-1.4, 2.2, 2.3	<ul style="list-style-type: none"> Access and accurately interprets financial and numerical information embedded in a range of texts and tasks Performs calculations and uses mathematical problem-solving techniques to analyse, compare and evaluate financial data
Navigate the world of work	2.1, 2.2, 3.1, 4.1, 4.4	<ul style="list-style-type: none"> Ensures currency of knowledge relating to legislation, regulations and policies applicable to resource management and professional requirements Develops, implements and reviews strategies to ensure organisational policy, procedures and regulatory requirements are met
Interact with others	2.2, 4.3	<ul style="list-style-type: none"> Uses collaborative techniques to engage personnel in consultations and negotiations Uses appropriate conventions and protocols when communicating with personnel about changes to systems
Get the work done	1.1-1.4, 2.2-2.4, 3.1-3.3, 4.1-4.4	<ul style="list-style-type: none"> Takes responsibility for planning, sequencing and prioritising complex tasks and own workload for efficiency and effective outcomes Develops plans for complex activities with strategic implications for the organisation Uses systematic analytical problem-solving processes in complex, routine and non-routine situations, gathering information and identifying and evaluating options against criteria Evaluates effectiveness of systems and processes to inform decisions on how to implement improvements

		<ul style="list-style-type: none"> • Recognises and anticipates a range of problems, implementing contingency plans when appropriate • Uses digital technologies to access, extract and share relevant information to achieve required outcomes

Assessment Requirements for FNSACC605 Implement organisational improvement programs

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- review programs using standard financial analysis management techniques
- contribute to strategic development through development or implementation of strategic plans
- develop and document options for improvement
- establish systems to support and communicate change.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- discuss issues of organisational compliance with legislation
- identify and explain the key features of financial legislation relevant to taxable transactions and reporting requirements
- compare and contrast financial planning and analysis techniques
- outline the key features of recording and information management systems
- identify the key principles of:
 - cost–benefit analysis
 - internal control, including statutory requirements
 - resource management.
 -

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the accounting field of work and include access to:

- common office equipment, technology, software and consumables
- organisational policy and procedures documentation and operational data.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSACC606 Conduct internal audit

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to evaluate information systems and assess an organisation's risks as part of an internal audit process.

It applies to individuals who use specialised knowledge, analytical skills and systematic approaches to evaluate and improve organisational systems and compliance requirements.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Pre-requisite Unit

FNSACC506 A	Implement and maintain internal control procedures
----------------	--

Unit Sector

Accounting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Evaluate information	1.1 Evaluate system specifications against user requirements and

ELEMENT	PERFORMANCE CRITERIA
systems	<p>feedback to identify redundancies and constraints, and capacities of information technology</p> <p>1.2 Identify hardware and software needs from assessment of available products and services</p> <p>1.3 Evaluate possible uses and handling of accounting data in consultation with users to determine security requirements</p> <p>1.4 Analyse organisational procedures and policy to evaluate scope of strategies for risk management, internal control of expenditure and compliance with statutory requirements</p> <p>1.5 Monitor and record enquiries regarding use of systems to ensure ongoing evaluation</p>
2. Develop implementation plans	<p>2.1 Review internal control systems to determine any implementation issues that impact on organisational processes</p> <p>2.2 Analyse strengths and weaknesses of organisational processes, including present and future capacities, and incorporate in implementation plan</p> <p>2.3 Design implementation to cover outcomes, resource use, costs, and achievement and maintenance of professional accounting standards</p> <p>2.4 Establish schedules that are realistic and feasible in context of organisation's short-term and long-term objectives</p>
3. Review resource use	<p>3.1 Monitor sources of data input to identify influences and variations in returns and costs</p> <p>3.2 Monitor estimates of stock levels and review to ensure appropriate stocking and ordering of materials and inventory items</p> <p>3.3 Compare records of resource use with unit cost estimates to evaluate projected costs</p> <p>3.4 Analyse factors influencing resource use in future to assess impact on operations and objectives</p>
4. Monitor plans	<p>4.1 Adjust implementation to take account of emerging external influences and establishment of alternative targets</p> <p>4.2 Monitor and control costs of plans by evaluating net benefits to operations from allocation of resources</p> <p>4.3 Adjust internal control systems to ensure maintenance and achievement of accounting standards</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 1.4, 2.1, 2.2, 3.1, 3.2	<ul style="list-style-type: none"> Accesses and evaluates complex information and documentation from a range of sources to determine requirements
Writing	1.3, 1.5, 2.2, 2.4	<ul style="list-style-type: none"> Produces reports and plans that sequence and structure information logically Uses a writing style and concepts appropriate for the audience and purpose
Oral Communication	1.3	<ul style="list-style-type: none"> Effectively engages others in verbal exchanges using active listening and questioning to elicit, clarify and convey information
Numeracy	3.1-3.3, 4.2	<ul style="list-style-type: none"> Accurately identifies and analyses financial and numerical information embedded in a range of texts and tasks Performs mathematical calculations to check the accuracy and completeness of numerical and financial data, with a focus on identifying errors and discrepancies
Navigate the world of work	1.4, 2.1, 2.3, 4.3	<ul style="list-style-type: none"> Develops, implements and reviews strategies to ensure organisational policy, procedures and regulatory requirements are met
Get the work done	1.1-1.5, 2.1- 2.4, 3.1-3.4, 4.1-4.2	<ul style="list-style-type: none"> Takes responsibility for planning, sequencing and prioritising complex tasks and own workload for efficiency and effective outcomes Develops plans to introduce new systems and processes with strategic implications for the organisation Uses systematic analytical problem-solving processes in complex, routine and non-routine situations, gathering information and identifying and evaluating options against criteria Evaluates the effectiveness of systems and processes to inform decisions on how to implement improvements Recognises and anticipates a range of problems, implementing contingency plans when appropriate Uses digital technologies to access, extract and share relevant information to achieve required outcomes Actively identifies systems, devices and applications with potential to meet needs, including consideration

		of data security

Assessment Requirements for FNSACC606 Conduct internal audit

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- conduct internal audit that complies with organisational policy and procedures, and includes:
 - use of professional accounting standards to identify strengths and weaknesses
 - assessment of internal control systems
 - evaluation of information systems
 - review of resources
 - development and monitoring of implementation plans.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline the key considerations when reviewing system requirements and specifications
- compare and contrast recording and information management systems and software applicable to financial recording
- explain the key principles of internal control, including statutory requirements
- outline the key features of risk management strategies
- discuss ethical considerations for records and file management
- identify and explain the key features of relevant financial legislation relating to taxable transactions and reporting requirements.
-

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the accounting field of work and include access to:

- common office equipment, technology, software and consumables
- an integrated financial software system and data.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSACC607 Evaluate business performance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to analyse trends in an organisation's business operations, develop performance indicators and identify options for improvement.

It applies to experienced individuals who use specialised knowledge and skills to evaluate complex information and make recommendations relevant to strategic organisational activity.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Pre-requisite Unit

FNSACC501	Provide financial and business performance information
-----------	--

Unit Sector

Accounting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Analyse trends in	1.1 Gather and analyse data relating to program and organisational

ELEMENT	PERFORMANCE CRITERIA
performance	<p>performance using standard accounting techniques to identify past, current and future performance</p> <p>1.2 Research variations from targets and divergences from trends, and evaluate to determine margins of error and any repeating patterns</p> <p>1.3 Assess trends in performance in terms of organisational short-term and long-term objectives</p>
2. Develop performance indicators	<p>2.1 Develop performance indicators that link organisational processes, resource use and organisational objectives to environmental factors</p> <p>2.2 Develop performance indicators using processes that are planned, inclusive and realistic within available timeframes and resources</p> <p>2.3 Regularly review components of performance indicators for relevance against performance trends and organisational capacities</p>
3. Identify options for improvement	<p>3.1 Identify, minimise or eliminate factors inhibiting performance and review organisational programs to include factors that promote performance in line with available resources</p> <p>3.2 Ensure value is added through use of standard financial management techniques such as capital budgeting</p> <p>3.3 Develop and implement communication strategies to facilitate extension of improvement options in line with operational goals and needs</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 2.3	<ul style="list-style-type: none"> Analyses, evaluates, consolidates and manages information from a range of sources to determine requirements
Writing	1.1, 2.1, 2.2, 3.3	<ul style="list-style-type: none"> Uses clear language, concepts and terminology to effectively produce a range of written documentation appropriate to the audience and purpose

Oral Communication	3.3	<ul style="list-style-type: none"> Participates in verbal exchanges using clear language and questioning and active listening to convey and confirm information
Numeracy	1.1-1.3, 2.1-2.3, 3.2	<ul style="list-style-type: none"> Performs mathematical calculations and uses a range of mathematical problem-solving techniques to analyse trends and to estimate and forecast financial data
Navigate the world of work	1.1, 1.3, 2.1, 3.3	<ul style="list-style-type: none"> Takes a lead role in monitoring the achievement of organisational goals and objectives to plan and implement improvements
Interact with others	3.3	<ul style="list-style-type: none"> Develops and uses appropriate conventions and protocols to communicate changes to personnel
Get the work done	1.1-1.3, 2.1-2.3, 3.1-3.3	<ul style="list-style-type: none"> Takes responsibility for planning, sequencing, scheduling and monitoring complex tasks and own workload for efficiency and effective outcomes Develops plans for complex activities with strategic implications for the organisation Uses systematic analytical problem-solving processes in complex, routine and non-routine situations, gathering information and identifying and evaluating options against criteria Uses digital technologies to access and extract relevant information to achieve required outcomes

Assessment Requirements for FNSACC608 Evaluate organisation's financial performance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- evaluate returns to operations using standard financial analysis and accounting techniques, and following organisational policy and procedures
- determine long-term and short-term organisational needs
- review and monitor financial performance across an organisation
- assess risk strategies and make recommendations regarding financial performance.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- discuss techniques for developing long-term and short-term plans, and determining financial priorities
- explain the purpose and key features of standard financial analysis techniques and business review processes
- explain the role of audits in evaluating financial performance
- discuss ethical considerations in evaluating financial performance
- identify and explain the key features of financial legislation relating to the evaluation of financial performance
- identify and explain the key principles of:
 - cash flow and budgetary control
 - cost-benefit analysis and use of forecasting techniques
 - internal control, including statutory requirements
- outline the key features of organisational structures and lines of management authority
- discuss strategies for risk identification and management.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the accounting field of work and include access to:

- common office equipment, technology, software and consumables
- an integrated financial software system and/or data.

Assessors must satisfy NVR/AQTF assessor requirements.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>

ELEMENT	PERFORMANCE CRITERIA
1. Assess financial risk exposure	<p>1.1 Identify and measure magnitude and volatility of organisational risks to determine extent of risk exposure and implications for financial strategies</p> <p>1.2 Identify key factors supporting or driving risk exposure and establish timeframes to monitor and improve performance</p> <p>1.3 Compare short-term and long-term financial outcomes and projections with actual cash flows using standard financial analysis techniques to determine effects on liquidity and budget adjustments</p>
2. Develop risk management processes	<p>2.1 Ensure risk management options include assessments of alternatives, criteria for success and estimates of long-term and short-term effects</p> <p>2.2 Identify and evaluate key ethical, legislative and organisational considerations for risk management options</p> <p>2.3 Develop strategies using standard financial analysis techniques to identify financial flows, trends in returns and adjustments in asset values</p> <p>2.4 Establish financial recording systems to monitor and evaluate changes in market conditions and business needs using range of data sources</p> <p>2.5 Develop risk management strategies that optimise mix of asset structures and liabilities in operations and ensure flexibility to meet changing environments</p>
3. Analyse financial histories	<p>3.1 Evaluate financial performance using trends and patterns that identify magnitude and volatility of financial exposures</p> <p>3.2 Compare long-term and short-term financial outcomes with forecast outcomes to assess variances and parameters in performance and reliability of financial advice</p> <p>3.3 Identify and analyse incidents and factors increasing or diminishing financial performance using standard financial analysis techniques</p>
4. Establish processes to minimise risks	<p>4.1 Develop and review recording systems to monitor financial outcomes and to guide and document decision making</p> <p>4.2 Maintain and establish inventories to ensure up-to-date records on value of assets and liabilities</p> <p>4.3 Assess contribution of organisational attitudes to risk taking and incorporate in risk analysis process</p> <p>4.4 Develop, review and communicate parameters for variances in</p>

ELEMENT	PERFORMANCE CRITERIA
	financial outcomes to support financial decision making

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Assessment Requirements for FNSACC609 Evaluate financial risk

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- apply standard financial analysis techniques and knowledge of an organisation's attitude to risk to identify and assess financial risk
- develop risk management processes that comply with relevant ethical, legislative and organisational requirements
- establish processes to minimise risks based on analysis of financial histories.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and discuss the key ethical considerations for compliance
- explain the key features of financial legislation relevant to financial risk and compliance
- compare and contrast methods of storing, recording and updating financial information and data
- explain the key principles of:
 - internal control, including statutory reporting
 - risk management and budgetary control
- explain organisational structures and lines of management authority.
-

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the accounting field of work and include access to:

- common office equipment, technology, software and consumables
- an integrated financial software system and data.

Assessors must satisfy NVR/AQTF assessor requirements.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>

ELEMENT	PERFORMANCE CRITERIA
1. Review data	<p>1.1 Analyse costs of and returns from assets and liabilities using standard accounting techniques to identify extent of debt and equity financing</p> <p>1.2 Use data to identify costs of different forms of capital to organisation</p> <p>1.3 Standardise asset and liability estimates and valuation criteria, and regularly adjust in line with changes to environmental factors</p>
2. Determine options	<p>2.1 Establish long-term and short-term periods for organisation by reference to strategic goals, cash flow requirements and operational objectives</p> <p>2.2 Identify long-term financing requirements and cost in line with organisation's expected revenue returns, cash flows and asset base</p> <p>2.3 Research sources of financing and evaluate to determine compatibility with organisation's finance strategy</p> <p>2.4 Identify and examine investment analysis and financial planning requirements</p>
3. Implement strategies	<p>3.1 Structure financial plans to meet strategic goals and provide returns within long-term and short-term operational objectives</p> <p>3.2 Develop short-term and long-term objectives for organisation's capital structure in line with operational and strategic plans</p> <p>3.3 Establish internal control procedures in consultation with stakeholders to support implementation and to meet possible emergencies with portfolio management techniques applied</p>
4. Evaluate outcomes	<p>4.1 Monitor interrelationships between long-term and short-term objectives to ensure consistency of returns between operational and investment plans</p> <p>4.2 Assess costs and returns to determine ongoing viability of strategy</p> <p>4.3 Regularly review tax efficiency of financial strategy to maintain optimal returns from assets</p>

Foundation Skills

Assessment Requirements for FNSACC610 Develop and implement financial strategies

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- review and analyse financial data using:
 - standard accounting techniques
 - knowledge of internal control procedures
 - organisational strategic goals
 - range of environmental factors
- determine viable financial options and implement appropriate strategies
- monitor and evaluate outcomes of implemented strategies.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe the types and sources of data and information used to analyse financial strategies
- compare and contrast methods of:
 - financial evaluation
 - storing, recording and updating financial information
- identify and explain the key principles of:
 - cost–benefit analysis and forecasting techniques
 - internal control, including statutory requirements
 - risk management and budgetary control
- explain organisational structures and lines of management authority.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the accounting field of work and include access to:

- common office equipment, technology, software and consumables
- an integrated financial software system and data.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSACC611 Implement an insolvency program

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to evaluate options, establish timelines and objectives, and monitor progress and plans for business insolvency.

It applies to individuals who use specialised knowledge and skills to analyse complex financial situations and implement recommended options.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Accounting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Evaluate options for insolvency	1.1 Identify, locate and secure assets and liabilities to be included in insolvency 1.2 Interpret insolvency plans to determine operational decisions in consultation with stakeholders 1.3 Estimate potential returns from realisation of assets from assessment of market values, and fees and expenses

ELEMENT	PERFORMANCE CRITERIA
	<p>1.4 Identify, evaluate and resolve claims of creditors using agreed criteria and standard accounting practices</p> <p>1.5 Make decisions regarding insolvency using agreed criteria</p>
2. Establish timelines and objectives	<p>2.1 Develop and confirm milestones for completion of project tasks as part of insolvency plan</p> <p>2.2 Develop implementation schedules with defined target dates and communicate to stakeholders</p> <p>2.3 Allocate operational liaison and reporting responsibilities to ensure completion of tasks</p>
3. Monitor progress	<p>3.1 Identify, acquire and validate data relevant to insolvency program</p> <p>3.2 Analyse outcomes of insolvency plan and document in accordance with established forms of insolvency administration, statutory requirements and codes of conduct</p> <p>3.3 Support day-to-day administration of program through liaison and regular reporting</p> <p>3.4 Assess delays in implementation and develop and negotiate solutions</p> <p>3.5 Ensure recommendations to clients are clear, concrete and based on reasoned examination of data</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Learning	1.1, 3.2, 3.5	<ul style="list-style-type: none"> Analyses information to build own knowledge and personal competence relating to best practice in relevant area
Reading	1.1, 1.2, 1.4, 3.1	<ul style="list-style-type: none"> Interprets and analyses complex written information and financial data to make recommendations and justify decisions
Writing	1.2, 2.1, 2.2, 3.2-3.5	<ul style="list-style-type: none"> Prepares logically structured plans and reports that clearly and concisely explain complex relationships between relevant information, financial data and recommendations

Oral Communication	1.2, 2.2, 3.3-3.5	<ul style="list-style-type: none"> Uses collaborative techniques, including active listening and questioning, to elicit, convey and clarify information with a range of personnel
Numeracy	1.3, 1.4, 3.2	<ul style="list-style-type: none"> Performs mathematical calculations and uses a range of mathematical problem-solving techniques to analyse, estimate and forecast financial data
Navigate the world of work	1.4, 1.5, 2.3, 3.3, 3.5	<ul style="list-style-type: none"> Monitors adherence to legal and regulatory requirements, and recommends and implements changes to policies, procedures or processes where these are deemed necessary
Interact with others	1.2, 2.2, 3.3-3.5	<ul style="list-style-type: none"> Collaborates with others to achieve mutually agreeable outcomes while maintaining confidences and ethical practices
Get the work done	1.1-1.5, 2.1-2.3, 3.1, 3.3	<ul style="list-style-type: none"> Organises, plans and sequences own workload and schedules insolvency activity monitoring and reporting Uses problem-solving processes to identify insolvency planning issues that have the potential to impact on organisations and to develop options to resolve these issues when they arise Applies systematic and analytical decision-making processes in situations that impact on the work of self and others Uses a range of digital technologies to access, extract and share relevant information using integrated financial systems

Assessment Requirements for FNSACC611 Implement an insolvency program

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- analyse relevant financial data and evaluate potential insolvency options that comply with statutory requirements
- establish timelines and objectives for an insolvency plan
- monitor progress and adjust plan as required.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the key features of comprehensive practices and principles of insolvency administration
- identify and describe depreciation methods allowed by tax authorities
- outline the key duties and responsibilities of insolvency administrators and liquidators
- identify and discuss the key ethical considerations for the handling of financial insolvency such as:
 - conflict of interest
 - confidentiality
 - disclosure requirements
- identify and describe the forms and functions of employee records
- identify and explain the key features of legislation relating to insolvency management, covering the following:
 - corporations
 - taxation assessment
 - workplace relations

- privacy
- consumer and competition
- identify and explain the key principles and practices of double-entry bookkeeping and accrual accounting in budgetary control
- explain the valuation and processes for asset disposal.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the accounting field of work and include access to:

- common office equipment, technology, software and consumables
- an integrated financial software system and data.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSACC612 Implement reconstruction plan

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to manage plans for the reestablishment of business operations by establishing timelines and objectives, monitoring progress and planning for disaster.

It applies to individuals who use specialised knowledge and have well-developed problem-solving and organisational skills to develop options and implement strategies for clients.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Accounting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Evaluate options for reconstruction	1.1 Identify, locate and secure assets and liabilities to be included in reconstruction plan 1.2 Analyse organisation's comparative market position to identify advantages and disadvantages of operations 1.3 Ensure sources of financing are tax efficient and that optimal

ELEMENT	PERFORMANCE CRITERIA
	<p>balances are achieved between minimising costs of servicing, financing and maintaining liquidity</p> <p>1.4 Establish and assess short-term and long-term financial obligations for organisation against client objectives and expectations</p> <p>1.5 Establish reconstruction milestones in consultation with stakeholders to identify significant deviations from expected returns</p> <p>1.6 Identify relevant legislative and regulatory requirements impacting on insolvency and reconstruction options</p>
2. Establish timelines and objectives	<p>2.1 Allocate operational liaison and reporting responsibilities to appropriate personnel to ensure completion of tasks</p> <p>2.2 Develop implementation schedules with defined target dates, and communicate and confirm with stakeholders</p> <p>2.3 Develop, modify and agree on performance indicators for completion of projects in planning process</p>
3. Monitor progress	<p>3.1 Identify, acquire and validate operational data relevant to reconstruction plan</p> <p>3.2 Support day-to-day administration of program by liaison and regular reporting</p> <p>3.3 Assess delays and bottlenecks in implementation, and develop and negotiate solutions</p> <p>3.4 Analyse and document results of progress in accordance with plan</p>
4. Plan for disaster	<p>4.1 Confirm triggers for implementation arrangements with stakeholders and communicate to relevant personnel</p> <p>4.2 Establish and document contingency plans in line with operational performance indicators</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description

Reading	1.1, 1.2, 3.4, 4.1	<ul style="list-style-type: none"> Accesses and interprets complex documentation from a range of sources to identify key information
Writing	2.2, 2.3, 3.2-3.4, 4.1, 4.2	<ul style="list-style-type: none"> Prepares logically structured and sequenced plans and schedules using clear language, concepts and terminology appropriate for the purpose
Oral Communication	1.4, 1.5, 2.2, 3.2, 3.3, 4.1	<ul style="list-style-type: none"> Conveys information using clear language and concepts, and tone and pace appropriate for the audience and purpose Participates effectively in verbal exchanges using active listening and questioning to confirm options and actions with a range of stakeholders
Numeracy	1.1-1.3, 3.1	<ul style="list-style-type: none"> Performs mathematical calculations and uses a range of mathematical problem-solving techniques to analyse, estimate and forecast financial data
Navigate the world of work	1.6, 4.1, 4.2	<ul style="list-style-type: none"> Monitors adherence to legal and regulatory requirements and recommends changes to policies, procedures or processes where these are deemed necessary
Interact with others	1.4, 1.5, 2.1, 2.2, 3.2, 3.3, 4.1	<ul style="list-style-type: none"> Identifies and uses appropriate conventions and protocols when communicating with colleagues and external stakeholders Collaborates and negotiates with others to achieve joint outcomes, playing an active role in facilitating consensus
Get the work done	1.1-1.5, 2.1, 2.3, 3.1-3.4, 4.1, 4.2	<ul style="list-style-type: none"> Plans, sequences and implements complex activities and correctly schedules reconstruction activity monitoring and reporting Uses systematic analytical problem-solving processes in complex, routine and non-routine situations, gathering information and identifying and evaluating options against criteria Uses digital technologies to access, organise and analyse complex data

Assessment Requirements for FNSACC613 Prepare and analyse management accounting information

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the of the ability to:

- gather and record operating and cost data in accordance with organisational policy and procedures
- determine cost and operating standards for a costing system
- analyse data and assign costs to comply with organisational procedures
- prepare a range of cost reports and budgets to meet management information requirements
- analyse variances against budget and standards
- recommend changes to cost and activity standards
- recommend further actions required resulting from review process
- review integrity of costing systems.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and describe cost behaviour characteristics for the different cost elements of a product or service
- describe the principles of double-entry bookkeeping and accrual-based accounting
- identify and discuss the key features of organisational policy and procedures as they apply to costing systems
- identify and explain the key principles and practices of budget preparation
- discuss the relationship between variance analysis and costing system integrity
- explain the key processes and procedures for recording and securely storing data.
-

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the accounting field of work and include access to:

- common office equipment, technology, software and consumables
- an integrated financial software system and data.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSACC614 Prepare complex corporate financial reports

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to compile and analyse financial data, identify appropriate reporting requirements, and develop and prepare complex financial reports for reporting entities.

It applies to individuals who use specialised knowledge and systematic approaches to construct detailed reports following specific guidelines and compliance requirements.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Pre-requisite Unit

FNSACC504 A	Prepare financial reports for corporate entities
----------------	--

Unit Sector

Accounting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>

ELEMENT	PERFORMANCE CRITERIA
1. Compile data	<p>1.1 Obtain, systematically code and classify data, and check for accuracy and reliability in accordance with organisational policy, procedures and accounting standards</p> <p>1.2 Use conversion and consolidation procedures to compile data in accordance with organisational policy and procedures</p> <p>1.3 Identify and record valuations in compliance with relevant accounting standards and effects of taxation</p>
2. Identify appropriate reporting entities	<p>2.1 Identify partially owned subsidiaries and controlled entities</p> <p>2.2 Identify joint ventures and other entities to be included in reports</p> <p>2.3 Identify and apply appropriate accounting treatments for reporting entities</p>
3. Prepare reports	<p>3.1 Ensure structure and format of reports that may include charts, diagrams and supporting data are clear and conform to statutory and other regulatory requirements and organisational procedures</p> <p>3.2 Ensure statements and data are accurate, comprehensive and comply with statutory and other regulatory requirements and organisational procedures</p> <p>3.3 Prepare reports in accordance with corporation law, accounting standards, securities exchange listing requirements and Generally Accepted Accounting Principles (GAAP), and comply with disclosure requirements</p>
4. Analyse reports	<p>4.1 Identify significant issues in statements, including comparative financial performances</p> <p>4.2 Report implications of analysis to appropriate levels of management and external bodies</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.3, 2.1-2.3, 3.2, 4.1	<ul style="list-style-type: none"> Accesses, classifies and critically analyses complex information to identify key aspects required to prepare reports

		<ul style="list-style-type: none"> Proofreads and checks for accuracy and completeness of data and information

Assessment Requirements for FNSACC614 Prepare complex corporate financial reports

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- compile, analyse and validate complex financial data
- prepare complex corporate reports for reporting entities that comply with:
 - organisational policy and procedures
 - statutory requirements
 - accounting standards.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify appropriate key reporting entities and their main purposes and roles
- outline the key types and sources of data required for complex financial reports
- outline the key features of integrated accounting computerised systems
- identify and explain the key features of business taxation requirements
- discuss ethical considerations relating to conflict of interest, confidentiality and disclosure requirements
- explain the key features of financial legislation and statutory requirements relating to delegated authorities, disclosure requirements, reporting periods and taxation payment timings
- compare and contrast methods of presenting financial data
- explain options, methods and practices for deductions, benefits and depreciations
- identify and explain the key features of organisational guidelines and procedures
- identify and explain the key principles of double-entry bookkeeping and accrual accounting

- identify and discuss issues relevant to business legal requirements.
-

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the accounting field of work and include access to:

- common office equipment, technology, software and consumables
- an integrated financial software system and data.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSACM301 Administer financial accounts

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to correctly allocate payments, reconcile accounts and maintain customer details.

It applies to individuals who may work as part of a finance or accounting team in organisations.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Account management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Allocate customer payments	1.1 Allocate payments correctly to appropriate customer accounts and bank receipts according to organisational policy and procedures 1.2 Serve customers promptly and complete and process documentation quickly and accurately to maximise customer satisfaction
2. Reconcile accounts	2.1 Respond to customer billing or account queries and apply billing adjustments accurately, if required

ELEMENT	PERFORMANCE CRITERIA
	2.2 Respond to customer complaints promptly in accordance with organisational policy
3. Maintain customer details	3.1 Maintain accurate and up-to-date details on customer account files 3.2 Check sources of customer details for reliability and verify where necessary

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance

Skill	Performance Criteria	Description
Reading	1.1, 2.1, 2.2, 3.1, 3.2	<ul style="list-style-type: none"> Interprets and analyses textual information to gather detailed information and confirm requirements
Writing	1.1, 1.2, 2.1, 2.2, 3.1	<ul style="list-style-type: none"> Records key information relevant to requirements using basic punctuation, text and correct spelling
Oral Communication	1.2, 2.1, 2.2, 3.2	<ul style="list-style-type: none"> Uses listening and questioning techniques to confirm understanding of requirements Uses clear, specific and culturally sensitive language to convey information
Numeracy	1.1, 2.1, 3.1	<ul style="list-style-type: none"> Accesses and checks numerical information embedded in a range of texts
Navigate the world of work	1.1, 2.2	<ul style="list-style-type: none"> Recognises and follows organisational protocols, policy and procedures relevant to own role
Interact with others	1.2, 2.2, 3.2	<ul style="list-style-type: none"> Follows accepted communication practices and protocols, adjusting personal communication style in response to the values, beliefs and cultural expectations of different customers
Get the work done	1.1, 1.2, 2.1, 2.2, 3.1, 3.2	<ul style="list-style-type: none"> Plans, organises and implements tasks according to organisational requirements Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for FNSACM302 Prepare, match and process receipts

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- check, batch and match receipts accurately to relevant documentation following organisational policy and procedures for processing receipts
- follow up discrepancies with appropriate personnel to solve outstanding issues
- enter data into the organisational systems and correctly file documentation.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify the key requirements of legislation relevant to payment systems
- outline organisational policy and procedures relating to receipting payments
- identify possible areas of discrepancy when processing receipts.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the account management field of work and include access to:

- common office equipment, technology, software and consumables
- an integrated financial software system and data.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSACM303 Process payment documentation

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required when processing payment facilities.

It applies to individuals who may work under supervision but have responsibility in ensuring the prompt and accurate processing of customer requests.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Account management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Enter data to system	1.1 Enter data into systems without error and within time requirements in accordance with organisational policy and procedures 1.2 Allocate data to correct systems and accounts, and update related systems 1.3 Maintain system controls to ensure integrity and security of customer and payee database
2. Create payment facility	2.1 Process payment facility accurately in accordance with organisational policy and procedures

ELEMENT	PERFORMANCE CRITERIA
	2.2 Maintain documentation in secure manner to protect privacy and interests of all parties
3. Verify payments against documentation	3.1 Confirm payment authorisation, with information on payment facility matching approved documentation 3.2 Identify discrepancies and follow up promptly
4. Effect payments	4.1 Make payments within agreed credit arrangements in accordance with organisational policy and procedures, and industry and legislative requirements 4.2 Ensure payment instruments are signed in accordance with relevant authority levels, and related systems updated promptly to ensure that integrity of accounting systems is maintained 4.3 Cancel or note primary documentation associated with payment to ensure multiple payments are not made
5. File documentation	5.1 File documentation promptly in accordance with organisational policy and procedures 5.2 File documentation in location that is accessible and easily traceable

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Assessment Requirements for FNSASIC301 Establish client relationship and analyse needs

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- work effectively with clients to collect relevant personal and/or business information that will enable identification of their objectives, needs, expectations, financial situation and risk profile
- interpret and comply with relevant industry regulations and codes of practice requirements that relate to the provision of financial product advice
- analyse client information and assess client risk profile to determine the characteristics of financial products and services relevant to client needs.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must satisfy the knowledge requirements relevant to the products and activities in which advice is given.

For general insurance, deposit products and non-cash payments and relevant first home saver account products the individual must:

- explain the legal environment including disclosure and compliance covering:
 - role of the representative or adviser
 - relevant legal principles including the Corporations Act, Financial Services Reform Act (FSRA), Competition and Consumer Act, Insurance Contracts Act and Australian Securities and Investments Commission (ASIC) Act
 - the relationship between ethics and regulatory requirements including good faith, utmost good faith, full disclosure of remuneration and fees, and any other conflicts of interest which may influence the adviser's recommendation
- name relevant industry codes of practice and conduct

- identify complaints resolution procedures (internal and external)
- outline relevant ASIC regulatory guidelines.

For general insurance the individual must:

- summarise the characteristics and participants of Australian insurance markets and the roles played by intermediaries, and identify insurance products including:
 - definition of an insurance product
 - conditions, exclusions and level of coverage of risk transfer products
 - types of insurance products
 - pricing of risk products
- identify taxation issues relating to insurance products
- explain advisory functions including:
 - role of the representative, broker or adviser
 - participants in the insurance advisory services market
 - range of services provided
 - profile and financial information of the client
 - appropriateness of a risk assessment
- summarise the specific product knowledge for the general insurance products in which advice is given including:
 - standard cover (and deviations)
 - policy wordings
 - taxes and charges
 - insurance claims
 - premium rating and risk selection
 - reporting
 - product development
 - underwriting.

For deposit products and non-cash payment facilities the individual must:

- name the types of deposit products and non-cash payment products
- summarise the product characteristics.

For first home saver accounts the individual must:

- name the types of first home saver account products including the range of accounts, associated risks and alternative products
- summarise the product characteristics – eligibility and withdrawal, and government conditions
- explain the taxation issues relating to first home saver accounts.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial services and products advice field of work and include access to:

- office equipment, technology, software and consumables
- financial services product information.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSASIC302 Develop, present and negotiate client solutions

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- interpret and comply with industry regulations and codes of practice including, for insurance products, the required approval or authority to accept the transfer of risk
- explain the characteristics, benefits and impacts of financial products and services to clients
- present appropriate financial products and services to clients and successfully negotiate a plan, policy or transaction.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must satisfy the knowledge requirements relevant to the products and activities in which advice is given.

For general insurance, deposit products and non-cash payments and relevant first home saver account products the individual must:

- explain the legal environment including disclosure and compliance covering:
 - role of the representative or adviser
 - relevant legal principles including the Corporations Act, Financial Services Reform Act (FSRA), Competition and Consumer Act, Insurance Contracts Act and Australian Securities and Investments Commission (ASIC) Act
 - relationship between ethics and regulatory requirements including good faith, utmost good faith, full disclosure of remuneration and fees, and any other conflicts of interest which may influence the adviser's recommendation
- name relevant industry codes of practice and conduct

- identify complaints resolution procedures (internal and external)
- outline relevant ASIC regulatory guidelines.

For general insurance the individual must:

- summarise the characteristics and participants of Australian insurance markets and the roles played by intermediaries, and identify insurance products including:
 - definition of an insurance product
 - conditions, exclusions and level of coverage of risk transfer products
 - types of insurance products
 - pricing of risk products
- identify taxation issues relating to insurance products
- explain advisory functions including:
 - role of the representative, broker or adviser
 - participants in the insurance advisory services market
 - range of services provided
 - profile and financial information of the client
 - appropriateness of a risk assessment
- summarise the specific product knowledge for the general insurance products in which advice is given including:
 - standard cover (and deviations)
 - policy wordings
 - taxes and charges
 - insurance claims
 - premium rating and risk selection
 - reporting
 - product development
 - underwriting.

For deposit products and non-cash payment facilities the individual must:

- name the types of deposit products and non-cash payment products
- summarise the product characteristics.

For first home saver accounts the individual must:

- name the types of first home saver account products including the range of accounts, associated risks and alternative products
- summarise the product characteristics – eligibility and withdrawal, and government conditions
- explain the taxation issues relating to first home saver accounts.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial services and products advice field of work and include access to:

- common office equipment, technology, software and consumable
- financial services product information.

Assessors must satisfy NVR/AQTF assessor requirements

FNSASIC303 Provide advice on first home saver account deposit products and non-cash payments

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to assess a client's financial requirements and accurately advise customers about financial products and services at the Australian Securities and Investments Commission (ASIC) Tier 2 level.

It applies to individuals who perform their duties skilfully and who are proficient communicators. They will need to satisfy the training requirements for authorisation by an Australian financial services licence (AFSL) holder to provide advice on first home saver account deposit products at Tier 2 level.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Pre-requisite Unit

FNSASIC301	Establish client relationship and analyse needs
FNSASIC302	Develop, present and negotiate client solutions

Unit Sector

ASIC units

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA

Assessment Requirements for FNSASIC303 Provide advice on first home saver account deposit products and non-cash payments

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- interpret and comply with industry regulations and codes of practice
- analyse client needs relevant to first home saver account deposit products and services, and develop strategies and solutions to meet client requirements
- finalise transactions, ensuring all documentation is completed accurately following organisational procedures.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must satisfy knowledge requirements relevant to the products and activities in which advice is given. They must:

- explain the legal environment including disclosure and compliance covering:
 - role of the representative or adviser
 - relevant legal principles relating to the Corporations Act, Financial Services Reform Act (FSRA), Competition and Consumer Act, Privacy Amendment (Private Sector) Act and Australian Securities and Investments Commission (ASIC) Act
 - relationship between ethics and regulatory requirements including good faith and utmost good faith
 - full disclosure of remuneration and fees and any other conflicts of interest which may influence the adviser's recommendation
 - relevant industry standards and codes of conduct
 - complaints resolution procedures (internal and external)
 - ASIC guidelines on adviser conduct and training

- outline the economic environment and characteristics impacting on first home saver account products including:
 - interest rates
 - exchange rates
 - inflation
 - government monetary and fiscal policy
- describe the operation of first home saver market institutions including:
 - banks
 - credit unions
 - building societies
- identify taxation issues in relation to first home saver accounts
- explain advisory functions including:
 - role of the representative or adviser
 - participants in the advisory services market
 - range of services provided
 - profile and financial information of the client
 - appropriateness of a risk assessment
- explain first home saver account financial products including:
 - general definition
 - age limitations
 - cooling-off period
 - interest paid – institution and government
 - fees and charges
 - non-cash payments:
 - direct debit
 - external funds transfer (EFT)
 - auto transfer
 - withdrawal limits and requirements
 - specific inclusions and exclusions
 - types of financial risk.
 -

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial services and products advice field of work and include access to:

- common office equipment, technology, software and consumables
- first home saver account deposit product information.

Assessors must satisfy NVR/AQTF assessor requirements

FNSASIC304 Provide Tier 2 general advice in general insurance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to assess a client's insurance prerequisites and accurately advise clients about financial products and services at the Australian Services and Investment Commission (ASIC) Tier 2 level.

It applies to individuals whose roles as non-broker insurance advisers require proficient communication and well-developed interpersonal skills to provide general advice in Tier 2 (standard retail general insurance) products to clients.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

ASIC units

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Deal with initial client enquiry for general insurance	1.1 Attend to client enquiries in timely and courteous manner 1.2 Demonstrate active listening skills when dealing with client enquiries and provide help and assistance to ensure full and accurate completion of initial documentation where required 1.3 Communicate clearly and unambiguously with clients to determine and clarify product of interest to them

ELEMENT	PERFORMANCE CRITERIA
	<p>1.4 Analyse range of products of interest to clients to determine their categorisation as areas of general advice in line with legislation and organisational policy</p> <p>1.5 Inform clients that general advice will be provided to them in relation to products of interest and that only personal information for underwriting and calculating cost of product will be sought</p> <p>1.6 Refer clients to suitable specialist personnel where required advice is deemed to fall outside category of general advice</p>
2. Prepare general advice to client	<p>2.1 Provide correct disclosure documentation in accordance with legislation and organisational policy</p> <p>2.2 Ensure that general advice warning is given to client in line with legislative and organisational policy</p> <p>2.3 Consider special communication needs of clients or client when delivering general advice warning</p>
3. Provide general advice	<p>3.1 Ensure that product advice is given to client in clear and unambiguous way, avoiding jargon, in language appropriate to receiver and using organisational tools</p> <p>3.2 Demonstrate appropriate product and industry knowledge when providing advice to client</p> <p>3.3 Explain and discuss product advice with client in language that avoids giving impression adviser has considered client's personal circumstances in providing advice</p> <p>3.4 Ensure that client is asked to consider appropriateness of advice for own circumstances</p> <p>3.5 Advise client to read product disclosure statement before making decision</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance

FNSASICL503 Provide advice in the regulated emissions market

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to analyse client needs and provide advice ethically and professionally on regulated emissions products and services, in compliance with industry regulations and codes of practice. It addresses the training requirements of current Australian Securities and Investments Commission (ASIC) and Australian financial services (AFS) licensing at Tier 1 level.

It applies to individuals who analyse client needs and provide advice about carbon markets products and services using well-developed interpersonal skills and proficient communication and self-management skills.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or ASIC for specific guidance on requirements.

Pre-requisite Unit

FNSFMK50 1	Analyse financial markets
FNSFMK50 2	Analyse financial market products for client
FNSFMK50 3	Advise clients on financial risk
FNSFMK51 2	Apply knowledge of the emissions market

Unit Sector

ASIC units

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish relationship with client	1.1 Establish relationship with client by communicating directly and openly 1.2 Inform client of role and capacity of adviser and licensee responsible for adviser's conduct 1.3 Establish client's understanding of regulated emissions market to determine range of services to be offered. 1.4 Explain scope and limitation of advice and services, including fee and charging methodology, procedures for complaints handling and circumstances in which they should be engaged 1.5 Respond to enquiries in relation to services and products to be provided in professional manner
2. Identify and analyse client's objectives, needs, financial situation and risk profile	2.1 Establish client's motivation for investing in regulated emissions market 2.2 Identify and document all relevant liabilities and assets for client, expectations of cash flow and any relevant taxation obligations 2.3 Identify client needs by encouraging expression of goals and objectives (short-term, medium-term and long-term) relevant to product 2.4 Assess client's risk profile and agree on rating with client 2.5 Explain investment implications for client for achieving objectives and needs based on client's risk profile, cash flow and taxation implications 2.6 Consult with client throughout analysis for further clarification where necessary 2.7 Analyse whether there is need for specialist advice and refer to appropriate adviser if required
3. Develop strategy for client	3.1 Assess broad strategies available to client 3.2 Discuss strategies identified with client to determine and agree on most suitable approach for client needs, objectives and risk

ELEMENT	PERFORMANCE CRITERIA
	<p>profile</p> <p>3.3 Select appropriate emissions products and undertake research, analysis and financial modelling to establish which product mix best meets client's needs, objectives and risk profile</p> <p>3.4 Prepare statutory and organisational strategy and transaction documentation</p> <p>3.5 Identify and discuss with client any conflicts of interest arising from selected strategy</p>
<p>4. Present and negotiate strategies and solutions with client</p>	<p>4.1 Explain to client proposed transaction and strategic methodology used, in clear and unambiguous way</p> <p>4.2 Check that client understands relevant details, risks, terms and conditions, advantages and disadvantages of transaction recommended</p> <p>4.3 Negotiate and resolve any concerns or issues that client has regarding proposed transaction</p> <p>4.4 Explain fee and cost structures for transaction and timeframes for execution</p>
<p>5. Implement and document agreed plan, policy or transaction</p>	<p>5.1 Prepare and provide client with written documentation where required by law or codes of practice that incorporate basis on which advice is given</p> <p>5.2 Explain supporting documentation, and confirm content and advice against established investment requirements, risk profile and objectives</p> <p>5.3 Seek confirmation that client understands proposed transaction and its fee implications, and gain formal agreement to proceed in line with regulatory guidelines, accepted industry practice and organisational policy</p> <p>5.4 Exchange signed copies of appropriate documentation and signed agreement with client</p>
<p>6. Determine and agree on any ongoing services required</p>	<p>6.1 Agree with client on type and form of ongoing service to be provided, including reporting on performance of this transaction and other associated services</p> <p>6.2 Explain fees and costs for ongoing and specifically defined service and obtain confirmation of understanding from client</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Assessment Requirements for FNSASICL503 Provide advice in the regulated emissions market

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- establish and define the nature and scope of the client and adviser relationship
- collect qualitative and quantitative information to perform strategic analysis within the regulated emissions markets
- develop a strategic plan in emissions products that is appropriate for the client profile
- evaluate the financial strategy with respect to local and international financial markets and factors influencing the regulated emissions market
- develop advice that adheres to relevant regulatory, ethical, industry and organisational requirements
- demonstrate application of ethical principles in decision making during the advising process
- communicate the details of a financial advice document and establish client understanding of the proposal.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must satisfy generic and specialist knowledge requirements relevant to the products and activities in which advice is given.

Generic knowledge

- analyse and provide an overview of the economic environment including:
 - characteristics and impact of economic and business cycles
 - interest rates and exchange rates

- inflation
- government monetary and fiscal policy
- analyse and provide a detailed explanation of the operation of financial markets including:
 - roles played by intermediaries and issuers
 - structure and interrelationships within the financial markets
 - interrelationship between industry sectors
- outline financial products including:
 - concept of a financial product: general definition, and specific inclusions and exclusions
 - types of financial investment products
 - types of financial risk products.

Specialist knowledge

- describe types of regulated emissions units, and their characteristics (encompassing carbon units, Australian carbon credit units (ACCU) and eligible international emissions units), including their status as personal property, and how they are typically derived from inception to the point of acquiring status as a financial product
- analyse risks associated with each type of regulated emission unit, including restrictions on their use, transfer and bankability for future use
- describe risk characteristics and mitigating strategies relative to regulated emissions including:
 - regulatory risk
 - documentation risk
 - market and pricing risk
 - fraud
 - emerging market risk
 - counterparty risk
- explain processes for acquiring, transferring and surrendering regulated emissions units, including compliance with the requirements of the Australian National Registry of Emissions Units
- analyse and summarise key features of the operation of carbon markets including:
 - geopolitical context of carbon markets
 - main participants in carbon markets, and their key objectives and participation behaviours as factors influencing market activity
 - emissions unit supply and demand factors and regulated price factors influencing market activity and prices
 - issue of carbon units via auction, and auction types
 - types of transactions in carbon markets, including transactions relating to the carbon pricing mechanism and in voluntary markets, and the function of financial markets facilitating such trading including internationally
 - potential trading strategies and their implementation in carbon markets including hedging and investment strategies

- risks associated with carbon markets including liquidity, pricing, credit, operational and regulatory risks
- carbon market transaction documentation including documentation used for different types of counterparties and transactions, their key terms and conditions, and advantages and disadvantages
- discuss the legal environment including disclosure and compliance covering:
 - domestic regulatory framework for the carbon pricing mechanism, including the role of the Clean Energy Regulator and the Australian National Registry of Emissions Units
 - domestic regulatory framework for the Carbon Farming Initiative, including the role of the Clean Energy Regulator and the Australian National Registry of Emissions Units
 - international regulatory framework for carbon trading, including the Clean Development Mechanism
 - relevant legal principles including Corporations Act, Australian Securities and Investments Commission (ASIC) Act and Privacy Amendment (Private Sector) Act
 - relationship between ethics and regulatory requirements (good faith, utmost good faith, full disclosure of remuneration and/or fees and any other conflicts of interest that may influence the adviser's recommendation), and application of these requirements in professional practice
 - elements of the Registered Representatives Examination (where relevant)
 - Chi-X Australia or Australian Securities Exchange (ASX) Operating Rules (where relevant)
- outline taxation issues in relation to carbon emissions products and markets in which they operate, and deductibility of costs associated with regulated emissions units
- outline strategy development in an emissions marketplace including:
 - evaluation of client objectives against risks
 - concept development and evaluation
- explain theories of investment, portfolio management and management of investment and risk:
 - investment concepts and strategies
 - identification of types of risk
 - client risk profile.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial services and products advice field of work and include access to:

- office equipment, technology, software and consumables
- carbon and regulated emissions market product information

Assessors must satisfy NVR/AQTF assessor requirements.

FNSASICM503 Provide Tier 1 personal advice in life insurance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to analyse a client's life insurance needs for current Australian Securities and Investments Commission (ASIC) regulation (Financial Services Reform Act) at Tier 1 (Diploma) level in the insurance specialist and generic knowledge areas.

It applies to individuals who have specialist product knowledge and strong interpersonal skills and are expert communicators. In this role, excellent customer service skills relating to the provision of advice to clients is essential.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

ASIC units

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish relationship with client	1.1 Use range of communication and interpersonal skills to establish knowledge level of client 1.2 Respond to enquiries by explaining range of products and services available and their relevant fees and charging methodology

ELEMENT	PERFORMANCE CRITERIA
	<p>1.3 Inform client about role of adviser and licensee or principal responsible for adviser's conduct</p> <p>1.4 Demonstrate knowledge of procedures for complaints handling and circumstances in which they should be engaged</p>
2. Identify client's objectives, needs and financial situation	<p>2.1 Use range of communication and interpersonal skills to gather client's personal, financial and business details</p> <p>2.2 Encourage client to express objectives and goals, in short-term, medium-term and long-term, to identify client requirements in tandem with product</p> <p>2.3 Identify product risk profile of client</p> <p>2.4 Identify client's expectations of cash flow and relevant taxation obligations</p>
3. Analyse client's objectives, needs, financial situation and risk profile	<p>3.1 Undertake assessment of client needs, using all information gathered and taking into account client's product expectations and specific needs</p> <p>3.2 Consult client throughout analysis to seek further clarification where necessary</p> <p>3.3 Analyse need for specialist advice and refer client to appropriate adviser for higher level or specialist advice if required</p> <p>3.4 Assess and agree on product risk profile of client</p> <p>3.5 Apply ASIC generic and specialist knowledge relevant to products being offered</p>
4. Develop appropriate strategies and solutions	<p>4.1 Determine appropriate strategy to provide for identified needs and outcomes by analysing products and client risk profile, and assessing client's needs</p> <p>4.2 Undertake relevant research, analysis and product modelling</p> <p>4.3 Draft appropriate solution (plan, policy or transaction) for presentation to client</p>
5. Present appropriate strategies and solutions to client	<p>5.1 Explain and discuss proposed transaction with client in clear and unambiguous way, demonstrating product knowledge appropriate for service or product offered</p> <p>5.2 Reinforce all relevant details, terms and conditions of product and service to client</p> <p>5.3 Disclose impacts and possible risks of solution in clear and concise manner</p> <p>5.4 Provide client with written supporting documentation and</p>

ELEMENT	PERFORMANCE CRITERIA
	guide client through key aspects of documentation
6. Negotiate financial plan, policy or transaction with client	6.1 Discuss and clarify any concerns and/or issues client has regarding proposed insurance plan, policy or transaction 6.2 Seek client's preferred plan, policy or transaction and confirm client's preference
7. Coordinate implementation of agreed plan, policy or transaction	7.1 Seek formal agreement from client to proposed plan, policy or transaction 7.2 Clearly explain associated fee and cost structures, and confirm client understands all details 7.3 Ensure that timeframes for execution and processing are clearly explained to client
8. Complete and maintain necessary documentation	8.1 Confirm that proposal and other documents are completed and, where appropriate, are signed off by client 8.2 Ensure that signed agreement and copies of appropriate documentation are exchanged
9. Provide ongoing service where requested by client	9.1 Ensure that type and form of ongoing service, including review of plan, policy or transaction, is agreed with client 9.2 Clearly explain and confirm fees and costs for ongoing and specifically defined service, and confirm client understands all details 9.3 Provide ongoing service as required

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.4, 2.3	<ul style="list-style-type: none"> Recognises and interprets information from relevant sources
Writing	1.1-1.3, 2.1, 2.2, 2.4, 3.1, 3.2, 4.3, 5.3, 5.4, 6.1, 6.2, 7.1-7.3, 9.1, 9.2	<ul style="list-style-type: none"> Uses clear, specific and industry related terminology to record and consolidate workplace documentation

Oral Communication	1.1-1.3, 2.1-2.4, 3.1, 3.2, 3.4, 5.1-5.4, 6.1, 6.2, 7.1-7.3, 9.1, 9.2	<ul style="list-style-type: none"> Clearly articulates requirements using language appropriate to the audience and environment Uses active listening and questioning to elicit information and confirm understanding
Numeracy	1.2, 9.2	<ul style="list-style-type: none"> Interprets financial product information and completes calculations to achieve required outcomes
Navigate the world of work	1.3, 1.4, 3.5, 4.2, 5.3	<ul style="list-style-type: none"> Takes responsibility for providing quality advisory services that comply with legal and organisational requirements Develops and maintains knowledge of products and the relevant regulatory frameworks that define their use to provide accurate and compliant information
Interact with others	1.1, 2.1, 2.4, 5.1-5.4, 6.1, 6.2, 7.1-7.3	<ul style="list-style-type: none"> Selects and uses appropriate communication conventions and protocols to establish rapport with clients to determine their knowledge and risk position Adapts personal communication style to show respect for the values, beliefs and cultural expectations of others Uses collaborative techniques to ensure understanding is established and agreement is negotiated

Assessment Requirements for FNSASICM503 Provide Tier 1 personal advice in life insurance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- interpret and comply with industry regulations and codes of practice in providing Tier 1 personal advice in life insurance
- analyse client's need, risk situation and a range of financial products to develop a risk profile and potential strategy or solution
- advise clients accurately and ethically about specific life insurance products and services, and relevant tax implications
- finalise plan, policy or transaction, ensuring all documentation is completed accurately following organisational procedures.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must satisfy generic, core and specialist knowledge requirements relevant to the products and activities in which advice is given.

Generic knowledge

- analyse and provide an overview of the economic environment including:
 - characteristics and impact of economic and business cycles
 - interest rates and exchange rates
 - inflation
 - government monetary and fiscal policy
- analyse and provide a detailed explanation of the operation of financial markets including:
 - roles played by intermediaries and issuers

- structure and interrelationships within the financial markets
- interrelationship between industry sectors
- outline financial products including:
 - concept of a financial product – general definition, and specific inclusions and exclusions
 - types of financial investment products
 - types of financial risk products.

Core insurance knowledge

- explain the operation of insurance markets including:
 - definition of insurance product
 - characteristics and participants of the Australian insurance market
 - roles played by intermediaries
- types of insurance products including risk insurance products, investment life insurance products and general insurance products
- explain the following aspects of insurance products:
 - conditions, exclusions and levels of coverage of risk transfer products
 - pricing
- explain taxation issues in relation to insurance products and markets
- describe advisory functions including:
 - role of insurance adviser, broker or agent
 - participants in the insurance advisory services market
 - range of services provided
 - profile and financial information of the client
 - appropriateness of a risk assessment
- discuss the legal environment including disclosure and compliance covering:
 - role of the representative or adviser
 - relevant legal principles relating to the Corporations Act, Australian Securities and Investments Commission (ASIC) Act, Insurance Contracts Act, Life Insurance Act, Privacy Amendment (Private Sector) Act, Financial Services Reform Act (FSRA) and Competition and Consumer Act
 - relationship between ethics and regulatory requirements including good faith, faith, utmost good faith, full disclosure of remuneration and fees, and any other conflicts of interest which may influence the adviser's recommendation
 - relevant industry standards and codes of conduct
 - regulators' guidelines including ASIC Regulatory Guide (RG)146 requirements
 - complaints resolution procedures (external and internal).

Specialist knowledge

- outline the following aspects of life insurance:

- types and classes of life insurance products and policies
- standard cover and relevant deviations
- product development
- policy wordings
- underwriting
- insurance claims
- premium rating and risk assessment
- investment strategy (investment component of life insurance products).

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial services and products advice field of work and include access to:

- office equipment, technology, software and consumables
- organisational records
- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSASICO503 Provide Tier 1 general advice in general insurance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- respond to client enquiries and prepare general advice in general insurance
- provide accurate general insurance advice, complying with organisational procedures and industry regulations.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must satisfy generic, core and specialist knowledge requirements relevant to the products and activities in which advice is given.

Generic knowledge

- analyse and provide an overview of the economic environment including:
 - characteristics and impact of economic and business cycles
 - interest rates and exchange rates
 - inflation
 - government monetary and fiscal policy
- analyse and provide a detailed explanation of the operation of financial markets including:
 - roles played by intermediaries and issuers
 - structure and interrelationships within the financial markets
 - interrelationship between industry sectors
- outline financial products including:

- concept of a financial product – general definition, and specific inclusions and exclusions
- types of financial investment products
- types of financial risk products.

Core insurance knowledge

- explain the operation of insurance markets including:
 - definition of insurance product
 - characteristics and participants of the Australian insurance market
 - roles played by intermediaries
- types of insurance products including risk insurance products, investment life insurance products and general insurance products
- explain the following aspects of insurance products:
 - conditions, exclusions and levels of coverage of risk transfer products
 - pricing
- explain taxation issues in relation to general insurance products and markets
- describe advisory functions including:
 - role of insurance adviser, broker or agent
 - participants in the insurance advisory services market
 - range of services provided
 - profile and financial information of the client
 - appropriateness of a risk assessment
- discuss the legal environment including disclosure and compliance covering:
 - the role of the representative or adviser
 - relevant legal principles relating to the Corporations Act, Australian Securities and Investments Commission (ASIC) Act, Insurance Contracts Act, Life Insurance Act, Privacy Amendment (Private Sector) Act, Financial Services Reform Act (FSRA) and Competition and Consumer Act
 - relationship between ethics and regulatory requirements including good faith, faith, utmost good faith, full disclosure of remuneration and fees, and any other conflicts of interest which may influence the adviser's recommendation
 - relevant industry standards and codes of conduct
 - regulators' guidelines including ASIC Regulatory Guide (RG)146 requirements
 - complaints resolution procedures (external and internal).

Specialist knowledge

- provide a summary of general insurance matters including:
 - types of general insurance products and policies
 - standard cover and deviations
 - policy wordings

- taxes and charges
- insurance claims
- premium rating and risk selection
- reporting
- product development
- underwriting
- terms and conditions of retail general insurance products used by the adviser
- discuss relevant legislative and organisational compliance requirements including:
 - legislation affecting the provision of general and personal advice including ASIC Regulatory Guide 175 on conduct and disclosure
 - role of different advisers within the organisation
 - organisational policy and guidelines related to the provision of general advice
 - details of relevant marketing and disclosure documents, including product disclosure statements and marketing brochures on the relevant products.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial services and products advice field of work and include access to:

- office equipment, technology, software and consumables
- organisational records.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSASICQ503 Provide advice in first home saver market linked accounts

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to analyse client needs and provide advice ethically and professionally relating to first home saver market linked accounts, in compliance with industry regulations and codes of practice. It addresses the training requirements of current Australian Securities and Investments Commission (ASIC) and Australian financial services (AFS) licensing at Tier 1 level.

It applies to individuals who analyse client needs, provide financial products and service advice to clients, and assess the impacts of taxation on clients' financial requirements. Discharging these duties requires well-developed interpersonal skills, proficient communication skills and a range of self-management skills.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or ASIC for specific guidance on requirements.

Pre-requisite Unit

FNSINC501	Conduct product research to support recommendations
FNSIAD501	Provide appropriate services, advice and products to clients
FNSCUS505	Determine client requirements and expectations
FNSCUS506	Record and implement client instructions

Unit Sector

ASIC units

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish relationship with client and identify client's objectives, needs and financial situation	1.1 Establish client's knowledge about financial products and services 1.2 Respond to enquiries about first home saver market linked products and services by explaining range of products and services available and their relevant fee and charging methodology 1.3 Inform client about role of adviser and licensee or principal responsible for adviser's conduct, including procedures for complaints handling and circumstances in which they should be engaged 1.4 Ask client about objectives and goals and obtain personal, financial and business details to identify client needs 1.5 Establish product risk profile of client, including expectations of cash flow and relevant taxation obligations
2. Analyse client's objectives, needs, financial situation and risk profile to develop appropriate strategies and solutions	2.1 Undertake assessment of client needs using all information gathered, taking into account client's product expectations and specific needs 2.2 Consult client throughout analysis for further clarification where necessary 2.3 Analyse need for specialist advice and ensure client is referred to appropriate adviser for higher level or specialist advice if required 2.4 Assess and confirm product risk profile of client, demonstrating ASIC identified generic and specialist knowledge relevant to products being offered 2.5 Determine appropriate strategy to provide for identified needs and outcomes based on analysis of products, client risk profile and assessment of client needs 2.6 Conduct relevant research, analysis and product modelling and draft appropriate solution, plan, policy or transaction for presentation to client
3. Present appropriate	3.1 Apply appropriate knowledge for service or product offered

ELEMENT	PERFORMANCE CRITERIA
strategies and solutions to client and negotiate financial plan, policy or transaction	<p>when presenting product</p> <p>3.2 Clearly and unambiguously explain proposed transaction to client</p> <p>3.3 Reinforce all relevant details, terms and conditions of product and/or service</p> <p>3.4 Disclose impacts and possible risks of solution in clear and concise manner</p> <p>3.5 Provide supporting written documentation and guide client through key aspects of documentation</p> <p>3.6 Discuss and clarify any concerns or issues client has regarding proposed plan, policy or transaction</p> <p>3.7 Confirm that client understands proposed plan, policy or transaction</p>
4. Agree to plan, policy or transaction and complete documentation	<p>4.1 Obtain client's formal agreement to proposed plan, policy or transaction</p> <p>4.2 Clearly explain and confirm that client understands all associated fees, cost structures and timeframes for execution and processing</p> <p>4.3 Ensure that proposal and all other statutory and transactional documents are completed and signed off by client</p> <p>4.4 Exchange copies of signed agreement and other appropriate documentation</p>
5. Provide ongoing service where requested by client	<p>5.1 Ensure that type and form of ongoing service, including reporting on performance and review of plan, policy or transaction, is agreed with client</p> <p>5.2 Clearly explain all fees and costs for ongoing and specifically defined services, and check that client understands these details</p> <p>5.3 Provide ongoing service as required</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description

Assessment Requirements for FNSASICQ503 Provide advice in first home saver market linked accounts

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- interpret and comply with industry regulations and codes of practice
- analyse client needs and advise client ethically and accurately about first home saver market linked account products and services
- assess the impacts of taxation on client's financial requirements for specific products offered.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must satisfy generic and specialist knowledge requirements relevant to the products and activities in which advice is given.

Generic knowledge

- analyse and provide an overview of the economic environment including:
 - characteristics and impact of economic and business cycles
 - interest rates and exchange rates
 - inflation
 - government monetary and fiscal policy
- analyse and provide a detailed explanation of the operation of financial markets including:
 - roles played by intermediaries and issuers
 - structure and interrelationships within the financial markets
 - interrelationship between industry sectors
- outline financial products including:

- concept of a financial product – general definition, and specific inclusions and exclusions
- types of financial investment products
- types of financial risk products.

Specialist knowledge

- explain the types, characteristics and associated risks of first home saver account products
- describe types of alternative products including managed investments, life insurance and deposit products
- outline product characteristics including:
 - eligibility requirements
 - withdrawal conditions
 - government contributions
 - cooling-off period
 - interest paid including institution, and fees and charges
 - non-cash payments (direct debit, external funds transfer (EFT), auto transfer
 - specific inclusions and exclusions
- discuss the operation of first home saver market institutions
- outline taxation issues in relation to first home saver market linked financial products and markets in which they operate
- discuss the legal environment including disclosure and compliance covering:
 - role of the representative or adviser
 - relevant legal principles relating to the Corporations Act, Australian Securities and Investments Commission (ASIC) Act, Privacy Amendment (Private Sector) Act, Financial Services Reform Act (FSRA) and Competition and Consumer Act
 - relationship between ethics and regulatory requirements including good faith, faith, utmost good faith, full disclosure of remuneration and fees, and any other conflicts of interest which may influence the adviser's recommendation
 - relevant industry standards and codes of conduct
 - regulators' guidelines including ASIC Regulatory Guide (RG)146 requirements
 - complaints resolution procedures (external and internal).

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial services and products advice field of work and include access to:

- office equipment, technology, software and consumables
- financial services first home saver market linked accounts product information.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSASICR503 Provide advice in margin lending

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- interpret and comply with industry regulations and codes of practice
- analyse client needs, financial situation and risk profile, and prepare appropriate strategies or solutions relating to margin lending
- provide accurate and ethical advice on margin lending products and services
- implement the plan, policy or transaction once agreed by the client and complete documentation accurately.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must satisfy generic and specialist knowledge requirements relevant to the products and activities in which advice is given.

Generic knowledge

- analyse and provide an overview of the economic environment including:
 - characteristics and impact of economic and business cycles
 - interest rates and exchange rates
 - inflation
 - government monetary and fiscal policy
- analyse and provide a detailed explanation of the operation of financial markets including:
 - roles played by intermediaries and issuers
 - structure and interrelationships within the financial markets
 - interrelationship between industry sectors

- outline financial products including:
 - concept of a financial product – general definition, and specific inclusions and exclusions
 - types of financial investment products
 - types of financial risk products.

Specialist knowledge

- discuss types of margin lending facility products (encompassing standard margin lending facilities and non-standard margin lending facilities), associated risks and alternative products (derivatives where relevant)
- outline characteristics of margin lending products including:
 - how the various types of margin lending facility products operate
 - providers' and clients' rights and responsibilities
 - effect of provider taking security over clients' assets
 - effect of provider receiving a transfer of the clients' assets
 - calculating loan-to-value ratios of both individual products and the overall portfolio
 - consequences of issuers altering the loan-to-value ratio of individual products
 - margin calls – ways of making a margin call, consequences of margin calls and how they may be resolved, and strategies by which the borrower may avoid margin calls
 - approved product list – consequences of removing a product from the approved products list
- outline taxation issues in relation to margin lending facilities including:
 - deductibility of costs associated with margin lending, including interest payments
 - liability for capital gains tax (CGT)
- discuss the legal environment including disclosure and compliance covering:
 - role of the representative or adviser
 - relevant legal principles relating to the Corporations Act, Australian Securities and Investments Commission (ASIC) Act, Privacy Amendment (Private Sector) Act, Financial Services Reform Act (FSRA) and Competition and Consumer Act
 - relationship between ethics and regulatory requirements including good faith, faith, utmost good faith, full disclosure of remuneration and fees, and any other conflicts of interest which may influence the adviser's recommendation
 - relevant industry standards and codes of conduct
 - regulators' guidelines including ASIC Regulatory Guide (RG)146 requirements
 - complaints resolution procedures (external and internal)
- explain theories of investment, portfolio management and management of investment and risk including:
 - investment concepts
 - investment strategies for margin lending, including the role of cash flow and alternative investment strategies
 - investment options using a margin lending facility

- identification of types of risk, including an awareness of the sensitivity of margin lending strategies to changes in interest rates and investment returns
- client risk profile, including an awareness of the source and stability of clients' income source, the source of funding for the investment and risk profiles unsuited to margin lending facility products
- stress testing of proposed client portfolio
- understanding of risks associated with gearing – the relationship between levels of gearing and risks, and risks associated with double gearing
-

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial services and products advice field of work and include access to:

- office equipment, technology, software and consumables
- margin lending product information

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSASICT503 Provide advice in managed investments

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- interpret and comply with industry regulations and codes of practice
- analyse client's needs, financial situation and risk profile, and prepare appropriate strategies or solutions relating to managed investments
- provide accurate and ethical advice on managed investment products and services
- implement the plan, policy or transaction once agreed by the client and complete documentation accurately.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must satisfy generic and specialist knowledge requirements relevant to the products and activities in which advice is given.

Generic knowledge

- analyse and provide an overview of the economic environment including:
 - characteristics and impact of economic and business cycles
 - interest rates and exchange rates
 - inflation
 - government monetary and fiscal policy
- analyse and provide a detailed explanation of the operation of financial markets including:
 - roles played by intermediaries and issuers
 - structure and interrelationships within the financial markets
 - interrelationship between industry sectors

- outline financial products, including:
 - concept of a financial product – general definition, and specific inclusions and exclusions
 - types of financial investment products
 - types of financial risk products.

Specialist advice

- provide a detailed explanation of managed investment products including:
 - concept of managed investments
 - range of products offered under managed investments schemes, or a specific product offered under a scheme:
 - property trusts, real estate investment strategies, valuation techniques, property management
 - equity trusts, fixed interest trusts
 - serviced strata schemes
 - primary production schemes
 - film schemes
 - time-sharing schemes
 - types of risks associated with managed investment products
- outline taxation issues in relation to managed investment products and markets in which they operate
- discuss the legal environment including disclosure and compliance covering:
 - role of the representative or adviser
 - relevant legal principles relating to the Corporations Act, Australian Securities and Investments Commission (ASIC) Act, Privacy Amendment (Private Sector) Act, Financial Services Reform Act (FSRA) and Competition and Consumer Act
 - relationship between ethics and regulatory requirements including good faith, utmost good faith, full disclosure of remuneration and fees, and any other conflicts of interest which may influence the adviser's recommendation
 - relevant industry standards and codes of conduct
 - regulators' guidelines including ASIC Regulatory Guide (RG)146 requirements
 - complaints resolution procedures (external and internal)
- explain theories of investment, portfolio management and management of investment and risk:
 - investment concepts
 - investment strategies
 - identification of types of risk
 - client risk profile.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial services and products advice field of work and include access to:

- office equipment, technology, software and consumables
- managed investment product information.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSASICU503 Provide advice in superannuation

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to analyse client needs and provide advice ethically and professionally on superannuation in compliance with industry regulations and codes of practice. It addresses the training requirements of current Australian Securities and Investments Commission (ASIC) and Australian financial services (AFS) licensing at Tier 1 level.

It applies to individuals who use well-developed interpersonal skills and excellent communication and self-management skills to perform a specialist advisory role in superannuation.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or ASIC for specific guidance on requirements.

Pre-requisite Unit

FNSINC501	Conduct product research to support recommendations
FNSIAD501	Provide appropriate services, advice and products to clients
FNSCUS505	Determine client requirements and expectations
FNSCUS506	Record and implement client instructions

Unit Sector

ASIC units

Assessment Requirements for FNSASICV503 Provide advice in derivatives

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- interpret and comply with industry regulations and codes of practice
- analyse client's needs, financial situation and risk profile, and prepare appropriate strategies or solutions relating to derivatives
- provide accurate and ethical advice on derivative products and services
- implement the plan, policy or transaction once agreed by the client and complete documentation accurately.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must satisfy generic and specialist knowledge requirements relevant to the products and activities in which advice is given.

Generic knowledge

- analyse and provide an overview of the economic environment including:
 - characteristics and impact of economic and business cycles
 - interest rates and exchange rates
 - inflation
 - government monetary and fiscal policy
- analyse and provide a detailed explanation of the operation of financial markets including:
 - roles played by intermediaries and issuers
 - structure and interrelationships within the financial markets
 - interrelationship between industry sectors

- outline financial products, including:
 - concept of a financial product – general definition, and specific inclusions and exclusions
 - types of financial investment products
 - types of financial risk products.

Specialist knowledge

- explain the operation of derivatives markets including:
 - market participants
 - roles played by intermediaries
 - structure and interrelationships between the securities and derivatives sectors
- outline the characteristics of a range of derivatives, the associated risks and investment options using derivatives products
- explain theories of investment, portfolio management and management of investment and risk:
 - investment concepts
 - investment strategies
 - identification of types of risk
 - client risk profile
- outline taxation issues in relation to derivatives, financial products and markets in which they operate
- discuss the legal environment including disclosure and compliance covering:
 - role of the representative or adviser
 - relevant legal principles relating to the Corporations Act, Australian Securities and Investments Commission (ASIC) Act, Privacy Amendment (Private Sector) Act, Financial Services Reform Act (FSRA) and Competition and Consumer Act
 - relationship between ethics and regulatory requirements including good faith, utmost good faith, full disclosure of remuneration and fees, and any other conflicts of interest which may influence the adviser's recommendation
 - relevant industry standards and codes of conduct
 - regulators' guidelines including ASIC Regulatory Guide (RG)146 requirements
 - complaints resolution procedures (external and internal)
 - ASIC market integrity rules
 - Australian Securities Exchange (ASX) 24 Operating Rules
 - elements of the Registered Representatives Examination (where relevant).

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial services and products advice field of work and include access to:

- office equipment, technology, software and consumables
- derivatives product information.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSASICW503 Provide advice in securities

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- interpret and comply with industry regulations and codes of practice
- analyse client's needs, financial situation and risk profile, and prepare appropriate strategies or solutions relating to securities
- provide accurate and ethical advice on securities products and services
- implement the plan, policy or transaction once agreed by the client and complete documentation accurately.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must satisfy generic and specialist knowledge requirements relevant to the products and activities in which advice was given.

Generic knowledge

- analyse and provide an overview of the economic environment including:
 - characteristics and impact of economic and business cycles
 - interest rates and exchange rates
 - inflation
 - government monetary and fiscal policy
- analyse and provide a detailed explanation of the operation of financial markets including:
 - roles played by intermediaries and issuers
 - structure and interrelationships within the financial markets
 - interrelationship between industry sectors

- outline financial products including:
 - concept of a financial product – general definition, and specific inclusions and exclusions
 - types of financial investment products
 - types of financial risk products.

Specialist knowledge

- outline the operation of securities markets including:
 - market participants
 - roles played by intermediaries
- explain characteristics of types of products including:
 - range of securities
 - associated risks
 - investment options using securities product
 - alternative products including derivatives
- explain theories of investment, portfolio management and management of investment and risk covering:
 - investment concepts
 - investment strategies
 - identification of types of risk
 - client risk profile
- outline taxation issues in relation to securities, financial products and markets in which they operate
- discuss the legal environment including disclosure and compliance covering:
 - role of the representative or adviser
 - relevant legal principles relating to the Corporations Act, Australian Securities and Investments Commission (ASIC) Act, Privacy Amendment (Private Sector) Act, Financial Services Reform Act (FSRA) and Competition and Consumer Act
 - relationship between ethics and regulatory requirements covering good faith, utmost good faith, full disclosure of remuneration and fees, and any other conflicts of interest which may influence the adviser's recommendation
 - relevant industry standards and codes of conduct
 - regulators' guidelines including ASIC Regulatory Guide (RG)146 requirements
 - complaints resolution procedures (external and, if relevant, internal)
 - stockbroking competency standards (where relevant)
 - ASX Operating Rules (where relevant)
 - ASIC market integrity rules.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial services and products advice field of work and include access to:

- office equipment, technology, software and consumables
- securities product information.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSASICX503 Provide advice in life insurance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to analyse client needs and provide advice ethically and professionally in life insurance, in compliance with industry regulations and codes of practice. It addresses the training requirements of current Australian Securities and Investments Commission (ASIC) and Australian financial services (AFS) licensing at Tier 1 level.

It applies to individuals who use well-developed interpersonal skills and excellent communication and self-management skills to perform a specialist advisory role in life insurance.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or ASIC for specific guidance on requirements.

Pre-requisite Unit

FNSINC501	Conduct product research to support recommendations
FNSIAD501	Provide appropriate services, advice and products to clients
FNSCUS505	Determine client requirements and expectations
FNSCUS506	Record and implement client instructions

Unit Sector

ASIC units

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
<p>1. Establish relationship with client and identify client's objectives, needs and financial situation</p>	<p>1.1 Establish client's knowledge about financial products and services</p> <p>1.2 Respond to enquiries about life insurance products and services by explaining range of products and services available and their relevant fee and charging methodology</p> <p>1.3 Inform client about role of adviser and licensee or principal responsible for adviser's conduct, including procedures for complaints handling and circumstances in which they should be engaged</p> <p>1.4 Ask client about objectives and goals, and obtain personal, financial and business details to identify client needs</p> <p>1.5 Establish product risk profile about client, including expectations of cash flow and relevant taxation obligations</p>
<p>2. Analyse client's objectives, needs, financial situation and risk profile to develop appropriate strategies and solutions</p>	<p>2.1 Undertake assessment of client needs using all information gathered, taking into account client's product expectations and specific needs</p> <p>2.2 Consult client throughout analysis for further clarification where necessary</p> <p>2.3 Analyse need for specialist advice and ensure client is referred to appropriate adviser for higher level or specialist advice if required</p> <p>2.4 Assess and confirm product risk profile of client, demonstrating ASIC identified generic and specialist knowledge relevant to products being offered</p> <p>2.5 Determine appropriate strategy to provide for identified needs and outcomes based on analysis of products, client risk profile and assessment of client needs</p> <p>2.6 Conduct relevant research, analysis and product modelling, and draft appropriate solution, plan, policy or transaction for presentation to client</p>
<p>3. Present appropriate</p>	<p>3.1 Apply appropriate knowledge for service or product offered</p>

ELEMENT	PERFORMANCE CRITERIA
strategies and solutions to client and negotiate financial plan, policy or transaction	<p>when presenting product</p> <p>3.2 Clearly and unambiguously explain proposed transaction to client</p> <p>3.3 Reinforce all relevant details, terms and conditions of product and service</p> <p>3.4 Disclose impacts and possible risks of solution in clear and concise manner</p> <p>3.5 Provide supporting written documentation and guide client through key aspects of documentation</p> <p>3.6 Discuss and clarify any concerns or issues client has regarding proposed plan, policy or transaction</p> <p>3.7 Confirm that client understands proposed plan, policy or transaction</p>
4. Assessment Requirements for FNSASICX503 Provide advice in life insurance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- interpret and comply with industry regulations and codes of practice
- analyse client's needs, financial situation and risk profile, and prepare appropriate strategies or solutions relating to life insurance
- provide accurate and ethical advice on life insurance products and services
- implement the plan, policy or transaction once agreed by the client and complete documentation accurately.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must satisfy generic, core and specialist knowledge requirements relevant to the products and activities in which advice is given.

Generic knowledge

- analyse and provide an overview of the economic environment including:
 - characteristics and impact of economic and business cycles
 - interest rates and exchange rates
 - inflation
 - government monetary and fiscal policy
- analyse and provide a detailed explanation of the operation of financial markets including:
 - roles played by intermediaries and issuers
 - structure and interrelationships within the financial markets
 - interrelationship between industry sectors

- outline financial products including:
 - concept of a financial product – general definition, and specific inclusions and exclusions
 - types of financial investment products
 - types of financial risk products.

Core insurance knowledge

- explain the operation of insurance markets including:
 - definition of insurance product
 - characteristics and participants of the Australian insurance market
 - roles played by intermediaries
- describe types of insurance products including risk insurance products, investment life insurance products and general insurance products
- explain the following aspects of insurance products:
 - conditions, exclusions and levels of coverage of risk transfer products
 - pricing
- outline taxation issues in relation to insurance products and markets
- describe advisory functions including:
 - role of insurance adviser, broker or agent
 - participants in the insurance advisory services market
 - range of services provided
 - profile and financial information of the client
 - appropriateness of a risk assessment
- discuss the legal environment including disclosure and compliance covering:
 - role of the representative or adviser
 - relevant legal principles relating to the Corporations Act, Australian Securities and Investments Commission (ASIC) Act, Insurance Contracts Act, Life Insurance Act, Privacy Amendment (Private Sector) Act, Financial Services Reform Act (FSRA) and Competition and Consumer Act
 - relationship between ethics and regulatory requirements including good faith, faith, utmost good faith, full disclosure of remuneration and fees, and any other conflicts of interest which may influence the adviser's recommendation
 - relevant industry standards and codes of conduct
 - regulators' guidelines including ASIC Regulatory Guide (RG)146 requirements
 - complaints resolution procedures (external and internal)
- explain theories of investment, portfolio management and management of investment and risk:
 - investment concepts
 - investment strategies
 - identification of types of risk
 - client risk profile.

Specialist knowledge

- outline the following aspects of life insurance:
 - types and classes of life insurance products and policies
 - standard cover and relevant deviations
 - product development
 - policy wordings
 - underwriting
 - insurance claims
 - premium rating and risk assessment
 - investment strategy
 - investment component of life insurance products.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial services and products advice field of work and include access to:

- office equipment, technology, software and consumables
- life insurance product information.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSASICZ503 Provide advice in financial planning

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- interpret and comply with industry regulations and codes of practice
- analyse client's needs, financial situation and risk profile, and prepare appropriate strategies or solutions relating to financial planning
- provide accurate and ethical advice on financial planning products and services
- implement the plan, policy or transaction once agreed by the client and complete documentation accurately.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must satisfy generic and specialist knowledge requirements relevant to the products and activities in which advice is given.

Generic knowledge

- analyse and provide an overview of the economic environment including:
 - characteristics and impact of economic and business cycles
 - interest rates and exchange rates
 - inflation
 - government monetary and fiscal policy
- analyse and provide a detailed explanation of the operation of financial markets including:
 - roles played by intermediaries and issuers
 - structure and interrelationships within the financial markets
 - interrelationship between industry sectors

- outline financial products, including:
 - concept of a financial product – general definition, and specific inclusions and exclusions
 - types of financial investment products
 - types of financial risk products.

Specialist knowledge

- outline theories of investment, portfolio management and management of investment and risk including:
 - range of financial products
 - types of investment products including cash, fixed interest, property, equities and managed investments
 - types of financial risk products including risk insurance and derivatives
 - investment concepts
 - investment strategies
 - identification of types of risk
 - client risk profile
- provide an analysis of advisory functions covering:
 - role of financial planner
 - participants in the advisory services market
 - range of services provided
 - financial planning process
 - profile and financial information of the client
 - appropriateness of a risk assessment
- discuss the legal environment including disclosure and compliance covering:
 - role of the representative or adviser
 - relevant legal principles relating to the Corporations Act, Australian Securities and Investments Commission (ASIC) Act, Privacy Amendment (Private Sector) Act, Financial Services Reform Act (FSRA) and Competition and Consumer Act
 - relationship between ethics and regulatory requirements including good faith, utmost good faith, full disclosure of remuneration and fees, and any other conflicts of interest which may influence the adviser's recommendation
 - relevant industry standards and codes of conduct
 - regulators' guidelines including ASIC Regulatory Guide (RG)146 requirements
 - complaints resolution procedures (external and internal)
- provide an overview of the Australian taxation and social security systems covering:
 - relevant taxation laws and regulations
 - effects of taxation on particular financial products
 - effects of taxation on financial strategies of individuals and entities
- explain theories of estate planning including allowable investments, enduring and non-enduring powers of attorney, and share purchase agreements

- outline management and investment strategies relevant to estate planning
- explain taxation laws and regulations relevant to estate planning.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial services and products advice field of work and include access to:

- common office equipment, technology, software and consumables
- financial services product information.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSBKG401 Develop and implement policies and procedures relevant to bookkeeping activities

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to develop, implement and maintain policies and practices required to ensure the provision of quality service for in-house or contracted bookkeeping activities.

It applies to individuals who occupy roles with some responsibility and may use a range of research and organisational techniques to establish and carry out their work requirements in a wide range of industries.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Bookkeeping

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Develop professional working relationship with relevant parties	1.1 Clarify business needs and expectations of bookkeeper through clear communication with relevant parties 1.2 Determine roles and responsibilities of bookkeeper according to business needs 1.3 Identify activities that fall outside role and responsibilities of

ELEMENT	PERFORMANCE CRITERIA
	bookkeeper, and networks of individuals able to carry out activities 1.4 Refer business owner to relevant networks for advice and services where applicable 1.5 Request feedback on range, type and quality of service to be provided and act on, where applicable 1.6 Identify and use relevant ethical principles and practices in all dealings 1.7 Implement strategy for regular professional development to ensure ongoing professional practices
2. Carry out research to identify compliance requirements and support materials	2.1 Research legislative, statutory, regulatory and industry requirements for carrying out bookkeeping activities 2.2 Obtain access to relevant publications and software tools designed to assist in carrying out bookkeeping activities
3. Set up and maintain appropriate systems to meet compliance requirements	3.1 Develop systems to support user needs 3.2 Develop instructions and guidelines for carrying out relevant daily activities in accordance with compliance requirements 3.3 Review and adapt systems as necessary on a regular basis

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Learning	1.7	<ul style="list-style-type: none"> Initiates strategies to maintain and enhance own knowledge and skills
Reading	1.6, 2.1, 2.2, 3.3	<ul style="list-style-type: none"> Integrates prior knowledge with new information from a range of relatively complex sources to establish and review relevant information and extend understanding
Writing	3.1-3.3	<ul style="list-style-type: none"> Compiles logically sequenced texts using appropriate text type and support materials to convey detailed information and clear instructions that are amended or improved as required
Oral Communication	1.1-1.5	<ul style="list-style-type: none"> Participates effectively in interactions, clearly articulating information and using questioning and active listening to clarify understanding of client

		requirements and elicit client feedback
Navigate the world of work	1.6, 2.1, 2.2	<ul style="list-style-type: none"> Recognises and implements relevant legislative, statutory, regulatory and industry requirements Maintains knowledge required to meet expectations of own role
Interact with others	1.1-1.5	<ul style="list-style-type: none"> Recognises the importance of building rapport to establish effective working relationships Adapts personal communication style to show respect for the values, beliefs and cultural expectations of others
Get the work done	1.1-1.7, 2.1, 2.2, 3.1-3.3	<ul style="list-style-type: none"> Organises work according to defined requirements, using some analytical processes and taking responsibility for decisions Develops systems and supporting documentation to achieve required outcomes Uses the main features and functions of digital tools to complete work tasks

FNSBKG402 Establish and maintain a cash accounting system

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to establish and administer a cash receipts and payments system, and manage bank reconciliations and reporting responsibilities for manual and computerised systems.

It applies to individuals in positions with some responsibility who may use a range of organisational and analytical techniques to provide bookkeeping services for organisations and small business owners or managers.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Bookkeeping

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify relevant information and establish chart of accounts	1.1 Consult business owner or manager to establish what business activities are undertaken, nature of entity and industry type 1.2 Identify existing material and examine for relevance in creating and/or modifying chart of accounts 1.3 Examine business operations in conjunction with tax agent and business owner or manager to identify accounting software

ELEMENT	PERFORMANCE CRITERIA
	<p>required and determine reporting requirements</p> <p>1.4 Establish chart of accounts and opening balances for assets, liabilities, equity, income, cost of sales and expenses</p> <p>1.5 Refer prepared chart of accounts and balances for validation and authorisation by relevant persons</p>
2. Analyse and verify source documents	<p>2.1 Verify invoices and other source documents for accuracy and compliance with taxation requirements</p> <p>2.2 Identify and investigate discrepancies between monies owed and monies paid according to organisational policy and procedures</p>
3. Process receipts and payments	<p>3.1 Collect payments and bank money received</p> <p>3.2 Code and record receipts and payments in bookkeeping system on cash basis</p> <p>3.3 File receipts and payments</p> <p>3.4 Balance cash register against purchases and process takings in internal bookkeeping system</p>
4. Set up and maintain petty cash system	<p>4.1 Prepare expenditure authorisation record of encoded, recorded and filed expenditure</p> <p>4.2 Reconcile and reimburse expenditure</p>
5. Process and reconcile credit cards	<p>5.1 Process credit card transactions against invoices and other source documents, and verify and reconcile against credit card statements</p> <p>5.2 Process credit card payments in accordance with organisational policy and procedures</p>
6. Manage bank reconciliations and prepare and produce reports	<p>6.1 Verify processed transactions promptly against bank statement on receipt of statement</p> <p>6.2 Process and verify bank entries and reconcile bank statement to balance as per bookkeeping system</p> <p>6.3 Produce validated reports in line with business needs in timely manner, and make corrections as required</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.2, 1.3, 2.1, 2.2, 5.1, 6.1	<ul style="list-style-type: none"> Evaluates information from a variety of sources to determine relevance to requirements Checks detailed information for consistency and accuracy, and identifies sources of error
Writing	1.4, 3.2, 3.4, 4.1, 6.3	<ul style="list-style-type: none"> Records information accurately in required formats, and prepares and amends authenticated reports that meet business requirements
Oral Communication	1.1, 1.3, 1.5, 2.2	<ul style="list-style-type: none"> Engages in effective interactions with others using careful questioning and listening techniques to elicit relevant information and confirm understanding of requirements
Numeracy	1.3, 1.4, 2.1, 2.2, 3.1, 3.4, 4.1, 4.2, 5.1, 5.2, 6.2, 6.3	<ul style="list-style-type: none"> Uses a range of financial calculations to establish balances, verify accuracy of documents and identify errors Applies developed mathematical strategies to perform a range of transactions, reconciliations and verification processes in compliance with organisational and regulatory requirements and bookkeeping systems Uses numerically based coding system Uses mathematical language to communicate financial requirements
Navigate the world of work	2.1, 2.2, 5.2, 6.2	<ul style="list-style-type: none"> Takes responsibility for adherence to policies, procedures, and legal and ethical requirements
Interact with others	2.2	<ul style="list-style-type: none"> Selects appropriate conventions and protocols to communicate in interactions that aim to investigate discrepancies Adapts personal communication style to show respect for the values, beliefs and cultural expectations of others
Get the work done	1.1-1.5, 2.2, 2.3, 3.1-3.4, 4.1, 4.2, 5.1, 5.2, 6.1-6.3	<ul style="list-style-type: none"> Organises and completes work according to defined requirements, taking responsibility for decisions and sequencing tasks to achieve efficient outcomes Uses systematic analytical processes in complex, routine and non-routine situations, gathering information and identifying and evaluating potential solutions Uses digital tools to design work processes and to complete work tasks

Assessment Requirements for FNSBKG403 Establish and maintain an accrual accounting system

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- manage manual and computerised chart of accounts, incorporating accounts receivable and accounts payable, according to organisational procedures and legislative requirements
- review completed accounts receivable and payable processes and identify bad and doubtful debts
- plan recovery actions in accordance with legal requirements
- deal with debtors courteously and respectfully
- produce a trial balance.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the differences between cash and accrual accounting
- explain the concept of double-entry accounting
- identify relevant legal processes and describe procedures relevant to debt recovery
- describe the necessary preliminary steps, timing and acceptable avenues for recovering debts
- explain organisational policy and procedures related to the processing of transactions and records
- identify the key legislative requirements that relate to compliant bookkeeping practice
- describe the key features and differences between the operation of manual and computerised accounting systems.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the bookkeeping field of work and include access to and use of:

- common office equipment, technology, software and consumables
- an integrated financial software system and data
- current and relevant industry information materials.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSBKG404 Carry out business activity and instalment activity statement tasks

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to identify and apply compliance requirements to effectively process and complete business activity statements (BAS), instalment activity statements (IAS) and other required reports.

It applies to individuals who use a range of organisational and analytical techniques to work within organisations or to supply specific bookkeeping services as a small business owner or contractor.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. This unit is designed to meet the educational requirements of the Tax Practitioner Board (TPB). Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Bookkeeping

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify individual compliance and other requirements	1.1 Research and document legislative, regulatory, industry and organisational requirements relating to activity statements and seek expert advice to clarify issues where applicable 1.2 Review, interpret and apply legislation related to taxes reported

ELEMENT	PERFORMANCE CRITERIA
	<p>on activity statements, using relevant materials when required and other resources supporting legislation</p> <p>1.3 Identify and document policies in relation to compliance with Code of Professional Conduct as stipulated in relevant legislation</p> <p>1.4 Identify and access information, advice or services outside individual's scope of operation and establish and use networks where necessary</p> <p>1.5 Identify and document lodgement schedule requirements</p> <p>1.6 Assess entity's cash flow and payment options and initiate discussion with management to ensure sufficient funds are available</p>
<p>2. Recognise and apply GST implications and code transactions</p>	<p>2.1 Identify, apply and record goods and services tax (GST) principles</p> <p>2.2 Identify and code purchases and/or payments as per GST classifications</p> <p>2.3 Identify and code sales and/or receipts as per GST classifications</p> <p>2.4 Process accounting data to comply with tax reporting requirements</p>
<p>3. Report on payroll activities and amounts withheld</p>	<p>3.1 Identify and reconcile total salaries, wages and other payments for accounting period</p> <p>3.2 Identify and reconcile amounts withheld from salaries and wages for accounting period in conjunction with payroll department if applicable</p> <p>3.3 Identify and reconcile amounts withheld from other payments for accounting period in conjunction with other departments if applicable</p> <p>3.4 Verify or calculate pay as you go (PAYG) instalment amount where applicable, or calculate for other payments where applicable</p>
<p>4. Complete and reconcile activity statement</p>	<p>4.1 Generate, review and validate activity statement reports, identify any errors and correct bookkeeping entries where required</p> <p>4.2 Make adjustments for previous quarters, months or year-end where necessary</p> <p>4.3 Complete BAS and/or IAS return in accordance with current statutory, legislative, regulatory and organisational schedule</p> <p>4.4 Reconcile figures completed on BAS and/or IAS form with journal entries, financial statements, GST and other control</p>

ELEMENT	PERFORMANCE CRITERIA
	accounts
5. Lodge activity statement	5.1 Check activity statement and ensure sign off by appropriate person as identified by statutory, legislative and regulatory requirements 5.2 Lodge activity statement in accordance with statutory, legislative and regulatory requirements 5.3 Process and record payments and refunds as required

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.6	<ul style="list-style-type: none"> Analyses and interprets relatively complex regulatory and legislative texts and other sources of information to identify and clarify requirements
Writing	2.1, 4.3, 5.3	<ul style="list-style-type: none"> Documents research information and accurately records required tax data and financial transactions
Oral Communication	1.6	<ul style="list-style-type: none"> Elicits the views and opinions of others and obtains information by questioning and active listening, and uses clear and detailed language to clarify and confirm understanding

Assessment Requirements for FNSBKG404 Carry out business activity and instalment activity statement tasks

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- research, critically evaluate and apply any changes to current or new legislative or professional conduct requirements relevant to the preparation of activity statements
- identify financial transactions required to prepare activity statements and apply goods and services tax (GST) principles and classifications
- prepare both business activity statements (BAS) and instalment activity statements (IAS) for a range of legal entities that comply with:
 - Australian taxation law, Australian Taxation Office (ATO) rulings, Tax Practitioner Board (TPB) requirements and any lodgement schedules
 - accounting principles and practices
 - organisational policy and procedures
- present activity statements for verification and approval.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline the research methods and sources of information used to update knowledge of professional and legislative requirements relating to activity statements
- identify the key requirements of current legislation, regulations and industry codes of practice related to the preparation of activity statements, including:
 - Tax Agent Services Act (TASA), including Code of Professional Conduct and civil penalty provisions
 - Fringe Benefits Tax Assessment Act
 - Superannuation Guarantee (Administration) Act

- Superannuation Guarantee Charge Act
- A New Tax System (Goods and Services Tax) Act
- Income Tax Assessment Act
- Taxation Administration Act
- other taxation laws, including wine equalisation tax, luxury car tax and fuel tax
- Privacy Act
- describe the ATO requirements and relevant accounting terminology for the preparation and submission of BAS and IAS related to a range of business types
- describe GST terminology, classifications, regulations and obligations with reference to relevant materials
- explain the TPB requirements for registration as a BAS agent.
-

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the bookkeeping field of work and include access to:

- common office equipment, technology, software and consumables
- an integrated financial software system
- relevant legislation and industry material
- ATO and TPB and materials available from the ATO and TPB, including through the internet.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSBKG405 Establish and maintain a payroll system

Modification History

Release	Comments
Release 2	This version first released with FNS Financial Services Training Package Version 1.1. Release 2 created to correct typographical error.
Release 1	This version first released with FNS Financial Services Training Package Version 1.

Application

This unit describes the skills and knowledge required to record and prepare payroll documentation, respond to enquiries and process accurate payroll data for manual and computerised systems.

It applies to individuals who use a range of organisational and other specialist techniques. They may work directly for organisations or be small business owners, contractors or service providers.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. This unit is designed to meet educational requirements of the Tax Practitioner Board (TPB). Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Bookkeeping

Assessment Requirements for FNSBKG405 Establish and maintain a payroll system

Modification History

Release	Comments
Release 2	This version first released with FNS Financial Services Training Package Version 1.1. Release 2 created to correct typographical error.
Release 1	This version first released with FNS Financial Services Training Package Version 1.

Performance Evidence

Evidence of the ability to:

- accurately identify, calculate and input data for payments into manual or computerised payroll systems
- produce payroll reports in accordance with organisational and legislative requirements
- present payroll report for verification and approval
- maintain all records in compliance with organisational and legislative requirements that relate to security and confidentiality of information.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the scope of services appropriate for a business activity statement (BAS) agent providing payroll services
- explain the application of award and enterprise agreements and relevant industrial instruments to payroll maintenance responsibilities
- identify and explain organisational policy and procedures that affect payroll, including the structure of authority in organisations
- explain industry codes of practice relevant to payroll operations
- compare and contrast manual and computerised payroll systems

- identify relevant legislation and record-keeping requirements from all levels of government that affect business operation and reporting requirements, especially in regard to:
 - Fair Work Act
 - National Employment Standards
 - Superannuation Guarantee (Administration) Act
 - corporations law
 - workers compensation and work health and safety
 - tax related to payroll activities
 - Privacy Act (confidentiality and security of records)
 - Higher Education Loan Program (HELP)
 - Medicare levy
 - Tax Agent Services Act (TASA)
 - current state, territory and Commonwealth industry and modern awards, and enterprise bargaining agreements
 - individual employment contracts
 - Commonwealth, state and territory leave Acts including annual, sick and long service
 - Australian Bureau of Statistics (ABS) Act
- describe current Australian Tax Office (ATO) requirements such as:
 - Australian Business Number (ABN)
 - employment declaration
 - tax file number (TFN) declaration
- identify the Tax Practitioners Board (TPB) requirements, including:
 - registration and scope of services documentation requirements for BAS agents
 - Code of Professional Conduct
- explain relevant taxation law, including:
 - pay as you go (PAYG) withholding tax
 - fringe benefits tax (FBT)
- outline the key aspects of routine and non-routine requirements for payroll, including:
 - routine: award payments, salary amount, salary packaging, superannuation guarantee and super reporting
 - non-routine: termination payments and super guarantee charge.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the bookkeeping field of work and include access to:

- common office equipment, technology, software and consumables
- workplace reference materials such as procedural manuals and company policy
- actual or simulated payroll data.

Assessors must satisfy NVR/AQTF assessor requirements

This unit is designed to meet the education requirements of the Tax Practitioner Board (TPB). Where registration with the TPB is sought, assessment must reflect the conditions described by the regulator which stipulate that a significant amount (at least 40%) must be completed under some form of independent supervision. Where recognition of prior learning (RPL) is used, it must also meet the requirements of the Board's policy on RPL.

Details of requirements can be accessed on the TPB website at <<http://www.tpb.gov.au>>.

If undertaking this unit for BAS agent registration, the following items in the Range of Conditions must be addressed in the assessment to meet educational requirements for registration with the TPB:

- payroll preparation
- payroll records.

Assessment Requirements for FNSBNK401 Coordinate a small business customer portfolio

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- comply with organisational business rules, processes and procedures to deliver services to small business customers
- identify and provide tailored business banking solutions and/or referrals to specialists to meet the identified needs of small business
- efficiently coordinate a portfolio of specified small business customers to ensure customer satisfaction with products and services
- effectively use communication and problem-solving skills in managing relationships with small business customers
- efficiently use organisational systems and reports to identify, document and evaluate customer banking needs.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe customer usage patterns and document potential service and product options
- analyse key characteristics of customer motivations, needs and wants
- compare and contrast financial products and services, and their benefits and applications for small business customers
- describe the key features of organisational systems, policy, procedures and business rules relevant to delivering services to small business customers
- discuss the key principles of customer relationship marketing
- outline the organisation's referral process and its relationship to customer satisfaction
- describe information that can be accessed from organisational systems to assist in identifying and addressing customer needs

- outline the key small business legislative and reporting requirements.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the banking field of work and include access to:

- office equipment, technology, software and consumables
- organisational records, policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSBNK402 Align banking products with the needs of small business customers

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- analyse and segment the small business market and identify effective and commercially successful products to meet the varying needs of market segments
- construct effective communications campaigns and monitor their success
- meet the key performance indicators for small business engagement and business growth.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- analyse the key customer motivations, needs and wants
- compare and contrast financial products and services and their benefits and applications
- describe the key features of legislation and regulation relevant to small business customers, covering:
 - financial services reform
 - privacy
 - competition and consumer issues
 - company law
- outline the role of market research in aligning banking products and services to the needs of small business customers
- describe the key features of organisational systems, policy, procedures and protocols relevant to small business customers
- discuss the key principles of small business engagement and portfolio management.
-

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the banking field of work and include access to:

- office equipment, technology, software and consumables
- financial services product information
- organisational policy and practices for providing services to small business customers.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSBNK403 Provide services in a Business Transaction Centre

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to provide a breadth of service in Business Transaction Centres (BTCs) and Rural Transaction Centres (RTCs) in regional and remote Australia, including client service, processing and client needs analysis. Services may be undertaken for a range of agencies.

It applies to individuals who work independently and have responsibility in a frontline client service capacity to provide assistance and support and maintain quality standards.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Banking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Represent Business Transaction Centre	<p>1.1 Recognise and communicate role and purpose of BTC in providing services to local community and its relationship to organisation in which it is hosted to clients</p> <p>1.2 Develop and maintain knowledge of relevant range of products and services</p> <p>1.3 Effectively maintain documentation and promotional material about range of services facilitated by centre to ensure accessibility,</p>

ELEMENT	PERFORMANCE CRITERIA
	<p>accuracy, currency and quality</p> <p>1.4 Access relevant contact people, hotline phone numbers and websites of services supported by centre to provide support and clarify service queries</p>
<p>2. Identify client service and information needs</p>	<p>2.1 Provide timely and courteous responses to client requests and queries</p> <p>2.2 Refer requests for information, advice, products or services that fall outside centre's level of authorisation or capacity to relevant service provider or agency for resolution</p> <p>2.3 Provide help and assistance to clients to ensure full and accurate completion of documentation or transaction forms</p>
<p>3. Process client transactions</p>	<p>3.1 Check information or forms provided by clients for accuracy and completeness</p> <p>3.2 Follow processes and protocols to maintain privacy of client information in line with centre's established standards</p> <p>3.3 Complete transactions in timely and accurate manner using protocols and processes of centre</p> <p>3.4 Maintain accurate client transaction details and report as required for each service provided on behalf of another agency</p> <p>3.5 Routinely conduct accurate reconciliation of monies received with transaction records</p> <p>3.6 Respond to client queries or complaints in courteous and timely manner using required protocols and processes</p>
<p>4. Provide support and service information to clients</p>	<p>4.1 Provide professional and confidential assistance and advice to clients</p> <p>4.2 Efficiently and effectively conduct bookings for appointments with other professionals or service providers using standard operating procedures</p> <p>4.3 Provide clients seeking skill development and assistance to access full range of services offered by centre with courteous, accurate and timely support</p>

Foundation Skills

Assessment Requirements for FNSBNK403 Provide services in a Business Transaction Centre

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- provide accurate and timely information, advice and transaction processing for a range of agencies
- provide high level client service, including responding to queries and complaints, referrals, assistance with documentation and provision of confidential and sensitive information to diverse community members
- efficiently complete transactions, accurately reconcile monies and complete required reports.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe the key features of Business Transaction Centre (BTC) or Rural Transaction Centre (RTC) policy, procedures and protocols
- describe the organisation's client service requirements, including protocols for the complaints process and authorisation procedures when delivering services
- describe the full range of BTC or RTC products and services, and their benefits and applications
- explain the process for maintaining accurate client and agency information and reports
- explain the key requirements of relevant legislation relating to:
 - privacy
 - electronic funds transfer
 - fraud
 - consumer protection
 - workplace health and safety (WHS).

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in a BTC or RTC in the banking field of work and include access to:

- office equipment, technology, software and consumables
- financial services product information
- organisational policy, procedures and systems.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSBNK502 Manage services in a Business Transaction Centre

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- manage the provision of a wide range of information, advice and transaction processing services for selected agencies
- liaise and consult with community members, groups and external agencies
- assist to identify, develop and manage processes to ensure compliance with all regulatory and organisational obligations
- manage budgets, operational plans and reporting aligned to organisational requirements and funding agreements or contracts
- lead and manage team members to meet performance indicators.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- analyse and describe the key features of the Business Transaction Centre (BTC) or Rural Transaction Centre (RTC) policy, procedures and protocols
- compare and contrast the key features of business management strategies and processes, including client satisfaction
- outline the key features and stages in business planning and budgeting processes
- compare and contrast leadership strategies
- explain organisational authorities and delegations
- describe the key features of legislation relating to BTCs and RTCs.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the banking field of work and include access to:

- office equipment, technology, software and consumables
- financial services product information
- organisational policy, procedures and process documentation.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSCRD302 Monitor and control accounts receivable

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- comply with appropriate legislation
- follow organisational credit policy and guidelines relating to account control and monitoring practice
- liaise with others to clarify information for basic credit accounts
- deal with and resolve disputes that comply with legislative requirements and organisational guidelines
- use data entry and recording systems to maintain and monitor customer accounts and records.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe organisational credit management protocols and processes
- explain organisational policy on handling complaints and dispute resolution
- explain the compliance requirements of the credit management sector and identify related legislation.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the credit management field of work and include access to:

- common office equipment, technology and consumables
- credit product information

- relevant software systems and data
- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSCRD401 Assess credit applications

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to assess and verify information provided in credit applications, establish credit terms and limits, and notify customers of credit application outcomes.

It applies to individuals who may use a range of organisational techniques to manage credit and debt recovery.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Credit management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Satisfy initial enquiry	1.1 Respond to initial customer enquiries on type, range and availability of credit and provide information with courtesy, respect and recognition of special needs of customers 1.2 Provide basic information, such as terms and conditions and interest rate, and determine potential securitisation needs in accordance with credit policy and legislative requirements
2. Assess and verify	2.1 Verify credit applications and documentation in accordance

ELEMENT	PERFORMANCE CRITERIA
credit information	<p>with organisational policy and procedures to maintain accuracy of credit database information</p> <p>2.2 Analyse credit information to establish that sufficient evidence of accurate information has been provided</p> <p>2.3 Maintain liaison with customers and relevant internal and external personnel to ensure information is kept up to date and disseminated appropriately</p>
3. Assess risk	<p>3.1 Identify and evaluate possible risks to determine overall level of risk associated with application</p> <p>3.2 Identify need to take security, minimise risk exposure and provide protection against risk in accordance with organisational risk management policy</p> <p>3.3 Document risk assessment in accordance with organisational procedures</p>
4. Establish credit terms and limits	<p>4.1 Make decision on how to proceed with credit application based on assessed information and in accordance with organisational risk management policy</p> <p>4.2 Determine credit terms and limits within organisational credit policy guidelines and advise customers of credit decisions promptly and courteously</p> <p>4.3 Complete credit account administration according to organisational credit policy and timelines, and legislative requirements</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	2.1, 2.2, 3.1	<ul style="list-style-type: none"> Analyses and carefully reviews a range of documents to verify details, assess risk and inform decisions
Writing	2.3, 3.3, 4.3	<ul style="list-style-type: none"> Records information accurately from spoken texts, and integrates information from a range of other sources using vocabulary, numerical data and organisational structures to convey precise meaning in required formats

Oral Communication	1.1,1.2, 2.3, 4.2	<ul style="list-style-type: none"> Engages effectively using vocabulary and structure appropriate to the requirements of a diverse audience Uses clear and direct language to convey details, and careful listening and questioning techniques to elicit and verify information from internal and external stakeholders
Numeracy	1.2, 2.1, 2.2, 3.1-3.2, 4.1, 4.2	<ul style="list-style-type: none"> Interprets and analyses numerically expressed information from a range of sources to assess risk Performs calculations to establish credit levels and monitors and reviews financial data for accuracy and compliance
Navigate the world of work	1.2, 2.1, 3.2, 3.3, 4.1, 4.2, 4.3	<ul style="list-style-type: none"> Accepts responsibility and ownership for the task and makes decisions on completion parameters and the need for coordination with others Takes personal responsibility for following explicit and implicit policies, procedures and legislative requirements Identifies and acts on issues that contravene relevant policies, procedures and legal requirements
Interact with others	1.1, 1.2, 2.3, 4.2	<ul style="list-style-type: none"> Implements strategies for a diverse range of colleagues and customers to build rapport and foster strong relationships
Get the work done	1.2, 2.2, 2.3, 3.1, 3.3, 4.2, 4.3	<ul style="list-style-type: none"> Makes critical decisions quickly and intuitively in complex situations, taking into consideration a range of variables including the outcomes of previous decisions Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effective outcomes Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for FNSCRD401 Assess credit applications

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- communicate with customers, considering their special needs, to explain:
 - features of credit products
 - application and security requirements
 - the credit decision
- comply with appropriate legislation, industry regulations and organisational guidelines when analysing and documenting risk in the assessment of credit applications
- use data entry and recording systems to capture and analyse credit information and complete risk assessment.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- list the features of credit products and their application requirements
- describe the special needs of customers
- explain the organisational procedures and systems relating to assessing credit applications
- identify the possible risks associated with credit applications
- describe the types of security that can be taken to minimise risk exposure
- describe the key features of organisational credit and risk management policies
- identify and outline the key requirements of relevant legislation and industry regulations in regards to risk assessment.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the credit management field of work and include access to:

- common office equipment, technology and consumables
- credit product information
- relevant software systems and data
- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSCRD402 Establish and maintain appropriate security

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to determine and implement appropriate security options in relation to individual customers to protect the organisation against loss and exposure.

It applies to individuals who may use a range of specialised techniques and strategies to manage their work outcomes.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Credit management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Assess requirement for security	1.1 Undertake risk analysis of credit applications in accordance with organisational credit policy and guidelines to determine requirements for security 1.2 Determine customers' level of risk and identify security requirements
2. Identify available security options and	2.1 Explain requirements for security to customers, considering

ELEMENT	PERFORMANCE CRITERIA
suitability of available securities	any special needs of customers 2.2 Identify range of securities available and determine which are appropriate to type of credit facility 2.3 Negotiate with customers to determine security arrangements as required within organisational guidelines
3. Apply appropriate security	3.1 Analyse assets and conduct valuations to confirm value of security 3.2 Register security interest in accordance with legislative requirements
4. Monitor and review effectiveness of security arrangement	4.1 Maintain knowledge of current conditions in market and keep updated on any changes in organisation's credit policy and guidelines 4.2 Monitor customer accounts to confirm appropriateness of security arrangements 4.3 Amend security arrangement documentation to reflect changes in customers' relationships or circumstances where necessary

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 2.2, 3.1, 4.1 , 4.2	<ul style="list-style-type: none"> Analyses and interprets relevant legislative and regulatory information to establish requirements and identifies and assesses risk from analysis of a range of documents containing textual and numerical information
Writing	3.1, 3.2, 4.2, 4.3	<ul style="list-style-type: none"> Selects appropriate linguistic structures and text required to establish a customer profile, clarify options, detail service requirements and obligations, and register and amend relevant documentation in compliance with organisational and regulatory requirements
Oral Communication	2.1, 2.3	<ul style="list-style-type: none"> Participates effectively in interactions using well developed strategies to elicit facts, exchange relevant information and negotiate satisfactory outcomes for

		internal and external stakeholders
Numeracy	1.1, 1.2, 2.1, 2.2, 3.2, 4.1	<ul style="list-style-type: none"> Interprets and analyses numerically expressed information from a range of sources to identify appropriate security, performs calculations to establish value and monitors security arrangements to prevent loss
Navigate the world of work	1.1, 1.2, 3.1, 3.2	<ul style="list-style-type: none"> Accepts responsibility and ownership for the task and makes decisions on completion parameters and the need for coordination with others Takes personal responsibility for following explicit and implicit policies, procedures and legislative requirements Identifies and acts on issues that contravene relevant policies, procedures and legal requirements
Interact with others	2.3, 3.1, 3.2	<ul style="list-style-type: none"> Uses a range of strategies and reads verbal and non-verbal signals to establish a sense of connection and build rapport with customers Recognises and accommodates the basic differences and priorities of others
Get the work done	1.1, 2.2, 3.2, 4.1, 4.2	<ul style="list-style-type: none"> Makes routine decisions and implements standard procedures for routine tasks, using formal decision-making processes for more complex and non-routine situations Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effective outcomes Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for FNSCRD402 Establish and maintain appropriate security

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- comply with relevant legislative requirements, industry regulations and codes of practice relating to security in credit applications
- interpret and implement an organisation's credit policy in regards to security
- communicate effectively with customers explaining the requirement for security and their options in providing security
- analyse the security customers can provide and establish the most appropriate option that will minimise risk to the organisation
- maintain security for the credit arrangement in line with changes in organisational credit policy.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline current conditions in the credit management sector
- describe key features of organisational credit policy and procedures
- explain the full range of security options for credit that currently apply
- outline the legislation, regulations and codes of practice relevant to security and the personal property securities register (PPSR)
- discuss verbal and non-verbal communication
- explain organisational guidelines when dealing with customers who have special needs.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the credit management field of work and include access to:

- common office equipment, technology and consumables
- credit product, loan security and risk minimisation information
- relevant software systems and data
- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSCRD405 Manage overdue customer accounts

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to identify customer accounts which have outstanding payments and negotiate agreements that are monitored for compliance or further action.

It applies to individuals who may use a range of organisational and negotiation skills to plan, manage and monitor their work. This unit may be adapted to meet a range of debt recovery and debt management job roles.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Credit management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify customers requiring collection activity	1.1 Monitor organisational reporting system regularly for possible overdue accounts 1.2 Access relevant customer information and retrieve records 1.3 Review overdue accounts and customer credit histories in accordance with organisational policy and procedures, and relevant legislation

ELEMENT	PERFORMANCE CRITERIA
2. Establish contact with customers and attempt to resolve outstanding payment matters	<p>2.1 Determine proposed communication with customers to collect outstanding payments</p> <p>2.2 Obtain approval to initiate communication with customers from authorised personnel in the organisation and inform other relevant external parties</p> <p>2.3 Establish rapport with customers and ensure all communication complies with relevant legislation and organisational policy and procedures</p> <p>2.4 Advise purpose of contact clearly and comprehensively to customers in accordance with legislative requirements</p>
3. Negotiate resolution of outstanding payments	<p>3.1 Advise customers of possibility of legal action and any other implications if outstanding payments are not resolved</p> <p>3.2 Use appropriate techniques to achieve resolution and record negotiation outcomes accurately</p> <p>3.3 Schedule further action to be undertaken in relation to outstanding payment matters</p>
4. Monitor agreements to ensure adherence	<p>4.1 Review accounts regularly to ensure that payments are received in accordance with negotiated arrangements</p> <p>4.2 Address breaches of agreements in accordance with organisational policy and procedures, and legislative requirements</p> <p>4.3 Refer outstanding payment matters to appropriate personnel as required</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 1.3, 4.1	<ul style="list-style-type: none"> Critically evaluates relatively complex texts and other information to determine if action is required
Writing	1.3, 2.1, 2.4, 3.1, 3.2, 3.3	<ul style="list-style-type: none"> Documents actions and required information using clear and detailed language specific to the purpose of a range of communications with customers and external entities
Oral	2.2-2.4, 3.1, 3.2, 4.3	<ul style="list-style-type: none"> Clearly articulates requirements using language, tone

Communication		<p>and pace appropriate to the audience and the environment</p> <ul style="list-style-type: none"> • Uses careful listening and questioning techniques to negotiate and confirm mutual understanding of the agreement
Numeracy	1.1, 1.3, 4.2	<ul style="list-style-type: none"> • Uses a range of mathematical skills to interpret accounting records for breaches and calculate overdue amounts
Navigate the world of work	1.3, 2.3, 2.4, 4.2	<ul style="list-style-type: none"> • Takes personal responsibility for following explicit and implicit policies, procedures and legislative requirements • Identifies and acts on issues that contravene relevant policies, procedures and legal requirements in managing customer accounts
Interact with others	2.1-2.4, 3.1, 4.3	<ul style="list-style-type: none"> • Uses a range of strategies and reads verbal and non-verbal signals to establish a sense of connection and build rapport with customers • Negotiates positive outcomes for complex problematic exchanges • Recognises and accommodates basic differences and priorities of others
Get the work done	1.1-1.3, 3.2-3.3, 4.1-4.2	<ul style="list-style-type: none"> • Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effective outcomes • Makes routine decisions and implements standard procedures for routine tasks, using formal decision-making processes for more complex and non-routine situations • Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for FNSCRD405 Manage overdue customer accounts

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- follow organisational procedures and policy for identifying overdue accounts and collecting outstanding payments
- communicate effectively with customers, explaining the implications of overdue accounts and alternative payment arrangement options following organisational guidelines and legislative requirements
- apply effective negotiation skills to resolve customer outstanding payment matters
- use the data entry and reporting system correctly to identify and monitor overdue accounts.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and explain organisational policy changes that reflect current developments in the credit management sector
- explain the key steps or actions in legal debt recovery processes
- explain relevant legislative requirements of overdue account review and management
- outline a range of negotiation techniques that can be used in managing overdue customer accounts.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the credit management field of work and include access to:

- common office equipment, technology and consumables
- credit product information
- relevant software systems and data
- organisational policy and procedures for payment recovery.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSCRD501 Respond to personal insolvency situations

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to monitor personal insolvency, analyse risk impact on creditors and determine required actions.

It applies to individuals who may use a range of managerial techniques to analyse and review actions performed in their job role.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Credit management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Monitor status of insolvency and analyse potential risk	1.1 Identify factors in client accounts that may contribute to a possible personal insolvency situation and risk factors to the organisation 1.2 Assess impact of insolvency options that may be taken by a trustee or other third party
2. Determine appropriate action	2.1 Evaluate personal insolvency actions in accordance with legislative rights and obligations of both debtor and creditor 2.2 Complete appropriate documentation in accordance with legislative requirements and organisational policy and procedures

ELEMENT	PERFORMANCE CRITERIA
	to implement appropriate action and commence legal proceedings
3. Review circumstances which led to the personal insolvency situation	3.1 Evaluate causes for insolvency and review procedures to prevent recurrence of loss, contributing factors and exposure 3.2 Implement outcome of review, as required

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 2.1, 2.2	<ul style="list-style-type: none"> Interprets and analyses complex textual information from a range of sources to identify and monitor potential for risk
Writing	1.1, 2.2	<ul style="list-style-type: none"> Compiles documents which accurately convey complex financial information as required
Numeracy	1.1, 2.2	<ul style="list-style-type: none"> Extracts and evaluates numerical information embedded in familiar texts and formats to assess risk and calculate associated costs
Navigate the world of work	2.1, 2.2, 3.1	<ul style="list-style-type: none"> Researches, analyses and manages information to determine insolvency risk in accordance with the creditor organisation and statutory and regulatory requirements
Get the work done	1.1, 1.2, 2.1, 2.2, 3.1, 3.2	<ul style="list-style-type: none"> Applies systematic and analytical decision-making processes for complex and non-routine situations Accepts responsibility for planning and sequencing complex tasks and workload, negotiating key aspects with others and taking into account capabilities, efficiencies and effectiveness Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for FNSCRD501 Respond to personal insolvency situations

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- monitor relevant client accounts for possible personal insolvency situations or risks to the organisation
- accurately complete relevant documentation relating to taking insolvency action
- implement legislative requirements and organisational policy in responding to personal insolvency situations.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and describe the factors that lead to personal insolvency
- outline potential risks to the organisation of insolvency situations
- outline potential insolvency actions that may be taken
- explain key features of relevant legislative requirements relating to insolvency
- explain the application of organisational policy and procedures on insolvency management
- describe the full range of insolvency options within legal requirements
- explain relevant industry indicators of insolvency risk.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the credit management field of work and include access to:

- common office equipment, technology and consumables

- credit product information
- relevant software systems and data
- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSCRD503 Promote understanding of the role and effective use of consumer credit

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to explain the functions and implications of different forms of consumer credit as part of developing the financial skills of clients.

It applies to individuals who use a range of communication styles and techniques to provide comprehensive analysis of information in managerial support or service roles, particularly to clients with minimal financial awareness.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Credit management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify types of appropriate consumer credit options for clients	1.1 Identify clients' financial situations, requirements and objectives in regards to consumer credit by making reasonable enquiries 1.2 Explain types of appropriate consumer credit facilities to clients in plain language 1.3 Provide clients with written supporting documentation and

ELEMENT	PERFORMANCE CRITERIA
	guide them through key aspects of documentation
2. Identify and discuss costs of using credit	2.1 Explain relevant features, terms and conditions of appropriate consumer credit facilities to clients, with impacts and possible risks disclosed in a clear and concise manner 2.2 Explain fees and costs associated with different types of credit options for clients 2.3 Demonstrate how to interpret differences between advertised interest rates and comparison rates to clients
3. Promote effective use of consumer credit	3.1 Discuss strategies to avoid excessive or unmanageable debt with clients in relation to their financial situations 3.2 Discuss strategies to minimise fees and cost of credit with clients
4. Provide clients with information regarding credit reference reports	4.1 Explain role of credit reference agencies to clients in plain language 4.2 Emphasise purpose and use of credit reference reports in assessing loan applications and explain implications of establishing a poor credit history to clients 4.3 Explain right to access and methods of obtaining own credit reference report, and provide relevant contact details to clients for follow up if required

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Oral Communication	1.1-1.3, 2.1, 2.2, 3.1-3.3, 4.1-4.3	<ul style="list-style-type: none"> Establishes a supportive environment, considers the context and selects vocabulary, grammar and structure to suit a wide range of individuals and cultural differences to convey details of consumer credit choices and outcomes of individual credit history Uses active questioning and listening techniques, initiates points of clarification and uses clear and direct language to establish client credit requirements and convey strategic advice and support

Numeracy	2.1, 2.2, 3.2	<ul style="list-style-type: none"> Uses mathematical equations to compare and accurately demonstrate key features of financial information to others
Interact with others	3.1, 3.2, 4.2	<ul style="list-style-type: none"> Implements strategies for a diverse range of colleagues and clients to build rapport and foster strong relationships
Get the work done	1.1, 1.2, 2.1, 2.2, 3.1-3.3, 4.1-4.3	<ul style="list-style-type: none"> Accepts responsibility for planning and sequencing complex tasks and workload, negotiating key aspects with others and taking into account capabilities, efficiencies and effectiveness Applies systematic and analytical decision-making processes for complex and non-routine situations Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for FNSCRD503 Promote understanding of the role and effective use of consumer credit

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- comply with legislative requirements, industry regulations and code of conduct when identifying types of appropriate consumer credit options for clients and providing documentation
- explain the features, terms and conditions of the appropriate consumer credit facilities to clients, taking into account any special needs
- provide clients with a detailed analysis of the fees, costs and risks of appropriate consumer credit facilities
- identify for clients strategies to use appropriate consumer credit facilities effectively
- explain the consequences of a poor credit reference history to clients.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the effect of the current economic environment on an individual's credit and debt options
- explain the advantages and disadvantages of credit
- describe the principles of lending and credit
- outline the key differences between secured and unsecured loans
- describe the key features of relevant legislative requirements, industry regulations and codes of conduct, and how they impact on dealings with clients
- define the roles and relationships between participants within the Australian financial services industry, including banks and other financial intermediaries
- describe key features, terms and conditions, and risks of a range of consumer credit facilities, including fees and costs.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the credit management field of work and include access to:

- common office equipment, technology and consumables
- financial services product information
- relevant software systems and data
- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

- maintain up-to-date knowledge or access accurate information to respond to customer enquiries
- adhere to customer service processes and procedures
- consider and respond appropriately to customers with special needs following organisational procedures
- collect, record and update data and information as required following organisational procedures.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe company policy, procedures and requirements relevant to responding to customer enquiries
- discuss the application of privacy and confidentiality requirements covered in organisational procedures and relevant legislation
- identify and describe sources of information to access in response to customer enquiries
- discuss the application of key requirements of relevant legislation and industry codes of practice
- describe different customer groups and types of information typically sought

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the customer service field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records, policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSCUS402 Resolve disputes

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to investigate, negotiate and resolve disputes between financial services customers and organisations.

It applies to individuals in any sector of the financial services industry who work with others as part of a formal internal dispute resolution process.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Customer service

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish that dispute exists	1.1 Identify all information relating to original problem and clarify grounds for dispute 1.2 Contact all parties to identify and clarify disputed issues and confirm that customer has a legitimate dispute, or that initial complaint has not already been settled to customer's satisfaction 1.3 Ensure that organisational operating procedures have been followed and all information relevant to dispute resolution process is provided to customer 1.4 Obtain additional information from relevant parties as required

ELEMENT	PERFORMANCE CRITERIA
	and manage information exchange appropriately 1.5 Inform customer of organisation's obligations, procedures and timeframes where existence of genuine dispute is established
2. Investigate dispute and determine action to be taken	2.1 Collect all information from prior dealings with customer and undertake further investigations if necessary 2.2 Inform customer of progress and advise of any delays 2.3 Determine resolution action with consideration of facts, legislation, organisational policy and procedures and industry codes of practice, and inform appropriate personnel of action to be taken
3. Negotiate and resolve dispute	3.1 Inform customer of decision, including reasons if appropriate, and negotiate with claimant or representative if required 3.2 Resolve dispute effectively and in a timely manner, aiming to reduce need for litigation or formal conciliation services 3.3 Respect rights of customer in all dispute settlement procedures and refer any unresolved disputes to formal conciliation services
4. Finalise dispute	4.1 Record dispute resolution process outcomes and advise all parties affected by the decision clearly and promptly on the outcome and their rights to review of the decision 4.2 Prepare relevant documentation for unresolved disputes which have been referred to formal conciliation services according to legislation, regulations and codes of practice 4.3 Act on decisions of external dispute resolution as required 4.4 Complete all documentation in accordance with legislation and organisational procedures

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.3, 2.3	<ul style="list-style-type: none"> Interprets, analyses and assesses a range of textual information from a variety of sources to ensure fully informed and compliant actions

Writing	1.1-1.5, 2.2, 2.3, 3.1, 3.3, 4.1, 4.2	<ul style="list-style-type: none"> Prepares specific, relevant information which clearly informs customer and relevant others of organisation's action and obligations consistent with regulatory requirements and timeframes Uses logical, organised structures to document decisions and outcomes which comply with legislative and organisational requirements
Oral Communication	1.1-1.5, 2.2, 2.3, 3.1, 3.2, 3.3	<ul style="list-style-type: none"> Engages in complex verbal interactions considering aspects of context, purpose and audience Uses clear and direct language to clarify process, decisions and required actions to customer and others Uses careful listening and questioning techniques to clarify understanding and elicit all relevant information
Numeracy	1.1, 1.3	<ul style="list-style-type: none"> Extracts, interprets and evaluates numerical information relevant to disputes
Navigate the world of work	1.3, 1.5, 2.3, 3.3, 4.2, 4.4	<ul style="list-style-type: none"> Takes personal responsibility for following explicit and implicit policies, procedures and legislative requirements
Interact with others	1.1-1.5, 2.2, 2.3, 3.1, 3.2, 3.3, 4.1	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with internal and external stakeholders involved in disputes Collaborates and negotiates with others to achieve agreeable outcomes, playing an active role in facilitating consensus in contentious situations Recognises behaviours and triggers that contribute to conflict and implements strategies to moderate conflict
Get the work done	1.1-1.5, 2.1-2.3, 3.1-3.3, 4.1-4.4	<ul style="list-style-type: none"> Organises, plans and sequences own workload Accesses, interprets and manages dispute documentation and related information Applies problem-solving processes to address negotiation and related dispute resolution issues Uses decision-making processes to form recommendations in operational situations Uses the main features and functions of digital tools to complete work tasks and access information

Assessment Requirements for FNSCUS503 Review business performance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- establish data requirements, performance measures and service parameters to enable the review of business performance
- collate and analyse performance data using relevant techniques
- evaluate business performance and provide recommendations on change or action required.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the role of performance measures, service targets and budgets in analysing business performance
- outline key features of organisational policy and procedures and industry compliance relating to collection and analysis of data and business performance review
- discuss the organisation's industry market position relative to product/line of business.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the customer service field of work and include access to:

- common office equipment and consumables
- organisational records, policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSCUS504 Manage premium customer relationships

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- review data to conduct customer segmentation analysis and evaluation, and accurately identify customer needs
- develop service strategies, including reward and recognition approaches, to build customer relationships
- provide targeted product/service options for premium customers
- construct and analyse feedback and exception reports
- maintain and apply a thorough knowledge of organisational products and services.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain how customer motivations, needs and wants are tailored in premium relationships
- outline organisational criteria used to determine high value/premium customers
- compare and contrast financial products and services of the organisation and their benefits and applications to premium customer relationships
- describe key requirements of organisational policy, procedures and protocols relevant to building premium customer relationships
- outline the features of organisational systems for collecting and analysing data
- describe principles of customer relationship marketing.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the customer service field of work and include access to:

- common office equipment and consumables
- systems used by the organisation to provide services to customers
- financial services product information
- organisational policy and practices.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSCUS506 Record and implement client instructions

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- record and implement client instructions accurately in accordance with organisational, industry and legislative requirements
- monitor and review implemented strategies against client instructions
- provide after sales or additional service.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the terms and conditions of financial product services offered by the organisation
- explain the application of general sales and marketing techniques to provision of after sales service
- describe key requirements of organisational policy and procedures relating to documenting client instructions
- describe fraud detection and prevention procedures and practices relevant to implementing client instructions
- describe the relevant financial association's business rules
- describe key requirements of relevant financial services industry legislation and codes of practice
- describe the relevance of the following to reviewing and monitoring client instructions:
 - key characteristics of local and international financial markets and investments
 - current economic climate and outlook to the financial services industry
 - influence of tax factors on financial services clients.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the customer service field of work and include access to:

- common office equipment, technology, software and consumables
- financial services product information
- client information system and data.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFLT201 Develop and use a personal budget

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to develop, implement and monitor a personal savings budget. It has wide application and may be used in workplaces, schools, adult and community learning organisations or registered training organisations to build the financial literacy of learners. The unit may also be used as part of pre-vocational or new apprenticeship programs, or as part of services provided by counselling or advisory organisations.

It applies to individuals who use new ideas and techniques to develop personal financial literacy skills.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Financial literacy

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify and discuss budgeting as a financial tool	1.1 Identify and consider role of budgeting in lives of different groups and importance of budgeting appropriately to meet expenses at different stages of life 1.2 Discuss importance of setting financial goals 1.3 Identify and discuss obstacles that might prevent financial

ELEMENT	PERFORMANCE CRITERIA
	goals being achieved, and types of behaviours and skills required for successful budgeting
2. Prepare to develop a personal budget	2.1 Record all income and expenses for a six-month period to assist in estimating expenditure requirements 2.2 Obtain or develop budget spreadsheet to record income and expenditure for relevant period of time 2.3 Identify and list all sources of income, regular fixed expenses and variable expenses for specified period in personal budget using budget spreadsheet
3. Develop a personal budget	3.1 Subtract total expenses recorded from total income to determine surplus or deficit budget for specified period 3.2 Explore reasons for deficit budget if relevant and investigate ways to reduce expenses or increase income 3.3 Explore allocation of surplus funds towards saving and meeting identified financial goals
4. Implement and monitor the personal budget	4.1 Follow budget according to plan for a period of time 4.2 Record actual expenses and income for period during which budget is implemented 4.3 Compare budgeted expenses and income with actual amounts and modify budget where necessary 4.4 Discuss handy hints for managing personal budget 4.5 Conduct ongoing review of budget to ensure it remains relevant and to ensure updates are incorporated if necessary

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.3, 2.3, 3.2	<ul style="list-style-type: none"> Gathers and interprets financial information and identifies key aspects relevant to the task
Writing	1.1-1.3, 2.1-2.3, 4.2, 4.3	<ul style="list-style-type: none"> Accurately records and documents information relating to personal budgets using correct language, concepts and terminology

Oral Communication	1.1-1.3, 4.4	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning to develop a clear understanding of budgeting information
Numeracy	2.1, 2.3, 3.1-3.3, 4.1	<ul style="list-style-type: none"> Performs mathematical calculations including addition, subtraction, multiplication, division and percentages, and interprets financial information relating to budgets
Get the work done	2.1-2.3, 3.1-3.2, 4.1-4.5	<ul style="list-style-type: none"> Plans routine tasks and organises work according to defined requirements Reviews effectiveness of decisions and makes adjustments as required Uses digital systems and tools to design work processes and complete work tasks

Assessment Requirements for FNSFLT201 Develop and use a personal budget

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- prepare a budget spreadsheet
- calculate interest and loan repayments, and surplus or deficit funds
- prepare, implement and monitor a personal budget.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the purpose, key principles and benefits of budgeting
- explain the importance of setting financial goals
- list obstacles to achieving financial goals
- describe different stages in life and how financial goals may change
- describe the behaviours and skills needed to adhere to a budget
- explain the difference between fixed and variable expenses
- describe the role of credit and savings in managing a budget and establishing personal wealth
- describe the role of financial institutions and their savings products to assist with managing a budget.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial literacy field and include access to:

- office equipment, technology, software and consumables

- information about the budgeting process, personal financial records and other relevant resources.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFLT202 Develop and use a savings plan

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to develop and implement a savings plan to achieve identified goals and includes understanding the role of the savings plan, the risk/return relationship and how to determine appropriate savings vehicles to maximise savings. It has wide application and may be used in workplaces, schools, adult and community learning organisations or registered training organisations to build the financial literacy of learners. The unit may also be used as part of pre-vocational or new apprenticeship programs, or as part of services provided by counselling or advisory organisations.

It applies to individuals who use new ideas and techniques to develop personal financial literacy skills.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Financial literacy

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Discuss place of saving and investing today	1.1 Discuss impact of increasingly high cost of living in western society, using examples from domestic environment 1.2 Discuss increasing levels of consumer debt in Australia with reference to current issues

ELEMENT	PERFORMANCE CRITERIA
	<p>1.3 Identify and discuss importance of setting financial goals and developing a saving and investment plan at different stages of an individual's life</p> <p>1.4 Identify and discuss different attitudes to savings and investment and explore own spending habits</p>
2. Understand risk as it relates to saving and investing	<p>2.1 Use examples to explain concept of risk and risk versus return</p> <p>2.2 Determine individual's risk profile based on current and future requirements and individual's level of risk aversion</p> <p>2.3 Identify, assess and discuss impact of inflation on earnings power of money</p>
3. Develop own savings plan	<p>3.1 Identify personal savings goals, quantify into dollar amounts and arrange in order of priority</p> <p>3.2 Develop personal budget to reveal funds available to contribute towards savings goals</p> <p>3.3 Investigate range of financial product options available to maximise earnings on savings and select most appropriate according to own requirements</p>
4. Implement own savings plan	<p>4.1 List documentary requirements, including evidence of personal identity and steps needed to gather necessary documentation</p> <p>4.2 Start savings plan, using existing or new financial savings account or product, and monitor for short period of time</p> <p>4.3 Make adjustments to savings goal where it is realised that goal is unattainable</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.4, 2.2, 3.3, 4.1	<ul style="list-style-type: none"> Researches and interprets written information from a range of sources to identify relevant aspects for the required task
Writing	1.1-1.4, 2.2, 2.3	<ul style="list-style-type: none"> Records and documents information accurately using correct language, terminology and concepts

Oral Communication	1.1-1.4, 2.1, 2.3	<ul style="list-style-type: none"> Uses active listening and questioning to develop a clear understanding of information related to savings plans
Numeracy	1.1-1.3, 3.1, 3.2	<ul style="list-style-type: none"> Performs a range of mathematical calculations to interpret financial information and to balance or create budgets and savings plans
Get the work done	2.1-2.3, 3.1-3.3, 4.1-4.3	<ul style="list-style-type: none"> Plans routine tasks and organises work according to defined requirements, changing plans where necessary Gathers and analyses relevant information and evaluates options to make decisions about savings goals Reviews results of decisions to modify goals Uses digital systems tools to design work processes and complete work tasks

Assessment Requirements for FNSFLT202 Develop and use a savings plan

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- set realistic, measurable, specific and timely financial goals
- calculate amount needed to achieve identified financial goals
- develop a basic savings plan based on surplus income.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe and identify examples of consumer debt
- provide examples of financial goals at different stages of life
- explain the impact of attitudes and spending habits on reaching financial goals
- explain the key features of risk and return concepts in relation to savings and investment
- identify and describe the key principles of budgeting
- describe the role of budgeting and savings in establishing personal wealth
- explain the differences between basic financial products used to maximise savings
- describe the role of financial institutions and their basic savings products.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial literacy field and include access to:

- office equipment, technology, software and consumables

- information about the budgeting process, current interest rates, savings products and other relevant resources.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSFLT203 Develop knowledge of debt and consumer credit

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- clearly explain the role of credit in the community
- discuss the different types of consumer credit options currently available
- clearly explain the associated implications and risks of the various credit schemes available, as well as the implication of establishing a poor credit reference history.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and describe the key principles of lending and credit
- describe the role of credit in society
- outline the key role of financial institutions, regulatory bodies, credit reference agencies and consumer advisory bodies that are involved in the provision and management of credit
- list the advantages and disadvantages of credit
- list examples of fixed and revolving credit facilities
- describe the difference between secured and unsecured loans, and the implications of default on secured loans
- describe how to compare fees and costs, and list ways to minimise fees
- list ways to avoid credit card fraud
- define the term 'credit reference report' and describe how to get one
- list the implications of a poor credit rating.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial literacy field and include access to:

- office equipment, technology, software and consumables
- internet to source information.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFLT204 Develop knowledge of superannuation

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to understand the role of superannuation and other longer-term investment devices, and to make effective and informed decisions about related products. It has wide application and may be used in workplaces, schools, adult and community learning organisations or registered training organisations to build the financial literacy of learners. The unit may also be used as part of pre-vocational or new apprenticeship programs, or as part of services provided by counselling or advisory organisations.

It applies to individuals who explore new ideas and techniques to build personal financial literacy knowledge.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Financial literacy

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify and discuss role of long-term versus short-term investments	1.1 Identify and explain role of savings and investments at different points of people's life cycle 1.2 Identify and compare savings and investment patterns of Australia, population growth and ageing with other countries

ELEMENT	PERFORMANCE CRITERIA
	1.3 Describe purpose and characteristics of a range of savings and investment vehicles used for short-term and long-term savings and investment
2. Describe the contemporary superannuation environment in Australia	<p>2.1 Identify and explain purposes and benefits of superannuation as part of a long-term investment strategy to support people in retirement</p> <p>2.2 Identify and discuss basic terminology used for customers of superannuation industry and characteristics of superannuation in Australia</p> <p>2.3 Examine role of regulators and trustees in management of Australian superannuation industry</p> <p>2.4 Identify and access sources for ongoing information about superannuation in Australia and discuss their uses</p>
3. Explore characteristics and structures of superannuation funds	<p>3.1 Identify and compare types of superannuation schemes and fund managers</p> <p>3.2 Identify and describe common investment objectives and role of death benefits in superannuation schemes, and their related strategies</p> <p>3.3 Describe role and nature of preserved and non-preserved components of superannuation funds</p> <p>3.4 Identify common costs of administering and managing superannuation funds</p> <p>3.5 Compare examples of cross-section of superannuation funds' performance over time and discuss variables that contributed to performance</p>
4. Foster active management of superannuation funds	<p>4.1 Explain importance and means of checking superannuation statements for accuracy</p> <p>4.2 Identify and apply techniques for analysing performance, rate of return, government taxes and other costs</p> <p>4.3 Identify government regulated minimum age when superannuation benefits can be accessed and discuss regulation's impact</p> <p>4.4 Identify and discuss range of structures and techniques for use of superannuation funds on retirement</p> <p>4.5 Identify and discuss mechanisms to gain information about a superannuation fund, track lost superannuation contributions or lodge complaints if concerns or discrepancies arise about individual's superannuation fund</p>

ELEMENT	PERFORMANCE CRITERIA
	4.6 Develop questions on superannuation issues that may be put to employers and fund providers

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.3, 2.1-2.4, 3.1-3.5, 4.1-4.5	<ul style="list-style-type: none"> Identifies, reviews and compares written and numerical information from a range of sources to identify key details relevant to the activity
Writing	1.1-1.3, 2.1-2.3, 3.2-3.5, 4.1-4.6	<ul style="list-style-type: none"> Prepares written information and structures questions logically using correct terminology Describes concepts accurately and in a format appropriate for the audience and purpose
Oral Communication	1.1-1.3, 2.1-2.3, 3.2-3.5, 4.1-4.5	<ul style="list-style-type: none"> Uses active listening and questioning to clarify and elicit information related to the topic or enquiry Participates in verbal exchanges to share information
Numeracy	1.1-1.3, 2.1, 3.1, 3.3, 3.4, 3.5, 4.2	<ul style="list-style-type: none"> Performs a range of mathematical calculations to interpret patterns and trends, and to compare financial information
Navigate the world of work	1.1-1.3, 2.1-2.4, 3.1-3.5, 4.1-4.6	<ul style="list-style-type: none"> Identifies, confirms and understands regulatory requirements Maintains up-to-date knowledge of superannuation issues required for own situation

Assessment Requirements for FNSFLT204 Develop knowledge of superannuation

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- clearly explain the role of superannuation and other longer-term investment vehicles used in the community at different points of the life cycle
- review and discuss varying types of investment vehicles
- develop questions to put to fund managers that demonstrate knowledge necessary to actively manage a superannuation investment.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and explain key consumer issues relating to superannuation information
- identify savings and investment patterns at different life cycle stages
- identify key characteristics of superannuation in Australia
- describe different types of superannuation fund managers and types of investment strategies
- list examples of short-term and long-term savings and investment vehicles
- define common terms used in superannuation statements
- list ways of using superannuation funds on retirement
- list the key regulatory bodies and identify basic features of legislation relating to superannuation
- briefly outline the roles and relationships between participants in the Australian financial services industry, including banks and other financial intermediaries.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial literacy field and include access to:

- office equipment, technology, software and consumables
- information about the current structures of Australia's superannuation system and a wide range of superannuation schemes and products.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSFLT206 Develop knowledge of taxation

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- clearly explain the role of taxation for individuals and small business in Australia
- discuss taxation responsibilities and their impact on personal financial management
- demonstrate knowledge to manage taxation liabilities.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe the purpose of taxation
- list ways tax is collected
- describe the role of the Australian Tax Office
- identify what taxation revenue may be used to provide
- define key terminology used in personal taxation
- list sources of information about rates of personal taxation and ongoing information
- describe ways for completing taxation returns
- list and describe different types of business structures
- describe how business tax is assessed
- explain how individuals can determine their tax liability by assessing income and deductions
- describe how small business operators pay tax
- list issues relating to underpayment or overpayment of tax.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial literacy field and include access to the internet and current information about Australia's taxation system.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSFLT503 Promote basic financial literacy skills

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- assess clients' existing level of financial literacy to determine areas of need or concern
- use clear language and effective communication techniques to build rapport and explain basic financial literacy principles and knowledge to clients.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify key aspects of clients' own financial situations to determine relevant information
- outline options for purchasing goods and services
- explain the advantages and disadvantages of a range of accounts available for holding and saving money
- describe key features of different types of insurance
- describe key requirements of relevant industry codes of practice and legislation relating to privacy, consumer credit and protection, and debt recovery
- identify and explain roles and relationships between participants in the Australian financial services industry, including banks and other financial intermediaries.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial literacy field and include access to:

- office equipment, technology, software and consumables
- financial services product information.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFMB401 Prepare loan application on behalf of finance or mortgage broking clients

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to prepare a client loan application to a relevant lender, and present and process the loan using appropriate channels. Assistance with loan settlement may also apply.

It applies to individuals who use analytical and organisational skills to complete administrative requirements and use interpersonal skills to work effectively with a range of clients and personnel.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Finance/mortgage broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Compile necessary information	1.1 Collect and complete appropriate and relevant lender forms and gather relevant signatures in appropriate format 1.2 Source information required to support loan application in accordance with National Credit Code, compliance requirements and security policies

ELEMENT	PERFORMANCE CRITERIA
2. Prepare loan documentation	2.1 Prepare documentation that accurately reflects client's financial situation and personal information, and complies with lender requirements and guidelines 2.2 Confirm basic requirements of loan, including amount, term and interest rate, and check all documentation for accuracy and readability 2.3 Complete all relevant processes for proper execution of documentation efficiently and in an appropriate timeframe
3. Present documentation for assessment	3.1 Submit documentation to appropriate lender or approving officer in appropriate manner to protect client confidentiality 3.2 Notify client in timely manner of lender or approving officer's determination of offer or non-offer of loan 3.3 Provide clear, comprehensive and accurate information to client on their rights, obligations, responsibilities and manner in which to proceed if loan application is non-offer
4. Maintain communication with relevant parties	4.1 Maintain clear and open communication throughout loan preparation and presentation process with lender and client 4.2 Gather additional information requested by lender to support loan application in efficient and timely manner 4.3 Provide clear, comprehensive and accurate information to client on manner in which to proceed immediately following loan approval

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 2.2, 4.2	<ul style="list-style-type: none"> • Accesses and interprets appropriate textual information from a variety of sources to determine client's and lender's requirements • Reviews written and numerical information, carefully checking for accuracy and readability
Writing	1.1, 2.1, 2.3, 3.2, 3.3, 4.1-4.3	<ul style="list-style-type: none"> • Prepares and structures documentation logically and concisely according to organisational formats and correct procedures and protocols

		<ul style="list-style-type: none"> Completes documentation using accurate terminology, grammar and spelling to ensure clarity and readability
Oral Communication	1.1, 3.2, 3.3, 4.1-4.3	<ul style="list-style-type: none"> Uses language and concepts appropriate to audience and purpose to convey and clarify information Uses questioning and active listening in verbal exchanges to determine and confirm client loan requirements
Numeracy	1.1, 1.2, 2.2	<ul style="list-style-type: none"> Uses mathematical equations to perform calculations and check accuracy of financial data relating to loans
Navigate the world of work	1.2, 2.2	<ul style="list-style-type: none"> Recognises and follows explicit and implicit protocols, legislative and ethical requirements, and meets expectations associated with own role
Interact with others	4.1, 4.3	<ul style="list-style-type: none"> Selects and uses the appropriate conventions and protocols when communicating in a range of familiar work contexts
Get the work done	1.1, 1.2, 2.1, 2.3, 3.1-3.3, 4.1, 4.2	<ul style="list-style-type: none"> Plans a range of routine and non-routine tasks in accordance with stated goals and aims to achieve them efficiently and effectively Uses a formal decision-making process in undertaking evaluations against set criteria Uses the main features and functions of digital tools and systems to access information, manage files and communicate with others

Assessment Requirements for FNSFMB401 Prepare loan application on behalf of finance or mortgage broking clients

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- prepare a loan application to suit a lender's requirements, providing all necessary support documentation
- communicate efficiently and effectively with clients, lenders and other relevant parties
- advise clients on how to proceed following the lender's decision on an offer or non-offer.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline key features of relevant current legislation and codes of practice relating to finance and mortgage broking
- explain the different types of relevant lender forms
- describe what information is required to support a loan application
- describe key stages and features of loan settlement processes
- describe loan requirements and characteristics including:
 - term
 - interest rate
 - amount
 - support documentation
- describe key features of the following processes:
 - loan management
 - instructing valuers to assess the value of a property or other types of security
- explain general and specific lender requirements and guidelines for loan applications and securing a loan

- identify various types of security that may be required by lenders.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the finance and mortgage broking field of work and include access to:

- office equipment, technology, software and consumables
- lending products and information
- lending policy and procedures documentation.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSFMB402 Identify client needs for broking services

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- use effective communication skills to build rapport with clients and clearly explain information relating to finance and broking processes and products
- document and analyse clients' financial position according to organisational and industry requirements
- comply with company policy and relevant legislation in regards to disclosure so clients can make informed decisions.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain basic financial and accounting terms and concepts relating directly to mortgage or finance broking including:
 - variable and fixed rate interest rates
 - types of mortgage accounts
 - procedures and principles of deposit bonds
 - financial records relating to different ownership models
- describe key features of complaint handling and resolution processes, and roles of the various alternative disputes resolution schemes and services
- explain credit and credit reporting services
- describe key features of the economic environment and business cycle, financial markets and the roles of industry participants, interest rates, exchange rates and inflation
- identify and describe key features of the legal environment and relevant legislation affecting finance and mortgage broking services in regards to:
 - disclosure

- privacy
- industry codes of practice
- National Credit Code
- describe the key features of lender's mortgage insurance
- explain loan transaction terminology and definitions of the parties involved including:
 - lender and borrower
 - lessor and lessee
 - mortgagee and mortgagor
- explain real estate terms and concepts including:
 - land titles and searches
 - strata title versus company title
 - multiple securities
 - securing second mortgages
 - subdivisions of title
 - partial discharge of mortgage where multiple securities are held by lender
- categorise and explain types of fees and charges.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the finance and mortgage broking field of work and include access to:

- office equipment, technology, software and consumables
- finance and mortgage product information
- relevant software system and data.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSFMB403 Present broking options to client

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- identify and document relevant industry and product information that meets client needs and present suitable options to clients at a level of their understanding
- negotiate effectively and gain commitment from clients to proceed
- discuss and document implementation actions in anticipation of a loan application.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and categorise key lending products available in the finance and mortgage industry
- explain accounting and mathematical formulas to calculate:
 - interest rates
 - mortgage repayments
 - term of a loan
- identify and describe current government assistance for:
 - first home buyers
 - disadvantaged or low income earners
- detail borrowing risk factors
- identify and describe the key features of different presentation techniques, including technology supported presentations
- identify and outline the key products and services provided by different lenders
- explain key features of relevant codes of practice in regards to disclosure
- explain the features and applications of relevant fees, charges and commissions

- describe the negotiation process
- explain the loan application process.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the finance and mortgage broking field of work and include access to:

- office equipment, technology, software and consumables
- lending product information
- relevant software system and data.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFMB501 Settle applications and loan arrangements in the finance and mortgage broking industry

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to settle applications and loan arrangements for debt finance and undertake final arrangements to secure and complete the lending transaction for a client applying for a mortgage or related finance.

It applies to individuals who use organisational skills to accurately complete and coordinate tasks within agreed timelines and industry or organisational conditions.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Finance/mortgage broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for settlement	1.1 Confirm all pre-settlement conditions of finance approval with clients 1.2 Communicate with various parties involved in settlement process and confirm that documentation and other settlement issues are in order 1.3 Check documents to ensure they are correctly executed, signed,

ELEMENT	PERFORMANCE CRITERIA
	witnessed and dated before sending to approving personnel
2. Register securities	<p>2.1 Check loan contract for conditions relating to taking of security</p> <p>2.2 Instruct party acting for lender to liaise with all parties to settlement and attend settlement</p> <p>2.3 Register and stamp securities in accordance with lender's procedures and relevant legislation, and confirm all security actions taken</p>
3. Arrange for disbursement of funds	<p>3.1 Arrange drawdown of funds by client, or solicitor acting for client</p> <p>3.2 Disburse funds in accordance with requirements of loan approval and instructions received from client</p> <p>3.3 Activate relevant client correspondence to advise client of disbursement of funds, date of settlement, manner of disbursement and other relevant details</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 1.3	<ul style="list-style-type: none"> Analyses and conducts detailed review of complex textual documentation to determine accuracy and completeness of information
Writing	1.1, 1.2, 2.2, 2.3, 3.1, 3.3	<ul style="list-style-type: none"> Prepares correspondence and completes records and forms using appropriate terminology, language and writing mechanics
Oral Communication	1.1, 1.2, 2.2, 3.1	<ul style="list-style-type: none"> Provides clear and explicit information and instructions to others Uses active listening and questioning to confirm and clarify requirements
Numeracy	1.1, 3.1, 3.2	<ul style="list-style-type: none"> Performs mathematical calculations to analyse and check financial and numerical information for accuracy and completeness
Navigate the world of work	1.3, 2.1, 2.3	<ul style="list-style-type: none"> Recognises and follows organisational protocols and meets expectations Monitors adherence to legal and regulatory obligations

Interact with others	1.1, 1.2, 2.2, 3.1, 3.2	<ul style="list-style-type: none"> • Collaborates with others to achieve joint outcomes • Selects and uses appropriate communication conventions and protocols to liaise with clients, lenders and other stakeholders • Adapts personal communication style to show respect for the values, beliefs and cultural expectations of others
Get the work done	1.1, 1.2, 1.3, 2.2, 2.3, 3.1, 3.2, 3.3	<ul style="list-style-type: none"> • Plans a range of routine and non-routine tasks and uses logical processes to achieve goals • Uses digital technologies and systems to locate information, enter data and present information

Assessment Requirements for FNSFMB501 Settle applications and loan arrangements in the finance and mortgage broking industry

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- communicate effectively with the client and other parties so that they understand the pre-settlement conditions and their involvement required
- accurately complete loan settlement tasks so that disbursement of funds are within agreed timelines, as required by the organisation and the client
- interpret and comply with relevant legislation, statutory requirements and organisational procedures.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain different pre-settlement conditions required by lenders including gaining consent of prior mortgagee if second mortgage security is being taken
- describe different pre-settlement evidence required by lenders
- explain different pre-settlement undertakings by the borrower, required by lenders:
 - sale and settlement of other property
 - repayment of other debts
 - provision of evidence of insurance
- explain different documentation required by lender:
 - credit check authority signed
 - guarantees
 - loan contract
 - periodical payment authority

- signed application form
- explain the role of various parties involved in the settlement process
- describe settlement issues that can occur
- describe key features of current industry codes of practice, legislation and statutory requirements including:
 - National Credit Code
 - privacy legislation
 - credit legislation
- outline the steps in the process of registering security documentation
- explain relevant policies and procedures in regard to opening an account for funds to be disbursed.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the finance and mortgage broking field of work and include access to:

- office equipment, technology, software and consumables
- lending product information
- relevant specialist software system and data.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFMB502 Identify and develop broking options for clients with complex needs

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to identify complex or special financial needs for a client, and consider complicated issues such as economic and legislative requirements to develop broking strategies and solutions for a client.

It applies to individuals who apply research and analytical skills to complex and multifaceted scenarios to develop customised solutions for clients.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Finance/mortgage broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify complex broking needs of client	1.1 Discuss, review and clarify special or complex features of a client's situation and needs 1.2 Explore and comprehensively and ethically discuss risk issues and tolerance with the client, including unusual risks or requirements, and interdependencies and implications 1.3 Assess impact of risks to the client or organisation according to

ELEMENT	PERFORMANCE CRITERIA
	legislative requirements and organisational guidelines and procedures, engaging in further questioning and information gathering as required
2. Research and consider broking solutions based on client needs	2.1 Analyse current client situation to determine opportunities and constraints 2.2 Research loan structures or options including those which are new or non-standard products 2.3 Analyse complex financial issues in terms of economics, legislation, taxation and insurance 2.4 Model, analyse and prioritise options, comparing features, fees and charges, and risks, and reject inappropriate options 2.5 Check preliminary options to ensure compliance with relevant legislation and regulatory and ethical guidelines, and assess ability to successfully meet client needs
3. Select and gather appropriate options and information for client review	3.1 Select broking options for review with client and develop or obtain explanatory material 3.2 Consider referrals to an accountant, financial adviser or lawyer where required in broking solution 3.3 Develop recommendations on risk management strategies and incorporate into materials for client, and include description of anticipated fees and charges 3.4 Include information on complaints resolution procedures (internal and external) in client materials 3.5 Document broking recommendations and loan structures that will be presented to client according to organisational guidelines and procedures

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.3, 2.1, 2.2, 2.5	<ul style="list-style-type: none"> Researches textual information from a range of sources and analyses issues and risks to develop strategic options

Writing	1.1-1.3, 3.1, 3.3, 3.4	<ul style="list-style-type: none"> Prepares reports containing complex information and strategies in logical structure using organisational formats Uses clear and concise language, terminology and concepts appropriate for the client
Oral Communication	1.1-1.3	<ul style="list-style-type: none"> Uses active listening and questioning to elicit information and explore issues Participates in verbal exchanges to explain and clarify complex financial information
Numeracy	1.1-1.3, 2.1-2.5	<ul style="list-style-type: none"> Performs calculations, manipulates data for modelling and undertakes comparative analyses of numerical and financial information to determine requirements and develop options
Navigate the world of work	1.2, 1.3, 2.2, 2.3, 2.5	<ul style="list-style-type: none"> Recognises and adheres to workplace protocols and procedures Monitors adherence to legislative requirements in the conduct of work Maintains currency of industry and product knowledge as required by role
Interact with others	1.1-1.3	<ul style="list-style-type: none"> Selects and uses appropriate communication conventions and protocols to liaise with clients and other stakeholders Adapts personal communication style to show respect for the values, beliefs and cultural expectations of others
Get the work done	1.2, 1.3, 2.1-2.5, 3.1-3.5	<ul style="list-style-type: none"> Uses formal and informal planning processes to identify relevant information and risks, and evaluate appropriate strategies Recognises and addresses complex problems involving multiple variables Reflects on the impact of decisions on outcomes Invests time in recognising new ideas and opportunities Uses familiar digital systems and tools to access, filter, organise, analyse and display relevant information

Assessment Requirements for FNSFMB502 Identify and develop broking options for clients with complex needs

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- develop detailed broking options and recommendations designed to maximise client outcomes and meet client needs
- provide detailed analysis of research strategies and findings, and risk analysis
- test and make appropriate checks on a proposed recommendation for integrity and compliance with legislative requirements, and organisational guidelines and procedures

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and explain complex features of a client situation and needs including:
 - commercial loans
 - chattel leases
 - native title rights
 - heritage issues
 - contaminated sites or properties near noxious industries
- outline the legislation, regulations and codes of practice affecting the broking industry
- explain risk issues relevant to:
 - borrowing risk and gearing
 - economic risk
 - specific product risk
 - institutional risk
 - risk factors and return expectations of the client
 - volatility of income and capital

- detail organisational guidelines and procedures on assessing impact of risks and documenting broking recommendations
- discuss complaint handling and dispute resolution procedures
- explain key products available in the broking industry
- research methods on gathering information on new or non-standard products.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the finance and mortgage broking field of work and include access to:

- office equipment, technology, software and consumables
- economic and financial services product information
- specialist software and data.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFMB504 Implement complex loan structures

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to establish actions, timings and priorities needed to implement complex loans and supervise the implementation process, and applies to finance brokers working with clients with complex needs.

It applies to individuals who use specialised knowledge and well developed organisational skills to coordinate the implementation of complex financial processes.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Finance/mortgage broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Organise implementation actions	<p>1.1 Review special or complex features of client situation for implementation implications including high asset, income or expenditure requirements, complex taxation, nature and forms of securities to be taken and other legal or complex issues</p> <p>1.2 Prioritise implementation actions, plan timing for each action and confirm activities to be consistent with client needs and specifications</p>

ELEMENT	PERFORMANCE CRITERIA
	<p>1.3 Explain implementation actions required by client clearly, obtain written agreement to actions and establish implementation records</p> <p>1.4 Implement actions including timing and priority to maximise advantage for client</p>
2. Establish appropriate procedures for implementation	<p>2.1 Identify and brief personnel to implement each action for loan structure and complete internal and external documentation requirements</p> <p>2.2 Coordinate implementation actions that depend on or involve actions by other professionals</p> <p>2.3 Establish monitoring procedures for critical implementation timing and priorities</p>
3. Undertake and/or supervise implementation	<p>3.1 Brief client on actions to be undertaken and provide assistance where needed</p> <p>3.2 Issue instructions to internal and external personnel as per loan structure</p> <p>3.3 Maintain consultation and monitoring with other professionals where joint implementation action is required, and check and follow up on lodgement of documentation to ensure plan timings are met</p> <p>3.4 Obtain and process fees and charges according to organisational and legislative requirements</p> <p>3.5 Debrief client post-implementation and address any concerns</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1	<ul style="list-style-type: none"> Reviews information from a range of sources and interprets key aspects to determine implementation actions
Writing	1.3, 2.1, 3.1, 3.2, 3.3, 3.5	<ul style="list-style-type: none"> Prepares correspondence and documentation using clear and unambiguous language to convey complex information appropriate for audience and purpose

Oral Communication	1.3, 2.1, 3.1, 3.2, 3.3, 3.5	<ul style="list-style-type: none"> • Uses language, tone and pace appropriate to audience and purpose when issuing instructions and explaining information • Uses active listening and questioning skills in verbal exchanges to clarify information and build relationships
Numeracy	1.1, 1.3, 3.2, 3.4	<ul style="list-style-type: none"> • Interprets numerical and financial information to determine required actions, timings and sequences • Performs mathematical equations to check calculations
Navigate the world of work	1.1, 3.4	<ul style="list-style-type: none"> • Recognises and applies legislative requirements and workplace protocols, and meets expectations associated with role
Interact with others	1.3, 2.1, 3.1, 3.2, 3.3, 3.5	<ul style="list-style-type: none"> • Identifies the information requirements and selects the appropriate communication format when responding to routine and non-routine exchanges • Recognises the importance of building rapport to establish and maintain effective working relationships • Collaborates with others to achieve joint and desired outcomes • Adapts personal communication style to show respect for the values, beliefs and cultural expectations of others
Get the work done	1.2-1.4, 2.1, 2.2, 2.3, 3.2, 3.4	<ul style="list-style-type: none"> • Organises, plans and sequences own workload, and schedules work activities of others • Uses digital technologies and systems for accessing information and developing, implementing and monitoring plans

Assessment Requirements for FNSFMB504 Implement complex loan structures

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- prepare materials, personnel and other professionals to effectively implement complex loan structures
- interpret and comply with legislation, industry regulations, organisational requirements and codes of practice
- review impacts of high asset, income or expenditure requirements, complex taxation, complex nature of and forms of securities, and other legal or complex requirements
- establish appropriate monitoring to track progress of implementation.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and explain complex features of a client situation and needs including:
 - commercial loans
 - chattel leases
 - native title rights
 - heritage issues
 - contaminated sites or properties near noxious industries
- explain the complex nature of the securities to be taken including:
 - implications of borrowing against leased premises
 - multiple securities of differing kinds
 - rural land
 - specialised securities such as hotels
- identify forms of security to be taken for complex loan structures:

- assignment of rental income to the lender
- joint and several personal or related company guarantees
- multiple mortgages
- registered company charges
- second mortgages
- the involvement of unit or family trusts as either borrowers or guarantors
- discuss documentation requirements relating to:
 - disclaimers
 - disclosures
 - insurance policies
 - prospectuses
 - receipts
 - written advice
- outline key features of relevant legislation including state and territory legislation, charges and taxes
- discuss time management techniques and tools to support implementation process.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the finance and mortgage broking field of work and include access to:

- office equipment, technology, software and consumables
- financial services product information
- specialist software and data.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFMK401 Reconcile financial transactions

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to confirm and reconcile financial market trading transactions.

It applies to individuals who use specialised knowledge to carefully review and check detailed information to ensure quality standards are maintained.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Reconcile transaction	1.1 Identify accounts and/or data held in operations systems for reconciliation 1.2 Check that cash or security movements in one account agree with those in other accounts and/or the organisational systems 1.3 Identify any discrepancies within the transaction amounts between accounts according to organisational procedures
2. Follow up discrepancies	2.1 Follow up any discrepancies with the counterparty, correspondent or internal systems according to organisational

ELEMENT	PERFORMANCE CRITERIA
	procedures 2.2 Escalate unreconciled discrepancies to appropriate organisational personnel for review 2.3 Reconcile accounts once discrepancies have been rectified

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.3, 2.1	<ul style="list-style-type: none"> Reads and interprets information to determine and confirm work requirements
Writing	2.1, 2.2	<ul style="list-style-type: none"> Records information accurately and completes documentation appropriate to audience and purpose
Oral Communication	2.1, 2.2	<ul style="list-style-type: none"> Participates in verbal exchanges using appropriate language and concepts to convey and clarify information
Numeracy	1.1-1.3, 2.2, 2.3	<ul style="list-style-type: none"> Uses mathematical equations to perform calculations and identify discrepancies
Navigate the world of work	1.3, 2.1	<ul style="list-style-type: none"> Accepts responsibility for ensuring the accuracy of transactions and compliance with organisational requirements
Interact with others	2.1, 2.2	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with clients and co-workers in a range of work contexts
Get the work done	1.3, 2.1-2.3	<ul style="list-style-type: none"> Plans, organises and implements tasks, aiming to achieve them efficiently and effectively Makes routine decisions and implements standard procedures for routine tasks, using formal decision-making processes for more complex and non-routine situations Uses the main features and functions of digital tools to complete work tasks and find information

FNSFMK402 Develop and maintain knowledge of financial markets products

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to identify the financial markets products provided by an organisation, or those from other vendors or organisations used, and determine their unique characteristics, purpose and requirements for processing transactions.

It applies to individuals who use specialised knowledge, systematic approaches and analytical skills to support organisational information requirements.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify products organisation provides or uses	1.1 Identify organisational products used by organisation and determine purpose of each 1.2 Identify characteristics of products and services and their use 1.3 Effectively apply processes for operational transactions involving organisational products
2. Identify compliance	2.1 Identify compliance implications of transactions for

ELEMENT	PERFORMANCE CRITERIA
implications of products	organisational products 2.2 Produce all necessary documentation consistent with organisational compliance requirements
3. Determine user expectations for financial markets products	3.1 Identify function of each product and customer needs it satisfies as basis for providing operational services 3.2 Determine and apply user expectations of products and level of operational service provided in operational transactions
4. Maintain financial markets product knowledge	4.1 Regularly review organisational financial markets products and identify and apply any changes to terms and conditions 4.2 Implement systems for keeping up with changes and maintaining up-to-date knowledge about financial markets products 4.3 Review emerging trends affecting the financial industry and apply to product knowledge and operational practices

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Learning	4.1-4.3	<ul style="list-style-type: none"> Develops and uses personal organisational systems to gather and organise information Systematically and proactively sources and incorporates new information to improve own work practices
Reading	1.1, 1.2, 3.1, 3.2, 4.1, 4.3	<ul style="list-style-type: none"> Researches and analyses information from a variety of sources to identify key details and trends, and determine requirements
Writing	2.2, 3.2	<ul style="list-style-type: none"> Completes workplace documentation accurately using appropriate vocabulary
Oral Communication	3.1, 3.2	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning techniques to elicit the views and opinions of others and convey information
Numeracy	1.1, 1.3, 2.1	<ul style="list-style-type: none"> Uses mathematical equations to perform calculations and comparisons of financial and numerical information

Navigate the world of work	1.1, 2.1, 2.2, 3.2, 4.3	<ul style="list-style-type: none"> Accepts responsibility for developing and updating product knowledge Takes personal responsibility for following explicit and implicit policies and procedures about compliance requirements
Interact with others	3.1, 3.2	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when conducting research to establish client needs
Get the work done	1.3, 2.2, 3.1, 3.2, 4.1-4.3	<ul style="list-style-type: none"> Plans, organises and implements tasks, aiming to achieve them efficiently and effectively Makes decisions by referring to standard procedures for routine tasks and formal decision-making processes for more complex and non-routine situations Uses the main features and functions of digital tools to complete work tasks and find information

Assessment Requirements for FNSFMK402 Develop and maintain knowledge of financial markets products

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- access information relating to the financial products of an organisation and the market uses and providers
- compare and rate competitive products
- set up system for maintaining up-to-date knowledge about financial products
- determine the customer types and customer needs that the financial products are best suited for.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe the key features of organisational policies in terms of client service expectations and needs
- identify and describe systems that can be accessed to obtain up-to-date information on financial services products and competition
- describe key features of a range of organisational financial products
- compare the key features and unique characteristics of a range of products, including those used by competitors that are similar to the organisation's
- outline the compliance implications relating to financial markets products
- outline the potential impact that emerging trends may have on financial markets products.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial markets field of work and include access to:

- office equipment, technology, software and consumables
- a range of financial products information.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFMK403 Interpret financial markets information

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to access, interpret and analyse relevant aspects of market information to inform operational functions and identify and assess risks in dealing with financial transactions and settlements.

It applies to individuals who use specialised knowledge, systematic approaches and analytical skills to make judgements to support the organisation's operational requirements.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Relate financial markets information to operational roles	1.1 Recognise different sectors that occur within the financial market and relate appropriately to financial market's operational role 1.2 Consistently apply knowledge of relationship between financial market sectors, participants and the economy 1.3 Set clear and quantifiable parameters for identification and sourcing of information in accordance with legislative and organisational requirements

ELEMENT	PERFORMANCE CRITERIA
	1.4 Access and interpret market information and data in terms of validity, reliability and relevance to defined operational tasks
2. Interpret market information and assess risk	<p>2.1 Identify and evaluate economic trends and market developments in terms of potential implications and impacts on operations, including compliance with relevant legislation</p> <p>2.2 Identify potential operational risk for organisation and clients, and determine contingencies to manage risk in accordance with organisational and industry standards</p> <p>2.3 Use sound judgement to ensure consistency of interpretations based on available information sources</p>
3. Apply market data	<p>3.1 Prioritise market performance, trends and risk identification associated with operational tasks</p> <p>3.2 Apply market data to operational role and report any issues requiring supervision or guidance to relevant persons in accordance with organisational requirements</p> <p>3.3 Apply market information and data to operations in accordance with relevant legal and ethical constraints and organisational requirements</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.3, 1.4, 2.1- 2.3	<ul style="list-style-type: none"> Researches and analyses information relevant to the operational role
Writing	1.1, 1.3, 3.2	<ul style="list-style-type: none"> Records information and completes documentation using protocols and procedures appropriate for the audience and purpose
Oral Communication	2.2, 3.2	<ul style="list-style-type: none"> Determines and confirms work requirements, using questioning and active listening as required Participates effectively in verbal exchanges to share and report information
Numeracy	1.3, 1.4, 2.3, 3.1-3.3	<ul style="list-style-type: none"> Uses mathematical equations to perform calculations and comparisons of financial and numerical information

Navigate the world of work	1.1-1.4, 2.1, 2.3, 3.2-3.3	<ul style="list-style-type: none"> • Uses a broad range of strategies to maintain currency of knowledge • Takes responsibility for following legislative and organisational compliance requirements
Interact with others	3.2	<ul style="list-style-type: none"> • Selects and uses appropriate conventions and protocols when communicating with colleagues
Get the work done	1.3, 1.4, 2.1-2.3, 3.1-3.3	<ul style="list-style-type: none"> • Plans, organises and implements tasks, aiming to achieve them efficiently and effectively • Makes routine decisions and implements standard procedures for routine tasks, using formal decision-making processes for more complex and non-routine situations • Uses the main features and functions of digital tools to complete work tasks and find information

Assessment Requirements for FNSFMK403 Interpret financial markets information

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- work within the legal and ethical constraints for financial markets operations and comply with organisational requirements
- source, collect and interpret, using appropriate parameters, relevant financial markets information
- make operational judgements using the correct interpretation of data.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify key roles played by market participants, intermediaries and issuers including:
 - ASX
 - custodians
 - managed fund providers
 - retail and wholesale clients
 - superannuation fund providers
 - financial service providers
 - banks
 - brokers
 - building societies
 - financial companies
 - friendly societies
- interpret key features of the economic environment including:

- broad characteristics and impacts of economic and business cycles
- government monetary and fiscal policies
- interest rates, exchange rates and inflation
- trends and market development affecting the information being analysed
- explain the key interrelationships between industry sectors and financial markets
- compare and contrast:
 - sources of market and comparative data
 - statistical reporting formats
 - data collection and management systems
- outline key parameters for evaluating information
- describe the key features of:
 - relevant legislation, including privacy and freedom of information legislation
 - ethical constraints and codes of practice
 - organisational policy, guidelines, goals and objectives
 - risk identification and mitigation techniques.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial markets field of work and include access to:

- office equipment, technology, software and consumables
- financial markets information sources.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFMK502 Analyse financial market products for client

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to conduct analysis of financial market products to meet the specific requirements and expectations of clients.

It applies to individuals who use up-to-date specialised knowledge and analytical and problem-solving skills to provide customised solutions.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Conduct analysis of financial market products	1.1 Analyse information provided on client's investment objectives 1.2 Identify a range of appropriate financial markets products that meet client's objectives and investment strategy 1.3 Source and assess information relevant to the range of available financial products for currency and accuracy 1.4 Seek specialist advice if required for complex investment strategies

ELEMENT	PERFORMANCE CRITERIA
	1.5 Apply appropriate analytical techniques and processes to identify facts, issues and patterns, interrelationships and trends 1.6 Accurately analyse trends to provide meaningful information on performance of financial products and markets 1.7 Conduct risk assessment of possible financial strategies and products identified through research and analysis processes
2. Provide information to inform decision making	2.1 Collate and review analyses to ensure accuracy and thoroughness, and present in an appropriate format, style and structure 2.2 Outline how financial market products meet client investment objectives and planned investment strategy 2.3 Ensure suggested products meet relevant legislative, industry and organisational requirements

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.3, 1.5-1.7, 2.1	<ul style="list-style-type: none"> Researches and evaluates complex textual and numerical information and financial data from a range of sources to determine requirements and complete necessary actions
Writing	2.1, 2.2	<ul style="list-style-type: none"> Uses accurate language, terminology and concepts to convey and confirm explicit information and requirements Prepares logically structured documents using appropriate format and style for the audience and purpose
Oral Communication	1.4, 2.2	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning skills and clear language to present and clarify complex information Effectively presents detailed information using language, tone and pace appropriate to audience and purpose
Numeracy	1.1-1.7, 2.1, 2.2	<ul style="list-style-type: none"> Uses comparative analysis techniques and mathematical equations to perform calculations, make

		comparisons and determine trends
Navigate the world of work	2.3	<ul style="list-style-type: none"> Takes responsibility for ensuring that information and suggestions to client comply with relevant legislative, industry and organisational requirements

Assessment Requirements for FNSFMK502 Analyse financial market products for client

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- use appropriate techniques to identify financial products to meet client's financial objectives and investment strategy
- conduct analysis of a range of financial market products to provide effective information to use in investment decisions
- interpret and comply with legislative and organisational requirements
- test the integrity of financial information and assess the impact of trends on strategy and product performance
- provide correct and up-to-date information on features and benefits of financial products and/or services.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- evaluate strategies for analysing client needs and gathering feedback
- outline key information requirements needed from clients
- explain the concept of a financial product, including general definitions and specific inclusions and exclusions
- identify and outline a range of financial products and information sources
- distinguish between the products and differentiate between their benefits and drawbacks
- describe a range of techniques for evaluating information about financial market products
- describe the key features of organisational policies and procedures relating to the analysis of financial market products for clients
- describe the key features of relevant legal principles and compliance requirements
- outline the main risks and implications associated with financial products and services

- outline the key taxation issues in relation to the products and markets in which they operate
- describe a range of financial market products and services.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial markets field of work and include access to:

- office equipment, technology, software and consumables
- financial services product information
- financial markets databases.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFMK503 Advise clients on financial risk

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to determine a client's financial risk profile, assess risk management options and produce detailed reports to present findings to clients and other relevant people.

It applies to individuals with specialised knowledge who use analytical skills and systematic approaches to advise and make recommendations in their area of responsibility.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine client risk profile	1.1 Use effective communication skills to confirm client's financial needs, expectations and objectives in accordance with organisational requirements 1.2 Obtain valid and relevant information to determine complexity of client needs and analyse their asset and liability management framework 1.3 Assess risk based on understanding of client's personal

ELEMENT	PERFORMANCE CRITERIA
	situation, operating environment or core business 1.4 Establish client's risk tolerance level and discuss with client to confirm risk profile
2. Assess product risk relative to client risk profile	2.1 Identify a range of products that meet client objectives 2.2 Access information on risk associated with these products using appropriate analytical techniques 2.3 Develop assessment criteria for measuring level of potential or existing risk, together with assessment of consequences in accordance with organisational procedures 2.4 Compare risk for a range of financial products to client's risk profile and stated objectives in accordance with client and organisational requirements 2.5 Assess alternative products and estimate long-term and short-term effects 2.6 Identify, analyse and discuss incidents and factors increasing or diminishing financial performance with client 2.7 Confirm that client understands the risk in any potential strategy recommendation
3. Report findings	3.1 Document risk management alternatives in accordance with organisational requirements and relevant legislation 3.2 Prepare and explain retail client disclosure documents, outlining client responsibilities to client 3.3 Update, modify and accurately maintain client information in accordance with organisational and legislative requirements 3.4 Prepare and file risk analysis documentation in accordance with organisational and legislative requirements

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.2, 1.3, 2.1-2.2, 2.4-2.6, 3.3	<ul style="list-style-type: none"> Analyses and evaluates complex information from a range of sources to determine requirements and complete necessary actions

Writing	1.2, 2.2-2.4, 2.5, 2.7, 3.1-3.4	<ul style="list-style-type: none"> Accurately records and maintains written information using correct formats and protocols Prepares formal and informal documents using accurate terminology, clear language and concepts appropriate for the audience and purpose
Oral Communication	1.1, 1.2, 1.4, 2.6, 3.2	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning skills to confirm understanding and seek feedback Presents and clarifies information using tone, pace and language appropriate to the audience and purpose
Numeracy	1.2, 2.4, 2.5, 3.1, 3.2, 3.4	<ul style="list-style-type: none"> Uses mathematical equations to perform calculations and comparative analysis techniques to determine trends and compare financial information
Navigate the world of work	1.1, 2.1, 2.3, 3.1, 3.3, 3.4	<ul style="list-style-type: none"> Takes responsibility for the provision of timely, accurate, secure and relevant information in accordance with legal and organisational requirements
Interact with others	1.1, 1.2, 2.7, 3.2	<ul style="list-style-type: none"> Uses a range of strategies to establish rapport and build a sense of connection with clients Selects and uses appropriate conventions and protocols when liaising or sharing information with clients
Get the work done	1.2, 1.3, 2.1-2.6, 3.1, 3.3, 3.4	<ul style="list-style-type: none"> Accepts responsibility for planning and sequencing complex tasks and workload Applies systematic and analytical decision-making processes to make recommendations in complex and non-routine situations Uses the main features and functions of digital tools to complete work tasks, store data and access information

Assessment Requirements for FNSFMK503 Advise clients on financial risk

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- determine the risk profile of the client
- interpret and comply with relevant legislation
- assess the impact of financial risks to the client and the organisation, and recommend strategies to control risk
- accurately review and prepare risk assessment findings in a format suitable for presentation, including client disclosure documents
- provide up-to-date information and advice on the risks and benefits of financial products and services.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must describe key features of client and organisational confidentiality requirements including:

- compare and contrast financial information sources and products
- outline key information to be obtained from clients
- discuss the key risk characteristics
- describe the key features of organisational policy and procedures for establishing client risk profiles and reporting
- discuss the relationship between ethics and regulatory requirements including the key features of relevant legal principles, and disclosure and compliance requirements
- compare and contrast risk assessment criteria and techniques
- analyse key economic environment incidents and factors that can impact on financial performance including:
 - characteristics and impacts of economic and business cycles

- government monetary and fiscal policies
- interest rates, exchange rates and inflation
- discuss product and strategy sensitivity to conditions including:
 - economic cycle
 - supply and demand
 - economic data
 - exchange rates
 - interest rates
 - government or regulatory policy
 - correlation risk with other markets or asset classes
- outline the key theories of the management of investment and risk.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial markets field of work and include access to:

- office equipment, technology, software and consumables
- financial services product information.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFMK504 Complete confirmation and settlement processes

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to check dealing transaction documentation and complete confirmation and settlement processes.

It applies to individuals who use specialised knowledge and systematic approaches to check accuracy and complete work requirements.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Process transaction documentation	1.1 Check transaction documentation received from dealer promptly for accuracy and completion according to organisational guidelines 1.2 Enter details on transaction documentation into organisational dealing system using appropriate technology 1.3 Review organisational records to ensure that master agreements are in place before confirmation processes are conducted

ELEMENT	PERFORMANCE CRITERIA
2. Complete confirmation processes	<p>2.1 Produce and forward organisational confirmation documentation to client for approval and authorisation</p> <p>2.2 Receive authorised confirmation documentation and complete financial transaction according to confirmed settlement procedures and organisational and industry requirements</p> <p>2.3 Forward confirmation documentation to client outlining settlement exchange details</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.3, 2.2	<ul style="list-style-type: none"> Interprets and checks accuracy of information from a range of sources to determine and confirm work requirements
Writing	1.2, 2.1, 2.2, 2.3	<ul style="list-style-type: none"> Records key information and accurately prepares documentation following organisational procedures and protocols
Numeracy	1.1, 1.2, 2.2	<ul style="list-style-type: none"> Uses mathematical equations to perform calculations
Navigate the world of work	1.1, 2.2	<ul style="list-style-type: none"> Takes responsibility for completing process documentation to industry and organisational requirements
Interact with others	2.1, 2.3	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with clients
Get the work done	1.1-1.3, 2.1-2.3	<ul style="list-style-type: none"> Plans, organises and completes tasks, aiming to complete efficiently and effectively Uses the main features and functions of digital tools to complete work tasks and access information

Assessment Requirements for FNSFMK504 Complete confirmation and settlement processes

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- interpret and comply with organisational and industry settlement and confirmation procedures
- use transaction processing systems
- process transaction documentation
- complete confirmation processes.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must: :

- describe the key features and processes relating to master agreement instructions
- describe the key features of:
 - organisational and industry confirmation systems and procedures
 - organisational and industry settlement systems and procedures
 - organisational policy and procedures.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial markets field of work and include access to:

- office equipment, technology, software and consumables
- an integrated financial software system and data.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFMK505 Comply with financial services regulation and industry codes of practice

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to ensure compliance with finance industry regulations and industry codes of practice on an organisational level.

It applies to individuals who use, maintain and disseminate highly specialised knowledge to a range of personnel to ensure compliance and quality standards.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify and apply organisational requirements of regulatory obligations	1.1 Access source documents for regulations relevant to provision of financial products and services 1.2 Identify procedural requirements of these source documents and their impact on organisational requirements and work practices 1.3 Execute procedural requirements in line with organisational policy 1.4 Comply with role authorities and restrictions identified in

ELEMENT	PERFORMANCE CRITERIA
	position profiles 1.5 Implement internal monitoring or audit program according to organisational and role requirements
2. Identify changes to regulations and procedural implications	2.1 Establish mechanism to ensure currency of regulatory literature is maintained 2.2 Identify, access and communicate changed regulations and policies in a timely manner in accordance with organisational policy 2.3 Review operational procedures to accurately reflect changes to regulations 2.4 Identify implications for products and services, and implement changes in accordance with client, regulatory and organisational requirements
3. Comply with any relevant industry or professional codes	3.1 Source and access relevant industry codes of practice 3.2 Interpret implications of industry codes of practice and confirm and clarify with relevant persons as required 3.3 Execute changes to organisational policy, procedures and practices to align with industry codes of practice
4. Maintain statutory records	4.1 Maintain relevant records and keep copies of any relevant agreements on file 4.2 Maintain evidence of current authorisation, training and relevant licences in accordance with organisational, legal and regulatory requirements

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 2.1, 2.2, 2.3, 3.1, 3.2	<ul style="list-style-type: none"> Researches, analyses and interprets complex information from a range of sources
Writing	2.2, 3.2, 4.1, 4.2	<ul style="list-style-type: none"> Produces reports and records information using language, concepts and terminology appropriate to audience and purpose

Oral Communication	2.2, 3.2	<ul style="list-style-type: none"> Participates effectively in verbal exchanges and clearly explains and presents complex information using language, tone and pace appropriate to audience
Navigate the world of work	1.3, 1.4, 1.5, 2.1, 2.2, 2.4, 3.1-3.3, 4.2	<ul style="list-style-type: none"> Takes full responsibility for following policies, procedures and legislative requirements, and identifies organisational implications of new legislation or regulation Maintains knowledge required to carry out work role
Interact with others	1.4, 1.5, 2.2, 2.4, 3.2	<ul style="list-style-type: none"> Communicate changes to legislation, codes of practice and organisational requirements to relevant persons and seeks clarification of interpretation as required.
Get the work done	1.1, 1.2, 1.3, 1.5, 2.1-2.4, 3.1, 3.2, 4.1, 4.2	<ul style="list-style-type: none"> Accepts responsibility for planning and sequencing complex tasks and workload Applies systematic and analytical decision-making processes to make recommendations in complex and non-routine situations Uses the main features and functions of digital tools to complete work tasks, store data and access information

Assessment Requirements for FNSFMK505 Comply with financial services regulation and industry codes of practice

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- access, accurately interpret and comply with relevant industry codes of practice and relevant regulations
- explain changes and implications of regulations to clients and colleagues
- accurately maintain statutory records in a timely manner.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain compliance issues relating to:
 - disclosure of capacity criteria
 - contract law principles
 - duty of care principles
 - fiduciary duties
 - general obligations of a financial services officer
 - laws of principal and agents
- describe the key features of:
 - organisation's financial products and services
 - relevant agency agreements or broker authority
 - relevant industry codes of practice
 - relevant regulation pertaining to the financial services industry
- identify and categorise the statutory records a financial services organisation needs to maintain
- explain the internal monitoring or audit program process.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial markets field of work and include access to:

- office equipment, technology, software and consumables
- financial services legislative and industry code of practice information.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFMK506 Detect errors and fraud when processing financial transactions

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to analyse financial transaction documentation, recognise any errors or fraudulent activity and take appropriate action.

It applies to individuals with specialised knowledge who use analytical skills and systematic approaches for problem solving and making recommendations within their area of responsibility.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Access and interrogate financial transaction data	1.1 Access and collate relevant financial transaction data sources and records 1.2 Match and check random, systematic or stratified sample data for accuracy and compliance with legal requirements and organisational policies and procedures 1.3 Analyse all data and initial queries on accuracy or compliance

ELEMENT	PERFORMANCE CRITERIA
	with legislative and industry requirements and follow through with relevant personnel
2. Determine data errors or potential fraudulent activity	<p>2.1 Identify and record errors in transaction processing and entries</p> <p>2.2 Draw conclusions on possible fraudulent transactions based on sound evidence</p> <p>2.3 Record and report major errors or possible fraudulent transactions to relevant personnel</p>
3. Resolve errors and fraudulent activity	<p>3.1 Follow up and correct minor transaction data errors with appropriate personnel</p> <p>3.2 Identify and confirm major transaction data errors or fraud in consultation with appropriate personnel or external sources and escalate for further action according to organisational procedures</p> <p>3.3 Develop recommendations for resolution of fraudulent transactions and activities for appropriate action</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.3, 3.1, 3.2	<ul style="list-style-type: none"> Interprets and checks accuracy of complex information from a range of sources to determine and confirm work requirements
Writing	1.1, 1.3, 2.1, 2.3, 3.1-3.3	<ul style="list-style-type: none"> Records key information and accurately prepares documentation following organisational procedures and protocols
Oral Communication	1.3, 2.3, 3.1, 3.2	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning techniques, appropriate to audience and purpose, to disseminate and clarify information
Numeracy	1.1-1.3, 2.1, 2.3, 3.1, 3.2	<ul style="list-style-type: none"> Uses mathematical equations to perform calculations, check accuracy of information and achieve required outcomes
Navigate the world of work	1.2, 1.3, 3.2	<ul style="list-style-type: none"> Takes responsibility for checking and analysing data for accuracy and compliance with legal and organisational requirements

Assessment Requirements for FNSFMK506 Detect errors and fraud when processing financial transactions

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- conduct analysis of financial transaction data to identify minor and major transaction errors and/or fraud
- test and assess the integrity of financial transaction information for risk
- provide recommendation for action to resolve transactional errors and fraudulent activity.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline operations processing methodologies and systems
- describe the key types and characteristics of financial fraud
- identify key financial information sources
- describe key features of:
 - organisational policy and procedures relating to dealing with errors and fraud
 - relevant financial industry legislative and compliance requirements
- describe the relationship between ethics and regulatory requirements
- describe the risks and implications associated with financial transactions
- outline the features of the main types of financial market products and services.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial markets field of work and include access to:

- office equipment, technology, software and consumables
- financial services transaction data
- financial industry legislation and industry codes of conduct.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFMK507 Analyse risk mitigation in the operations process

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to analyse financial market operations risks and determine appropriate mitigation and treatment methods.

It applies to individuals with highly specialised knowledge who use analytical skills and systematic approaches to make judgements and provide organisational advice relating to risk.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Analyse financial market operation risk profiles	1.1 Determine types and characteristics of financial market risks relevant to organisation's operations process 1.2 Analyse operations processes to detect risk 1.3 Assess organisation's operations processes for exposure to identified financial market risks using existing measures and relevant risk measurement techniques and tools 1.4 Rank identified risks against likelihood and organisational

ELEMENT	PERFORMANCE CRITERIA
	impact
2. Identify risk mitigation strategy	<p>2.1 Consider risk mitigation options and treatments for each risk mitigation identified in operations process</p> <p>2.2 Select appropriate treatment options, and financial and non-financial costs and benefits arising from treatment options</p> <p>2.3 Review treatment priorities and adequacy of existing controls, and establish need for additional or alternative controls</p>
3. Develop risk mitigation recommendations	<p>3.1 Identify and establish personnel and resources necessary to carry out actions</p> <p>3.2 Develop viable recommendations to management for each stage of treating organisational risks</p> <p>3.3 Determine key indicators of progress and success</p> <p>3.4 Develop monitoring system for effectiveness of risk treatments</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Assessment Requirements for FNSFMK507 Analyse risk mitigation in the operations process

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- analyse operations processes to detect risks
- effectively apply risk management principles and practices
- analyse risks and determine appropriate mitigation strategies
- develop sound recommendations on risk mitigation.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe key features of financial markets products and services
- outline the key financial markets risks
- outline organisational operations processes and operations processing systems
- compare methods of determining suitability of risk treatment options for particular applications
- describe key features of relevant financial services legislative and industry code or practice requirements
- compare and contrast risk analysis techniques and tools
- discuss issues relating to the range of possible financial risk treatment options
- describe the key types and characteristics of financial markets risk arising in the operations process.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial markets field of work and include access to:

- office equipment, technology, software and consumables
- financial services organisational data
- access to international standards ISO 31000 (2009).

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFMK508 Monitor and process collateral

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to monitor collateral activity, process agreements and manage disputes as required.

It applies to individuals who use highly specialised knowledge, analytical skills and systematic approaches for problem solving and making judgements about financial decisions in complex situations.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Process collateral support documentation	1.1 Source collateral support annexe (CSA) relevant for specified clients 1.2 Interpret and analyse implications of CSA for managing collateral with counterparty 1.3 Identify requirements of CSA and its impact on how collateral is measured and managed 1.4 Execute collateral requirements identified in line with

ELEMENT	PERFORMANCE CRITERIA
	organisational policy
2. Monitor collateral activity	2.1 Use net market to market value of trades covered by credit support documents to calculate collateral margining activity 2.2 Initiate margin calls when terms of CSA dictate 2.3 Monitor and update daily market values for non-cash collateral debt, checking that any cuts in valuations are applied in line with agreed framework 2.4 Identify and update derivative credit exposures on long-term and short-term deals on organisational credit management system 2.5 Monitor threshold amounts to determine options to use break clause if necessary 2.6 Negotiate and replace collateral deals when break clause has been invoked 2.7 Process call and return amounts promptly and accurately 2.8 Observe segregation of roles according to organisational requirements and industry codes of practice
3. Manage collateral disputes or defaults	3.1 Identify differences in valuations and escalate to correct stream 3.2 Check, value and reconcile portfolios on regular basis to ensure collateral management data is current and valid 3.3 Deal with disputes according to organisational policy and procedures 3.4 Document and escalate unresolved disputes or defaults to appropriate personnel as required 3.5 Investigate and escalate non-settlement or fails of agreed collateral to the appropriate risk stream in line with agreed Service Level Agreements

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.3, 2.4, 3.1, 3.5	<ul style="list-style-type: none"> Analyses accuracy of complex market information and financial data from a range of sources to determine and

		confirm requirements
Writing	1.4, 2.2, 2.4, 2.6, 3.3, 3.4	<ul style="list-style-type: none"> Records key information and accurately prepares documentation following organisational procedures and protocols

Assessment Requirements for FNSFMK508 Monitor and process collateral

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- manage collateral agreements and transactions and enter details in organisational systems
- evaluate and adjust financial positions
- manage collateral disputes.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain a range of commonly used financial products
- explain the key features of organisational requirements relating to collateral agreements, including International Swaps and Derivatives Association (ISDA), credit support documents (CSD) and credit support annexes (CSA)
- outline key features of financial markets report structures and characteristics.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial markets field of work and include access to:

- office equipment, technology, software and consumables
- financial markets product information.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFMK509 Process transaction documentation

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to process transactions and complete appropriate documentation.

It applies to individuals with specialised knowledge who use systematic approaches for processing information and resolving issues within their area of responsibility.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Complete pre-deal documentation and authorisations	1.1 Complete onboarding checks for new clients according to regulatory requirements and organisational guidelines 1.2 Establish and confirm type of transaction client wishes to undertake 1.3 Check and confirm master agreement is in place for client and relevant transaction 1.4 Confirm client authorisation to trade in specified financial product and for relevant transaction

ELEMENT	PERFORMANCE CRITERIA
	1.5 Discuss, clarify and resolve any issues related to product or transaction with client
2. Execute transaction for client	2.1 Check and verify that transaction is within client's and own authorised trading limits 2.2 Confirm with client whether trade is to be centrally cleared 2.3 Confirm details of trade and obtain client's acknowledgement 2.4 Capture accurate details of transaction in organisation's systems, including risk management requirements in required timeframe 2.5 Report details of transaction to authorised trade repository as required
3. Complete processes for confirming and settling transaction	3.1 Forward details of transaction order to client promptly 3.2 Complete financial transaction according to organisation and industry requirements 3.3 Investigate exceptions and fails promptly if notified by investigations teams or relevant personnel

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.4, 2.3, 3.2	<ul style="list-style-type: none"> Interprets and checks accuracy of complex information and financial data from a range of sources to determine and confirm requirements
Writing	1.1-1.5, 2.2-2.5, 3.1, 3.3	<ul style="list-style-type: none"> Records key information and accurately and comprehensively prepares documentation following organisational procedures and protocols
Oral Communication	1.2-1.5, 2.2, 2.3	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning techniques, appropriate to audience and purpose, to convey and clarify information
Numeracy	2.1, 2.3, 3.2	<ul style="list-style-type: none"> Uses mathematical equations to perform calculations and analyse complex financial data to achieve required outcomes
Navigate the	1.1-1.4, 2.1, 3.2	<ul style="list-style-type: none"> Keeps up to date on changes to legislation or

world of work		regulations relevant to own rights and responsibilities and considers implications of these when negotiating, planning and undertaking work
Interact with others	1.1-1.5, 2.2, 2.3, 2.5	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with personnel
Get the work done	2.4, 3.1-3.3	<ul style="list-style-type: none"> Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effective outcomes Uses formal analytical processes to identify potential problems and lateral thinking processes to generate possible solutions Uses digital tools to access and organise complex data and analyse multiple sources of information for strategic purposes

Range of Conditions

This section specifies different work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included.

Accurate details of the transaction must be compliant with:	<ul style="list-style-type: none"> Australian Securities Exchange (ASX) market rules Australian Clearing House (ACH) clearing rules Australian Settlement and Transfer Corporation (ASTC) settlement rules (collectively referred to as the ASX Rules).

Assessment Requirements for FNSFMK509 Process transaction documentation

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- deal effectively with clients and accurately interpret their trading requirements in a timely manner
- execute a transaction for a client that is compliant with regulatory and organisational requirements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline key financial product transaction requirements
- explain key features of:
 - international standards that relate to operational and other related financial risk considerations in product transactions
 - anti-money laundering and counter-terrorism financing legislation
- describe key features of:
 - organisational and industry transaction procedures
 - organisational policy and procedures
- explain trading requirements and checking systems.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial markets field of work and include access to:

- office equipment, technology, software and consumables
- relevant standards and legislation.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFMK510 Prepare trading strategies for clients

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to assess client needs and prepare appropriate trading strategies.

It applies to individuals who manage relationships and use specialised knowledge and analytical skills to make judgements and prepare customised solutions.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Analyse client position, risks and needs	1.1 Obtain and confirm client needs and objectives 1.2 Obtain and analyse market and product data relevant to client needs and objectives 1.3 Analyse market opportunities for client using appropriate analytical tools and methodologies 1.4 Identify and justify trading opportunities for client as required
2. Develop trading	2.1 Identify risks in strategy to both client and organisation

ELEMENT	PERFORMANCE CRITERIA
strategy and manage risk in transactions	<p>2.2 Discuss risks with client and appropriate organisational personnel and make decision on whether to proceed or adjust strategy</p> <p>2.3 Finalise strategy in accordance with organisation's policy, procedures and the legal and regulatory framework</p>
3. Execute trading strategies for client	<p>3.1 Agree and set entry and exit levels and conditions for proposed strategy</p> <p>3.2 Identify appropriate order types or limit types for executing strategy and confirm order details with client</p> <p>3.3 Undertake ongoing monitoring for client, including adjusting trading strategy where warranted</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.4	<ul style="list-style-type: none"> Interprets and analyses textual information and financial data from a range of sources to determine and confirm requirements
Writing	1.1, 2.1, 3.3	<ul style="list-style-type: none"> Accurately frames and prepares documentation following organisational procedures and protocols
Oral Communication	1.1, 2.2, 3.3	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning techniques to share, convey and clarify information Uses language, terminology and concepts appropriate to audience and purpose
Numeracy	1.1-1.4, 3.1-3.3	<ul style="list-style-type: none"> Uses mathematical equations to perform calculations, modelling, estimations and testing to achieve required outcomes
Navigate the world of work	2.2-2.3	<ul style="list-style-type: none"> Keeps up to date on changes to legislation or regulations relevant to own rights and responsibilities and considers implications of these when negotiating, planning and undertaking work
Interact with others	1.1, 2.2, 3.4	<ul style="list-style-type: none"> Uses a range of strategies to identify different perspectives, establish rapport and maintain a sense of connection

Get the work done	1.2-1.4, 2.1-2.3, 3.1-3.4	<ul style="list-style-type: none"> • Accepts responsibility for planning and sequencing complex tasks and workload • Takes responsibility for high impact decisions in complex situations involving many variables and constraints • Recognises and anticipates potential problems using analytical processes to propose possible solutions • Uses digital tools to access and organise complex data and analyse multiple sources of information for strategic purposes

Assessment Requirements for FNSFMK510 Prepare trading strategies for clients

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- apply compliance requirements for organisational and industry financial trading procedures
- analyse needs to develop appropriate strategies to suit circumstances using appropriate tools and techniques.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- compare and contrast financial products that can be traded
- outline a range of analytical tools and methodologies that can be used to analyse market opportunities, including quantitative and qualitative approaches
- determine the relevant financial risk management factors at a client and organisational level, and discuss how to incorporate these into the strategy
- describe appropriate financial trading reporting procedures and documentation
- detect which relevant financial trading systems need to be used for strategy developed.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial markets field of work and include access to:

- office equipment, technology, software and consumables
- integrated financial software system and data.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFMK511 Apply limits when trading

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to identify, respond to and periodically review trading limits set by an organisation.

It applies to individuals who use specialised knowledge, analytical skills and systematic approaches to manage risk and implement procedures.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify trading limits	1.1 Access and accurately interpret various types of trading limits in an organisation 1.2 Identify organisational trading limits and incorporate in any potential transaction or position assessment 1.3 Constantly monitor, interpret and apply changes to organisational trading limits
2. Respond to trading	2.1 Follow and comply with process for identifying and reporting

ELEMENT	PERFORMANCE CRITERIA
limit breaches	<p>potential trading breaches to relevant personnel according to organisational guidelines</p> <p>2.2 Identify and comply with organisational process for approving limit breaches, including all communication requirements</p> <p>2.3 Identify and comply with organisational process for dealing with inadvertent breaches, including all communication requirements</p> <p>2.4 Manage consequences of breach according to organisational guidelines</p>
3. Review trading limits	<p>3.1 Monitor trading limits in place and compare with current trading position</p> <p>3.2 Identify when trading limit is close to being met, and devise appropriate response</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.2, 2.1, 3.1	<ul style="list-style-type: none"> Accurately interprets and analyses complex information from a range of sources and consolidates information relevant to requirements
Writing	1.3, 2.1, 2.3, 3.2	<ul style="list-style-type: none"> Prepares documents incorporating clear and detailed information organised sequentially for internal reference
Oral Communication	1.3, 2.1, 2.3	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning techniques to share, convey and clarify information Uses language, terminology and concepts appropriate to audience and purpose
Numeracy	1.1-1.3, 2.1-2.3, 3.1	<ul style="list-style-type: none"> Uses mathematical equations to perform calculations and applies statistical techniques to achieve required outcomes
Navigate the world of work	2.1-2.4, 3.2	<ul style="list-style-type: none"> Identifies and follows relevant legislative requirements, explicit and implicit protocols, policies and procedures, and meets expectations associated with own role

		<ul style="list-style-type: none"> Keeps up to date on changes to legislation or regulations relevant to own rights and responsibilities, and considers implications of these when planning and undertaking work
Interact with others	2.2, 2.3	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with colleagues, recognising the importance of communicating timely information
Get the work done	1.1-1.3, 2.4, 3.1-3.2	<ul style="list-style-type: none"> Accepts responsibility for planning and sequencing complex tasks and workload Takes responsibility for high impact decisions in complex situations involving many variables and constraints Uses digital tools to access and organise complex data and analyse multiple sources of information for strategic purposes

Assessment Requirements for FNSFMK511 Apply limits when trading

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- identify and monitor financial trading limits using a range of data sources
- deal effectively and promptly with financial trading limit breaches following all required industry and organisational policy and procedures.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- assess the impact of the following key economic features on trading limits:
 - characteristics and impacts of economic and business cycles
 - monetary and fiscal policies
 - interest rates, exchange rates and inflation
- discuss the purpose of trading limits and why they are strictly enforced
- compare and contrast data collection and management systems
- describe key aspects of organisational risk management framework, including risk tolerance and application via limits
- discuss the structure and interrelationships within the financial markets.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial markets field of work and include access to:

- office equipment, technology, software and consumables

- financial markets information.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFMK512 Apply knowledge of emissions markets

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to participate in and provide specialist advice on defined financial products in the emissions markets.

It applies to individuals who use specialised knowledge (including the mandatory knowledge outlined in ASIC RG146 Appendix A2.11), analytical skills and systematic approaches to manage the provision of advice to clients.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Comply with regulatory framework unique to emissions markets	1.1 Identify domestic and international regulatory framework within which emissions reduction schemes are placed 1.2 Identify key legislation, regulation and industry codes of practice relevant to operating within Australian emissions markets 1.3 Comply with relevant legal and regulatory principles when operating in emissions markets 1.4 Discuss regulatory risk for both voluntary and regulated

ELEMENT	PERFORMANCE CRITERIA
	emissions markets, and determine possible impacts of pending regulatory or legislative change
2. Evaluate scope and impact of emissions markets	2.1 Identify regulated and voluntary carbon markets and outline how they operate 2.2 Distinguish respective supply and demand drivers for voluntary and regulated markets 2.3 Describe price drivers for emissions products 2.4 Differentiate participants in carbon markets and motivations for their participation 2.5 Distinguish functions of primary and secondary emissions markets 2.6 Discuss auction types and processes 2.7 Describe functions, requirements and rules for registries
3. Identify types of emissions products, their characteristics and liabilities	3.1 Compare different types of emissions products and instruments traded in compliance and voluntary markets 3.2 Identify key features of compliance market products 3.3 Describe risks inherent within each product and their potential impact in given context 3.4 Describe transactional processes for each product, including acquiring, transferring and surrendering 3.5 Describe tax treatment of emissions products, including deductibility of costs where relevant
4. Apply knowledge of emissions products	4.1 Determine relevant information influencing the market 4.2 Analyse relevant information when selecting products for emissions markets transaction 4.3 Devise strategies for using emissions market products 4.4 Seek advice, guidance and specialist expertise when required 4.5 Apply knowledge of financial market transactional processes when operating in emissions markets 4.6 Complete relevant documentation and complete any additional organisational processes
5. Maintain emissions market knowledge	5.1 Review relevant emissions trading markets sources regularly and apply any changes in daily work 5.2 Maintain professional competence in market knowledge in accordance with codes of conduct and/or organisational

ELEMENT	PERFORMANCE CRITERIA
	requirements 5.3 Implement processes for maintaining up-to-date knowledge of relevant aspects of emissions trading markets

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Learning	4.4, 5.2, 5.3	<ul style="list-style-type: none"> Actively updates and maintains knowledge of changes to regulation, markets and emissions
Reading	1.1, 1.2, 2.1, 2.4-2.7, 3.1-3.3, 4.1, 4.2	<ul style="list-style-type: none"> Accurately interprets and analyses complex information from a range of sources and consolidates information relevant to requirements
Writing	3.3-3.5, 4.6	<ul style="list-style-type: none"> Prepares documents, incorporating clear and detailed information organised sequentially for internal reference
Oral Communication	3.3-3.5	<ul style="list-style-type: none"> Uses language, terminology and concepts appropriate to the audience and purpose Participates in verbal exchanges to share, convey and clarify information
Numeracy	2.3	<ul style="list-style-type: none"> Uses mathematical equations to perform calculations to interpret pricing information
Navigate the world of work	1.3, 1.4, 2.5-2.7, 5.2	<ul style="list-style-type: none"> Identifies and follows relevant legislative requirements, and explicit and implicit protocols, policies and procedures, and meets expectations associated with own role Keeps up to date on changes to legislation or regulations and considers implications on work outcomes
Interact with others	4.4	<ul style="list-style-type: none"> Liaises with others, shares information, and seeks advice and guidance
Get the work done	4.3, 4.5, 4.6, 5.1	<ul style="list-style-type: none"> Plans and sequences complex tasks, and monitors and adapts work to incorporate changes in compliance issues

Assessment Requirements for FNSFMK512 Apply knowledge of emissions markets

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- research, analyse and update information, including regulatory changes impacting on emissions markets and operations
- provide and apply specialist knowledge relating to emissions markets to daily work.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- analyse and describe types of products and their characteristics including:
 - types of emissions units, and their characteristics (encompassing carbon units, Australian carbon credit units and eligible international emissions units)
 - characteristics of emissions units including their status as personal property, and how they are typically derived from inception to the point of acquiring status as a financial product
 - risks associated with each type of emission unit, including rating, restrictions on their use, transfer and bankability for future use
 - processes for acquiring, transferring and surrendering emissions units, including compliance with the requirements of the Australian National Registry of Emissions Units
- outline the operation of regulated and voluntary carbon markets including:
 - geopolitical context of carbon markets, including the influence of political and economic factors and corporate social responsibility
 - main participants in carbon markets, and their key objectives and participation behaviours as factors influencing market activity

- emissions unit supply and demand factors and regulated price factors influencing market activity and prices
- issue of carbon units via auction, and auction types
- types of transactions in carbon markets, including transactions relating to the carbon pricing mechanism and in voluntary markets, and the function of financial markets facilitating such trading (including internationally)
- potential trading strategies and their implementation in carbon markets (e.g. hedging and investment strategies)
- risks associated with carbon markets, including liquidity, pricing, credit, operational and regulatory risks
- carbon market transaction documentation, including documentation used for different types of counterparties and transactions, their key terms and conditions, and advantages and disadvantages
- explain the regulated emissions legal environment including disclosure and compliance, covering:
 - domestic regulatory framework for the carbon pricing mechanism, including the role of the Clean Energy Regulator and the Australian National Registry of Emissions Units
 - domestic regulatory framework for the Carbon Farming Initiative, including the role of the Clean Energy Regulator and the Australian National Registry of Emissions Units
 - international regulatory framework for carbon trading, including the Clean Development Mechanism
 - relevant legal principles (e.g. Corporations Act, ASIC Act, Privacy Amendment (Private Sector) Act, Australian National Registry of Emissions Units Act, National Greenhouse and Energy Reporting Act, Carbon Credits (Carbon Farming Initiative) Act, Clean Energy Act)
 - the relationship between ethical and regulatory requirements (e.g. good faith, utmost good faith, full disclosure of remuneration and/or fees and any other conflicts of interest that may influence the adviser's recommendation), and the application of these requirements in professional practice
 - relevant industry standards and codes of conduct
 - regulators' guidelines, including ASIC Regulatory Guide (RG)146 requirements
 - dispute resolution procedures (external and internal)
- outline the taxation obligations in the emissions market including:
 - taxation treatment of emissions units and taxation issues relating to emissions units
 - deductibility of costs associated with emissions units.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial markets field of work and include access to:

- office equipment, technology, software and consumables
- emissions markets information.

Assessors must satisfy NVR/AQF assessor requirements.

FNSFMK601 Price financial transactions

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to compile and analyse financial information and data to determine the price of financial products and record financial transactions.

It applies to individuals who use specialised financial knowledge, systematic approaches and analytical skills to meet requirements.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Compile and analyse financial information and data	1.1 Identify sources of financial data relating to financial products and financial markets for analysis purposes and collect according to organisational practices 1.2 Analyse financial data using standard financial market investment concepts to evaluate current market position and review this data against selected financial products
2. Calculate transaction	2.1 Formulate financial transaction price using standard

ELEMENT	PERFORMANCE CRITERIA
price	<p>organisational practices and taking into account a range of organisational price impacts</p> <p>2.2 Review price calculated against client requirements and adjust as required</p> <p>2.3 Advise client of financial transaction price in accordance with organisational guidelines</p>
3. Record financial transaction	<p>3.1 Confirm client acceptance of financial transaction price according to organisation requirements and complete relevant transaction documentation as necessary</p> <p>3.2 Enter all transaction details into organisation's dealing systems</p> <p>3.3 Report details of transaction to authorised trade repository where required by regulation</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 2.1-2.2	<ul style="list-style-type: none"> Accurately researches and analyses complex information from a range of sources Consolidates information and identifies gaps relevant to requirements
Writing	2.3, 3.1-3.3	<ul style="list-style-type: none"> Accurately records information and data using required format, terminology and conventions specific to requirements Develops material to a specific audience using clear and detailed language
Oral Communication	2.3, 3.1	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning techniques to share, convey and clarify information Uses language, terminology and concepts appropriate to audience and purpose
Numeracy	1.1, 1.2, 2.1-2.2, 3.1-3.3	<ul style="list-style-type: none"> Applies statistical techniques and undertakes comparative analyses to achieve required outcomes Uses mathematical equations to perform calculations and develop transaction prices

Navigate the world of work	2.1, 2.3, 3.1	<ul style="list-style-type: none"> Keeps up to date on changes to legislation or regulations relevant to own rights and responsibilities and considers implications of these when planning and undertaking work
Interact with others	2.3, 3.1	<ul style="list-style-type: none"> Uses various techniques to identify different perspectives, build rapport and confirm, clarify or revise understanding
Get the work done	1.1-1.2, 2.1-2.3, 3.1-3.3	<ul style="list-style-type: none"> Accepts responsibility for planning and sequencing complex tasks and workload Takes responsibility for high impact decisions in complex situations involving many variables and constraints Uses digital tools to access and organise complex data and analyse multiple sources of information for strategic purposes

Assessment Requirements for FNSFMK601 Price financial transactions

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- compile financial information and data, and analyse to determine price impacts
- calculate financial prices
- record financial transactions.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- compare and contrast the range of financial market products that can be traded
- assess the impact of the following key economic features on pricing financial products:
 - economic and business cycles
 - monetary and fiscal policies
 - interest rates, exchange rates and inflation
- describe key features of financial markets operating software systems
- analyse and discuss issues relating to risk and implications of financial positions
- describe relevant mathematical principles and methodologies for pricing financial products and transactions.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial markets field of work and include access to:

- office equipment, technology, software and consumables

- financial services product information
- dealing system and data.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFMK602 Hedge financial products

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to hedge financial transactions, enter hedge transactions into organisational systems, and revalue and adjust financial positions when trading financial products within financial markets.

It applies to individuals who operate within limits of responsibility and use specialised knowledge, analytical skills and systematic approaches to analyse, review and make judgements about complex financial information to meet requirements.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Assess hedge financial transaction	1.1 Assess risk tolerance and appetite, and review current financial position to determine if hedging is required using an additional financial product 1.2 Analyse hedging instrument options based on limits, organisational product approvals and current exposure assessment
2. Complete hedge	2.1 Undertake hedge transaction with counterparties in accordance

ELEMENT	PERFORMANCE CRITERIA
transaction	<p>with organisational guidelines, credit and other desk limits</p> <p>2.2 Collect hedge transactional details, complete relevant documentation and enter hedge transaction into the organisation's dealing system</p> <p>2.3 Report details of transaction to authorised trade repository where required by regulation</p>
3. Assess adjusted financial position	<p>3.1 Assess new post-transaction position in line with profit and loss and risk reports, and new market data available</p> <p>3.2 Adjust hedge position, based on analysis of new data, if risk remains outside scope of organisational tolerance or market moves</p> <p>3.3 Collect additional transactional details, complete relevant documentation and enter new transaction into organisation's dealing systems</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 2.2, 3.1, 3.3	<ul style="list-style-type: none"> • Accurately researches and analyses complex information from a range of sources to determine and confirm work requirements • Consolidates information and identifies gaps relevant to requirements
Writing	2.1-2.3, 3.2, 3.3	<ul style="list-style-type: none"> • Accurately records information and data using required format, terminology and conventions specific to requirements • Develops material to a specific audience using clear and detailed language
Oral Communication	2.1, 3.2	<ul style="list-style-type: none"> • Participates in verbal exchanges using active listening and questioning techniques to share, convey and clarify information • Uses language, terminology and concepts appropriate to audience and purpose
Numeracy	1.1, 1.2, 2.1, 2.2, 3.1-3.3	<ul style="list-style-type: none"> • Uses comparative analysis techniques and mathematical equations to perform calculations, make comparisons and check accuracy of data

Navigate the world of work	1.2, 2.1	<ul style="list-style-type: none"> Takes full responsibility for following policies, procedures and legislative requirements and identifies organisational implications of new legislation or regulations
Interact with others	2.1, 3.2	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with personnel
Get the work done	1.1-1.2, 2.2, 2.3, 3.1-3.3	<ul style="list-style-type: none"> Takes full responsibility for planning and sequencing complex tasks and workload Makes high impact decisions in complex situations, using input from a range of sources Uses digital tools to access and organise complex data and enable analysis of multiple sources of information for strategic purposes

Assessment Requirements for FNSFMK602 Hedge financial products

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- complete hedge financial transactions and enter into organisational systems
- evaluate and adjust financial positions
- interpret and comply with organisational trading rules and limits.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- compare and contrast financial risk analysis techniques
- analyse and describe financial market reports, including profit and loss reports
- describe the key features of organisational requirements relating to financial trading
- identify and classify organisational transactions limits
- assess the impact of the following key economic features when hedging financial products:
 - characteristics and impacts of economic and business cycles
 - monetary and fiscal policies
 - interest rates, exchange rates and inflation
- compare and contrast the range of financial market products available.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial markets field of work and include access to:

- office equipment, technology, software and consumables
- financial services product information
- dealing system and data.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFPL401 Extract and analyse information on specified financial strategies and products

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to research information on specified financial products and strategies for use in the financial planning process. It encompasses interpreting research requirements, researching financial products and strategies, summarising research information and contributing to financial plan recommendations.

It applies to individuals who, within their level of responsibility, independently and accurately research and analyse information using systematic approaches to contribute recommendations.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Interpret research requirements	1.1 Review and quantify client information and objectives, and establish research topics 1.2 Check specifications of products and/or services to be researched with senior financial planner

ELEMENT	PERFORMANCE CRITERIA
	<p>1.3 Establish and accurately interpret aims and objectives of research, and measure against client requirements and expectations</p> <p>1.4 Establish timeframes and prioritise requests to ensure available information is useable and justifiable</p>
<p>2. Research financial products and strategies to set guidelines</p>	<p>2.1 Ensure data extraction criteria are relevant to intended use and client requirements</p> <p>2.2 Identify trends to provide meaningful information on strategies and product performance</p> <p>2.3 Identify potential risk factors associated with researched strategies and products</p> <p>2.4 Analyse financial products and strategies within appropriate timeframes to ensure currency of decision making</p> <p>2.5 Identify issues that require specialist and/or independent research or advice</p>
<p>3. Summarise research information and contribute to recommendations</p>	<p>3.1 Collate, prioritise and check information on financial strategies and products against research specification</p> <p>3.2 Analyse research for completeness and assess for relevant implications of information</p> <p>3.3 Prepare written performance, trend and risk analyses and check against research specification</p> <p>3.4 Define and record any qualifications or issues for further research</p> <p>3.5 Provide recommendations to financial planning process according to organisational procedures and guidelines</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.3, 2.2, 2.3, 2.4, 3.1, 3.2	<ul style="list-style-type: none"> Interprets and analyses information from a range of sources
Writing	1.1-1.3, 3.3-3.5	<ul style="list-style-type: none"> Accurately records information and prepares reports using required format, terminology and conventions

FNSFPL402 Prepare financial plans to set strategies and guidelines

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to determine and prepare a financial plan according to organisational guidelines, where a client's preferred strategies and key parameters have already been established by a qualified financial planner. It encompasses confirming financial plan objectives and scope, testing strategic assumptions, reviewing and settling a draft strategy and options according to organisational guidelines, and developing preliminary financial plans.

It applies to individuals who work within a team and use specialised knowledge and systematic approaches to recommend customised solutions for a diverse range of clients.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Confirm plan objectives and scope	1.1 Check plan strategy and key parameters with qualified financial planner and client 1.2 Establish research topics and review and compare research

ELEMENT	PERFORMANCE CRITERIA
	<p>results to client requirements and expectations, as set out in strategy and key parameters</p> <p>1.3 Analyse current client situation to determine opportunities and constraints within strategy boundaries</p> <p>1.4 Develop plan objectives for asset growth, income, risk, taxation and any other objectives set out in plan strategy</p>
2. Test strategic assumptions	<p>2.1 Test client related key assumptions against draft strategy</p> <p>2.2 Test and review economic key assumptions in strategy as required</p> <p>2.3 Test legislative and regulatory assumptions, including taxation assumptions, against strategy</p> <p>2.4 Obtain clarification from strategy author on any identified discrepancies</p>
3. Develop financial plan to set strategy	<p>3.1 Analyse and model strategic options set by financial planner</p> <p>3.2 Identify and discuss inconsistencies in strategic options with strategy author</p> <p>3.3 Develop financial plan according to established organisational guidelines</p>
4. Review and settle draft strategy and options	<p>4.1 Select strategic options for review and mode of presentation according to organisational guidelines</p> <p>4.2 Review each strategic option with strategy author, including positives, negatives and risks for each option</p> <p>4.3 Establish broad agreement on strategies with strategy author</p>
5. Develop preliminary financial plan	<p>5.1 Select specific products and options that meet given strategy and key parameters</p> <p>5.2 Incorporate cash flow and liquidity, and set capital preservation and/or estate planning requirements consistent with given strategy and key parameters</p> <p>5.3 Develop recommendations for financial asset allocation structure according to organisational guidelines</p> <p>5.4 Develop recommendations for changes to income and taxation arrangements, including referral advice to accountants and/or lawyers as appropriate</p> <p>5.5 Develop recommendations on risk management strategies and products, and incorporate according to organisational guidelines</p> <p>5.6 Check all recommendations to ensure consistency with given</p>

ELEMENT	PERFORMANCE CRITERIA
	<p>strategy and key parameters, and that they meet specific objectives with high dependability of outcome</p> <p>5.7 Incorporate description of anticipated fees and charges, and information on internal and external complaints resolution procedures into the plan, where appropriate</p> <p>5.8 Document preliminary financial plan according to organisational guidelines and procedures</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description

Assessment Requirements for FNSFPL402 Prepare financial plans to set strategies and guidelines

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- develop a preliminary financial plan for clients that:
 - complies with relevant legislative requirements, industry codes of practice and organisational procedures
 - confirms financial plan objectives and scope, and tests strategic assumptions
 - assesses the impact of taxation, social security, economic and other government policy on client investment and financial requirements
 - provides recommendations on risks and financial outlays
- work with other associated financial advisers
- accurately document a preliminary financial plan according to organisational procedures.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe the key features of:
 - generic products available in the financial services industry
 - investment and savings vehicles, financial markets, asset classes and investment characteristics
- analyse investment risk factors and relationship to return expectations
- describe the key features of relevant industry codes of practice
- explain the requirements related to the disclosure of capacity
- explain the general impact of relevant economic, taxation and social security policy on a client's financial planning needs

- describe the general impact of relevant estate planning considerations on a client's financial planning needs
- outline the role of the financial planning adviser and the financial planning practice
- describe the key terms of relevant legislation and regulations affecting the financial planning industry.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial planning field of work and include access to:

- office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFPL403 Implement financial plans to predetermined guidelines

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to implement financial plans where the implementation actions are routine or predetermined.

It applies to individuals who work in a team and use organisational skills and specialised knowledge to establish administrative support and maintain quality standards.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish administrative actions needed to implement financial plan	1.1 Check financial plan to verify that implementation actions are within planner's skills, knowledge and authority 1.2 Establish implementation actions which are consistent with client needs and specifications, and prioritise timings for each action to maximise advantage to client 1.3 Establish implementation diaries and other appropriate records

ELEMENT	PERFORMANCE CRITERIA
2. Undertake required actions for implementation of financial plan	<p>2.1 Issue implementation instructions to internal and external personnel as per plan requirements</p> <p>2.2 Check and follow up actions on lodgement of documentation to ensure plan timings are met</p> <p>2.3 Obtain and process fees and charges according to organisational and legislative requirements and codes of practice</p> <p>2.4 Complete and document implementation actions</p>
3. Establish administrative actions needed to review financial plan	<p>3.1 Establish standard operating procedures for reviewing ongoing performance of plan</p> <p>3.2 Ensure quality of ongoing service meets organisational and regulatory requirements, with any special arrangements agreed to with client</p> <p>3.3 Issue review instructions to internal and external personnel as per plan requirements</p> <p>3.4 Establish system to monitor lodged documentation to ensure plan timings are met</p> <p>3.5 Establish process for ensuring fees and charges are recovered according to organisational and legislative requirements</p> <p>3.6 Establish audit trails to ensure financial plans are in line with client requirements and managed in accordance with organisational procedures</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 2.2, 2.3, 3.4, 3.5	<ul style="list-style-type: none"> Interprets and analyses information and products from a variety of sources to ensure appropriateness to client needs, currency and accuracy
Writing	1.2, 1.3, 2.1, 2.2, 2.4, 3.1-3.6	<ul style="list-style-type: none"> Completes documentation accurately following organisational procedures and protocols Uses clear language, correct spelling and grammar and appropriate terminology to convey information to a range of personnel and clients

Oral Communication	2.1, 2.2, 3.2, 3.3	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning techniques to share, convey and clarify information Uses language and concepts appropriate to the situation and for internal and external stakeholders
Numeracy	1.1, 2.3	<ul style="list-style-type: none"> Uses mathematical equations to perform calculations and to check the accuracy of financial information
Navigate the world of work	1.1, 2.3, 2.4, 3.2, 3.5, 3.6	<ul style="list-style-type: none"> Takes personal responsibility for ensuring that documentation and processes comply with legislation, codes of practice and organisational requirements Maintains knowledge of compliance legislation and requirements, and verifies extent of own authority
Interact with others	1.2, 2.1, 3.2, 3.3	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols to communicate with clients, colleagues and external stakeholders Recognises the importance of building rapport to establish effective working relationships Collaborates and cooperates with others to achieve joint outcomes
Get the work done	1.2, 1.3, 2.2-2.4, 3.1-3.6	<ul style="list-style-type: none"> Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effectiveness Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for FNSFPL403 Implement financial plans to predetermined guidelines

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- effectively administer, implement and review financial plans, including:
 - effectively compiling records and data
 - processing fees and charges for preparation and monitoring of financial plans
 - monitoring to ensure adherence to client needs and expectations
 - establishing appropriate audit trails.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify sources of information on financial products and markets
- describe the key features of:
 - financial products, financial markets and investment characteristics
 - government financial and superannuation policy
 - relevant legislation and regulations for financial planning activities
 - corporations and consumer legislation
 - industry codes of practice
- compare and contrast financial forecasting techniques
- describe methods of presenting financial data
- identify state and territory charges and taxes
- describe the skills, knowledge and levels of authority necessary to administer and implement financial plans developed to predetermined guidelines
- describe the concept of duty of care relating to personnel nominated to implement financial plans

- discuss the possible impacts of the following on client investment and financial requirements:
 - roles of associated financial advisers
 - taxation
 - social security
 - economic and other government policy.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial planning field of work and include access to:

- office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- follow organisational procedures and comply with regulations relating to financial planning practice
- demonstrate expected standards of ethical behaviour.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline the key requirements of relevant legislation and regulation impacting on financial planning and explain their application to financial planning job roles
- describe the key features and requirements of:
 - current government financial policy
 - organisational operational procedures
 - industry codes of practice
- describe the principles and standards of ethical behaviours in financial planning
- outline the key sources of financial planning information and expert or specialist personnel who can provide advice
- identify and describe opportunities for professional development and learning.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial planning field of work and include access to:

- office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFPL502 Conduct financial planning analysis and research

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to undertake financial planning analysis and research. It encompasses evaluating a client's current situation, identifying issues and researching requirements and parameters for extracting and analysing information, and summarising research information.

It applies to individuals who, within their level of authority, apply specialised knowledge, systematic approaches and analytical techniques to research and prepare information customised for clients and/or situations.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Evaluate client's current situation and identify issues	1.1 Analyse integrity of information provided by client 1.2 Identify, quantify and test client objectives for viability 1.3 Establish basis for strategy development in line with confirmed objectives
2. Identify research requirements and	2.1 Establish aims and objectives of research including strategy, product and performance parameters against client requirements

ELEMENT	PERFORMANCE CRITERIA
parameters	<p>and expectations, with all issues identified</p> <p>2.2 Identify and access wide range of relevant internal and external information resources required for research</p> <p>2.3 Establish timeframes and prioritise requests for information to ensure milestones are met</p>
3. Extract and analyse information according to research requirements and parameters	<p>3.1 Establish data extraction criteria that are relevant to intended use and client requirements</p> <p>3.2 Identify trends to provide meaningful information on performance of possible strategies, products and markets</p> <p>3.3 Identify taxation and other government legislation that needs to be considered in choice of financial planning strategies</p> <p>3.4 Conduct risk assessment of strategies and products identified through research</p> <p>3.5 Analyse financial products within appropriate timeframes to ensure currency of decision making</p> <p>3.6 Prioritise information according to client requirements and expectations</p> <p>3.7 Identify issues that require specialist research or advice and obtain appropriate advice</p>
4. Summarise research information	<p>4.1 Collate and check information on financial strategies and products against research specification</p> <p>4.2 Prepare and check written performance, trend and risk analyses against research specification</p> <p>4.3 Document any qualifications or issues for further research</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.3, 2.2, 3.3, 3.5, 3.7, 4.1, 4.2	<ul style="list-style-type: none"> Researches, analyses and compares complex information to determine and confirm work requirements
Writing	2.1, 2.3, 3.6, 4.2, 4.3	<ul style="list-style-type: none"> Uses language, concepts and terminology appropriate to the audience and purpose to share, convey and

		clarify explicit information and requirements
Oral Communication	1.1, 1.3, 2.3	<ul style="list-style-type: none"> Uses active listening and questioning techniques to clarify and elicit information from a range of stakeholders
Numeracy	1.2, 3.2, 3.4, 3.5, 4.1, 4.2	<ul style="list-style-type: none"> Performs calculations and uses analytical techniques to determine trends and make comparisons of financial information Develops timelines to plan and monitor progress
Interact with others	3.7	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with internal and external stakeholders to seek or share information
Get the work done	1.1-1.3, 2.1-2.3, 3.1-3.7, 4.1-4.3	<ul style="list-style-type: none"> Plans, organises and implements processes to ensure required tasks are completed efficiently and effectively Systematically gathers, analyses and evaluates research findings to decide on appropriate products or advice Uses the main features and functions of digital tools to complete work tasks and to access information

Assessment Requirements for FNSFPL502 Conduct financial planning analysis and research

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- conduct financial planning research that demonstrates:
 - evaluation of client's current situation and identification of issues
 - identification of research requirements and parameters
 - extraction and analysis of information
 - use of a wide range of available information sources
 - compliance with relevant legislative and regulatory requirements, relevant industry codes of practice and organisational operating guidelines
- accurately summarise research information and test its integrity
- prioritise findings, validated against client requirements, and document research for financial plans.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and describe a wide range of financial products and services
- discuss the risks and implications associated with use of financial products and services
- explain financial products and services and the associated benefits from a financial planning perspective
- identify financial industry information sources and outline research techniques for accessing this information
- compare and contrast financial planning strategies
- describe the key features of:

- organisational policy and procedures relating to research
- relevant legislation and regulations governing trusts and companies
- relevant industry code of practice requirements
- describe the key features of taxation and social security systems and regulations, and their effect on specified financial products
- outline the key aspects of theories of investment, portfolio management and management of investment and risk.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial planning field of work and include access to:

- office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFPL503 Develop and prepare financial plan

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to develop and prepare a financial plan that meets the client's needs. It encompasses establishing plan objectives and scope, and developing strategic assumptions, strategies and a preliminary financial plan compliant with regulatory and organisational requirements.

It applies to individuals who, within their level of authority, manage relationships, apply systematic approaches and use specialised knowledge to recommend customised solutions for a diverse range of clients.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish plan objectives and scope	1.1 Review research results and compare to client requirements and expectations 1.2 Analyse current client situation to determine opportunities and constraints 1.3 Identify and assess desired financial resource and market

ELEMENT	PERFORMANCE CRITERIA
	<p>parameters</p> <p>1.4 Develop plan objectives for asset growth, income, risk, taxation and any other objectives developed in consultation with client</p>
2. Develop strategic assumptions	<p>2.1 Develop and test client related and economic key assumptions</p> <p>2.2 Identify and test legislative and regulatory requirements, including taxation assumptions</p> <p>2.3 Seek clarification from client or other professionals as required and document strategic assumptions for client review</p>
3. Develop financial plan strategy	<p>3.1 Develop initial options based on strategic assumptions and client specifications</p> <p>3.2 Analyse and model strategic options and reject any inappropriate options</p> <p>3.3 Develop supporting arguments for each final strategic option and include in draft overall strategy</p> <p>3.4 Conduct any necessary client checks or consultations to verify plan strategy</p>
4. Develop preliminary financial plan	<p>4.1 Select specific products and options to meet agreed strategy with cash flow, liquidity and capital preservation or estate planning requirements incorporated as required</p> <p>4.2 Develop recommendations for financial asset allocation structure, including where provision is required for equities, trusts, partnerships, allocated pensions and superannuation, and planned capital expenditure</p> <p>4.3 Develop recommendations for changes to income and taxation arrangements, including referral advice to accountants or lawyers as appropriate</p> <p>4.4 Develop recommendations on risk management strategies and products, and incorporate in plan</p> <p>4.5 Incorporate anticipated fees and charges into preliminary plan</p> <p>4.6 Incorporate information on internal and external complaints and dispute resolution procedures available to client</p> <p>4.7 Document preliminary financial plan according to organisational guidelines and procedures</p>
5. Ensure compliance of financial plan with regulatory and	<p>5.1 Check preliminary financial plan to ensure that role of representative or adviser is properly documented and complies with relevant Acts, regulations and regulatory guidelines</p>

ELEMENT	PERFORMANCE CRITERIA
organisational requirements	5.2 Assess preliminary financial plan for its ability to successfully achieve objectives 5.3 Check preliminary financial plan to ensure that it complies with ethical and regulatory requirements
6. Produce completed plan	6.1 Produce financial plan in accordance with organisational quality control requirements 6.2 Attach relevant supporting documentation relating to products, regulatory considerations and organisational processes, including internal and external complaints procedures

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.3, 2.2, 3.2, 5.1-5.3	<ul style="list-style-type: none"> Analyses and reviews complex information from a range of sources to identify key details, make judgements and determine requirements
Writing	1.4, 2.1, 2.3, 3.3, 3.4, 4.2-4.7, 6.1	<ul style="list-style-type: none"> Develops material to a specific audience using clear and detailed language and financial data to convey explicit information, requirements and recommendations Uses appropriate formats and structures to report and present information logically
Oral Communication	2.3, 3.4	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning skills and uses collaborative techniques to convey and clarify information appropriate to the audience and purpose
Numeracy	1.1-1.4, 2.1, 4.2, 4.5	<ul style="list-style-type: none"> Performs calculations and analyses and tests financial information to achieve required outcomes
Navigate the world of work	2.2, 4.6, 4.7, 5.1, 5.3, 6.1	<ul style="list-style-type: none"> Takes full responsibility for ensuring that documentation and processes comply with organisational policy and procedures, and regulatory and ethical requirements Maintains knowledge of compliance legislation necessary to perform role

Assessment Requirements for FNSFPL503 Develop and prepare financial plan

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- analyse options and make justified recommendations to clients using use in-depth knowledge of the financial planning industry, industry regulations, codes of practice, financial products, financial markets and investment characteristics
- develop a detailed financial plan that :
 - maximises the client's outcomes and reaches client objectives
 - establishes plan objectives and scope, and develops strategic assumptions
 - complies with regulatory and organisational procedures
 - assesses impacts of taxation, social security, economic and other government policy on client investment and financial requirements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe the key features of generic products available in the financial services industry
- discuss the impact of taxation, social security, economic and other government policy on client investment and financial requirements
- describe the key features of investment and savings vehicles, financial markets, asset classes and investment characteristics
- identify investment risk factors and describe relationship to return expectations
- discuss the principles of effective negotiation
- describe the internal and external complaints and dispute resolution procedures available to clients
- describe the key features of relevant industry codes of practice
- outline the key ethical considerations in developing and preparing financial plans

- outline the general impact of relevant:
 - economic, taxation and social security policy on the client's financial planning needs
 - state and territory planning considerations on the client's financial planning needs
- explain the role of the financial planning adviser and financial planning practice, including compliance requirements and the disclosure of capacity
- describe the key features of legislation and regulations affecting the financial services industry.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial planning field of work and include access to:

- office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFPL504 Implement financial plan

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to prepare and provide financial planning advice, which may include products, services and strategies. It encompasses establishing the actions, timings and priorities needed to implement and monitor or supervise the implementation of financial plan actions.

It applies to individuals who work within a team environment using specialised knowledge, systematic processes and managerial techniques to complete required work.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish actions, timings and priorities needed to implement financial plan	1.1 Establish implementation actions which are consistent with client needs and specifications 1.2 Establish individual implementation actions, including timing and priorities designed to maximise advantage to client 1.3 Clearly identify implementation actions and obtain written agreement to actions from client

ELEMENT	PERFORMANCE CRITERIA
	1.4 Establish implementation diaries and enter appropriate records
2. Establish procedures for implementation of financial plan	2.1 Identify and brief personnel to implement each action in plan 2.2 Identify and follow up internal and external documentation requirements and establish audit trails 2.3 Establish monitoring procedures for critical timings and priorities
3. Undertake and/or supervise implementation of financial plan actions	3.1 Check that authorised representative ensures clients have information on actions they must undertake and provides assistance where needed 3.2 Check that authorised representative ensures instructions are issued to internal and external personnel as per plan requirements 3.3 Check and follow up lodgement of documentation to ensure plan timings are met 3.4 Check that authorised representative ensures fees and charges are obtained and processed according to organisational and legislative requirements 3.5 Debrief client and address any concerns promptly and effectively

Foundation Skills

section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	2.2, 3.3	<ul style="list-style-type: none"> Interprets and analyses information and products from a variety of sources to ensure appropriateness to client needs, currency and accuracy
Writing	1.3, 1.4, 2.1, 2.2, 3.1, 3.2, 3.5	<ul style="list-style-type: none"> Completes documentation accurately following organisational procedures and protocols Uses clear language, correct spelling and grammar and appropriate terminology to convey information to a range of personnel
Oral Communication	2.1, 3.1, 3.2, 3.5	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning skills and uses collaborative techniques to share, convey and clarify information Uses language and concepts appropriate to team

		members and clients, and relevant to the situation
Numeracy	1.2, 2.3, 3.3, 3.4	<ul style="list-style-type: none"> • Uses mathematical equations to perform calculations and check accuracy of financial data • Analyses, records and stores complex financial data and information • Develops timelines to plan and monitor progress
Navigate the world of work	3.4	<ul style="list-style-type: none"> • Takes full responsibility for ensuring that documentation and processes comply with organisational policy and procedures, and regulatory and ethical requirements • Maintains knowledge of compliance legislation necessary to perform role
Interact with others	1.3, 2.1, 2.2, 3.1-3.5	<ul style="list-style-type: none"> • Selects and uses appropriate conventions and protocols when communicating with internal and external stakeholders to provide or seek information • Recognises the importance of building rapport to establish effective working relationships with diverse clients • Collaborates and cooperates with others to achieve joint outcomes
Get the work done	1.1-1.4, 2.1- 2.3, 3.1-3.5	<ul style="list-style-type: none"> • Plans, sequences and implements processes and tasks to meet legislative and organisational requirements, changing processes where necessary • Uses the main features and functions of digital tools to complete work tasks and access information

Assessment Requirements for FNSFPL505 Review financial plans and provide ongoing service

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- effectively discuss, negotiate and confirm arrangements for review of a financial plan and ongoing service with clients
- develop ongoing service agreements for clients who:
 - comply with relevant legislation, regulations and industry codes of conduct
 - follow organisational procedures
- review or supervise the review of financial plans, including assessment of:
 - outcomes against changing client needs
 - impacts of taxation, social security, economic and other government policy on client investment and financial requirements
- maintain accurate documentation of records and data relating to implementation and review.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline the key features of the financial planning industry, financial products, financial markets and investment characteristics
- outline common fees and charges associated with ongoing services
- compare and contrast:
 - financial forecasting techniques
 - methods of presenting financial data
- describe the key features and discuss issues relating to:
 - government financial and superannuation policy

- relevant corporations and consumer legislation
- relevant financial legislation
- industry codes of practice
- identify and outline sources of information on financial products and markets
- discuss strategies for the ongoing review and assessment of financial plans
- outline the key requirements relating to documenting financial plans.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial planning field of work and include access to:

- office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFPL506 Determine client financial requirements and expectations

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to determine the financial requirements and expectations of clients. It encompasses informing clients of the financial planning process and service, obtaining relevant information on their existing financial situations and expectations with respect to the financial planning service offered by the representative, and preparing and updating necessary documentation.

It applies to individuals who manage relationships with clients and colleagues and use specialised knowledge and systematic approaches to determine a customised service.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Inform client of financial planning process and services	1.1 Explain to client financial planning process and role, and any limits of authority of representative 1.2 Explain to client organisation's licensees, principals, services and capacity, including any relationship to other financial services

ELEMENT	PERFORMANCE CRITERIA
	<p>1.3 Explain fees and charges to client and confirm client's understanding of these before proceeding with delivery of service</p> <p>1.4 Identify clients with special needs and take appropriate action or make referral</p> <p>1.5 Explain procedures for internal and external complaints handling and resolution to client</p>
<p>2. Obtain relevant information on client's existing financial situation</p>	<p>2.1 Obtain and confirm facts and information relevant to client's particular service request</p> <p>2.2 Identify client expectations, requirements and objectives, and encourage client to disclose relevant information to determine client's personal financial situation and any special needs</p> <p>2.3 Obtain relevant information on investments and assets held by client, and client's current income, expenditure and liabilities situation</p> <p>2.4 Develop summary analysis of client's financial position based on extent of client disclosure and requirements</p> <p>2.5 Accurately and consistently identify risk and fraud indicators, and check all information for consistency and potential conflict</p>
<p>3. Determine client expectations and requirements with respect to financial planning service offered by representative</p>	<p>3.1 Encourage client to express and clarify expectations from financial planning process, and identify and promptly and appropriately respond to any concerns</p> <p>3.2 Establish client's income and investment needs, preferences and priorities</p> <p>3.3 Explore risk issues and tolerance comprehensively and ethically with client</p> <p>3.4 Determine that service being sought is within capability and authority of authorised representative</p> <p>3.5 Refer to another internal representative if service required by client is beyond scope of representative</p> <p>3.6 Seek specialist advice where necessary or refer client to appropriate personnel or organisation where required services are not available or cannot be provided by the practice</p>
<p>4. Prepare and update necessary documentation where required</p>	<p>4.1 Document and check with client all relevant client facts, information and financial and personal histories, and manage confidentially in accordance with company policy and guidelines, and relevant legislation and industry codes of practice</p> <p>4.2 Create or update client records when necessary</p> <p>4.3 File client documentation, information and histories in format</p>

ELEMENT	PERFORMANCE CRITERIA
	and location that is readily accessible

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.4, 2.1, 2.3, 2.5, 4.1	<ul style="list-style-type: none"> Researches and evaluates information and products from a variety of sources to ensure appropriateness to client needs, currency and accuracy
Writing	1.1-1.5, 2.1-2.4, 3.1, 3.3, 3.5, 3.6, 4.1-4.3	<ul style="list-style-type: none"> Completes formal and informal texts, accurately following organisational procedures and protocols Uses clear language and appropriate terminology, with correct spelling, to convey and clarify information to a range of stakeholders
Oral Communication	1.1-1.5, 2.1-2.3, 3.1-3.3, 3.5, 3.6	<ul style="list-style-type: none"> Participates in verbal exchanges using language and concepts appropriate to the audience and purpose Uses targeted questioning and active listening skills to elicit and clarify information
Numeracy	1.3, 2.1-2.3, 3.2, 4.1-4.3	<ul style="list-style-type: none"> Performs mathematical calculations to determine fees, reconcile amounts and compare financial information Analyses, records and stores complex financial data and information
Navigate the world of work	1.5, 3.3, 4.1	<ul style="list-style-type: none"> Understands responsibilities of own role and the roles of others, including ethical behaviour and compliance with legislative and organisational requirements Ensures knowledge of legislative requirements is kept up to date to provide accurate information
Interact with others	1.1-1.5, 2.1, 2.3, 3.1, 3.3, 3.5, 3.6, 4.1	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols to gain and provide relevant information Adapts personal communication style to build rapport and show respect for the opinions, values and particular needs of others
Get the work done	1.1, 1.5, 2.1-2.5, 3.1-3.6, 4.1-4.3	<ul style="list-style-type: none"> Plans, organises and sequences tasks to meet legislative and organisational requirements, and ethical standards Systematically gathers, analyses and evaluates information to decide on appropriate products or

		<p>advice, seeking advice from others as required</p> <ul style="list-style-type: none"> • Uses problem-solving techniques to identify and analyse possible risks to decide on suitable actions, seeking advice from others as required • Uses the main features and functions of digital tools to complete work tasks and access information

Assessment Requirements for FNSFPL506 Determine client financial requirements and expectations

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- clearly inform clients of the financial planning process and services
- obtain all relevant information on clients' existing financial situation
- determine client expectations and requirements with respect to the financial planning service offered by the representative
- comply with relevant legislation and regulations, and organisational operating policy and procedures
- accurately record information and make summary analysis.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- discuss appropriate financial industry sales and marketing techniques
- explain the protocols to be complied with in dealing with clients with special needs
- outline the key issues relating to:
 - the current economic climate and outlook
 - local and international financial markets and investments
- explain financial product service terms and conditions
- explain indicative fees and charges
- explain the interactions between different providers of the financial planning service and their accountabilities
- describe authorities and assistance able to be offered by other advisers and organisations
- discern between and describe what different providers can and cannot do within the financial planning service required by the client

- outline the steps in a referral process to other advisers or organisations
- describe the key stages in internal and external complaint handling processes
- outline the steps and processes involved in the preparation of financial plans
- describe the key features of relevant organisational policy, procedures and requirements
- identify risk and fraud indicators.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial planning field of work and include access to:

- office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFPL507 Provide financial planning advice

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to provide financial advice to clients when presenting preliminary, amended or final financial plans depending on the level of client contact appropriate for the representative.

It applies to individuals who use specialised knowledge and strong communication, negotiation and interpersonal skills to build rapport and conduct business.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Create rapport with client	<p>1.1 Ensure disclosure of capacity to client is consistent with codes of practice and legislative requirements, and that organisational requirements and client concerns, if any, are identified and responded to appropriately</p> <p>1.2 Explain services to client when appropriate, including in writing, in clear and unambiguous way, avoiding jargon and in language appropriate to level of financial understanding of client</p>

ELEMENT	PERFORMANCE CRITERIA
	<p>1.3 Assist client to make informed choices using relevant documentation</p> <p>1.4 Address client's needs and objectives consistent with client's budgetary situation</p>
2. Discuss financial plan with client	<p>2.1 Clearly explain scope and limitations of plan and/or advice to client, together with provision of appropriate warnings</p> <p>2.2 Explain strategies and recommendations in financial plan and discuss with client in clear and unambiguous way</p> <p>2.3 Prepare, explain and discuss financial plan documentation with client when appropriate</p> <p>2.4 Disclose impact of key aspects of recommendations in clear and concise manner to client</p> <p>2.5 Guide client through key aspects of strategies proposed when appropriate and demonstrate product knowledge appropriate for service or advice offered</p> <p>2.6 Explain assumptions used in formulating plan and degree to which variations in assumptions may impact on client's expected outcomes</p> <p>2.7 Explain requirements to put recommended plan into effect to client and identify and note any areas in plan that may require further advice</p> <p>2.8 Provide copies of research and other relevant documentation to client if requested and seek confirmation that client understands all recommendations presented</p> <p>2.9 Obtain agreement in principle to proceed from client</p> <p>2.10 Clearly define and communicate appropriate level of after sales service to be provided to client</p>
3. Negotiate effectively	<p>3.1 Assist clients when necessary to make appropriate decisions regarding solutions to their needs and objectives within scope of plan, and present alternatives to recommendations when requested</p> <p>3.2 Observe limits imposed by regulatory requirements or organisational guidelines</p> <p>3.3 Exercise restraint and composure when dealing with any conflict situations involving clients</p> <p>3.4 Maintain communication channels when dealing with any complaints and follow internal or external complaint handling procedures</p>

ELEMENT	PERFORMANCE CRITERIA
4. Complete and maintain necessary documentation	4.1 Adjust financial plan according to changes agreed to by client 4.2 Complete proposals and other documents and arrange sign off when plan is agreed between client and authorised representative 4.3 Clearly identify implementation actions required by client and obtain written agreement to actions 4.4 Create or update client records with any contract variations completed if required 4.5 Provide confirmation, including relevant documentation and contract variation, to client and implement final plan 4.6 Record client advice in accordance with organisational guidelines and/or financial plan documentation requirements 4.7 Obtain client signatures on instructing and/or purchasing documents where required

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.3, 2.3, 2.5, 4.2, 4.3	<ul style="list-style-type: none"> Evaluates information and products from a variety of sources to ensure appropriateness to client needs, currency and accuracy
Writing	1.1-1.3, 2.3, 2.7-2.10, 3.4, 4.1-4.7	<ul style="list-style-type: none"> Uses clear and unambiguous language that avoids jargon and is appropriate to the level of financial understanding of the client Accurately records and completes documentation following organisational procedures and protocols
Oral Communication	1.1-1.3, 2.1-2.10, 3.4, 4.2, 4.3	<ul style="list-style-type: none"> Participates in verbal exchanges and clearly explains detailed information using language, tone and pace appropriate to the audience and purpose Uses questioning and active listening skills to elicit the views and opinions of others and to confirm understanding
Numeracy	1.2-1.4, 2.1- 2.8, 4.1	<ul style="list-style-type: none"> Performs calculations, and explains and compares financial data and information Analyses, records and stores complex financial data and information

Navigate the world of work	1.1, 1.3, 2.1, 2.5, 3.2, 3.4	<ul style="list-style-type: none"> Understands responsibilities of own role, including ethical behaviour and compliance with legislative and organisational requirements Ensures knowledge of products and legislative requirements is kept up to date to provide accurate information

Assessment Requirements for FNSFPL507 Provide financial planning advice

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- create rapport with the client and discuss financial plans
- provide financial advice to clients when presenting preliminary, amended or final financial plans that:
 - complies with industry regulations and codes of practice
 - assesses the impacts of taxation, social security, economic and other government policy on client investment and financial requirements within the range of products known to the adviser
- complete and maintain all necessary documentation.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- review the generic products available in the financial services industry
- identify issues and discuss the possible impacts of the following on the client's financial planning needs:
 - relevant economic, taxation and social security policy
 - estate planning
- explain investment and savings vehicles, financial markets, asset classes and investment characteristics
- explain the key features of financial markets, the range of financial products as set out in organisational guidelines, and the investment characteristics
- analyse investment risk factors and the relationship to return expectations
- describe the key features of:

- relevant codes of practice and industry financial plan documentation requirements
- requirements related to the disclosure of capacity
- discuss the role of the financial planning adviser and the financial planning practice
- outline the key requirements of legislation and regulations affecting the financial services industry
- describe the internal and external issue resolution processes available to clients in the event of a dispute.
-

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial planning field of work and include access to:

- office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFPL508 Conduct complex financial planning research

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to undertake research of a complex nature for use in the financial planning process. Research would involve plans for those with above average sums of money, with complex legal, regulatory or estate issues, or an above average range of products or plans for major clients.

It applies to experienced individuals who use specialised knowledge and techniques to source, evaluate and synthesise complex information to solve problems and support the planning process.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Evaluate client's current situation and identify issues	1.1 Undertake analysis of integrity of information provided by client 1.2 Ensure client objectives and expectations are identified, quantified and tested for viability by authorised representative 1.3 Establish basis for strategy development

ELEMENT	PERFORMANCE CRITERIA
2. Identify research requirements and parameters	<p>2.1 Establish aims and objectives of research, including strategy and product and performance parameters against client requirements and expectations</p> <p>2.2 Clearly establish intended use of research information</p> <p>2.3 Identify wide range of internal and external information resources</p> <p>2.4 Identify information requirements not met by regular sources and develop strategies to access them legitimately</p> <p>2.5 Establish timeframes and prioritise requests for information to ensure timelines are met</p>
3. Extract and analyse information according to research requirements and parameters	<p>3.1 Establish data extraction criteria that are relevant to intended use and client requirements, and do not unduly limit scope of research</p> <p>3.2 Identify trends to provide meaningful information on performance of possible strategies, products and markets</p> <p>3.3 Undertake comprehensive risk assessment of products identified through research</p> <p>3.4 Analyse strategies and financial products within appropriate timeframes to ensure currency of decision making</p> <p>3.5 Prioritise information obtained according to client requirements and expectations</p> <p>3.6 Identify issues that require specialist research or advice, and source and obtain appropriate advice</p>
4. Summarise and present results of research	<p>4.1 Collate information on financial products and check against research specification</p> <p>4.2 Prepare written performance, trend and risk analyses and check against research specification</p> <p>4.3 Describe and document any qualifications or issues for further research</p> <p>4.4 Present research findings to financial planner</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 2.1, 2.3, 2.4, 4.1, 4.2	<ul style="list-style-type: none"> Accesses, manages and evaluates comprehensive and complex information and documentation to achieve requirements
Writing	4.1-4.4	<ul style="list-style-type: none"> Summarises and effectively presents information using formats, language and concepts appropriate for the audience and purpose
Oral Communication	4.4	<ul style="list-style-type: none"> Clearly and effectively presents detailed information using technically accurate language and tone and pace appropriate to the audience and purpose Participates in verbal exchanges using active listening and questioning to clarify or confirm understanding
Numeracy	2.5, 3.1-3.4, 4.1-4.3	<ul style="list-style-type: none"> Performs calculations and uses advanced analytical techniques to determine trends and compare comprehensive and complex financial information Uses mathematical equations to estimate time
Navigate the world of work	1.1, 3.4	<ul style="list-style-type: none"> Maintains knowledge of compliance legislation and requirements necessary to perform role
Interact with others	3.6, 4.4	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols to seek and provide relevant information
Get the work done	1.1-1.3, 2.1-2.5, 3.1-3.6, 4.1-4.4	<ul style="list-style-type: none"> Plans, sequences, implements and monitors processes and tasks to meet legislative and organisational requirements Systematically gathers and analyses complex information and evaluates options against criteria to decide on recommendations Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for FNSFPL508 Conduct complex financial planning research

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- conduct and document research of a complex nature for use in the financial planning process that includes:
 - testing and assessing the integrity of information
 - specifying and justifying research objectives and strategy
- summarise and prioritise findings based on:
 - assessing the impact of trends on product performance to interpret and assess available products and services and how they can be combined in a comprehensive portfolio
 - assessing risks and benefits associated with using a range of products and services within a portfolio
- evaluate outcomes against client requirements to form recommendations that comply with company policy and procedures, industry codes of practice and relevant legislation.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and outline the key features of a wide range of:
 - financial products and services and their uses in portfolios
 - relevant financial product information sources and research techniques
- identify and classify a wide range of available information sources and describe research strategies to obtain information not readily available
- describe the key features of:
 - financial industry related Acts and regulations
 - industry trends and latest research findings

- relevant legislative and code of practice requirements
- relevant organisational policy, objectives and guidelines
- identify and discuss the major risks and implications associated with financial products and services
- explain theories of investment, portfolio management and management of investment and risk
- describe issues relating to taxation and social security systems and regulations, and their effect on the specified financial products.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial planning field of work and include access to:

- office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements

FNSFPL601 Provide technical and professional guidance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to provide technical and professional guidance in a financial planning practice. It encompasses mentoring staff in the practice, providing technical information to staff and peers, and acting as a practice reference for any special areas of expertise.

It applies to experienced individuals with specialised knowledge of the sector and well-developed communication skills who provide leadership and guidance to others, making judgements within their level of responsibility.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Provide technical guidance to other staff in the practice	1.1 Provide technical guidance and advice, appropriate to skill level and need, to other financial planners, trainee financial planners and para-planners to assist in development of financial plans 1.2 Provide technical advice and assistance to administrative and

ELEMENT	PERFORMANCE CRITERIA
	<p>processing staff when required</p> <p>1.3 Use specialists with appropriate advanced technical competency as point of reference when required</p> <p>1.4 Recognise potential problems before they develop and take precautionary steps to prevent them</p> <p>1.5 Model and communicate ethical behaviour requirements to staff and peers</p>
2. Provide technical and professional information to staff and peers	<p>2.1 Circulate information obtained by representatives that is relevant to staff and peers for development purposes</p> <p>2.2 Provide opportunities to staff for feedback and queries on circulated information</p>
3. Act as practice reference for any special areas of expertise	<p>3.1 Establish staff briefings or training sessions in representative's area of expertise</p> <p>3.2 Develop and deliver skill development exercises for individual staff as required</p> <p>3.3 Monitor market, product, legislative and regulatory changes in special areas of expertise for development purposes</p> <p>3.4 Monitor and address practice information and skill requirements in special areas of expertise</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Learning	1.1, 1.2, 3.2	<ul style="list-style-type: none"> Updates own knowledge and skills through advising, coaching, mentoring or training others
Reading	2.1, 3.3, 3.4	<ul style="list-style-type: none"> Researches, analyses and manages information from a range of sources to determine and confirm staff development requirements
Writing	1.1, 1.2, 2.1, 2.2, 3.1, 3.2	<ul style="list-style-type: none"> Prepares and presents information using appropriate formats, language and concepts for training and staff development
Oral Communication	1.1, 1.2, 2.1, 2.2, 3.1, 3.2, 3.4	<ul style="list-style-type: none"> Articulates information clearly and involves others in discussions using active listening and questioning

		<p>techniques</p> <ul style="list-style-type: none"> • Uses pace, tone and gestures appropriately in the presentation of information to others
Numeracy	1.1, 1.2, 3.3	<ul style="list-style-type: none"> • Interprets and explains financial information to determine requirements and clarify understanding of others
Navigate the world of work	1.5, 3.3, 3.4	<ul style="list-style-type: none"> • Takes full responsibility for compliance with legislative and ethical requirements and identifies organisational implications of new or changed legislation or regulation
Interact with others	1.1, 1.2, 1.5, 2.1, 2.2, 3.1, 3.2	<ul style="list-style-type: none"> • Selects and uses appropriate communication conventions and protocols to seek and provide relevant information • Demonstrates sophisticated control over oral, visual and/or written formats, drawing on a range of communication practices to achieve goals
Get the work done	1.1-1.4, 2.1, 2.2, 3.1-3.4	<ul style="list-style-type: none"> • Plans, organises and coordinates processes and activities to achieve staff development requirements • Uses a combination of intuition and systematic analysis to identify potential problems and implement contingency plans • Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for FNSFPL602 Determine client requirements and expectations for clients with complex needs

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- determine a client's complex financial planning requirements and expectations by:
 - discussing the financial planning process, services and options with clients to establish their personal, family and business financial situation
 - identifying client strengths and liabilities in their financial management and sourcing information on complex taxation and/or estate issues they may have
 - establishing a holistic picture of client requirements and expectations to identify risks or unusual requirements, and assess risk and fraud indicators
 - complying with relevant industry codes of practice, legislation and regulations, and organisational policy and procedures
- build rapport with clients by offering thorough and ongoing assistance with all enquiries and requests for service
- communicate the features and benefits of products and services available.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and categorise available information and research sources
- outline the key features of business principles and law
- analyse and discuss the key issues relating to:
 - economic climate and outlook
 - local and international financial markets and investments
- describe the key features and discuss issues relevant to:
 - family structures and legal implications

- financial products, features and benefits, and service terms and conditions
- organisational policy, procedures and requirements
- property structures and legal implications
- privacy and confidentiality
- describe a range of complex client financial needs or situations, and their implications
- compare and contrast sales and marketing techniques appropriate to the financial services industry
- explain the key features of the financial industry and related legislation, and the financial implications affecting family and business structures
- explain taxation and property structures and their financial implications
- identify the indications and discuss the implications of risk and fraud
- describe the purpose of and key steps within the complaints handling process.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial planning field of work and include access to:

- office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFPL603 Provide comprehensive monitoring and ongoing service

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to comprehensively monitor the implementation and progress of financial plans and establish ongoing client service arrangements. It encompasses discussing and confirming arrangements for ongoing service with clients, establishing procedures for that service, undertaking and/or supervising financial plans and establishing long-term professional relationships with clients.

It applies to experienced individuals who use strong organisational and communication skills and systematic approaches to manage relationships and monitor organisational services.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Discuss and confirm with client arrangements for ongoing service	1.1 Prepare ongoing service options for presentation to client and recommend most appropriate option 1.2 Ensure prepared options include provision for best practice in ongoing service delivery in terms of frequency of contact, quality

ELEMENT	PERFORMANCE CRITERIA
	<p>and thoroughness of assessment against performance targets in financial plan</p> <p>1.3 Clearly define and agree on areas and targets to be reviewed and allocation of responsibilities</p> <p>1.4 Agree on ongoing standard of service with client, including quality parameters, reporting frequency and arrangements for reviews and client initiated changes</p> <p>1.5 Explain and confirm fees and charges for ongoing service with client, including costs of service needs outside requirements of agreement</p> <p>1.6 Ensure agreement for ongoing service is signed by client</p>
2. Establish procedures for providing ongoing service	<p>2.1 Identify and brief personnel to implement each action in ongoing service arrangements</p> <p>2.2 Identify and follow internal and external documentation requirements</p> <p>2.3 Diarise key revision dates and establish client contact arrangements</p> <p>2.4 Develop procedures for client to request unscheduled reviews</p> <p>2.5 Establish monitoring procedures for critical timings and priorities</p>
3. Undertake and/or supervise monitoring of financial plan	<p>3.1 Establish arrangements for monitoring ongoing performance of financial plan</p> <p>3.2 Monitor quality of ongoing client service</p> <p>3.3 Ensure representative provides quality ongoing service that meets industry best practice, and organisational and regulatory requirements</p> <p>3.4 Ensure representative issues instructions to internal and external personnel as per plan requirements</p> <p>3.5 Check and follow up lodgement of documentation to ensure plan timings are met</p> <p>3.6 Ensure representative obtains fees and charges, and processes according to organisational and legislative requirements</p> <p>3.7 Establish clear arrangements for client to contact representative at any time with concerns and queries</p>
4. Establish long-term professional relationship with client	<p>4.1 Ensure regular communication arrangements between representative and client, and include scheduled meetings</p> <p>4.2 Monitor client satisfaction against performance indicators of</p>

ELEMENT	PERFORMANCE CRITERIA
	the practice

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description

Assessment Requirements for FNSFPL603 Provide comprehensive monitoring and ongoing service

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- effectively monitor and assess the success of the financial plan
- gain client agreement to or feedback on modifications and negotiate ongoing service agreements with clients
- effectively document records of meetings and data on plan implementation and monitoring.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the key features of the financial planning industry, financial products, financial markets, investment characteristics and the role of a financial adviser
- describe the key features and discuss issues relating to:
 - corporations and consumer legislation
 - current financial legislation
 - government financial and superannuation policy
 - state and territory charges and taxes
 - codes of practice relating to the role of the financial planner
- analyse the key features of sales and marketing media and methodologies to ensure it is in line with the provision of service to clients
- identify and categorise fees and charges associated with ongoing services, and describe matters to be considered in fees and charges for services rendered
- identify and categorise sources of information on current financial products and markets, including banks and other financial advisers

- analyse best practice strategies for the ongoing monitoring and assessment of complex financial plans.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial planning field of work and include access to:

- office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFPL604 Develop complex and innovative financial planning strategies

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to determine and prepare a complex or innovative financial plan or plans which are, for commercial relationship reasons, identified as requiring development to a higher than normal standard. It encompasses establishing plan objectives and scope, and developing strategic assumptions and innovative or complex financial strategies.

It applies to experienced individuals who use specialised knowledge, systematic approaches and strong analytical skills to develop recommendations and solutions to meet complex requirements.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish plan objectives and scope	1.1 Review and compare research results with client requirements and expectations, and analyse current client situation to determine opportunities and constraints

ELEMENT	PERFORMANCE CRITERIA
	<p>1.2 Review special features of client situation such as high asset, income or expenditure requirements, complex taxation and/or legal issues, or complex estate planning issues</p> <p>1.3 Identify desired financial resource and market parameters and develop plan objectives for asset growth, income, risk, estate planning and any other objectives developed in consultation with client</p> <p>1.4 Identify taxation or estate objectives and discuss with client</p>
2. Develop strategic assumptions	<p>2.1 Develop and test client related and economic key assumptions</p> <p>2.2 Develop and test legislative, regulatory and taxation assumptions</p> <p>2.3 Seek clarification from client or other financial services professionals as required and document strategic assumptions for client review</p>
3. Develop innovative or complex financial strategy	<p>3.1 Develop initial options based on strategic assumptions and client specifications</p> <p>3.2 Analyse, model and prioritise strategic options and reject inappropriate strategic options</p> <p>3.3 Develop supporting arguments for each strategic option and include in draft overall strategy</p> <p>3.4 Integrate strategy, where required, into taxation, legal, estate or insurance and asset strategies being developed for client by other professional advisers for financial plan to achieve maximum synergy and benefit for client</p> <p>3.5 Review strategy for best practice compliance and risk management</p> <p>3.6 Include fee and charge analysis for strategy options</p> <p>3.7 Maintain best practice ethical behaviour, including full disclosure of any potential conflicts of interest and areas where advice should be sought from other professionals</p>
4. Review and settle draft strategy and options with client	<p>4.1 Select strategic options for review with client and suitable mode of presentation</p> <p>4.2 Fully review each strategic option with client, including positives, negatives and risks for each option</p> <p>4.3 Ensure that implication of each option, including regulatory and legal implications for client's situation, needs and goals, is explained to client and understood</p> <p>4.4 Ensure that client understands where additional professional</p>

ELEMENT	PERFORMANCE CRITERIA
	<p>advice is needed</p> <p>4.5 Establish broad agreement on strategies with client and resolve any concerns and issues raised by client</p>
5. Develop preliminary financial plan for client	<p>5.1 Conduct full investigation of products and options, including non-standard and/or innovative products, and select products and options to meet agreed strategy</p> <p>5.2 Identify complex or innovative products and develop or obtain explanatory material</p> <p>5.3 Incorporate requirements for cash flow, liquidity, capital preservation or estate planning</p> <p>5.4 Develop recommendations for financial asset allocation structure including, where required, provision for equities, trusts, partnerships, allocated pensions and superannuation</p> <p>5.5 Develop recommendations for changes to income and taxation arrangements, taxation consequences and estate planning issues relating to client strategy, and provide referral advice to accountants or lawyers as appropriate</p> <p>5.6 Develop recommendations on risk management strategies and products, and incorporate into plan</p> <p>5.7 Incorporate description of anticipated fees and charges into plan</p> <p>5.8 Incorporate information on internal and external complaints resolution procedures into preliminary plan</p> <p>5.9 Document preliminary financial plan according to organisational guidelines and procedures</p>
6. Ensure compliance of financial plan with regulatory and organisational requirements	<p>6.1 Check preliminary financial plan to ensure that role of representative or adviser is properly documented</p> <p>6.2 Check preliminary financial plan to ensure compliance with relevant Acts, legislation and regulatory guidelines</p> <p>6.3 Assess preliminary financial plan for its ability to successfully achieve stated objectives</p> <p>6.4 Check preliminary financial plan to ensure that it complies with ethical and regulatory requirements</p>
7. Produce client financial plan	<p>7.1 Produce financial plan in accordance with organisational presentation requirements</p> <p>7.2 Attach supporting organisation and product explanatory documentation, and regulatory and complaints information where</p>

Assessment Requirements for FNSFPL604 Develop complex and innovative financial planning strategies

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- develop detailed financial plans that:
 - maximise the client's outcomes and reach client objectives
 - incorporate elements that have arisen from research
 - address complex needs and issues
 - describe the key assumptions on which the plan is based
 - assess the impacts of taxation, social security, economic and other government policy on client investment and financial requirements
 - analyse strategic options and make justified recommendations.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe the key features and characteristics of:
 - the financial planning industry, investment and savings vehicles, financial markets, asset classes and investment characteristics
 - legislation, regulations and codes of practice affecting the industry
 - products available in the financial services industry
 - relevant industry codes of practice
- analyse the role of the financial planning adviser and the financial planning practice
- explain investment risk factors and relationship to return expectations
- describe requirements related to the disclosure of capacity
- outline the impact of the following on the client's financial planning needs:
 - relevant economic, taxation and social security policy

- relevant estate planning considerations
- describe the key features of effective communication processes, including principles of effective negotiation.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial planning field of work and include access to:

- office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSFPL605 Present and negotiate complex and innovative financial plans

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- successfully present and negotiate a complex or innovative preliminary, amended or final financial plan to a client that provides justification and research evidence for all elements of the plan
- gain client feedback and agreement to the plan
- build rapport and effectively manage client relationships.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- analyse the key features of sales and marketing media and methodologies
- outline the impact of the following on the client's financial planning needs:
 - relevant economic, taxation and social security policy
 - relevant estate planning considerations
- explain investment risk factors and relationship to return expectations
- describe the key features and discuss issues relating to:
 - investment and savings vehicles, financial markets, asset classes and investment characteristics
 - products available in the financial services industry
 - relevant industry codes of practice and requirements
 - role of the financial planning adviser and the financial planning practice
 - terms of the Acts and regulations affecting the industry
- explain the requirements related to the disclosure of capacity
- explain the internal and external dispute resolution procedures.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial planning field of work and include access to:

- office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to implement a complex or innovative financial plan, and successfully present to clients. Complex plans include those which, for commercial relationship reasons, require development to a higher than normal standard.

It applies to experienced individuals who work within a team environment using specialised knowledge, systematic processes and managerial techniques to complete complex work and manage relationships.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish actions, timings and priorities needed to implement complex and/or innovative financial plan	<p>1.1 Review special features of client situation for implementation implications, including high asset, income or expenditure requirements, complex taxation and/or legal issues, or complex estate planning issues</p> <p>1.2 Establish implementation actions which are consistent with client needs, and prioritise specifications and timings for each</p>

ELEMENT	PERFORMANCE CRITERIA
	implementation 1.3 Clearly explain implementation actions required by client and obtain written agreement to actions 1.4 Ensure implementation actions, including timing and priority, are to maximum advantage for client and establish implementation diaries and other appropriate records
2. Establish procedures for implementation of financial plan	2.1 Identify and brief personnel to implement each action in financial plan 2.2 Identify and follow internal and external documentation requirements 2.3 Coordinate implementation actions that depend on or involve actions by other professionals such as accountants and lawyers 2.4 Establish audit trails and monitoring procedures for critical implementation timings and priorities
3. Undertake and/or supervise implementation of financial plan actions	3.1 Ensure representative briefs client on actions client must undertake and provides assistance where needed 3.2 Ensure representative issues instructions to internal and external personnel as per plan requirements 3.3 Maintain consultation and monitoring with other professionals where joint implementation action is required 3.4 Check and follow up lodgement of documentation to ensure plan timings are met 3.5 Ensure representative obtains fees and charges, and processes according to organisational and legislative requirements 3.6 Debrief client and address any concerns

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 3.3, 3.4	<ul style="list-style-type: none"> Researches and manages complex information and products to determine currency, accuracy and appropriateness to client needs Consolidates and evaluates information from a range

		of sources to form a holistic perspective of complex situations and identify implications and risk
Writing	1.3, 1.4, 2.1, 2.2, 3.1, 3.2	<ul style="list-style-type: none"> • Completes documentation accurately, following organisational procedures and protocols • Uses clear language, appropriate terminology and correct spelling and grammar to convey information to a range of stakeholders
Oral Communication	1.3, 2.1, 3.1, 3.2, 3.6	<ul style="list-style-type: none"> • Participates in verbal exchanges, choosing appropriate language to explain complex or innovative concepts to particular audiences • Uses active listening and questioning skills to clarify understanding
Numeracy	1.1, 3.5	<ul style="list-style-type: none"> • Uses mathematical equations to perform calculations and check accuracy of fees and financial data • Analyses, records and stores complex financial data and information
Navigate the world of work	1.1, 3.1-3.5	<ul style="list-style-type: none"> • Takes full responsibility for establishing and implementing procedures to ensure financial plans comply with legislative, organisational and ethical requirements • Maintains knowledge of compliance legislation necessary to perform role
Interact with others	1.1, 1.3, 1.4, 2.1, 2.3, 2.4, 3.1-3.3, 3.6	<ul style="list-style-type: none"> • Selects and uses appropriate conventions and protocols when communicating with internal and external stakeholders to provide or seek information • Uses collaborative techniques to build trust and encourage clients to voice concerns • Adapts personal communication style to show respect for the opinions, values and particular needs of others
Get the work done	1.1-1.4, 2.1-2.4, 3.1-3.5	<ul style="list-style-type: none"> • Plans, sequences and implements processes and tasks to meet legislative, organisational and client requirements • Systematically evaluates complex information to make informed decisions about appropriate services or advice • Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for FNSFPL606 Implement complex and innovative financial plans

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- successfully present the plan to clients, clearly explaining implementation actions required and obtaining agreement to the plan
- effectively implement or supervise the implementation of complex or innovative financial plans
- accurately complete documentation and establish appropriate audit trails of records and data.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe the key features of and discuss issues relating to:
 - corporations and consumer legislation
 - relevant financial legislation
 - government financial and superannuation policy
- compare methods of presenting financial data
- identify and categorise:
 - sources of information on financial products and markets, including banks and other financial advisers
 - state and territory legislation
- describe how the unique features of a client's situation, including high asset, income or expenditure, complex taxation and/or legal issues, or complex estate planning issues, require special treatment in implementation of financial plans

- explain how and when to use professionals such as accountants and lawyers in the implementation of complex financial plans.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial planning field of work and include access to:

- office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSIAD301 Provide general advice on financial products and services

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to identify legislative and organisational boundaries on the provision of general advice on financial products and services, and take appropriate approaches to providing such advice.

It applies to individuals who undertake the provision of financial services and products advice which is NOT specified in accordance with Australian Securities and Investments Commissions (ASIC) regulations and does not require Tier 1 or 2 status.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Industry advice

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish relationship with customers	1.1 Attend to customer enquiries in a timely and courteous manner 1.2 Demonstrate active listening skills in dealing with customer enquiries and provide help and assistance to ensure full and accurate completion of initial documentation, where required
2. Identify customer	2.1 Examine, where applicable, initial documentation to determine

ELEMENT	PERFORMANCE CRITERIA
needs	<p>products and services of interest to customers</p> <p>2.2 Undertake clear and unambiguous communication with customers to determine and clarify products and services of interest to them</p> <p>2.3 Inform customers clearly of the regulatory restrictions on providing financial products advice</p> <p>2.4 Request information from customers to determine their needs, ensuring that information gathered is for the purposes of provision of general advice only</p> <p>2.5 Identify requests for information, advice, products or services that fall outside the organisation's scope of operation and inform customers where such information, advice, products or services can be obtained, where possible</p> <p>2.6 Explain the range of products and services available to customers in a clear and unambiguous way, avoiding jargon and in language appropriate to receiver</p>
3. Identify general advice boundaries of product and service	<p>3.1 Analyse the range of products and services of interest to customers to determine their categorisation is general advice, in line with legislation and organisational policy</p> <p>3.2 Refer customers to appropriate specialist personnel where requested advice is deemed to fall outside category of general advice</p>
4. Provide general advice to customers	<p>4.1 Assist customers to make informed choices on products and services using relevant documentation</p> <p>4.2 Provide general advice to customers in strict accordance with regulatory restrictions, organisational policy and organisational tools</p> <p>4.3 Demonstrate product knowledge appropriate for service or advice offered when providing advice to customers</p> <p>4.4 Explain and discuss recommendations with customers in a clear and unambiguous way</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance	Description
-------	-------------	-------------

	Criteria	
Reading	2.1, 3.1	<ul style="list-style-type: none"> Evaluates information and products from a variety of sources to ensure appropriateness to customer needs
Writing	1.2, 4.2	<ul style="list-style-type: none"> Accurately records and completes organisational documents and correspondence using clear language and correct spelling, grammar and terminology
Oral Communication	1.1, 1.2, 2.2-2.6, 3.2, 4.3, 4.4	<ul style="list-style-type: none"> Participates in a verbal exchange of information, clearly articulating identified products and services options using language, tone and pace appropriate to audience and environment Uses listening and questioning techniques to elicit the views and opinions of others and to confirm understanding
Numeracy	2.4	<ul style="list-style-type: none"> Analyses financial information from various sources to provide advice to the customer
Navigate the world of work	3.1, 4.2, 4.3, 4.4	<ul style="list-style-type: none"> Complies with explicit policies and procedures Explores and implements, where identified, the implicit expectations of policies and procedures Ensures knowledge of legislative requirements and products is kept up to date to provide accurate information
Interact with others	1.1, 1.2, 2.2-2.6, 3.2, 4.3, 4.4	<ul style="list-style-type: none"> Identifies and takes steps to follow accepted communication practices and protocols Uses a range of strategies to establish a sense of connection and build rapport with customers
Get the work done	1.1, 3.1, 3.2, 4.2-4.4	<ul style="list-style-type: none"> Plans and implements routine tasks and workload, making limited decisions on sequencing, timing and collaboration, seeking assistance in setting priorities Makes low-impact decisions within familiar situations, based on a range of predefined or routine solutions and evaluates the effectiveness of the outcome

Assessment Requirements for FNSIAD501 Provide appropriate services, advice and products to clients

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- provide advice to clients that complies with relevant legislation, regulations and industry codes of conduct
- use organisational tools such as fact finders
- present appropriate solutions to the client after identifying and analysing client needs, objectives and financial situation
- complete and maintain necessary documentation and provide after sales service.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline the range of financial products available in the industry
- explain key requirements of industry codes of practice and relevant legislation and regulation affecting the industry
- describe investment and savings vehicles, financial markets, asset classes and investment characteristics
- explain investment risk factors and relationship to return expectations
- explain options, strategies and solutions suitable for typical client situations and profiles
- outline the principles of effective negotiation
- describe the internal and external issue resolution processes
- list the requirements related to the disclosure of capacity
- explain the general impact of relevant economic, taxation and social security policy on the client's financial needs
- outline the role of the:
 - adviser

- organisation
- broker (if relevant).

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the industry advice field of work and include access to:

- common office equipment, technology, software and consumables
- financial services product information.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSIBK302 Provide general advice in general insurance broking products and services

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- identify clients who require general or personal advice
- follow broking procedures to prepare and provide general advice
- access appropriate documentation required to deliver general advice, both verbally and in writing.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the difference between general advice and personal advice, and the significance of this difference in the performance of the client advice role in an insurance brokerage
- outline the application of relevant legislative and organisational compliance to the requirements in relation to provision of general advice to broking clients
- explain the use of marketing and disclosure documents in performing the general advice role
- describe the process of interpreting the suitability of a range of retail products to broking clients
- describe the role of different advisers within the brokerage and the limited responsibility applying to advisers providing retail consumers with general insurance advice.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance broking field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSIBK401 Research, analyse and report information in insurance broking

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to collect information, undertake research and prepare insurance reports. Insurance reports may relate to new or renewal of business or specific subjects, including those commissioned by others in the brokerage for external stakeholders such as insurers.

It applies to individuals who use organisational skills and undertake research to produce workplace reports that can be used to prepare advice for clients and recommend solutions in relation to client risk needs. Analytical skills to interpret and consolidate information, including computer generated data and reports that contribute to the wider research activity, are also used.

No licensing, legislative or certification requirements apply to this unit at time of publication.

Unit Sector

Insurance broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Clarify purpose of report	1.1 Clarify required purpose of report and intended audience 1.2 Determine scope of report and time allowed for research and production 1.3 Identify organisational requirements for format and style of

ELEMENT	PERFORMANCE CRITERIA
	report
2. Collect information for report	<p>2.1 Identify sources of information and establish strategies for obtaining information</p> <p>2.2 Gather information from range of sources using appropriate techniques</p> <p>2.3 Maintain accurate records of information and sources</p>
3. Analyse research findings	<p>3.1 Analyse and interpret researched information</p> <p>3.2 Check accuracy and completeness of information</p> <p>3.3 Identify key issues for further research and discussion</p> <p>3.4 Develop conclusions and recommendations</p>
4. Prepare reports of research findings	<p>4.1 Organise information on which recommendations are based in appropriate format that is consistent with organisational requirements</p> <p>4.2 Prepare draft report for discussion and review with appropriate personnel</p> <p>4.3 Edit draft in response to feedback and present to appropriate personnel for final sign off where required</p> <p>4.4 Complete formal presentation of report, where required, using appropriate methods and equipment</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 2.1-2.3, 3.1, 3.2	<ul style="list-style-type: none"> Gathers, collates and analyses information relevant to reporting requirements
Writing	2.3, 4.2-4.3	<ul style="list-style-type: none"> Organises collected material in a clear and logical format consistent with report writing conventions and organisational requirements Uses language suitable to the audience to convey information and conclusions
Oral	4.4	<ul style="list-style-type: none"> Presents information in a logical sequence using plain English and clear explanations of insurance

communication		<p>terminology</p> <ul style="list-style-type: none"> • Responds to questions from the audience clearly and concisely
Numeracy	2.2, 2.3, 4.2-4.3	<ul style="list-style-type: none"> • Collects and interprets data accurately • Summarises and presents numerical and statistical information in appropriate tables and charts
Navigate the world of work	2.1, 4.3	<ul style="list-style-type: none"> • Identifies and follows organisational policy and procedures relevant to gathering information from clients
Interact with others	1.2	<ul style="list-style-type: none"> • Liaises with others to collect accurate and up-to-date information • Seeks input from others and uses feedback to edit draft report
Get the work done	2.3, 3.2, 3.3	<ul style="list-style-type: none"> • Organises, plans and sequences work activities to collect, prepare and present information according to organisational requirements • Schedules research and report production tasks to achieve required deadlines for presentation of work • Uses the main features and functions of digital tools to access information and complete work tasks

Assessment Requirements for FNSIBK401 Research, analyse and report information in insurance broking

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- use organisational tools and a range of appropriate methodologies to collect and analyse information that meets the required criteria
- apply organisational skills to prepare a timely report
- use communication skills to present information in a clear and logical format to suit the intended audience.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify the requirements of company policy and procedures for data collection, report writing and presentation to clients
- provide an evaluation of the data collection, processing and analysis methods applicable in preparing insurance reports
- describe the evaluation and choice of suitable presentation principles and approaches
- outline the application of conventions for report writing
- explain the responsibility of the adviser to address legal and code of practice requirements relating to information collection and presenting information on insurance products and services
- outline the analysis of company products and services undertaken to support recommendations.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance broking field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSIBK402 Implement new or renewed insurance program for insurance broking clients

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to implement a new or renewed insurance program based on a client's current objectives and risk situation.

It applies to individuals working within insurance broking enterprises who assess and review information to tailor specific personal advice for a retail client.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish relationship with client	<p>1.1 Use appropriate communication skills to establish client's knowledge level and type of advice required</p> <p>1.2 Respond to enquiries for advice on new or renewed insurance program by explaining range of insurance products and broking services available, associated fees and charging methodologies, role of adviser or principal responsible for adviser's conduct and procedures for complaints handling</p>

ELEMENT	PERFORMANCE CRITERIA
2. Identify client objectives and risk situation	2.1 Complete risk assessment in compliance with brokerage guidelines to gather appropriate client information and determine client risk profile 2.2 Confirm effective dates for insurance changes with client 2.3 Maintain comprehensive records of risks assessed and actions taken 2.4 Check and review records regularly to ensure information is current
3. Analyse changes to client's insurance program	3.1 Identify and record in writing all required changes using information gathered 3.2 Compare new and additional risks with current insurance program so that discrepancies are clear 3.3 Consult with client throughout analysis and seek advice about required changes without delay 3.4 Determine need for specialist advice and refer client to appropriate adviser for higher level or specialist advice if required 3.5 Obtain client declarations as required by underwriter
4. Negotiate program changes with insurers as required	4.1 Obtain terms to meet client requirements 4.2 Clarify terms required for renewal and change of client's insurance with insurers
5. Communicate options to client and obtain instructions	5.1 Advise clients about outcomes of negotiation with insurers to enable informed decisions to be made 5.2 Clarify options for client that specify client benefits and disadvantages 5.3 Present justified recommendations clearly to clients, responding to questions as required 5.4 Obtain client instructions to enable precise action to be taken 5.5 Forward renewal notices to client at least 14 days before policy expiry according to organisational timeframe requirements
6. Provide ongoing service where requested by client	6.1 Agree on type and form of ongoing service with client 6.2 Explain fees and costs of ongoing services and confirm client understanding 6.3 Provide ongoing service as requested by client

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	2.1, 2.4, 3.2	<ul style="list-style-type: none"> Gathers, interprets and analyses information from a range of sources and identifies relevant and key information, including company and industry policy wordings Gathers information on industry trends and developments relevant to the client
Writing	2.1-2.3, 3.1, 3.3, 5.5, 6.2	<ul style="list-style-type: none"> Accurately records and completes organisational documents and correspondence using clear language and correct spelling, grammar and terminology Writes, edits and proofreads documents to ensure clarity of meaning, and accuracy and consistency of information
Oral Communication	1.1, 1.2, 2.1, 2.2, 3.3, 5.1-5.4, 6.2	<ul style="list-style-type: none"> Articulates clearly using specific and relevant language suitable to the audience to convey requirements Uses listening and questioning techniques to confirm understanding
Numeracy	1.2, 4.1, 6.2	<ul style="list-style-type: none"> Performs calculations to determine cost-benefit analyses, insurance requirements and fees according to predetermined methodologies
Navigate the world of work	2.1, 3.4	<ul style="list-style-type: none"> Accepts responsibility and ownership for the task and makes decisions on completion parameters and the need to coordinate with others Takes personal responsibility for following explicit and implicit policies, procedures and legislative requirements
Interact with others	1.2, 3.3, 3.4, 4.2, 6.1	<ul style="list-style-type: none"> Selects and uses appropriate techniques when communicating with clients and insurers in a range of work contexts Recognises and accommodates the particular needs, values, beliefs and cultural expectations of others Uses collaborative techniques to negotiate agreed outcomes
Get the work done	1.2, 2.1-2.4, 3.3, 3.5, 4.1, 4.2, 5.1-5.5, 6.3	<ul style="list-style-type: none"> Takes responsibility for planning, sequencing and prioritising tasks and own workload to meet organisational requirements Applies systematic and analytical decision-making processes to make informed recommendations in

Assessment Requirements for FNSIBK402 Implement new or renewed insurance program for insurance broking clients

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- collect information about a client's risk needs using appropriate brokerage risk assessment tools and guidelines
- undertake an assessment of client's risks
- conduct research to identify appropriate products and undertake a product comparison and cost-benefit analysis to support recommendations
- use effective communication skills in working with clients and product providers to ensure appropriate insurance program solution is attained.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline the application of company or organisational policy, procedures and authorities relating to implementing new or renewed insurance programs for broking clients
- describe the analysis and application of information on insurance industry trends and developments in the advisory process
- outline the analysis of insurance product types and company or industry policy wordings in developing recommendations for broking clients
- identify and outline the relevant generic knowledge requirements as identified by the regulator for advice to retail clients.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance broking field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records
- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements

FNSIBK403 Place client insurances with insurer and confirm insurance cover with clients

Modification History

Release	Comments
Release 2	This version first released with FNS Financial Services Training Package Version 1.1 Version 2 created to correct mapping information
Release 1	This version first released with FNS Financial Services Training Package Version 1

Application

This unit describes the skills and knowledge required to complete an agreed insurance transaction by following the correct processes to place and confirm a client's insurance with an insurer.

It applies to individuals who show accurate attention to detail, work systematically and communicate capably with clients. Individuals may work in organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>

ELEMENT	PERFORMANCE CRITERIA
1. Obtain confirmation of interim cover	1.1 Notify insurer of details of cover required immediately instructions are received from client 1.2 Seek formal evidence of interim cover within relevant legislative, underwriting and brokerage policy requirements 1.3 Check interim cover details for completeness and accuracy
2. Confirm insurance cover with client	2.1 Forward confirmation of correct interim cover to insurers according to company operating guidelines 2.2 Complete required documentation accurately and according to company operating guidelines 2.3 Collect fees and premiums according to company operating guidelines 2.4 Provide all original documentary evidence of cover to client and place copies in client file
3. Complete required documentation	3.1 Arrange for documentation and/or declarations to be completed where required prior to expiry of interim cover 3.2 Check client documentation for omissions and errors, and adjust where necessary 3.3 Calculate premium and statutory imposts accurately where required 3.4 Process premium and applicable endorsements and exclusions as required 3.5 Provide instructions for completion of cover to insurer within required timeframes to ensure policy can be issued
4. Obtain and record documentary evidence of insurance cover	4.1 Make regular checks of receipt of documentation to ensure timely delivery to meet client requirements 4.2 Check insurer's documentation for omissions and errors 4.3 Record insurer's documentation on receipt as required by brokerage's policy and guidelines
5. Remit premium to insurers	5.1 Ensure compliance with relevant legislation and brokerage's policy and guidelines when remitting premiums 5.2 Remit premiums to insurers in compliance with prearranged credit terms
6. Update relevant files and records	6.1 Update business and disclosure records without delay to comply with brokerage guidelines and procedures 6.2 Check all records for accuracy and completeness

Foundation Skills

Assessment Requirements for FNSIBK404 Provide a claims service to an insurance broking client

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- follow organisational procedures to complete a claims register accurately and process client claims
- provide the client with accurate and easily understood advice regarding contract terms and conditions and insurance procedures
- prepare a report on the settlement offer for client review
- research appropriate service providers for provision of claims services.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the application of the brokerage claims systems and procedures
- explain the responsibility of the adviser in the claims process
- outline the process for analysing insurance contract terms and conditions in relation to the claims process
- explain the relevant legislation and code of practice requirements that are to be met by the adviser dealing with client claims.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance broking field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records

- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSIBK405 Meet industry and legislative guidelines and organisational procedures relating to insurance broking

Modification History

Release	Comments
Release 2	This version first released with FNS Financial Services Training Package Version 1.1. Release 2 created to correct mapping information
Release 1	This version first released with FNS Financial Services Training Package Version 1

Performance Evidence

Evidence of the ability to:

- follow operational procedures to meet compliance requirements in line with financial services industry regulations and other legislation
- interpret and comply with organisational policy and procedures, relevant legislation and insurance broking codes of practice
- consult appropriate personnel for guidance and advice when necessary
- review training needs and professional development opportunities to perform tasks in line with industry standards and requirements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- briefly outline the history of insurance and insurance broking to explain current practices
- explain the roles and responsibilities of an insurance broker and the different sectors including underwriters, loss adjusters, risk surveyors and risk managers
- describe the application of legislation, regulations and codes of practice, including work health and safety, to the broking role
- explain organisational brokerage policy and procedures and their role in compliance
- describe the main sectors of the industry and their interrelationships

- outline how external industry factors are assessed to determine impact on the compliance procedures
- outline the application in the broking role of accepted codes of practice and conduct, including those related to:
 - maintaining confidentiality
 - use of company property
 - duty of care
 - ethical behaviours
 - non-discriminatory practices
 - conflict of interest
 - compliance with reasonable direction
 - appropriate dress and hygiene codes, and business etiquette.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance broking field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSIBK406 Deliver professional insurance broking services

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to deliver all aspects of the insurance broking service to clients. It includes dealing with the initial enquiry for insurance broking services, identifying and implementing an appropriate insurance program, dealing with a client's insurance claim and providing follow up services.

It applies to individuals who use high level communication and clerical skills to provide broking assistance and a range of client services, including risk advice that requires specialist knowledge. Individuals may work in small or large brokerage organisations dealing with retail and/or commercial clients.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Respond to client enquiries for broking services	1.1 Establish relationship with client and identify nature of broking services required to satisfy enquiry 1.2 Clarify information and research activities required to prepare appropriate and timely response

ELEMENT	PERFORMANCE CRITERIA
	<p>1.3 Determine relevant legislative and organisational requirements to be met in dealing with enquiry</p> <p>1.4 Collect and process information and prepare response</p> <p>1.5 Communicate information to client in suitable format that minimises need for follow up action</p> <p>1.6 Update organisational records to satisfy organisational policy and guidelines</p>
2. Provide insurance program for broking client	<p>2.1 Determine client's insurance needs by undertaking assessment of client's objectives and current risk situation</p> <p>2.2 Identify changes to client's current insurance program by thorough analysis of information collected and discussions with client</p> <p>2.3 Negotiate with insurers as required to obtain terms for renewal and change of client's insurances as required</p> <p>2.4 Communicate outcomes of negotiations and detailed information on options available to client</p> <p>2.5 Make recommendations to client and obtain client instructions to enable precise actions to be taken</p>
3. Place client insurances and confirm cover with client	<p>3.1 Notify details of cover required to insurers and obtain confirmation of interim cover in response to client instructions</p> <p>3.2 Check interim cover for accuracy and completeness, and confirm with client</p> <p>3.3 Complete required documentation accurately, and confirm premiums and statutory imposts prior to issuing instructions for completion of cover to insurer</p> <p>3.4 Check insurer's documentation for omissions and errors prior to making record of confirmed insurance cover</p> <p>3.5 Remit premiums to insurers in accordance with organisational guidelines and legislative requirements</p> <p>3.6 Update relevant files and records</p>
4. Provide a claims service to broking client	<p>4.1 Register client's claim in accordance with organisational guidelines</p> <p>4.2 Advise insurers and obtain necessary claims documentation</p> <p>4.3 Provide assistance to clients to provide accurate and complete information on claims documentation when required</p> <p>4.4 Request reinstatement of sum insured from insurer where required and advise client of reinstatement</p>

ELEMENT	PERFORMANCE CRITERIA
	<p>4.5 Review terms and conditions of policy and advise clients of claims administration process and their legislative rights and obligations</p> <p>4.6 Assist client to appoint independent claims service providers where required</p> <p>4.7 Maintain contact with all insurer and independent service providers to ensure reports and issues dealt with promptly</p> <p>4.8 Notify client of insurer's terms of settlement and provide recommendations for client review</p> <p>4.9 Remit settlement funds to client according to organisational procedures, and update files and records promptly</p>
5. Provide ongoing services where requested by client	<p>5.1 Respond to client requests in line with organisational service standards to maximise business retention</p> <p>5.2 Offer additional benefits to clients based on review of client information and external conditions</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.2, 2.1, 3.4, 4.4, 5.2	<ul style="list-style-type: none"> • Researches and interprets information from various sources in a range of formats to establish client needs and determine appropriate products • Gathers, analyses and interprets information on policy wordings • Identifies errors or inconsistencies in organisational documentation
Writing	2.5, 3.3, 3.4, 5.2	<ul style="list-style-type: none"> • Accurately records and completes organisational documents and correspondence • Provides recommendations that may include insurance benefits, level of supplier service and policy comparisons
Oral Communication	1.1, 1.2, 1.5, 2.3, 2.4, 4.2, 4.8, 5.2	<ul style="list-style-type: none"> • Speaks clearly using language, tone and pace appropriate to the audience and purpose • Uses listening and questioning to clarify and confirm understanding

Numeracy	2.5, 3.3	<ul style="list-style-type: none"> Performs calculations to determine insurance requirements and fees and costs according to predetermined methodologies
Navigate the world of work	1.3, 3.5, 4.1, 4.9	<ul style="list-style-type: none"> Follows legislative requirements and organisational protocols, policy and procedures relevant to own role
Interact with others	1.5, 2.2, 2.4, 4.2, 5.1	<ul style="list-style-type: none"> Selects and uses appropriate communication conventions and protocols to liaise with clients and insurers in a range of work contexts Uses collaborative techniques to negotiate agreed outcomes
Get the work done	1.4, 1.6, 2.1, 3.6, 4.4	<ul style="list-style-type: none"> Plans, organises and implements tasks, aiming to complete them efficiently and in accordance with organisational requirements Applies systematic and analytical decision-making processes to make informed recommendations in relation to risk assessment Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for FNSIBK406 Deliver professional insurance broking services

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- provide responses to a range of enquiries to satisfy client needs and achieve organisational outcomes
- use organisational tools to collect, analyse and record information to provide broking services, including risk assessments and insurance claims
- access and complete documentation
- prepare timely, well-presented and accurate information to insurers and clients.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline the application of organisational policy, procedures and authorities for broking and dealing with client enquiries, particularly those leading to the provision of personal advice
- describe the application of service processes and standards that the adviser takes responsibility for in relation to information collection and risk assessment, placing client insurances, providing claims assistance and undertaking post-sales client contact
- describe the application of insurance and risk plans for typical retail and/or commercial client situations and risk profiles
- summarise the key requirements of relevant legislation and industry codes of practice requirements that the adviser takes responsibility for in the provision of insurance broking services
- describe the analysis of a range of insurance product or policy types, and their terms and conditions and cost and fee structures, for use in providing advice to retail clients.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance broking field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records
- organisational policy and procedures and documents.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSIBK507 Review service performance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to collect, analyse and review the client service provided by an insurance broking organisation to identify suitable actions. It encompasses investigations, analysis and evaluation about broker performance in implementing the client's service plan and developing strategies to improve it.

It applies to individuals with well-developed interpersonal, research and analytical skills that are used to develop strategies to improve services.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish system to review service performance	1.1 Determine service parameters to enable performance to be reviewed effectively 1.2 Establish measures of service performance that provide accurate and accessible information on service provision. 1.3 Establish accurate, secure and reliable data recording facilities

ELEMENT	PERFORMANCE CRITERIA
	1.4 Design and implement suitable monitoring system to record service performance data 1.5 Establish review schedule
2. Analyse performance data	2.1 Collate performance data to enable review against planned outcomes to be conducted 2.2 Analyse data to establish whether planned outcomes have been achieved 2.3 Identify variations of performance against planned outcomes
3. Determine action required	3.1 Assess variations in performance to determine degree of change required 3.2 Prepare action plan to accommodate changes 3.3 Implement procedures to determine effectiveness of any changes implemented

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.4, 2.1-2.3, 3.1	<ul style="list-style-type: none"> Organises, interprets and critiques material from a range of sources and identifies relevant and key information
Writing	2.1, 3.1	<ul style="list-style-type: none"> Generates accurate documents using appropriate terminology and clear and concise language
Numeracy	2.1-2.3, 3.1	<ul style="list-style-type: none"> Analyses both qualitative and quantitative data and performs accurate mathematical calculations to achieve required outcomes
Get the work done	1.1-1.3, 2.1-2.3, 3.1-3.2	<ul style="list-style-type: none"> Plans, organises, implements and reviews strategies to manage client service provision Evaluates effectiveness of strategies to inform decisions on how to implement improvements Uses digital technologies to access, enter and store information required to complete work tasks

Assessment Requirements for FNSIBK507 Review service performance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- apply high level analysis, decision making and auditing to ensure service performance is in line with desired outcomes
- conduct timely performance reviews and spot checks against service performance indicators
- analyse service results, and report and recommend appropriate actions
- implement procedures and determine effectiveness.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- provide examples of approaches used for continuous improvement in client service
- outline the key performance indicators and key result areas for client servicing
- explain the application of marketing principles and practice in developing strategies for client servicing
- outline forecasting related to the client servicing aspects of the organisational budget
- outline the impact of underwriting guidelines and authorities on organisational policy and procedures related to client servicing
- explain responsibility taken for compliance requirements by brokers undertaking client servicing.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance broking field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records
- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirement.

FNSIBK508 Implement changes to broking client's insurance program

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to identify and implement insurance program changes for an insurance broking client, including undertaking a review of the existing portfolio and insurance history. It is applicable to both general and life insurance brokers and can be applied to providing advice to wholesale and retail clients following a prior review of the client's personal and/or business needs.

It applies to individuals who apply well-developed interpersonal, analytical and communication skills within organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify required risk changes to insurance program	1.1 Establish all required changes using appropriate checklist or questionnaire 1.2 Determine alternative risk management strategies to provide

ELEMENT	PERFORMANCE CRITERIA
	<p>client with viable options</p> <p>1.3 Review current insurance program to determine whether existing cover can be endorsed or whether new cover/s are required</p> <p>1.4 Seek instructions from client about required changes without delay</p>
2. Negotiate change with insurers	<p>2.1 Establish availability of market with suitable terms for client requirements</p> <p>2.2 Negotiate all terms required for change with suppliers to provide most beneficial outcome for client</p>
3. Communicate options for changes to client	<p>3.1 Advise client about outcomes of negotiations with insurers to enable informed decision to be made</p> <p>3.2 Identify options for client that specify benefits and disadvantages</p> <p>3.3 Justify all recommendations</p>
4. Obtain client instructions for program amendments	<p>4.1 Communicate options for changes clearly so that client can make informed decisions on program changes</p> <p>4.2 Obtain clear and concise client instructions to enable precise action to be taken</p> <p>4.3 Record client instructions according to operating procedures to ensure information is current</p> <p>4.4 Confirm all client instructions to protect interests of both broker and client</p> <p>4.5 Complete relevant documentation</p>
5. Provide ongoing service where requested by client	<p>5.1 Agree with client type and form of ongoing service, including reporting on performance and review of insurance program</p> <p>5.2 Explain any fees and costs for ongoing and specifically defined services, and confirm client's understanding</p> <p>5.3 Schedule and provide ongoing service as required</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Assessment Requirements for FNSIBK508 Implement changes to broking client's insurance program

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- review existing client portfolio and client insurance history to identify gaps in the portfolio and recommend strategies to cater to client needs
- develop a communication strategy that demonstrates gathering and analysis of information, and development of options, and shows how a recommendation for a chosen line of action is justified.

Note: if a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline application of the principles and practice of cost–benefit analysis in recommending changes to client insurance programs
- provide analysis of product offerings available in the market to cater for the varying needs of broking clients that covers evaluation of insurance benefits and supplier services
- evaluate the organisation's policy and procedures that cater to the improvement of service to broking clients
- summarise the various risk management strategies available to service broking clients
- explain the responsibility for compliance with legislative requirements in recommending changes to insurance programs.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance broking field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records
- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSIBK512 Negotiate complex claims settlement for insurance broking client

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to research, organise, identify points of difference, clarify the crucial issues and present a case in negotiating terms and conditions of claims settlements for insurance broking clients.

It applies to individuals who use well-developed interpersonal, analytical and communication skills within organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish content of claim	1.1 Review terms and conditions of insurance policy with client to ensure maximum claims recovery is sought 1.2 Provide client with advice relating to potential claim recovery 1.3 Identify non-insured items
2. Negotiate terms and	2.1 Identify type of claim and level of variation to standard claims

ELEMENT	PERFORMANCE CRITERIA
conditions of settlement	<p>settlement to establish type of negotiation required</p> <p>2.2 Represent client interests to ensure full legal entitlement is forthcoming</p> <p>2.3 Prepare grounds for negotiation to ensure logical, persuasive and technically correct representations can be made</p> <p>2.4 Obtain negotiated agreement with insurer that in most cases meets client requirements and approval</p>
3. Notify terms of settlement to client	<p>3.1 Prepare and document details of insurer's settlement offer with recommendations without delay for client review and acceptance</p> <p>3.2 Obtain client's response to settlement offer and act on it without delay</p> <p>3.3 Remit settlement funds to client within terms of legislative requirements, and brokerage policy and operating procedures</p>
4. Update relevant files and records	<p>4.1 Update business records without delay and according to company operating procedures</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Assessment Requirements for FNSIBK512 Negotiate complex claims settlement for insurance broking client

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- review and analyse the insurance cover to determine insured and non-insured items
- prepare advice and recommendations for clients based on analysis of the insurance cover and claims made
- negotiate with the insurer to obtain the optimum outcome for the client
- document the insurer's settlement offer, including recommendations for client review and acceptance, and obtain client response.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- provide a detailed analysis of the roles and responsibility of the broker in the process of negotiating a complex claim
- outline a plan to manage the claim's process on behalf of the client through application of the insurance broking systems and procedures, and a thorough understanding of the underwriter's claims process
- explain how the key features of insurance contract terms and conditions are evaluated to enable the claim's negotiation to be planned effectively
- explain the application of communication strategies to advise clients throughout the negotiation process, including explaining the roles of underwriters and loss adjusters in the claims process
- explain the application of relevant legislation and industry compliance requirements that impact on the client's rights and obligations.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance broking field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records
- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSIBK513 Prepare a submission for new business

Modification History

Release	Comments
Release 2	This version first released with FNS Financial Services Training Package Version 1.1. Release 2 created to correct mapping information
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to determine and prepare a submission for new insurance broking business. This unit has application to both life and general insurance brokers, and is applicable to submissions prepared for wholesale and retail clients. It covers the provision of general and personal advice in the context of preparing a submission to retail clients.

It applies to individuals who are skilful communicators and use analytical skills and specialist product knowledge to work effectively with clients.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the</i>	<i>Performance criteria describe the performance needed to</i>

ELEMENT	PERFORMANCE CRITERIA
<i>essential outcomes.</i>	<i>demonstrate achievement of the element.</i>
1. Establish relationship with client	<p>1.1 Establish knowledge level of client using effective communication skills</p> <p>1.2 Explain range of general insurance products and broking services available, and fee and charging methodology</p> <p>1.3 Advise client about role of broker and principal responsible for adviser's conduct, and complaint handling processes available to them</p> <p>1.4 Identify client's objectives, risk needs and financial situation</p>
2. Determine nature of submission and resource requirements	<p>2.1 Determine nature of submission required by prospective client</p> <p>2.2 Assess skills required to prepare submission</p> <p>2.3 Identify and retain consultants with required skills as needed</p> <p>2.4 Identify and establish team and team leader as required</p>
3. Analyse client risk profile to develop product risk profile	<p>3.1 Complete risk assessment for client in compliance with guidelines</p> <p>3.2 Develop risk profile of client using organisational tools</p> <p>3.3 Prepare product risk profile from risk analysis</p> <p>3.4 Maintain comprehensive records of risk assessment and actions taken</p>
4. Identify appropriate insurance program	<p>4.1 Determine appropriate insurance or risk management program based on risk assessment and client objectives, risk needs and financial situation</p> <p>4.2 Compare proposed program with appropriate checklist and other similar clients, and identify significant changes</p> <p>4.3 Confirm program meets needs with client</p>
5. Identify market availability	<p>5.1 Identify availability of market with suitable terms for client requirements</p> <p>5.2 Negotiate required terms with insurers to provide most beneficial outcome for prospective client</p>
6. Make submission to prospective client	<p>6.1 Obtain letter of appointment that identifies exact nature of appointment as appropriate</p> <p>6.2 Provide written submission to client in format required by organisation</p> <p>6.3 Identify options that specify benefits and advantages for</p>

ELEMENT	PERFORMANCE CRITERIA
	<p>prospective client</p> <p>6.4 Justify proposed recommendations fully and support with relevant information</p> <p>6.5 Discuss and clarify concerns or issues with client regarding submission proposal, and obtain confirmation of client's understanding</p> <p>6.6 Complete appropriate documentation</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Assessment Requirements for FNSIBK513 Prepare a submission for new business

Modification History

Release	Comments
Release 2	This version first released with FNS Financial Services Training Package Version 1.1. Release 2 created to correct mapping information
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the of the ability to:

- maintain and apply knowledge of insurance products, practices, global markets and exposures to tailor specific advice to clients
- undertake risk management data collection and analysis to ensure clients are provided with the appropriate choice of products suitable to their requirements
- comply with organisational requirements to prepare and deliver client conceptual and quotation submissions.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- research and analyse information relating to the insurance industry and economic and taxation factors impacting on insurance markets or products that is used to set the context for a business submission
- explain the evaluation undertaken of a range of insurance products and broking services
- explain organisational policy, procedures and standards in the preparation of business submissions

- provide an example of the application of the principles of insurance buyer behaviour and marketing to the preparation and presentation of business submission to new and renewing clients
- explain the impact of industry compliance requirements and regulatory guidelines in marketing broking services within the context of a business submission
- illustrate the application of risk analysis procedures on the development of recommendations.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance broking field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records
- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSIBK514 Manage a complex risk portfolio for a broking client

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to manage clients with a complex insurance portfolio by identifying and assessing risks and negotiating insurance changes and/or renewals. It also involves identifying additional exposures and advising on changes to the insurance program.

It applies to individuals who have well-developed interpersonal, analytical and communication skills who generally work with commercial or corporate clients to synthesise industry information and monitor the client's need for new products or changes to the product needs of clients.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify significant risk changes impacting on client portfolio	1.1 Monitor client requests for program changes to identify significant variations 1.2 Monitor and analyse external environment against client program to identify major changes to level of risk exposure

ELEMENT	PERFORMANCE CRITERIA
	<p>1.3 Undertake objective risk assessment in compliance with guidelines to identify changes to existing level of client exposure</p> <p>1.4 Seek specialist advice as required</p> <p>Analyse similar situations to identify precedents that will assist in analysis of complex risk portfolio</p> <p>1.6 Maintain comprehensive records of risk assessed and actions taken</p>
2. Advise client on changes to insurance program	<p>2.1 Provide advice based on objective assessment of situation that takes into account changes in risk context and external environment</p> <p>2.2 Present alternative risk management strategies to provide client with viable options for risk treatment</p> <p>2.3 Undertake a cost–benefit analysis of options where appropriate</p> <p>2.4 Obtain client declarations as required by underwriter/s</p> <p>2.5 Identify, record and verify client’s preferred options</p>
3. Negotiate complex changes and/or renewals with insurers	<p>3.1 Identify suitable market for client requirements and approach selected insurers</p> <p>3.2 Obtain client instructions for negotiated outcomes with insurers</p> <p>3.3 Negotiate options and alternative portfolio structures with insurers to obtain most suitable program for client</p> <p>3.4 Obtain negotiated outcomes that provide level of cover required by client</p>
4. Obtain client instructions for renewal	<p>4.1 Advise client of outcomes of negotiation with insurers and provide client with opportunity to discuss and question alternatives</p> <p>4.2 Explain benefits and disadvantages of available options clearly to client</p> <p>4.3 Make fully justified recommendations</p> <p>4.4 Clarify and document client instructions</p> <p>4.5 Forward renewal notices to client at least fourteen days prior to policy expiry, according to organisational requirements</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.2, 1.3, 1.6, 3.1,	<ul style="list-style-type: none"> Organises, interprets and critiques material from a range of sources and identifies relevant and key information

Assessment Requirements for FNSIBK514 Manage a complex risk portfolio for a broking client

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- synthesise and coordinate knowledge of the industry to monitor the need for new products or changes to product needs of clients
- undertake client interviews, gather information and analyse options, based on risk assessment methodologies, for presentation to the client
- undertake an assessment of a complex risk portfolio and identify gaps in losses and claims to be addressed
- conduct cost–benefit analysis, review of insurance benefits, credit stability assessments, review of claims history and level of supplier service
- negotiate effectively with insurers to obtain appropriate and optimal outcomes for the client
- obtain and document client instructions for renewal.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline methods of analysis of the client’s industry structure and trends
- explain the application of relevant legislation and compliance requirements on client management procedures
- explain application of company policy, procedures and authorities in developing management plans for clients with complex portfolios and risks
- illustrate cost–benefit analysis in the management of complex client portfolios or those with significant risk changes
- explain methods for analysing policy wordings

- explain the key marketing principles and practices that are applied to the management of complex client portfolios
- provide an example of the application of risk assessment and risk management strategies in developing risk management plans for clients with complex risks.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance broking field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records
- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSIBK515 Monitor broking client requirements and establish loss control programs

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to establish ongoing monitoring and review processes that include insurance loss trends to establish an appropriate loss control program to improve loss ratios.

It applies to individuals who use well-developed interpersonal, analytical and communication skills within organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish communication protocols with client	1.1 Apply brokerage service guidelines to determine level of client contact required 1.2 Formalise communications where interests of broker and client need to be protected 1.3 Focus communications on ongoing review of client requirements

ELEMENT	PERFORMANCE CRITERIA
	1.4 Establish regular communications within guidelines based on client needs
2. Gather and review client information	2.1 Identify categories of information relevant to broking services provided 2.2 Monitor business environment to identify need to amend information services 2.3 Establish methods to select and filter information in efficient manner 2.4 Determine, gather and review information relevant to client
3. Establish loss reporting program	3.1 Determine content and format of information required to analyse and report loss 3.2 Assign responsibility for establishing and maintaining loss reporting program so that accurate, comprehensive and reliable records are maintained 3.3 Record loss information accurately and without delay in established format
4. Determine suitable action on loss reports	4.1 Assess loss reports in relation to client program to ensure all insured losses are identified 4.2 Refer insured losses to insurers within policy requirements
5. Identify loss trends	5.1 Undertake analysis of loss information using valid and reliable statistical techniques 5.2 Apply standard industry procedures to review loss trend information for client impact
6. Formulate and recommend loss control program	6.1 Identify significance of analysis for client program so areas of effective loss control measures can be specified 6.2 Identify options to reduce incidence and frequency of loss to protect client interests 6.3 Document client loss control programs clearly with reasons for recommendations made

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	2.1-2.4, 3.1, 4.1, 6.1	<ul style="list-style-type: none"> Organises, interprets and critiques material from a range of sources and identifies relevant and key information

Assessment Requirements for FNSIBK515 Monitor broking client requirements and establish loss control programs

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- assess and record current and new risks to the portfolio by applying a systematic, methodological approach to monitoring situations in the context of product market developments and industry trends
- comply with broking and communication protocols and practices
- analyse loss experience of client and make recommendations for appropriate action to cover identified losses
- analyse data relating to loss incidents to determine loss trends and make recommendations to improve loss controls
- develop a service level agreement (SLA) suitable for broking clients requiring loss control programs.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the analysis and evaluation process used to identify potential changes to client portfolios
- provide a detailed analysis of loss control techniques applied to managing client risks
- outline the application of insurance survey requirements to monitor the requirements of clients with potential risk changes, including those relating to workplace safety
- explain approach to analysing policy wordings in relation to client losses
- evaluate the impact of industry or company compliance requirements on dealing with client losses
- outline company policy, procedures and authorities that are applied in loss analysis and reporting.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance broking field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records
- organisational policy and procedures.

Assessor must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSIBK601 Develop guidelines for broking services

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- analyse and design broking services, taking account of business and legislative constraints
- create risk assessment methods and documentation, develop implementation plans and review processes
- design client management criteria and strategies to deal with contingent demands arising from client claims, risk changes and business development.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain analysis of relevant legislative and regulatory requirements that influence the provision of insurance broking services
- demonstrate analysis of insurance markets and products, and key trends and developments in global insurance markets
- explain evaluation of the current company or industry policy wordings and industry market position of various products and lines of business provided by the organisation
- discuss the strategies used to execute policy, procedures and/or guidelines in business practice relating to broking service provision
- discuss application of communication and information systems in design of broking services
- outline the sales and marketing principles applying to the design of broking services.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance broking field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records
- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSIBK602 Manage implementation of broking service support systems

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the specialist skills and knowledge required to determine the resources, systems and procedures that must be implemented to support the provision of insurance broking services within a broking organisation.

It applies to individuals who have well-developed data analysis, logistic, communication and organisational skills who work in insurance broking roles within organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Meet human resource requirements	1.1 Identify skills needed to implement broking services support system 1.2 Identify number, type and location of service support personnel required, including specialist consultants 1.3 Attain and retain consultants with specialist skills as required

ELEMENT	PERFORMANCE CRITERIA
	1.4 Recruit or assign required human resource support as appropriate
2. Implement training required to achieve service system	2.1 Identify cost-effective training requirements proactively to support service implementation 2.2 Develop training programs to achieve required service support outcomes 2.3 Implement training programs in cost-effective and timely way 2.4 Undertake evaluation and review of training programs against requirements on regular planned basis
3. Implement information support system	3.1 Establish information distribution and access needs 3.2 Determine range of information types to be collected, processed and stored 3.3 Identify and obtain suitable information support technology to meet needs 3.4 Establish measures to monitor efficiency of information systems 3.5 Store information to enable efficient access
4. Implement operational procedures	4.1 Establish specifications for operational procedures 4.2 Design procedures to ensure effective workflow achieves required service support targets 4.3 Specify measurable performance standards 4.4 Assign tasks and duties to appropriately trained and skilled personnel 4.5 Establish and monitor control measures on regular basis 4.6 Design operational procedures so that adjustments can be made in response to control information
5. Establish supplier relationships to achieve service support requirements	5.1 Identify availability and suitability of suppliers who can meet service support requirements within legislative requirements 5.2 Establish criteria to enable effective evaluation of supplier services 5.3 Assess available suppliers against criteria to determine suitability 5.4 Establish and communicate terms of appointment of suppliers to achieve service support requirements

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	5.1, 5.3	<ul style="list-style-type: none"> Organises, interprets and critiques material from a range of sources and identifies relevant and key information
Writing	1.1, 1.2, 2.2, 3.4, 4.1, 4.4-4.6, 5.2, 5.4	<ul style="list-style-type: none"> Develops material for a specific audience using clear, detailed language to convey explicit information, requirements and recommendations
Oral Communication	4.4, 5.4	<ul style="list-style-type: none"> Employs listening and questioning techniques to confirm understanding Participates in verbal interactions using tone and language suitable to the audience
Numeracy	2.3, 4.3	<ul style="list-style-type: none"> Demonstrates an awareness of budgetary constraints when planning human resource requirements Uses mathematical formulae to determine and measure performance benchmarks

Assessment Requirements for FNSIBK602 Manage implementation of broking service support systems

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- conduct reviews of organisational resource and systems requirements to identify gaps in support systems for the provision of broking services
- manage the implementation of recruitment plans, training programs, information systems and operational procedures required to support broking services
- establish effective processes to appoint and manage external suppliers
- undertake evaluations of the support systems on a regular basis and make adjustments where required.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the analysis and application of relevant features of industry legislation, codes of practice and compliance requirements in the provision of broking support systems
- explain the impact of current insurance market and policy on the execution of the broking service support system
- outline the use of research methods to identify resource needs and limitations
- outline the role of organisational policy and procedures, and underwriting guidelines and authorities, in the execution of broking support systems
- discuss analysis of the industry market position relative to the product and/or line of business on the design of broking service support systems
- outline the impact of marketing principles on the design of support systems
- explain the role of training and the application of training principles in the design of broking support systems.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance broking field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records
- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSIBK603 Manage contractual, legislative and code of practice obligations and requirements

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the specialist skills and knowledge required to manage compliance requirements, including legislative and code of practice obligations relating to the life or general insurance products offered by an insurance brokerage.

It applies to individuals who work methodically and have well-developed analytical skills that are applied to the interpretation and management of product related compliance requirements.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine rights, obligations and legislative requirements applying to insurance products	1.1 Identify all legislative, contract and code of practice requirements based on examination of terms and conditions of all insurance contracts, policies and products offered by brokerage 1.2 Ensure all identified rights, obligations and legislative requirements are documented so that appropriate procedures can be developed

ELEMENT	PERFORMANCE CRITERIA
2. Develop procedures to enable rights, obligations and legislative requirements to be met	2.1 Identify and document appropriate system needs that will enable rights and obligations, and legislative and code of practice requirements, to be met within organisational capacity 2.2 Develop and document contingency plans to ensure that contractual rights, obligations and legislative requirements are met in event of unusual situations arising 2.3 Prepare procedures to ensure effective management of contractual rights and obligations within legislative and code of practice requirements
3. Implement procedures	3.1 Publish action plan to enable all relevant areas to be briefed on procedures that must be implemented 3.2 Implement procedures according to action plan
4. Monitor compliance	4.1 Review all rights, obligations and legislation requirements against terms and conditions of each contract of insurance on regular basis to ensure reliability and validity of interpretation 4.2 Alter procedures and processes in response to changes in interpretation
5. Establish procedures to maintain premium currency of insurance policy	5.1 Implement procedures to maintain accurate premium records, generate premium billings and process all monies received against policy records, in line with organisational procedures and relevant contractual obligations 5.2 Undertake conservation procedures within required timelines and organisational procedures

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 2.1, 2.2, 4.1, 5.1-5.4	<ul style="list-style-type: none"> Organises, interprets and critiques material from a range of sources and identifies relevant and key information relating to legislation, codes of practice and policy
Writing	1.2, 2.1, 2.2, 3.1, 4.2, 5.1	<ul style="list-style-type: none"> Develops procedural material for a specific audience using clear, detailed language to convey explicit information and requirements

Navigate the world of work	1.1, 2.2, 3.2, 4.1, 4.2, 5.1-5.4	<ul style="list-style-type: none"> Modifies or develops policies and procedures that comply with legislative requirements and meet organisational goals Develops and implements strategies that ensure organisational policy, procedures and regulatory requirements are being met Sources information required to develop knowledge and understanding relevant to work role
Get the work done	2.1, 3.2, 5.4	<ul style="list-style-type: none"> Plans, sequences and implements complex activities, aiming to achieve them efficiently Makes high impact decisions in a complex and diverse environment, using input from a range of sources Evaluates the effectiveness of systems and processes to inform decisions on how to implement improvements Uses digital technologies to access, organise and analyse complex data

Assessment Requirements for FNSIBK603 Manage contractual, legislative and code of practice obligations and requirements

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- interpret and manage compliance requirements relating to contracts of insurance
- develop and follow up on action plans, taking into consideration the varied legislative and contractual requirements
- develop contingency plans to mitigate risks of non-compliance with the contractual obligations
- manage processes to maintain premium currency in line with contractual requirements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the translation of an analysis of the contractual compliance relating to insurance products into practical organisational procedures
- explain the application of action planning in the implementation of procedures relating to underwriting guidelines and authorities, and reinsurance
- outline the execution of codes of practice standards and relevant industry legislation in the organisation.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance broking field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records

- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSIBK604 Manage a sales plan for insurance broking services

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- develop a promotional strategy to support the brokerage sales plan
- develop an effective sales plan to increase the market share of the brokerage
- manage implementation of the strategy through effective selection and preparation of distribution channels
- evaluate performance of the sales plan and adjust promotional strategies as required.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the evidence requirements safely and effectively, the individual must:

- outline the analysis undertaken of current industry market trends and distribution channels in planning promotional strategies
- describe the influence of organisation and/or industry policy wordings on the design of the promotional strategy
- explain the key sales and marketing principles used in the design of the sales plan and promotional strategy
- explain the process whereby management accountability is taken for compliance with organisational policy and procedures, underwriters' guidelines and authorities and legislative requirements in the design and execution of the promotional strategy to support the sales plan.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance broking field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records
- organisational policy and procedures.

Assessor must satisfy NVR/AQTF assessor requirements.

FNSIBK606 Manage compliance requirements for an insurance broking business

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the specialist skills and knowledge required to undertake research, implement compliance practices, procedures and systems, complete internal audits, prepare documentation and reports in line with relevant regulatory and legislative requirements, and integrate compliance requirements into work practices.

It applies to individuals who provide specialised knowledge, use systematic approaches and have responsibility to ensure quality standards and requirements are met.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify compliance requirements	1.1 Identify and document statutory, legislative and regulatory requirements relevant to brokerage 1.2 Identify and analyse compliance requirements for implementation 1.3 Maintain up-to-date checklist which includes reporting

ELEMENT	PERFORMANCE CRITERIA
	<p>requirements, time limits and all other statutory operational requirements, and ensure it is observed</p> <p>1.4 Identify, regularly update and collate accurate, reliable and up-to-date information on compliance requirements in form suitable for analysis</p>
<p>2. Evaluate compliance factors and assess inherent risk</p>	<p>2.1 Identify impact of requirements on brokerage</p> <p>2.2 Identify and evaluate non-compliance likelihood and intensity in key risk areas in brokerage</p> <p>2.3 Evaluate compliance risk factors within context of organisation's mitigating capabilities</p>
<p>3. Establish compliance strategies</p>	<p>3.1 Identify compliance strategy and implementation stakeholder parties</p> <p>3.2 Identify methods of systematising compliance strategy</p> <p>3.3 Review cost–benefit variances of proposed compliance strategy</p> <p>3.4 Identify and review existing strategies</p> <p>3.5 Identify and assess alternate strategies in consultation with stakeholders</p> <p>3.6 Select most appropriate strategy to ensure continued compliance</p>
<p>4. Establish resource requirements for compliance purposes</p>	<p>4.1 Identify and source technical resources required for compliance purposes</p> <p>4.2 Determine personnel requirements for operation of compliance program and assign or recruit appropriate staff where required</p> <p>4.3 Identify and document compliance requirements for each role in organisation</p> <p>4.4 Identify minimum training standards for all personnel and develop training program in conjunction with appropriate personnel</p> <p>4.5 Implement staff supervision and monitoring processes to ensure staff compliance with requirements</p>
<p>5. Implement and maintain compliance systems</p>	<p>5.1 Ensure regulatory requirements are incorporated into operational procedures</p> <p>5.2 Develop documentation and communication systems that ensure compliance</p> <p>5.3 Review practices and procedures to ensure compliance</p>

ELEMENT	PERFORMANCE CRITERIA
	<p>5.4 Identify non-compliance practices and adopt corrective measures</p> <p>5.5 Identify and promptly attend to irregularities, non-compliance and breaches</p> <p>5.6 Consult staff to test integrity of systems</p> <p>5.7 Identify areas for improvement to systems through consultation with staff and make recommendations to personnel as appropriate</p> <p>5.8 Document process for reporting of breaches of laws and regulations</p> <p>5.9 Ensure all documentation, operational and communication systems are implemented and checked for viability</p> <p>5.10 Integrate new compliance requirements into work systems as required</p>
<p>6. Ensure statutory reporting requirements are met</p>	<p>6.1 Identify reporting requirements and establish reporting timeframes</p> <p>6.2 Ensure that organisational guidelines for preparing statutory reports are accessed and made available to relevant staff</p> <p>6.3 Prepare statutory reports according to organisational guidelines and statutory requirements</p> <p>6.4 Check statutory reports for compliance</p> <p>6.5 Confirm submission of statutory reports with appropriate parties</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Assessment Requirements for FNSIBK606 Manage compliance requirements for an insurance broking business

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- undertake research to identify and interpret compliance requirements for an insurance broking business, including statutory reporting
- develop strategies to manage compliance risks within the organisation
- design compliance systems and related documentation to ensure compliance is integrated into work practices
- complete internal compliance audits and take corrective action where required.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- illustrate and explain the process for design and execution of the internal audit system for the broking organisation against industry and legislative compliance requirements
- outline the management accountabilities relating to the operation of the insurance broking business to meet regulatory requirements
- outline the process for diagnosing compliance risks within an insurance brokerage and the design of strategies to mitigate identified risks.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance broking field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records

- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSIBK607 Lead ethical work practices in an insurance brokerage

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- conduct high level analysis to define the ethical framework for professional insurance brokers
- conduct a detailed review of current ethical work practices within the organisation against suitable benchmark measures
- develop an implementation plan to achieve identified practice that includes performance measures
- critically analyse own work practices, and identify strategies and practices to maintain high ethical standards in own broking role.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must :

- describe research activities designed to identify and analyse information on ethical standards, legal requirements and industry codes relevant to the insurance broking sector
- outline leadership strategies that can be applied to the practical application of ethical standards in insurance broking
- explain the process of benchmarking to monitor, review, analyse and diagnose ethical business practice
- explain the application of conceptual thinking and reasoning skills in identifying ethical acceptable and unacceptable practices
- outline use of change management and innovation techniques to identify useful strategies to implement ethical standards.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance broking field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records
- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSIBK608 Establish and maintain strategic networks and collaborative relationships

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the knowledge and skills required to establish and use strategic networks to support the insurance broking role of senior brokers in specialist and management roles. It includes identifying features of required strategic networks, identifying or establishing network links with key stakeholders and building strategic collaborative relationships.

It applies to individuals who use well-developed networking, interpersonal, written and web-based communication skills within organisations of various sizes across a range of customer bases. Individuals may use networks for technical support, for business development and to identify as part of the insurance broking industry.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify relevant strategic networks	1.1 Determine nature and scope of networks and collaboration required with reference to brokerage service guidelines and business plans

ELEMENT	PERFORMANCE CRITERIA
	<p>1.2 Undertake research to identify and assess benefits and limitations of existing networks and their relevance to broking role and broking business goals</p> <p>1.3 Identify networks and key stakeholders based on client requirements, service delivery and/or broking business objectives</p>
2. Establish network and collaborative links with key stakeholders and individuals	<p>2.1 Prioritise collaborative relationships and networks on basis of their contribution to broking service role and business needs</p> <p>2.2 Identify and initiate strategies to establish linkages with key networks and individuals, including peers</p> <p>2.3 Establish working arrangements with selected networks and individuals within ethical framework</p>
3. Build strategic relationships to support and develop broking activity	<p>3.1 Develop protocols for ongoing collaborative activity</p> <p>3.2 Apply mix of interpersonal and technology based approaches to support networking and collaborative activity</p> <p>3.3 Use information obtained from networks and collaborative activity to address identified client requirements</p> <p>3.4 Develop ongoing networking strategies in proactive manner to support and develop broking business</p>
4. Review networks and collaborative activity	<p>4.1 Establish criteria for reviewing effectiveness of networks and collaborative relationships</p> <p>4.2 Apply criteria to review relative value of networks and collaborative activity to broking role and business objectives</p> <p>4.3 Undertake cost–benefit analysis of networking and collaborative activity where appropriate</p> <p>4.4 Use analysed results to inform future collaboration and networking activity and strategies</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 3.3	<ul style="list-style-type: none"> Applies research skills to identify relevant and key information on networks and key industry stakeholders

		to develop business opportunities
Oral communication	2.3, 3.3	<ul style="list-style-type: none"> Participates in verbal interactions using tone and language suitable to audience Employs high level interpersonal skills to develop and maintain professional relationships, and to access networks and make collaborative connections
Navigate the world	1.1, 2.1, 3.4, 4.1-4.4	<ul style="list-style-type: none"> Works autonomously, making high level decisions to achieve and improve organisational goals Develops and implements strategies to ensure organisational goals are met within an ethical framework in developing collaborative relationships Sources information required to develop and maintain knowledge relevant to work role Evaluates the effectiveness of systems and processes to inform decisions on how to implement improvements
Interact with others	2.2, 3.1, 3.4	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols to gain and provide information, modifying personal communication style to take into account the particular needs of individuals Plays a lead role in situations requiring effective collaborative skills, demonstrating high level negotiation skills and the ability to influence others Applies high level problem-solving and innovation skills to develop ideas in collaborative working relationships
Get the work done	1.3, 3.2	<ul style="list-style-type: none"> Makes high impact decisions in a complex and diverse environment, using input from a range of sources Uses digital technologies to maintain networks and access information essential to the broking role

Assessment Requirements for FNSIBK608 Establish and maintain strategic networks and collaborative relationships

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- apply wide ranging research skills to identify and evaluate potential networks and collaborative relationships against identified client and brokerage business needs
- implement strategies to establish linkages and build relationships
- apply information from networks and work undertaken in collaborative relationships to address client and business requirements
- review results of networks and collaborations to determine future action plans.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe research activities designed to identify and analyse information on ethical standards, legal requirements and industry codes relevant to the insurance broking sector
- outline leadership strategies that can be applied to the practical application of ethical standards in insurance broking
- explain the process of benchmarking to monitor, review, analyse and diagnose ethical business practice
- explain the application of conceptual thinking and reasoning skills in identifying ethical acceptable and unacceptable practices
- outline the use of change management and innovation techniques to identify useful strategies to implement ethical standards.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance broking field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records
- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSIGN401 Provide technical guidance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to access and interpret technical information, assist repairers with service and repair work, and provide technical information to repairers.

It applies to individuals who advise and assist others in roles involving repair work within organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance general

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Assist repairers with service or repair work	1.1 Provide technical guidance, appropriate to skill level and need, to repairers when determining repair or service needed 1.2 Use repairers with appropriate advanced technical competency as point of reference when required 1.3 Provide technical assistance to repairers when needed to identify any difficult faults 1.4 Provide assistance to repairers during work completion, when

ELEMENT	PERFORMANCE CRITERIA
	<p>needed, to ensure technical requirements are met</p> <p>1.5 Recognise potential faults before they develop and take precautionary steps to prevent them</p> <p>1.6 Address problems arising from repair procedure appropriately during course of repair</p>
2. Provide technical information to repairers	<p>2.1 Make appropriate technical information available to repairers when needed</p> <p>2.2 Communicate current and relevant technical information to all repairers</p> <p>2.3 Show repairers where information can be found and how to access, interpret and apply it when required</p> <p>2.4 Access a range of information sources through an established network when required</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.3, 1.4, 2.3, 2.4	<ul style="list-style-type: none"> Locates, interprets, applies and maintains a range of technical information from a variety of familiar sources to inform repairers and guide service work
Writing	1.1, 1.5, 2.2, 2.3	<ul style="list-style-type: none"> Uses appropriate text types and formats to clearly identify and diagnose repairs or preventative action and convey current technical information to relevant personnel
Oral Communication	1.1, 1.3, 1.4, 1.5, 1.6, 2.2, 2.3	<ul style="list-style-type: none"> Participates effectively in verbal exchanges using clear and detailed language and active listening techniques to identify repairs and provide accurate technical advice and critical evaluation, and elicits expert opinion from others if required
Numeracy	1.1, 2.2, 2.3	<ul style="list-style-type: none"> Extracts, evaluates and applies mathematical information in a range of tasks and texts
Navigate the world of work	1.1	<ul style="list-style-type: none"> Takes responsibility for providing quality advisory services and assistance to meet organisational goals and regulatory requirements

Interact with others	1.1-1.4, 2.2-2.3	<ul style="list-style-type: none"> • Selects and uses appropriate conventions and protocols when communicating with others in a range of work contexts • Maintains a supportive environment and adapts communication style to suit individual needs when providing assistance and information to a range of repairers
Get the work done	1.1, 1.5, 1.6, 2.1-2.4	<ul style="list-style-type: none"> • Plans, organises and implements routine and non-routine tasks, aiming to achieve them efficiently • Uses formal analytical thinking techniques to identify issues, generate possible solutions and implement preferred solution, seeking input from others as required • Anticipates potential problems and implements contingency plans as soon as warning signs are recognised • Uses digital technologies and systems to locate information, enter data and present information

Assessment Requirements for FNSIGN401 Provide technical guidance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- provide clear technical information and guidance to repairers and service providers
- assist repairers with service and repair work, and in identifying potential faults
- access a range of information to provide guidance.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain advanced technical knowledge in areas of expertise
- outline the technical requirements that impact on completion of work including:
 - relevant industry standards
 - organisational quality requirements and procedures
 - supplier or manufacturer specifications
- describe how coaching principles are used to develop the fault finding and rectification of faults capabilities of repairers
- describe sources of current technical information and available networks
- describe recent technical and technological developments relevant to the sector.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the general insurance field of work and include access to:

- organisational records, policy and procedures

- common office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSIGN402 Inspect quality of work

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to inspect the work done by a builder or repairer, apply quality standards to work and protect client property and interests.

It applies to individuals who inspect the work of others such as an insurance assessor within organisations of various sizes and across a range of client bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance general

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Inspect work done by builder or repairer	1.1 Conduct appropriate inspections safely, to ensure in-house quality systems and procedures are maintained and observed in line with regulatory requirements and standards 1.2 Conduct observation and inspection at level appropriate to skill and experience of staff member 1.3 Identify faults and bring them to repairer's attention in appropriate manner for prompt correction

ELEMENT	PERFORMANCE CRITERIA
2. Apply quality standards to work	<p>2.1 Conduct inspections throughout course of work where required to ensure quality standards are maintained</p> <p>2.2 Apply appropriate quality standards during work completion to ensure treatment of client property meets industry and/or organisational standards</p> <p>2.3 Record problems in work quality and refer to relevant staff</p> <p>2.4 Report non-compliances to ensure continuous improvement occurs</p>
3. Protect client property and interests	<p>3.1 Adhere to quality procedures and use of protective materials at all stages of repair or service to avoid possible damage to client property</p> <p>3.2 Review quality of work to best serve interests of client</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.3, 3.2	<ul style="list-style-type: none"> Interprets and applies information from diagrams, plans, manuals, industry quality standards and safety procedures
Writing	1.1, 1.3, 2.3, 2.4, 3.2	<ul style="list-style-type: none"> Uses appropriate text types and terminology to accurately document inspection outcomes for clients and relevant staff
Oral Communication	1.2, 1.3, 2.1, 2.3, 2.4, 3.2	<ul style="list-style-type: none"> Engages in effective verbal interactions using careful questioning and listening techniques, and appropriate clear and detailed language, to convey observations, critical feedback and information
Navigate the world of work	1.1, 2.1, 2.2, 2.4, 3.1	<ul style="list-style-type: none"> Takes personal responsibility for following explicit and implicit policies, procedures and standards
Interact with others	1.2, 1.3, 2.3, 2.4	<ul style="list-style-type: none"> Follows accepted communication practices and protocols, adjusting personal communication style in response to the values, beliefs and cultural expectations of others
Get the work	1.1, 2.1, 2.2, 2.3,	<ul style="list-style-type: none"> Plans, organises and implements routine and non-routine tasks, aiming to achieve them efficiently

done	3.1, 3.2	<ul style="list-style-type: none"> • Makes decisions about quality of work by evaluating whether work completed meets defined standards • Uses digital technologies and systems to locate information, enter data and present information

Assessment Requirements for FNSIGN402 Inspect quality of work

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- carry out inspections of work done by a builder or repairer safely and effectively
- inspect works to ensure that regulatory requirements, standards, organisational operating procedures and relevant codes of practice are complied with
- review quality of work to protect client's property and interests.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the organisational processes and work quality expected relevant to work inspections
- describe the workplace health and safety (WHS) requirements that apply to work inspections
- describe the regulatory requirements and standards that apply to the work being undertaken
- outline effective communication strategies when providing feedback to repairers or builders
- identify quality assurance principles relevant to work activity
- describe key technical issues essential to the quality of work in the relevant sector.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the general insurance field of work and include access to:

- organisational records, policy and procedures
- office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSIGN403 Estimate jobs

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to estimate the time requirements for jobs, gather cost estimates from external service providers, scope the jobs, and produce and document the estimates. It encompasses inspecting the vehicle or property to determine the cause and extent of damage for the preferred method of repair, and determining a preferred method or strategy for restoration or repair.

It applies to individuals who work within organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance general

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Estimate time requirements for jobs	<p>1.1 Calculate time estimates for job requirements based on industry times, staff estimates, standard service or repair times, relevant specifications and subcontracted work time</p> <p>1.2 Estimate repair times and consider whether repair is a viable option</p>

ELEMENT	PERFORMANCE CRITERIA
	1.3 Incorporate turnaround times for work completed by subcontractor into total time estimates
2. Determine availability and source of parts or materials	2.1 Ascertain viability of replacement compared to repair to meet appropriate standards and legal requirements where appropriate 2.2 Determine parts or materials requirements to ensure cost constraints are met 2.3 Determine availability of parts or materials and consumables where required
3. Identify subcontract repair work costs for incorporation into total estimated cost	3.1 Document estimate appropriately 3.2 Document relevant repair requirements, scope of works, procedures and costs in logical order 3.3 Document repair requirements in detail whenever possible 3.4 Note potential variations on estimate
4. Estimate total job costs	4.1 Give external repairers or service providers clear outline of work and time requirements of job 4.2 Cost parts, materials and consumables according to industry and/or organisation pricing standards 4.3 Document and agree on job cost estimate with repairers or external service providers 4.4 Approve repair or total loss settlement in accordance with organisational procedures and legislation 4.5 Document final estimate and contract conditions 4.6 Prepare variations estimate if required

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 2.1, 4.4	<ul style="list-style-type: none"> Interprets, analyses and evaluates textual information from a range of sources and complexity levels
Writing	1.1 3.1-3.4,	<ul style="list-style-type: none"> Generates clear and detailed textual and numerical information in a logical sequence to convey scope of requirements, timeframe and costs

	4.1-4.6	<ul style="list-style-type: none"> Uses text type and vocabulary appropriate to the audience, and legislative and organisational requirements to detail agreed final repair cost or settlement
Oral Communication	4.1, 4.3	<ul style="list-style-type: none"> Participates effectively in verbal exchange using clear and direct language to convey requirements, and careful listening and questioning techniques to elicit and confirm the agreement of others
Numeracy	1.1-1.3, 2.1, 2.2, 3.1, 3.2, 3.4, 4.2, 4.4, 4.5, 4.6	<ul style="list-style-type: none"> Uses developed mathematical knowledge to predict timeframes, identify, interpret and evaluate numerical information, and perform and document accurate calculations and variances
Navigate the world of work	2.1, 4.2, 4.4	<ul style="list-style-type: none"> Takes personal responsibility for following explicit and implicit policies, procedures and legislative requirements
Interact with others	4.1, 4.3	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with internal or external stakeholders to seek or share information
Get the work done	1.1, 1.2, 2.2, 2.3, 3.1-3.4, 4.1-4.6	<ul style="list-style-type: none"> Plans, organises and implements routine and non-routine tasks, aiming to achieve them efficiently Systematically gathers and analyses all relevant information and evaluates options to make decisions about repair requirements that adhere to organisational and legislative requirements Uses digital technologies and systems to locate information, enter or update data and present information

Assessment Requirements for FNSIGN403 Estimate jobs

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- accurately estimate time required for service and repair jobs by collating information relevant to specifications, industry standard service and repair timeframes, and staff estimates
- determine availability and source of parts and materials
- estimate total job costs incorporating costs relating to subcontractors, materials and parts
- document relevant repair requirements, scope of works, procedures and costs in a logical order.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe relevant compliance requirements
- describe contract law relating to insurance repairs
- explain estimating principles
- explain sale-contracting principles
- describe processes to access subcontractors, materials and parts
- outline effective negotiation techniques
- describe key areas of technical knowledge of vehicles and/or buildings used in estimating jobs.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the general insurance field of work and include access to:

- organisational records, policy and procedures
- common office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSIGN404 Inspect damage and develop scope of work

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to inspect a vehicle or property for damage and recommend action for reinstatement of the vehicle or property.

It applies to individuals who may use specialised techniques to complete their work within organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance general

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Inspect vehicle or property to determine cause and extent of damage	1.1 Carry out inspection according to industry standards, regulations and legislative requirements 1.2 Obtain permission to partly dismantle vehicle or property to permit accurate inspection of damage, if required 1.3 Prepare written damage inspection report with sufficient information to enable preparation of repair quote, including repair option 1.4 Ensure damage inspection report identifies claimable damage

ELEMENT	PERFORMANCE CRITERIA
	<p>and is appropriate to type of damage sustained</p> <p>1.5 Collect all necessary evidence and material to support inspection report</p> <p>1.6 Complete inspection safely and without causing damage to any workplace property, or to vehicle or property</p>
2. Determine preferred method or strategy for restoration or repair	<p>2.1 Evaluate possible options for restoration or repair</p> <p>2.2 Identify and recommend repair methods that conform to vehicle manufacturer or building regulations, and insurance organisation, enterprise and statutory guidelines</p> <p>2.3 Consider client wishes, cost, organisational policy and legislation</p> <p>2.4 Select best option for implementation</p>
3. Prepare scope of work	<p>3.1 Identify claimable damage</p> <p>3.2 Identify need for specialist services</p> <p>3.3 Prepare scope of work according to organisational policy and procedures, legislation and industry code of practice</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.3, 1.4, 1.5, 2.2, 3.3	<ul style="list-style-type: none"> Analyses and evaluates textual information from a variety of sources to identify key details and determine requirements
Writing	1.2, 1.3, 2.2, 3.3	<ul style="list-style-type: none"> Develops material for a specific audience using clear and detailed language to convey specific information Uses specific language, grammar and punctuation to correctly and effectively identify required work
Oral Communication	1.2, 2.2	<ul style="list-style-type: none"> Participates effectively in verbal exchange using clear and direct language to convey requirements, and careful listening and questioning techniques to elicit and confirm the agreement of others
Numeracy	1.4, 1.5, 3.1	<ul style="list-style-type: none"> Uses numerical calculations to identify and evaluate costing information

Navigate the world of work	1.1, 1.6, 2.2, 2.3, 3.3	<ul style="list-style-type: none"> Takes personal responsibility for following explicit and implicit policies, procedures and industry and legislative requirements
Interact with others	1.2, 2.3, 2.3, 3.2	<ul style="list-style-type: none"> Selects appropriate communication protocols and conventions when conferring with others to determine and confirm information or seek agreement
Get the work done	1.3, 1.5, 2.1-2.4, 3.1-3.3	<ul style="list-style-type: none"> Plans, organises and implements routine and non-routine tasks, aiming to achieve them efficiently Makes routine decisions and implements standard procedures for routine tasks, using formal decision-making processes for more complex and non-routine situations Uses digital technologies and systems to locate information, enter or update data and prepare and present information

Assessment Requirements for FNSIGN404 Inspect damage and develop scope of work

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- inspect the vehicle or property, using correct inspection procedures, to determine cause and extent of damage for preferred method of repair
- evaluate options for restoration or repair and prepare scope of work accurately and thoroughly
- use correct organisational documentation and industry conventions.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe key features of relevant legislation, industry standards and codes of practice relating to inspections and development of scope of work
- outline organisational policy and procedures relating to carrying out inspections and development of scope of work
- describe the format to be used and information needed to prepare scope of works
- describe personal and equipment safety requirements for inspections
- describe essential and current technical knowledge needed to prepare a scope of work for reinstatement of buildings or vehicles following incidents and claims
- outline the specialist services that can be used in repair and restoration work for property or vehicles.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the general insurance field of work and include access to:

- organisational records, policy and procedures
- common office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSIGN406 Inspect property for saleable items and determine their value

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to inspect property subject to a claim, and identify serviceable and saleable property and items to determine whether they can be sold and what their value would be.

It applies to individuals who may use specialist techniques to carry out inspections within organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance general

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Carry out inspection of property to identify serviceable and saleable items and components	1.1 Complete inspection safely without causing damage to any property, component or system 1.2 Access and interpret correct information 1.3 Inspect property, components and items to identify serviceable and saleable components 1.4 Include planned action and expected result of sale in final loss

ELEMENT	PERFORMANCE CRITERIA
	calculation 1.5 Carry out inspection activities according to industry regulations and guidelines
2. Determine property, component and item retail or salvage price	2.1 Undertake valuation of identified property serviceable and saleable items and components to calculate final value 2.2 Estimate retail price and salvage cost 2.3 Recommend action and record according to organisational policy, legislation and regulations

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.2, 1.5, 2.2, 2.3	<ul style="list-style-type: none"> Accesses, analyses and evaluates textual information from a variety of sources to identify details and determine requirements
Writing	1.3, 1.4, 2.1, 2.2, 2.3	<ul style="list-style-type: none"> Documents inspection outcomes and recommendations using industry specific language
Numeracy	1.2, 1.4, 2.1, 2.2	<ul style="list-style-type: none"> Accesses and interprets numerical information and performs calculations using formal mathematical language and symbols to estimate and record results
Navigate the world of work	1.1, 1.5, 2.3	<ul style="list-style-type: none"> Takes personal responsibility for following explicit and implicit policies, procedures and legislative requirements
Get the work done	1.1, 1.2, 1.3, 1.4, 1.5, 2.1, 2.3	<ul style="list-style-type: none"> Plans, organises and implements routine and non-routine tasks, aiming to achieve them efficiently and in accordance with organisational and legislative requirements Makes routine decisions and implements standard procedures for routine tasks, using formal decision-making processes for more complex and non-routine situations Uses digital technologies and systems to locate information, enter or update data and present information

Assessment Requirements for FNSIGN406 Inspect property for saleable items and determine their value

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- carry out inspections of property to identify serviceable and saleable items and components in compliance with industry codes of practice, legislation and regulations
- determine retail or salvage price of property component or item
- undertake loss calculations to determine recommended action.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the key requirements of legislation, regulations and industry codes of practice relating to safety and standard of goods for sale
- describe the technical knowledge needed to estimate the value of items and components, and determine whether salvage or sale is a viable option
- describe the characteristics and operation of the market for salvaged items
- outline the factors to be considered when determining if items or components can be salvaged.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the general insurance field of work and include access to:

- organisational records, policy and procedures
- common office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSILA501 Plan and implement loss investigation

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to use high level analytical, liaison and planning skills to interact with clients, authorities and specialists in coordinating loss investigations that determine the extent of loss, damage or injury.

It applies to individuals who, within their level of responsibility, use specialised knowledge and organisational skills to coordinate a range of activities to ensure thorough and accurate completion of activities.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance loss adjusting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Receive instructions from client	1.1 Establish comprehensive terms of reference or instructions that meet requirements of relevant parties prior to engagement 1.2 Promptly advise relevant parties of decisions to accept or reject terms of reference or instructions and reasons for such decisions 1.3 Negotiate, confirm and clearly document acceptable terms and instructions that are within client or organisational policy and

ELEMENT	PERFORMANCE CRITERIA
	legislative guidelines, codes of practice and personal authorities
2. Establish relevant facts	<p>2.1 Thoroughly, systematically and accurately collect facts, evidence and information relevant to circumstances of loss, damage or injury</p> <p>2.2 Identify information deficiencies and obtain additional from appropriate sources</p> <p>2.3 Assess validity of loss situation and/or claim fairly and impartially against reported circumstances, available evidence, facts and information</p> <p>2.4 Determine insurance cover for loss, damage or injury where applicable and review policy conditions to ensure loss falls within policy coverage</p> <p>2.5 Establish contractual and/or other obligations of each party to circumstances under enquiry</p> <p>2.6 Accurately and consistently identify fraud indicators</p> <p>2.7 Organise all relevant facts, evidence and information, and document confidentially into coherent body of case knowledge</p>
3. Plan and implement loss investigation	<p>3.1 Analyse available facts, evidence and information to determine viable course of action and appropriate investigative activities</p> <p>3.2 Assess investigative activities for appropriateness to loss situation and compliance with relevant legislation, codes of practice, insurers, client, organisational or other guidelines</p> <p>3.3 Identify and determine requirements for urgent action to protect client interests</p> <p>3.4 Establish appropriate and confidential channels of communication with clients and other relevant parties</p> <p>3.5 Establish and maintain professional and cordial relationships with all relevant parties during investigation</p> <p>3.6 Establish and maintain comprehensive records of investigative activities, methodology and time spent during investigations</p>
4. Preserve evidence	<p>4.1 Progressively collate all evidence gathered, and record promptly and accurately</p> <p>4.2 Preserve evidence gathered by appropriate means for subsequent assessment and enquiry</p>
5. Liaise with authorities	5.1 Liaise with all appropriate authorities whenever and wherever required

ELEMENT	PERFORMANCE CRITERIA
	5.2 Receive clearance or authorisation for investigative activities from appropriate authorities, where required, and record promptly
6. Verify and document information	6.1 Regularly review facts, evidence and information gathered and assess for thoroughness and consistency 6.2 Employ all appropriate methods within client, organisational, legislative, code of practice or other guidelines to clarify conflicting evidence or information 6.3 Promptly and accurately document and record investigative actions, procedures and outcomes
7. Appoint specialists	7.1 Promptly and accurately determine need to appoint specialist assistance and convey to client and other relevant parties 7.2 Engage appointed specialists as required and brief thoroughly

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.3, 2.1-2.6, 3.1-3.3, 6.1, 6.2	<ul style="list-style-type: none"> Critically analyses complex documentation from a variety of sources and consolidates information relating to specific criteria to determine requirements
Writing	1.1-1.3, 2.5, 2.7, 3.6, 4.1, 5.2, 6.3, 7.1, 7.2	<ul style="list-style-type: none"> Accurately records information and writes detailed notes using required format, spelling and grammar, terminology and conventions specific to requirements Reports specific information logically and revises and updates documentation based on outcomes of action
Oral Communication	1.2, 1.3, 3.5, 5.1, 7.1, 7.2	<ul style="list-style-type: none"> Conveys information using language, tone and pace appropriate to the audience and environment Uses listening and questioning techniques to elicit the views and opinions of others and to confirm understanding
Numeracy	2.3, 2.4, 3.1, 3.6	<ul style="list-style-type: none"> Interprets numerical and financial information against a range of criteria to calculate and estimate loss
Navigate the world of work	1.3, 2.4, 3.2, 3.4, 6.2	<ul style="list-style-type: none"> Takes full responsibility for following policies, procedures and legislative requirements and identifies organisational implications of new legislation or

		regulation
Interact with others	1.2, 1.3, 2.1, 3.4, 3.5, 5.1, 5.2, 7.1	<ul style="list-style-type: none"> • Implements strategies for a diverse range of colleagues and clients to build rapport and foster strong relationships • Elicits feedback and provides feedback to others
Get the work done	1.1, 1.2, 2.1-2.6, 3.1-3.3, 3.6, 4.2, 5.2, 6.1, 6.2, 7.1, 7.2	<ul style="list-style-type: none"> • Accepts responsibility for planning and sequencing complex tasks and workload, negotiating key aspects with others and taking into account capabilities, efficiencies and effectiveness • Applies systematic and analytical decision-making processes for complex and non-routine situations • Makes critical decisions quickly and intuitively in complex situations, taking into consideration a range of variables, including the outcomes of previous decisions • Monitors progress schedules and reviews and changes them to meet new demands and priorities • Uses the main features and functions of digital tools to complete work tasks and access information

Assessment Requirements for FNSILA501 Plan and implement loss investigation

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- receive instructions and establish relevant facts
- plan and coordinate loss investigations
- apply loss adjusting principles and practice, and investigative practices and guidelines relevant to various types of insurance loss or damage
- use fraud detection, control and prevention principles to check validity of claims
- accurately document activities and liaise effectively with relevant authorities and specialists.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and describe the types and categories of insurance policies
- outline key features of:
 - business mathematics and statistics relevant to assessing insurance loss
 - data analysis techniques and procedures
- identify and explain the key features of insurance loss, including:
 - claims management
 - fraud detection, control and prevention principles
 - rules of evidence, and information gathering and documenting principles
 - insurable interest
 - investigative practices and guidelines
 - loss adjusting principles and practice
 - policy coverage and requirements

- principles of cost estimating
- subrogation
- explain relevant contract and commercial law principles, and the key features of insurance law
- identify and explain the key features of relevant legislation and industry codes of practice
- identify and describe the roles, responsibilities and jurisdiction of specialists and other authorities.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance loss adjusting field of work and include access to:

- organisational records
- organisational policy, procedures, legislation and regulations as they relate to contracts of insurance
- common office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSILA502 Evaluate collected information

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to apply diagnostic and mathematical skills to determine liability and extent of loss. It encompasses analysis of information obtained through loss investigation and includes evaluation of recovery rights and success relating to a loss situation, and determining the extent of loss, damage or injury.

It applies to individuals who use specialised knowledge, analytical skills and systematic approaches and techniques for problem solving and evaluating information and data in a range of situations.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance loss adjusting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine whether loss is covered by insurance or other criteria	1.1 Accurately and thoroughly collect relevant evidence, facts and information 1.2 Review insurance policy conditions to determine whether loss falls within policy coverage
2. Apply and analyse	2.1 Assess validity of claim against reported circumstances and

ELEMENT	PERFORMANCE CRITERIA
established facts	<p>policy specifications</p> <p>2.2 Accurately and consistently identify fraud indicators</p> <p>2.3 Apply appropriate analysis techniques, and prioritise and assess data thoroughly</p> <p>2.4 Document data analysis techniques and procedures, and record promptly and accurately</p>
3. Determine extent of loss, damage or injury	<p>3.1 Determine extent of liability and loss against available evidence and facts and in accordance with legislative and/or insurers, or client, or organisational policy and guidelines</p> <p>3.2 Ensure extent of loss or damage determined is consistent with assessment of and nature of claim, and is within legislative, insurer, client or organisational constraints</p>
4. Establish recovery rights	<p>4.1 Identify all other contributory insurances</p> <p>4.2 Identify and assess all cases for potential subrogation action</p> <p>4.3 Identify sources and rights of recovery and evaluate likelihood of recovery success</p> <p>4.4 Correctly issue recovery demands, where necessary</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

FNSILA503 Report findings and provide guidance to involved parties

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to report on loss investigation findings and provide guidance and information to involved parties on issues such as recovery, subrogation and legal positions.

It applies to individuals who are employed in the loss adjusting sector and who use specialised knowledge and systematic approaches to prepare and present information and communicate effectively with clients. It may be applied within organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance loss adjusting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Report findings	1.1 Document relevant evidence, facts and information gathered during investigative activities, and prepare and promptly forward reports to all involved parties 1.2 Prepare reports thoroughly, accurately and in professional

ELEMENT	PERFORMANCE CRITERIA
	<p>format according to client or organisational policy and guidelines, relevant legislation or codes of practice</p> <p>1.3 Periodically update documented reports to accurately reflect current status of investigation and to identify range of options relating to investigation</p> <p>1.4 Carry out cost–benefit analysis on various options identified and document in reports</p> <p>1.5 Personally brief involved parties or provide opportunities to discuss reports as necessary</p>
2. Provide interim information and guidance to involved parties	<p>2.1 Inform involved parties accurately and thoroughly on aspects of security, loss prevention, risk and risk management strategies</p> <p>2.2 Inform involved parties promptly and accurately on matters of loss mitigation and estimates of potential liability</p> <p>2.3 Provide prompt information and guidance to clients and other parties on their legal position and potential to incur liabilities as result of loss, damage or injury</p> <p>2.4 Base guidance provided on objective assessment of client needs and risk exposure factors</p>
3. Provide information and guidance regarding salvage and disposal to involved parties	<p>3.1 Identify and assess all cases for potential subrogation action</p> <p>3.2 Identify and evaluate methods of salvage and disposal and potential returns from such, and inform clients on appropriate steps to preserve salvageable materials</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description

Assessment Requirements for FNSILA503 Report findings and provide guidance to involved parties

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the following must be provided:

- prepare accurate reports on loss investigation and guidance regarding salvage or disposal to involved parties
- follow loss adjusting practices and principles to determine liability
- comply with security practices and principles in the collection and management of evidence for assessing claims
- apply risk management and loss mitigation and minimisation practices.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the key features of:
 - claims management processes
 - policy coverage and requirements
 - recovery processes
 - salvage and disposal methods
 - subrogation
 - types and categories of insurance policies
- identify and describe the key features of:
 - insurance and contract law principles
 - loss adjusting principles and practice
 - relevant legislation and industry codes of practice
 - risk management and minimisation principles and techniques

- explain the range of options available and to be considered in assessment of the insurance loss and claim.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance loss adjusting field of work and include access to:

- organisational records
- organisational policy, procedures, legislation and regulations as they relate to contracts of insurance
- common office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSILA504 Negotiate and effect settlement

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to identify all available options for settlement and to assist in the settlement process relating to loss situations, damage or injury including dispute resolution in the case of contention within the settlement process.

It applies to individuals in the loss adjusting sector who use specialised knowledge, well-developed organisational skills and strong communication skills to effectively negotiate with a range of personnel. It may be applied within organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance loss adjusting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>

ELEMENT	PERFORMANCE CRITERIA
1. Prepare for negotiation	1.1 Accurately identify all relevant issues and options for settlement in advance 1.2 Obtain additional information to support identified options from relevant sources and parties 1.3 Carry out cost–benefit analysis on various options identified 1.4 Document and accurately prepare settlement options in professional format prior to negotiations, and in accordance with client or organisational policy and guidelines and with relevant legislation or codes of practice
2. Attend meetings with involved parties	2.1 Document and accurately prepare all information and data needed for settlement meetings in professional format prior to meetings 2.2 Arrange and conduct meetings of involved parties in orderly, courteous and professional manner to ensure resolution of issues and settlement 2.3 Accurately document and promptly convey outcomes of meetings between involved parties to clients and all other parties 2.4 Promptly make available, where appropriate, all documents and information processed as part of loss adjustment activities to other involved parties
3. Represent clients in cases where disputation arises	3.1 Represent clients or organisational interests satisfactorily and provide all relevant documents and information to other involved parties 3.2 Manage disputations courteously and professionally to ensure best and most expeditious outcome for clients or organisations at minimum monetary and other costs

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2	<ul style="list-style-type: none"> Critically analyses complex documentation from a variety of sources and consolidates information relating to specific criteria to determine requirements

Writing	1.4, 2.1, 2.3	<ul style="list-style-type: none"> Accurately records and completes organisational documents and correspondence using clear language and correct spelling, grammar and terminology Writes, edits and proofreads reports to ensure clarity of meaning, and accuracy and consistency of information
Oral Communication	1.2, 2.2, 2.3, 3.2	<ul style="list-style-type: none"> Participates in verbal exchanges, clearly presenting a case using language, tone and pace appropriate to the audience and environment Uses listening and questioning techniques to elicit the views and opinions of others and to confirm understanding
Numeracy	1.3, 1.4, 2.1	<ul style="list-style-type: none"> Performs calculations and uses mathematical problem-solving techniques to analyse numerical and financial data
Navigate the world of work	1.4, 3.1	<ul style="list-style-type: none"> Takes full responsibility for following policies, procedures and legislative requirements and identifies the organisational implications of new legislation or regulation
Interact with others	1.2, 2.2-2.4, 3.1, 3.2	<ul style="list-style-type: none"> Implements strategies for a diverse range of colleagues and clients to build rapport, foster strong relationships and negotiate positive outcomes Manages conflict through the recognition of contributing factors and by implementing strategies to resolve it
Get the work done	1.4, 2.1-2.4, 3.1, 3.2	<ul style="list-style-type: none"> Accepts responsibility for planning and sequencing complex tasks and workload, negotiating key aspects with others and taking into account capabilities, efficiencies and effectiveness Responds intuitively to problems requiring immediate resolution, drawing on past experiences to focus on the cause of a problem Applies systematic and analytical decision-making processes for complex and non-routine situations Uses the main features and functions of digital tools to complete work tasks and access information

Assessment Requirements for FNSILA504 Negotiate and effect settlement

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- undertake a cost–benefit analysis of a loss situation and recommend appropriate action
- apply security practices and principles
- use risk management and minimisation practices
- develop a settlement document with options for consideration
- maintain and apply up-to-date knowledge of the types and categories of insurance policies relevant to loss adjusting.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

explain the key features of:

- claims management processes and procedures
 - recovery processes
 - relevant policy coverage and requirements
 - salvage and disposal methods
 - subrogation
 - types and categories of insurance policies
- identify and describe the key features of:
 - insurance and contract law principles
 - loss adjusting principles and practice
 - relevant legislation and industry codes of practice
 - risk management and minimisation principles and techniques.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance loss adjusting field of work and include access to:

- organisational records
- organisational policy, procedures, legislation and regulations as they relate to contracts of insurance
- common office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSILA505 Provide ancillary services

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to provide ancillary services and guidance relating to a loss situation, and options to minimise the extent of future loss, damage or injury.

It applies to individuals in the loss adjusting sector who use specialised knowledge, analytical skills and strong communication skills to convey requirements and options. It may be applied within organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance loss adjusting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Provide guidance on prevention of future losses	1.1 Identify opportunities to provide guidance on loss prevention while current loss situations are being assessed 1.2 Interview clients and relevant third parties to identify potential risk and hazard indicators 1.3 Identify and assess all relevant risk information to determine integrity of its source, and whether it is comprehensive, valid,

ELEMENT	PERFORMANCE CRITERIA
	<p>reliable and pertinent to nature of risk and meets client needs</p> <p>1.4 Assess risk types against known exposure factors and for compliance with relevant legislation and client or organisational policy guidelines</p>
2. Provide guidance on application of risk management techniques where appropriate	<p>2.1 Determine client product, service types and environment so that nature of risk can be identified and appropriate techniques can be applied</p> <p>2.2 Present range of viable risk management strategies and techniques, and benefits and disadvantages of various options, to clients</p> <p>2.3 Carry out cost–benefit analysis on various options identified</p> <p>2.4 Provide guidance based on objective assessment of client needs and risk exposure factors</p> <p>2.5 Document guidance on risk management strategies and techniques provided to clients, and record promptly and accurately</p> <p>2.6 Discuss appropriateness and adequacy of current insurance cover with clients</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.3, 1.4, 2.1	<ul style="list-style-type: none"> Critically analyses complex documentation from a variety of sources and consolidates information relating to specific criteria to determine requirements
Writing	2.2, 2.4, 2.5	<ul style="list-style-type: none"> Presents carefully structured information using clear and accurate language to convey options and recommendations specific to the audience and purpose
Oral Communication	1.2, 2.2, 2.4, 2.6	<ul style="list-style-type: none"> Participates in verbal exchanges, clearly presenting information and options using language, tone and pace appropriate to the audience and environment Uses listening and questioning techniques to elicit the views and opinions of other and to confirm understanding
Numeracy	2.3	<ul style="list-style-type: none"> Performs calculations and uses mathematical problem-solving techniques to analyse numerical and

		financial data
Navigate the world of work	1.4	<ul style="list-style-type: none"> • Takes full responsibility for following policies, procedures and legislative requirements, and identifies the organisational implications of new legislation or regulation • Identifies and resolves key business issues, processes and practices that may have legal implications
Interact with others	1.2, 2.2, 2.4, 2.6	<ul style="list-style-type: none"> • Implements strategies for a diverse range of colleagues and clients to build rapport and foster strong relationships • Recognises the diversity in people and manages this diversity to improve relations and practices
Get the work done	1.1, 1.3, 2.1, 2.2, 2.3, 2.5	<ul style="list-style-type: none"> • Accepts responsibility for planning and sequencing complex tasks and workload, negotiating key aspects with others and taking into account capabilities, efficiencies and effectiveness • Applies systematic and analytical decision-making processes for complex and non-routine situations • Uses the main features and functions of digital tools to complete work tasks and access information

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the following must be provided:

- apply risk management techniques to provide advice on loss reduction and loss prevention
- use fraud detection, control and prevention principles to advise clients on preventative strategies for loss reduction
- use arbitration and dispute resolution principles and processes, applying thorough knowledge of types and categories of insurance policies and products, industry codes of practice and relevant legislation
- undertake cost–benefit analysis of a loss situation.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

Evidence of the ability to:

- explain the key features of:
 - claims management processes and procedures
 - relevant policy coverage and requirements
 - recovery processes
 - salvage and disposal methods
 - subrogation
 - type and categories of insurance policies
- identify and describe the key features of:
 - insurance and contract law principles
 - relevant legislation and industry codes of practice
 - loss adjusting principles and practice
 - risk management and minimisation principles and techniques.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance loss adjusting field of work and include access to:

- organisational records
- organisational policy, procedures, legislation and regulations as they relate to contracts of insurance
- common office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSILD501 Prepare a distribution plan

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to determine and prepare a distribution plan. It encompasses determining business objectives, defining markets and their needs, determining products and services, identifying and selecting distribution channels, establishing performance measures and documenting the plan.

It applies to experienced individuals who use specialised knowledge and skills to evaluate complex information and make recommendations relevant to strategic organisational activity.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance life distribution

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine business objectives	1.1 Identify distribution aspects of corporate strategic and business plans 1.2 Analyse current situation to determine opportunities in accordance with corporate plans 1.3 Identify and document desired financial resource and market parameters

ELEMENT	PERFORMANCE CRITERIA
	1.4 Develop objectives through consultation with stakeholders
2. Define markets and needs	2.1 Identify and assess potential markets within corporate strategy and philosophy, and clearly delineate market groups 2.2 Ensure cost-benefit analysis results are within plan projections
3. Determine products and services	3.1 Assess likely future trends in selected markets 3.2 Select a range of products or services to meet market needs and profit objectives
4. Identify and select distribution channels	4.1 Identify current distribution channels and assess their advantages and disadvantages 4.2 Choose channels according to objective criteria
5. Determine and establish enterprise structure	5.1 Evaluate suitability of current structure for proposed distribution channels against business objectives, potential markets and services to be provided 5.2 Assess alternatives against business objectives, potential markets and services to be provided
6. Establish performance measures	6.1 Identify and document financial measures 6.2 Establish timeframes, and determine and document processes to monitor performance outcomes
7. Document plan	7.1 Integrate plan components into agreed format 7.2 Document in logical, concise and conclusive manner and obtain sign-offs from authorised personnel

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.3, 2.1, 4.1, 5.1, 6.1	<ul style="list-style-type: none"> Analyses and selects key information from a variety of sources and evaluates against specific criteria
Writing	1.3, 1.4, 6.1, 6.2, 7.1, 7.2	<ul style="list-style-type: none"> Consolidates and logically structures relevant information to produce clear and concise documentation relevant to the purpose and audience

Oral Communication	1.4, 7.2	<ul style="list-style-type: none"> Participates effectively in verbal exchanges using active listening and questioning to elicit and convey information
Numeracy	1.3, 2.2, 6.1	<ul style="list-style-type: none"> Performs calculations to analyse and evaluate financial information against a range of criteria
Navigate the world of work	1.2, 1.4, 2.1, 5.1	<ul style="list-style-type: none"> Plays a lead role in the development and implementation of plans to achieve organisational objectives
Interact with others	1.4, 7.2	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols to gain and provide information relevant to business objectives Collaborates with others to achieve joint outcomes, playing an active role in facilitating and negotiating agreement
Get the work done	1.1-1.4, 2.1, 2.2, 3.1, 3.2, 4.1, 4.2, 5.1, 5.2, 6.2, 7.1, 7.2	<ul style="list-style-type: none"> Plans, organises and implements tasks to achieve business objectives, changing plans when necessary Applies systematic and analytical decision-making processes for complex and non-routine situations to determine appropriate actions Uses the main features and functions of digital tools to complete work tasks and access information

Assessment Requirements for FNSILD501 Prepare a distribution plan

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- conduct analysis of critical information required to develop a distribution plan including:
 - business objectives, products and services
 - markets and needs
 - distribution channels
 - performance measures
- document distribution plan according to organisational requirements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- analyse and describe key client profiles
- discuss key features of distribution and marketing approaches
- identify expense ratios
- identify financial metrics relevant to monitoring performance of the distribution network
- identify and explain human resource trends in the context of the life insurance industry
- identify and describe key markets to be served
- outline organisational planning processes to service the life insurance business
- analyse and describe key:
 - sales trends
 - sales relating to market mix
 - sales relating to products
- outline opportunities and strategies for maintaining and updating knowledge of available products and services.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance life distribution field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records
- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSILD502 Resource a distribution plan

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to identify and allocate adequate resources for distribution plans. It encompasses satisfying human resource requirements, providing technology requirements and providing infrastructure requirements.

It applies to individuals who use specialised knowledge and organisational skills to plan and implement strategic organisational activity.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance life distribution

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Satisfy human resource requirements	1.1 Determine human resource needs and requirements according to plan requirements 1.2 Develop role specifications according to enterprise format and procedures 1.3 Consider internal and external options with staff selected according to enterprise policy, role descriptions, procedures and legislative requirements

ELEMENT	PERFORMANCE CRITERIA
	1.4 Appoint staff following enterprise procedures 1.5 Implement performance management systems
2. Provide technology requirements	2.1 Determine technology specifications within enterprise policy and budgets 2.2 Install or contract technology within budget and timelines, and meet all legal requirements 2.3 Regularly review technology performance against specifications and establish contingency plans
3. Provide infrastructure needs	3.1 Specify infrastructure needs and source within budget and timeframes, and according to enterprise's purchasing policies 3.2 Revise needs to continuously support distribution plan

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	2.3, 3.1, 3.2	<ul style="list-style-type: none"> Analyses and reviews key information from a variety of sources against specific criteria to determine needs and impacts
Writing	1.2, 2.3, 3.1	<ul style="list-style-type: none"> Uses clear language, logically structures information and produces documentation using correct organisational formats and procedures
Oral Communication	1.2, 1.4, 2.3	<ul style="list-style-type: none"> Leads and participates in verbal exchanges using active listening and questioning skills when dealing with a range of personnel in varied situations
Numeracy	2.2, 3.1	<ul style="list-style-type: none"> Performs calculations to interpret and analyse financial and numerical information relating to budgets
Navigate the world of work	1.1-1.5, 2.1, 2.2, 3.1	<ul style="list-style-type: none"> Develops and implements strategies to ensure organisational policy, procedures and regulatory requirements are met Ensures knowledge of products, services, legislation and regulations relevant to role is accurate, comprehensive and current

Assessment Requirements for FNSILD502 Resource a distribution plan

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- organise and document human resource requirements for the distribution plan
- determine and organise suitable technology and infrastructure requirements for the organisation relating to the distribution plan
- determine and organise other infrastructure requirements for the distribution plan.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and describe key features of facilities and infrastructure required for servicing a distribution plan
- identify and explain human resource procedures and requirements, considering the relevant legislation
- identify key features and requirements of IT to service the distribution plan
- explain the role of logistics, and discuss procurement techniques and tools relating to distribution plans
- outline technology resources relating to distribution plans.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance life distribution field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records

- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSILD503 Establish services to provide advice

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to establish processes and systems to service clients within the life distribution stream. It encompasses establishing or reviewing marketing, client services and supplier relationships to achieve service support requirements.

It applies to individuals who use specialised knowledge and organisational skills to provide support for strategic organisational activity.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance life distribution

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Provide marketing services	1.1 Identify marketing support for defined markets and distribution channels in accordance with distribution plan 1.2 Develop marketing tools that meet regulatory requirements and make available within budget and timelines
2. Provide administrative and ancillary services	2.1 Determine administration and ancillary services against provisions of distribution plan

ELEMENT	PERFORMANCE CRITERIA
	2.2 Develop and introduce processes to service clients 2.3 Deliver services within timelines and budget, and according to distribution plan 2.4 Reassess service needs in light of usage and budget
3. Provide client services	3.1 Determine services which will meet client expectations and are within enterprise policy and philosophy 3.2 Deliver services within timeframe and budget 3.3 Establish key performance indicators (KPIs) to measure client service 3.4 Ensure services meet industry legislative requirements 3.5 Document service standards in prescribed format and communicate to all stakeholders

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 2.1, 3.1	<ul style="list-style-type: none"> Interprets, reviews and consolidates key information from a variety of sources against specific criteria to determine needs and required actions

FNSILF302 Process a life insurance application

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to process new applications for life insurance.

It applies to individuals whose job roles may require them to gather, enter, record and validate the information in insurance proposals and apply relevant policies and procedures to achieve the required outcomes.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Life insurance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Receive applications	1.1 Receive new life insurance applications and compile necessary documentation 1.2 Check that documentation is correct and complete in accordance with organisational procedures and regulatory requirements 1.3 Gather further information from appropriate information sources as necessary

ELEMENT	PERFORMANCE CRITERIA
	1.4 Enter application data in appropriate systems and verify data input accuracy
2. Process applications	<p>2.1 Establish delegation authority in accordance with organisational procedures and refer application to appropriate authority as necessary</p> <p>2.2 Consult with internal stakeholders about processing issues or concerns, as appropriate</p> <p>2.3 Process application, once information is verified, in accordance with organisational procedures and regulatory requirements</p> <p>2.4 Communicate result to all relevant parties in accordance with procedures and regulatory requirements</p> <p>2.5 Update records and file documentation in accordance with procedures and regulatory requirements</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 2.1	<ul style="list-style-type: none"> Gathers, analyses and interprets simple to complex information from a range of sources and identifies relevant information
Writing	1.3, 1.4, 2.1, 2.4, 2.5	<ul style="list-style-type: none"> Records key information relevant to requirements using appropriate text and format, and correct spelling
Oral Communication	1.3, 2.1, 2.2, 2.4	<ul style="list-style-type: none"> Uses appropriate language, terminology and concepts when participating in verbal exchanges Uses active listening and questioning techniques to clarify information and confirm understanding of requirements
Navigate the world of work	2.1, 2.3, 2.4, 2.5	<ul style="list-style-type: none"> Follows legislative requirements and organisational policy and procedures relevant to own role
Interact with others	1.3, 2.1, 2.2	<ul style="list-style-type: none"> Follows accepted communication practices and protocols, adjusting personal communication style in response to the values, beliefs and cultural

		expectations of others
Get the work done	1.1, 1.2, 1.4, 2.1, 2.3	<ul style="list-style-type: none"> Plans, organises and implements routine tasks, aiming to achieve them efficiently Responds to predictable routine problems and implements standard or logical solutions Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for FNSILF302 Process a life insurance application

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- check documentation and review new insurance applications within delegation authority
- process applications correctly and in accordance with organisational procedures.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- define life insurance terms and conditions
- outline organisational procedures in line with life insurance requirements
- explain organisational systems for data entry, filing and document registration
- explain life insurance product information
- identify relevant regulatory requirements for life insurance
- explain when to escalate issues to the next level of authority.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the life insurance field of work and include access to:

- office equipment, technology, software and consumables
- organisational records, policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSILF303 Issue a life insurance policy

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to issue customers with a life insurance policy.

It applies to individuals who use organisational skills and specialised knowledge to undertake administrative services, including preparing documentation, entering information and dispatching the policy to customers.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Life insurance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Action application	1.1 Receive and review application to identify underwriting instructions 1.2 Take action according to procedures and underwriting instructions 1.3 Communicate declined or deferred underwriting instructions to relevant parties

ELEMENT	PERFORMANCE CRITERIA
2. Issue life insurance policy	<p>2.1 Collect relevant information to enable preparation of life insurance policy</p> <p>2.2 Document life insurance policy with terms and conditions that accurately reflect underwriting instructions</p> <p>2.3 Check that life insurance policy meets procedures and regulatory requirements</p> <p>2.4 Select and apply dispatch method in accordance with procedures and customer request</p>
3. Complete administration	<p>3.1 File completed life insurance policy documentation in accordance with procedures and regulatory requirements</p> <p>3.2 Process cancellations of life insurance policies occurring within cooling-off period in accordance with procedures, customer instructions and regulatory requirements</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 2.1, 2.3	<ul style="list-style-type: none"> Gathers, analyses and interprets simple to complex information from a range of sources and identifies relevant information
Writing	1.3, 2.1, 2.2	<ul style="list-style-type: none"> Records key information relevant to requirements using appropriate text and correct spelling Produces texts of varying complexity using appropriate language and grammar in logical sequence to convey information effectively
Oral Communication	1.3, 2.1	<ul style="list-style-type: none"> Uses appropriate language, terminology and concepts when participating in verbal exchanges Uses active listening and questioning techniques to clarify information and confirm understanding of requirements
Numeracy	2.1	<ul style="list-style-type: none"> Interprets numeric data and relevant statistics, and performs calculations related to achieving required outcomes
Navigate the	1.2, 2.3, 2.4, 3.1, 3.2	<ul style="list-style-type: none"> Follows legislative requirements and organisational

world of work		policy and procedures relevant to own role
Interact with others	1.3, 2.1	<ul style="list-style-type: none"> Follows accepted communication practices and protocols, adjusting personal communication style in response to the values, beliefs and cultural expectations of others
Get the work done	1.2, 2.1, 2.4, 3.1, 3.2	<ul style="list-style-type: none"> Plans, organises and implements routine tasks, aiming to achieve them efficiently Responds to predictable routine problems and implements standard or logical solutions Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for FNSILF303 Issue a life insurance policy

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- interpret and follow underwriting instructions accurately
- prepare life insurance policies
- accurately enter information in systems
- perform tasks in accordance with procedures and regulatory requirements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe key features of life insurance terms and conditions
- identify organisational procedures relevant to issuing of life insurance policies
- describe organisational systems for data entry, filing and document registration
- describe key features of life insurance product information
- list key features of relevant regulatory requirements
- describe key underwriting instructions that are relevant to life insurance policies.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the life insurance field of work and include access to:

- office equipment, technology, software and consumables
- organisational records, policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSILF401 Contribute to the life risk underwriting process

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to undertake risk assessments of applications for life insurance including gathering the risk information, and reviewing and assessing it against appropriate risk criteria.

It applies to individuals who use specialised knowledge and systematic approaches to analyse and evaluate information and make judgements within limits of delegated authority.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Life insurance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify risk	1.1 Identify product type to ensure that nature of risk can be assessed and handled accordingly
2. Evaluate proposal against risk assessment criteria	2.1 Assess proposal against risk assessment criteria to clearly identify risk factors 2.2 Identify need for additional information to further evaluate proposal

ELEMENT	PERFORMANCE CRITERIA
3. Obtain further information	<p>3.1 Identify appropriate sources of further information to enable comprehensive evaluation of proposal</p> <p>3.2 Safeguard privacy of parties involved in providing information by complying with legislative and compliance requirements</p> <p>3.3 Obtain all further information within specified timeframes to satisfy outstanding risk assessment criteria</p> <p>3.4 Provide ongoing advice to concerned parties on status of assessment of proposal</p>
4. Determine and advise terms and conditions of risk acceptability	<p>4.1 Assess acceptability of risk against all available information and in accordance with appropriate underwriting guidelines</p> <p>4.2 Within delegated authority, establish terms and conditions that minimise risk liability</p> <p>4.3 Promptly advise all relevant parties on acceptance or rejection of proposal</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 2.1, 2.2, 4.1	<ul style="list-style-type: none"> Gathers, analyses and interprets simple to complex information from a range of sources, and identifies relevant information
Writing	3.3, 3.4, 4.2, 4.3	<ul style="list-style-type: none"> Produces texts of varying complexity using appropriate language, grammar and logical sequence to convey information accurately and effectively
Oral Communication	2.2, 3.3, 3.4, 4.3	<ul style="list-style-type: none"> Uses active listening and questioning techniques to confirm understanding of requirements Provides information using clear language and register appropriate to the audience
Numeracy	2.1, 2.2, 3.1, 3.3, 4.1	<ul style="list-style-type: none"> Uses mathematical problem-solving techniques to check data and financial information against criteria, plan timelines and sequence work
Navigate the world of work	3.2, 4.2	<ul style="list-style-type: none"> Recognises and follows explicit and implicit protocols, policies and procedures, and meets expectations associated with own role

Assessment Requirements for FNSILF401 Contribute to the life risk underwriting process

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- undertake basic risk assessment of a life insurance product using sound analytical skills
- provide timely advice to relevant parties regarding a life insurance proposal.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline basic life insurance underwriting principles
- identify the types of liability that can arise in life insurance
- outline the nature of the life insurance industry sector
- identify relevant legislative and compliance requirements including the Australian Securities and Investments Commission (ASIC), Australian Prudential Regulation Authority (APRA) and Life Insurance Act
- define key medical terminology relevant to life insurance
- list appropriate sources of further information to enable comprehensive evaluation of a proposal
- identify risk prevention methods and application
- identify the types of risk in life insurance products and probability of occurrence.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the life insurance field of work and include access to:

- office equipment, technology, software and consumables

- organisational records, policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSILF402 Settle policy payments and terminations

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to settle payments and terminations on life insurance policies.

It applies to job roles within the specialist area of life insurance and may be applied within organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Life insurance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish validation criteria	1.1 Identify product type to determine payment criteria and facilitate processing of payment or termination 1.2 Establish payment criteria to ensure compliance with terms and conditions of contract
2. Compile necessary documentation	2.1 Classify requests according to established payment criteria and obtain required evidence from appropriate parties to confirm that request complies with terms and conditions of policy

ELEMENT	PERFORMANCE CRITERIA
	2.2 Complete and distribute forms and documents in accordance with legislation, and organisational policy and procedures
3. Advise client of the consequences of processing settlement	3.1 Identify consequences relevant to policy type 3.2 Communicate information clearly and concisely to ensure client understands consequences 3.3 Record and file result of communication according to organisational procedures to ensure record is complete
4. Assign validity of request	4.1 Validate request within limits of delegated authority 4.2 Communicate decision to proceed with payment or termination of contract to relevant parties
5. Review evidence available in support of payment request	5.1 Establish payment criteria to enable compliance to be determined within terms and conditions of policy, legislation and regulations 5.2 Review available information on payment request against criteria to ensure compliance 5.3 Assess request to determine whether terms and conditions of policy have been met 5.4 Seek additional opinion from relevant parties on validity of request
6. Establish liability for payment under policy	6.1 Identify liability in accordance with terms and conditions of policy 6.2 Review evidence against policy to determine benefits payable 6.3 Accurately calculate and cross-check benefits payable according to organisational procedures 6.4 Update register and record payment liability and, if appropriate, initiate reinsurance recovery
7. Facilitate payment where required and communicate decision	7.1 Promptly advise all relevant parties of decision on liability 7.2 Identify level of payment authority from organisational standards and procedures 7.3 Check that payment details are within delegated authority and compliant with legislative and organisational requirements 7.4 Confirm authorisation and obtain discharge as appropriate

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Assessment Requirements for FNSILF402 Settle policy payments and terminations

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- distinguish between different life insurance product types to classify requests and determine payment types
- review entitlements and conditions to be met and complied with, to approve payments within level of authority
- calculate benefits payable in accordance with life insurance policy guidelines
- review life insurance policies to determine payments or terminations.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain key features of organisation policy, procedures, guidelines and authorities relevant to policy payments and terminations
- outline the industry sector compliance requirements including the Australian Securities and Investments Commission (ASIC), Australian Prudential Regulation Authority (APRA) and Life Insurance Act
- outline the industry sector product terms and conditions
- outline relevant medical terminology to assess claims
- describe a range of situations that can impact on benefits payable
- explain key underwriting principles relevant to life insurance policies.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the life insurance field of work and include access to:

- office equipment, technology, software and consumables
- organisational records, policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSILF403 Develop and maintain in-depth knowledge of products and services used by the life insurance sector

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to provide appropriate and accurate information on life insurance products and services offered by the organisation.

It applies to individuals who provide information on life insurance products to clients while adhering to applicable compliance requirements.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Life insurance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify products and services used by organisation	1.1 Identify life insurance products and services offered by organisation and determine purpose of each 1.2 Identify characteristics of product and service including their strengths, weaknesses, terms and conditions and, where applicable, communicate this information to clients 1.3 Access organisation's promotional strategy for products and services and apply in business activities

ELEMENT	PERFORMANCE CRITERIA
2. Identify compliance implications of product	2.1 Establish and document compliance implications 2.2 Provide clients with all necessary information and documentation as per compliance requirements
3. Determine appropriate users for products and services	3.1 Identify and document function of each product and service, and client needs it satisfies 3.2 Research client characteristics that best suit each product 3.3 Compare organisation's products and services against those of competitors, to establish most effective approach for matching products to client needs 3.4 Evaluate products and services sales strategy that best meets client needs while taking into account competitor practices
4. Maintain product knowledge	4.1 Regularly review relevant products and services to identify changes to terms and conditions and apply this information in daily work 4.2 Implement systems for updating and maintaining knowledge of products and services 4.3 Review and use information on emerging trends affecting financial services industry to supplement product and service knowledge

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Learning	4.1, 4.2, 4.3	<ul style="list-style-type: none"> Develops and uses personal organisational systems to gather and organise information
Reading	1.1-1.3, 2.1, 3.1-3.4, 4.1, 4.3	<ul style="list-style-type: none"> Gathers, analyses and interprets simple to complex information from a range of sources and identifies relevant information
Writing	2.1, 2.2, 3.1	<ul style="list-style-type: none"> Produces texts of varying complexity using appropriate technical and industry language, grammar and logical sequence Summarises and records information accurately

Oral Communication	1.2, 2.2	<ul style="list-style-type: none"> Provides information using clear, specific and technically correct language Uses active listening and questioning techniques to confirm understanding of requirements
Numeracy	1.2, 3.3, 4.1	<ul style="list-style-type: none"> Performs calculations to analyse numerical data and information relevant to products and services
Navigate the world of work	2.1, 2.2, 4.1	<ul style="list-style-type: none"> Recognises and follows legislative requirements, explicit and implicit protocols, policies and procedures, and meets expectations associated with own role Researches information to update general and specific knowledge on organisational products and services
Interact with others	1.2, 2.2	<ul style="list-style-type: none"> Adjusts personal communication style in response to the values, beliefs and cultural expectations of others
Get the work done	1.1-1.3, 2.1, 2.2, 3.1-3.4, 4.1-4.3	<ul style="list-style-type: none"> Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effectiveness Systematically gathers and analyses all relevant information and evaluates options to inform decisions about appropriate products and services Uses digital technologies and systems to locate information, enter and store data

Assessment Requirements for FNSILF403 Develop and maintain in-depth knowledge of products and services used by the life insurance sector

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- access sources of information in relation to life insurance products
- establish a system for updating and maintaining knowledge of products and services
- undertake research on competitor offerings and highlight difference in organisation's offerings
- gather information on client needs and match offerings based on the needs.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline the compliance implications of legislation and regulation in life insurance
- explain the key features, purpose, application and benefits of the following life insurance products:
 - basic term life insurance (death cover)
 - total and permanent disablement cover
 - disability income cover
 - trauma cover
 - life insurance annuities
 - life insurance investments
 - endowment policies
 - whole of life policies
- identify the life insurance organisations and other competitive products and services
- explain the benefits of each of the following sources of current information on products:

- company websites
- industry seminars
- professional membership bodies
- professional development and learning management systems
- consumer reports
- financial reviews
- conferences
- promotional events.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the life insurance field of work and include access to:

- office equipment, technology, software and consumables
- organisational records, policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSILF405 Evaluate life insurance claims

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- check and evaluate claims to identify exclusions and possible unresolved complexities
- make payment recommendations in accordance with relevant procedures and regulatory requirements
- effectively communicate outcomes to relevant parties and update records accurately.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline life insurance administrative requirements and organisational procedures relating to life insurance claims evaluation and processing
- explain life insurance policy payment criteria
- outline life insurance policy terms and conditions
- explain organisational systems for data entry and filing
- describe product information
- outline relevant regulatory requirements relating to life insurance claims evaluation.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the life insurance field of work and include access to:

- office equipment, technology, software and consumables
- organisational records, policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSILF406 Collect and manage information to facilitate claims assessment

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to collect, collate and manage information to verify, investigate and assess insurance claims.

It applies to individuals who use specialised knowledge and organisational skills to effectively manage information.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Life insurance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify information needs	1.1 Review claim files and life insurance policy to identify payment criteria 1.2 Identify additional information needed as evidence for claims assessment
2. Plan information collection	2.1 Identify appropriate sources of required proofs 2.2 Select and enact an appropriate information collection method

ELEMENT	PERFORMANCE CRITERIA
3. Collect and manage information	<p>3.1 Collect additional information from appropriate sources in accordance with procedures</p> <p>3.2 Manage investigations in accordance with ethical and regulatory requirements</p> <p>3.3 Consult appropriate personnel within organisation where investigations reveal need to escalate issues for clarification</p> <p>3.4 Organise information for clarity and accessibility in accordance with procedures</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 2.1, 3.1, 3.4	<ul style="list-style-type: none"> Gathers, analyses and interprets simple to complex information from a range of sources and identifies relevant information
Writing	2.1, 3.1, 3.4	<ul style="list-style-type: none"> Produces texts of varying complexity using appropriate technical and industry language, grammar and logical sequence to convey and record information accurately and effectively
Oral Communication	3.1, 3.3	<ul style="list-style-type: none"> Uses active listening and questioning techniques to extract relevant information and confirm understanding
Numeracy	1.1	<ul style="list-style-type: none"> Interprets numerical information and performs basic calculations in accordance with organisational guidelines
Navigate the world of work	3.1-3.4	<ul style="list-style-type: none"> Recognises and follows legislative and ethical requirements, explicit and implicit protocols, policies and procedures
Interact with others	2.2, 3.2, 3.3	<ul style="list-style-type: none"> Selects and uses appropriate communication conventions and protocols to liaise with others Adjusts personal communication style in response to the values, beliefs and cultural expectations of others

FNSILF407 Settle life insurance claims

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to calculate benefits and settle claims made under risk based life insurance policies.

It applies to individuals who use specialised knowledge and systematic approaches to process and settle life insurance claims.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Life insurance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Review claim settlement advice	1.1 Receive settlement advice for claim against risk based life insurance policy 1.2 Check that documentation is correct and complete in accordance with procedures 1.3 Resolve any discrepancies identified between claim and settlement advice 1.4 Confirm that organisational authority levels have been observed

ELEMENT	PERFORMANCE CRITERIA
2. Calculate benefits	<p>2.1 Identify extent of liability on basis of collected evidence, and terms and conditions of life insurance policy</p> <p>2.2 Calculate and check benefits payable in accordance with procedures</p>
3. Finalise claim settlement	<p>3.1 Advise client of consequences of proceeding with payment in accordance with procedures</p> <p>3.2 Obtain policy discharge as appropriate</p> <p>3.3 Confirm method of payment with claimant</p> <p>3.4 Enter and confirm payment information on appropriate systems to make payment</p> <p>3.5 Communicate settlement details to appropriate stakeholders in accordance with procedures and regulatory requirements</p> <p>3.6 Update records and file documentation in accordance with procedures and regulatory requirements</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

FNSILF408 Process life insurance contract maturity and surrender payment requests

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to process and settle payment requests relating to non-risk based life insurance policies.

It applies to individuals working within the life insurance sector and whose responsibility involves assisting clients with their settlement requests.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Life insurance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Receive and validate notification	1.1 Receive request for surrender or notification of maturity of relevant life insurance contract 1.2 Check that documentation is correct and complete 1.3 Check request is valid 1.4 Determine organisational authority level required to process request and refer it to appropriately authorised individual or department as necessary

ELEMENT	PERFORMANCE CRITERIA
2. Provide advice to claimant	2.1 Advise claimant of consequences of proceeding with settlement 2.2 Inform client of alternatives to surrender where appropriate 2.3 Obtain discharge as appropriate
3. Calculate payment	3.1 Verify entitlements on basis of supplied evidence, and terms and conditions of life insurance policy 3.2 Calculate and check entitlements in accordance with procedures and regulatory requirements
4. Finalise settlement	4.1 Confirm method of payment with client 4.2 Enter and confirm payment information on appropriate systems to make payment 4.3 Communicate settlement details to relevant stakeholders, as required, in accordance with procedures and regulatory requirements 4.4 Update records and file documentation in accordance with procedures and regulatory requirements

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description

FNSILF501 Assess extraordinary risks

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to understand and apply underwriting risk concepts and practices when assessing extraordinary insurance risks.

It applies to job roles in generalist or specialist areas of insurance and may be applied within organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Life insurance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine risk acceptance criteria	1.1 Establish risk acceptance criteria suitable to type and context of risk within relevant organisational policy 1.2 Use available data to validate risk acceptance criteria
2. Seek information	2.1 Identify and collate accurate, reliable and up-to-date information in format suitable for analysis
3. Negotiate reinsurance for extraordinary risks	3.1 Identify need for, and level of, reinsurance appropriate to risk 3.2 Determine terms of reinsurance from available sources of

ELEMENT	PERFORMANCE CRITERIA
	information and in accordance with organisational policy 3.3 Negotiate reinsurance appropriate to anticipated exposure
4. Determine and advise terms and conditions of acceptance	4.1 Establish terms of acceptance that meet market conditions and organisation's accepted levels of exposure 4.2 Determine and document terms and conditions, within delegated authority, to meet requirements of relevant underwriting guidelines

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 2.1, 3.1, 3.2, 4.1	<ul style="list-style-type: none"> Critically analyses complex documentation from a variety of sources and consolidates information relating to specific criteria to determine requirements
Writing	2.1, 4.1, 4.2	<ul style="list-style-type: none"> Produces, edits and proofreads documents to ensure clarity of meaning, and accuracy and consistency of information Accurately records and completes organisational documents using clear language and correct spelling, grammar and terminology
Oral Communication	2.1, 3.1-3.3, 4.1	<ul style="list-style-type: none"> Uses techniques including active listening, use of open-ended questioning and paraphrasing when gathering information Uses appropriate language and style to present complex technical information and ideas to the audience
Numeracy	3.3	<ul style="list-style-type: none"> Uses mathematical equations to perform calculations to achieve desired outcomes
Navigate the world of work	1.1, 3.2, 4.2	<ul style="list-style-type: none"> Recognises and follows legislative and ethical requirements, explicit and implicit protocols, policies and procedures
Interact with others	3.2, 3.3	<ul style="list-style-type: none"> Selects and uses appropriate communication conventions and protocols to liaise with others Uses collaborative techniques to liaise with others, negotiate outcomes and elicit and share information

Get the work done	2.1, 3.1-3.3, 4.1, 4.2	<ul style="list-style-type: none"> • Accepts responsibility for planning and sequencing complex tasks and workload • Applies systematic and analytical decision-making processes in complex or non-routine situations to assess risk levels • Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for FNSILF502 Underwrite complex medical risks

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- prepare and document a life insurance policy that involves complex medical risk covering:
 - identification of medical risk factors, and application of appropriate medical risks rating systems and techniques for underwriting the risk
 - terms and conditions relevant to underwriting complex medical risks.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain life insurance policy terms and conditions
- explain life insurance risk management practices
- describe relevant medical techniques, diseases, injuries and terminology relative to insurance underwriting
- list types of medical risk and the implications for underwriting medical risks
- identify relevant standards or codes to be complied with
- identify relevant actuarial, underwriting and medical information relevant to underwriting complex medical risks
- outline the key administrative requirements and relevant organisational procedures in underwriting complex medical risks
- outline medical risk ratings systems and appropriate risk handling techniques to mitigate risk
- outline risk acceptance criteria for different types and contexts of complex medical risks.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the life insurance field of work and include access to:

- office equipment, technology, software and consumables
- organisational records, policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSILF503 Underwrite complex non-medical risks

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to apply complex non-medical risk assessment to the underwriting of a life insurance application.

It applies to those engaged in underwriting functions of companies within the life insurance sector.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Life insurance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify non-medical risks	1.1 Review applications and associated documentation to identify relevant financial and lifestyle information 1.2 Interpret financial and lifestyle information to identify non-medical risk factors 1.3 Review need for additional financial and lifestyle information and collect as appropriate
2. Identify underwriting significance	2.1 Identify potential life risk implications of supplied lifestyle information

ELEMENT	PERFORMANCE CRITERIA
	<p>2.2 Identify and address potential moral risk factors</p> <p>2.3 Consult with relevant personnel within organisation where clarification is sought on adequacy of information provided</p> <p>2.4 Select and apply appropriate risks rating systems according to organisational procedures</p>
. Determine risk acceptance criteria	<p>3.1 Determine risk acceptance criteria to suit type and context of risk in accordance with procedures</p> <p>3.2 Assess adequacy of financial and lifestyle information against risk acceptance criteria in accordance with procedures</p>
4. Prepare life insurance policy	<p>4.1 Develop terms of acceptance in accordance with market conditions and accepted levels of exposure</p> <p>4.2 Document life insurance policy with terms and conditions in accordance with procedures and regulatory requirements</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.3, 2.1-2.4, 3.1, 3.2	<ul style="list-style-type: none"> Gathers, analyses and interprets simple to complex information from a range of sources to identify and consolidate information relevant to requirements
Writing	1.3, 4.1, 4.2	<ul style="list-style-type: none"> Produces, edits and proofreads documents to ensure clarity of meaning, and accuracy and consistency of information Accurately records and completes organisational documents using clear language and correct spelling, grammar and terminology
Oral Communication	1.3, 2.3	<ul style="list-style-type: none"> Uses appropriate language and style to collect complex technical information Uses techniques including active listening, use of open-ended questioning and paraphrasing to confirm understanding
Numeracy	2.4, 4.1	<ul style="list-style-type: none"> Interprets numeric data and relevant statistics relative to financial information being assessed

Navigate the world of work	3.1, 3.2, 4.1, 4.2	<ul style="list-style-type: none"> Recognises and follows legislative requirements, and explicit and implicit protocols, policies and procedures Maintains knowledge of market trends and regulations necessary to perform own role
Interact with others	1.3, 2.3	<ul style="list-style-type: none"> Uses appropriate communication protocols and practices to liaise with others to elicit and share information
Get the work done	1.1-1.3, 2.1-2.4, 3.1, 3.2, 4.1, 4.2	<ul style="list-style-type: none"> Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effectiveness Applies systematic and analytical processes in complex or non-routine situations to make decisions about non-medical risk levels Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for FNSILF503 Underwrite complex non-medical risks

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- prepare and document life insurance policy that involves complex non-medical covering:
 - identification of financial and lifestyle risk factors, and application of appropriate risks rating criteria and systems for underwriting the risk
 - terms and conditions relevant to underwriting complex non-medical risks.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify relevant actuarial and underwriting information associated with non-medical risk
- explain key features of policy guidelines, administrative requirements and organisational procedures in the underwriting industry
- explain life insurance policy terms and conditions
- explain life insurance risk management practices
- describe the various types of non-medical risks and their implications for life insurance underwriting
- identify relevant regulatory requirements
- outline sources of relevant financial and lifestyle information
- describe types of financial and lifestyle risk and actuarial considerations
- distinguish between medical and non-medical risks in the context of life insurance underwriting
- outline moral risk factors and their implications to underwriting non-medical risks.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the life insurance field of work and include access to:

- office equipment, technology, software and consumables
- organisational records, policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSILF504 Manage complex life insurance claims

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to manage people, information systems and other resources needed to assess life insurance claims of a complex nature.

It applies to those involved in complex non-standard claims management within the life insurance sector.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Life insurance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Confirm validity of claim	1.1 Receive and acknowledge claim notification 1.2 Review details of life insurance policy to ensure valid cover is in force 1.3 Establish that claimant is authorised to deal with policy 1.4 Compile necessary documentation 1.5 Check that documentation is correct and complete, and address any gaps in accordance with procedures 1.6 Assess organisational authority level required to process claim

ELEMENT	PERFORMANCE CRITERIA
	and refer it to an appropriately authorised individual as necessary
2. Conduct complex claim assessment	2.1 Review and apply policy terms, conditions and definitions to identify payment criteria in accordance with procedures 2.2 Identify and review evidence against payment criteria in accordance with procedures 2.3 Review all information relevant to circumstances of loss, damage or injury to establish chain of events 2.4 Identify potential fraud indicators 2.5 Identify whether policy exclusions apply 2.6 Recognise need for further information and collect as appropriate
3. Appoint specialists to assist in complex claims assessment as required	3.1 Identify need to appoint specialists to undertake claims assessment 3.2 Engage and brief appointed specialists as required 3.3 Monitor specialists' activities to ensure adherence to timelines, procedures and ethical and regulatory requirements 3.4 Interpret and utilise specialists' reports
4. Assess and report on liability	4.1 Identify whether terms and conditions of policy have been verifiably met 4.2 Assess liability in accordance with terms and conditions of policy 4.3 Where claim is not admitted, communicate decision to appropriate stakeholders 4.4 Where claim is admitted, calculate payments due
5. Finalise claim payments	5.1 Advise client of consequences of proceeding with payment 5.2 Obtain policy discharge, as appropriate 5.3 Process payment in accordance with organisational authority levels, procedures and ethical and regulatory requirements 5.4 Update all appropriate records in accordance with procedures 5.5 Communicate settlement details to appropriate stakeholders in accordance with procedures and regulatory requirements 5.6 Initiate reinsurance recovery, if appropriate

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 1.5, 1.6, 2.1-2.6, 3.1, 3.3, 3.4, 4.1, 4.2	<ul style="list-style-type: none"> Gathers, analyses and interprets simple to complex information from a range of sources to identify and consolidate information relevant to requirements
Writing	1.1, 1.4, 2.6, 3.2, 4.3, 5.1, 5.2, 5.4-5.6	<ul style="list-style-type: none"> Produces, edits and proofreads documents to ensure clarity of meaning, and accuracy and consistency of information Accurately records and completes organisational documents using clear language and correct spelling, grammar and terminology
Oral Communication	1.3, 1.5, 1.6, 2.6, 3.2, 3.3, 4.3, 5.1, 5.5, 5.6	<ul style="list-style-type: none"> Uses active listening and questioning techniques to convey and clarify information Clearly explains and shares information using language and tone appropriate to the audience and purpose
Numeracy	4.4	<ul style="list-style-type: none"> Uses mathematical equations to perform calculations
Navigate the world of work	1.5, 1.6, 2.1, 2.2, 3.3, 5.3-5.5	<ul style="list-style-type: none"> Takes full responsibility for adherence to legislative and ethical requirements, explicit and implicit protocols, policies and procedures, and meets expectations associated with own role
Interact with others	1.6, 3.2, 4.3, 5.1, 5.2, 5.5	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when conferring with various stakeholders to gather or share information Adjusts personal communication style in response to the values, beliefs and cultural expectations of others
Get the work done	1.1-1.6, 2.1-2.6, 3.1-3.3, 4.2, 5.3-5.6	<ul style="list-style-type: none"> Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effectiveness Makes decisions regarding claim validity based on systematic analysis of all information, taking into account organisational requirements and the regulatory environment Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for FNSILF504 Manage complex life insurance claims

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- perform complex claims management tasks in accordance with relevant procedures and regulatory requirements including:
 - checking and validating notifications
 - analysing claims to identify exclusions, potential fraud and other matters that would result in denial of the claim
 - assessing and reporting liability including interpretation of specialist reports and calculating benefits as required
 - communicating settlement details and updating documentation.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain organisational procedures for assessing risk and processing complex life insurance claims
- explain the checks and balances required to ensure due process and procedures are followed
- explain the current industry practice and ethical standards in management of life insurance claims
- explain dispute resolution policy and procedures in the event of disputation by the claimant
- identify the key stakeholders and specialists in the management of life insurance claims
- explain life insurance policy payment criteria
- explain life insurance policy terms and conditions
- describe key features of relevant regulatory requirements that apply to life insurance.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the life insurance field of work and include access to:

- office equipment, technology, software and consumables
- organisational records, policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSILF505 Manage ongoing disability claims

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to manage the periodical assessment of ongoing life insurance disability claims.

It applies to those involved in disability claims management that is prolonged and requiring ongoing supervision within the life insurance sector.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Life insurance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Manage claim review procedures and determine ongoing assessment criteria	1.1 Identify need to undertake review of insurer's continuing liability against ongoing disability claim 1.2 Identify appropriate periodical claimant submissions 1.3 Maintain contact with claimant and other relevant parties 1.4 Review claim file and apply policy terms, conditions and definitions to establish ongoing assessment criteria
2. Review claim	2.1 Receive appropriate periodical claimant submissions for comparison with ongoing assessment criteria

ELEMENT	PERFORMANCE CRITERIA
	2.2 Review submissions and identify need for additional information, where appropriate 2.3 Plan information collection in accordance with ethical and regulatory requirements, where necessary
3. Appoint specialists to assist in additional information collection, as required	3.1 Identify need to appoint specialists to undertake claims investigations 3.2 Engage and brief appointed specialists as required 3.3 Monitor specialists' activities to ensure adherence to timelines, procedures and ethical and regulatory requirements, as appropriate 3.4 Interpret and use specialists' reports
4. Conduct assessment of ongoing claim	4.1 Review claimant submissions and specialist reports against ongoing assessment criteria 4.2 Evaluate whether ongoing assessment criteria have been satisfied 4.3 Communicate results of assessments to relevant parties
5. Adjust benefits as required	5.1 Calculate benefit entitlements in accordance with policy terms and conditions, and procedures 5.2 Apply and calculate partial disability benefits in accordance with policy terms and conditions, and procedures 5.3 Apply offsets and/or indexation to benefits in accordance with policy terms and conditions, where necessary 5.4 Interpret and apply criteria for ceasing income-stream benefit payments, in accordance with policy terms and conditions, procedures and ethical and regulatory requirements, where necessary

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 1.4, 2.1, 2.2, 3.1, 3.4, 4.1, 4.2, 5.2-5.4	<ul style="list-style-type: none"> Gathers, collates, analyses and interprets simple to complex information from a range of sources to identify and consolidate information relevant to

		requirements

Assessment Requirements for FNSILF505 Manage ongoing disability claims

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- manage the periodical assessment of ongoing life insurance disability claims by:
 - identifying and collecting appropriate information required to assess ongoing disability claims
 - reviewing and analysing ongoing disability claims to identify changes in a claimant's situation and recommend changes to benefit payments
 - adjusting and calculating benefits in accordance with relevant procedures and in line with legislative requirements.

Note: If a specific volume or frequency is not stated, then evidence should be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe the industry practice and ethical standards in the management of disability claims
- outline key features of organisational claims procedures, policy guidelines and administrative requirements relating to disability claims
- outline different benefit structures based on the nature of the disability claims
- outline key features of life insurance policy terms and conditions, and policy payment criteria
- describe the current practice in identifying and managing risks associated with ongoing disability insurance claims
- explain the procedure and practice in insurance claims investigation
- describe key features of relevant regulatory requirements in the management of ongoing disability claims.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the life insurance field of work and include access to:

- office equipment, technology, software and consumables
- organisational records, policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSILF506 Manage group life insurance claims

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to effectively handle claims made against group life insurance policies.

It applies to those engaged in case management and claims management functions associated with group life insurance policies.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Life insurance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Receive claim against group life policy	1.1 Check that correct channels of lodgement have been followed 1.2 Identify relevant policy and type of cover 1.3 Evaluate evidence of member's identity
2. Review member's group history and eligibility for cover	2.1 Identify whether cover was granted within policy's automatic acceptance provisions or if it was individually underwritten 2.2 Establish whether member was at work on commencement date of present insurance

ELEMENT	PERFORMANCE CRITERIA
	2.3 Verify that premium contributions are current and correct
3. Manage relationships and information collection	3.1 Identify important contact points and intermediaries, and confirm each one's role and responsibilities 3.2 Identify communication channels most appropriate to each relationship 3.3 Manage information collection and communication strategy 3.4 Refer case to suitably authorised team member where communication problems arise, in accordance with organisational policy and procedures
4. Assess claim	4.1 Review claim submission to establish circumstances of member's claimed condition 4.2 Identify appropriate policy wordings to establish assessment criteria 4.3 Evaluate evidence to determine whether assessment criteria are met 4.4 Assess whether client complied with all additional disclosure requirements where cover was provided by means other than automatic acceptance 4.5 Decide whether a benefit is payable 4.6 Consider opportunity for rehabilitation with disability claims
5. Pay group life insurance benefits	5.1 Determine entitlements as per relevant policy conditions, within authority levels and obtain sign-off where required 5.2 Identify parties authorised to receive benefits paid by insurer 5.3 Communicate decisions to relevant parties, in accordance with procedures and regulatory requirements 5.4 Evaluate dependent relationships and beneficiary nominations for death benefits, if necessary 5.5 Set in place ongoing assessment processes for salary continuance claims and ensure benefit is appropriately taxed prior to payment

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.3, 2.1-2.3, 3.1, 3.2, 4.1-4.4, 5.1, 5.2, 5.4	<ul style="list-style-type: none"> Gathers, analyses and interprets simple to complex information from a range of sources to identify and consolidate information relevant to requirements

Assessment Requirements for FNSILF506 Manage group life insurance claims

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- manage group life insurance claims by:
 - checking information for eligibility and collecting required information
 - assessing group life insurance claims
 - determining entitlements and paying benefits in accordance with relevant procedures and in line with regulatory requirements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe the different types of group life insurance products
- explain key features of group life insurance policy terms and conditions
- explain key processes associated with management of group life schemes
- outline key features of group life insurance administrative requirements and organisational procedures including:
 - dispute resolution procedures
 - insurance claims investigation
- describe organisational guidelines relating to automatic acceptance under group life insurance policies
- explain the practices associated with disability claims in group life insurance
- explain ethical standards and current practice applicable to group life insurance management
- outline the principles of procedural fairness
- describe key relevant regulatory and legislative requirements

- outline the role and function of stakeholders and information sources.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the life insurance field of work and include access to:

- office equipment, technology, software and consumables
- organisational records, policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSILF507 Manage group life insurance policy administration

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to effectively administer group life insurance policies.

It applies to those responsible for the management and administration of group life insurance policies.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Life insurance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Recognise and apply relevant policy guidelines	1.1 Identify relevant group policy ownership structure and associated rules of administration 1.2 Verify party's authority to act in relation to group life insurance policy 1.3 Use inter-organisational relationships to collect information and authorisations
2. Review group life insurance policy	2.1 Verify that group meets automatic acceptance eligibility criteria

ELEMENT	PERFORMANCE CRITERIA
	2.2 Review member schedule and verify members' eligibility for group 2.3 Review member changes that have occurred in period under review and make necessary adjustments to premiums and/or sums insured 2.4 Reconcile details of policy to calculate premiums 2.5 Calculate and remit stamp duty payable on benefits as required in each state and territory 2.6 Calculate and apply group life profit share as per terms of policy, as necessary
3. Manage ongoing policy administration	3.1 Identify requests that exceed automatic acceptance limits and refer for individual underwriting 3.2 Manage medical information collection as necessary 3.3 Make payments to maintain distribution and administration agreements, and reinsurance treaties 3.4 Collect premiums in accordance with policy terms 3.5 Manage cancellation of cover where necessary 3.6 Update and issue documentation and records in accordance with procedures and regulatory requirements 3.7 Work with relevant parties to maintain organisational compliance
4. Manage complaints and disputes	4.1 Advise clients of dispute resolution procedures 4.2 Use inter-organisational relationships to seek resolution of complaints and disputes 4.3 Refer clients to relevant external dispute resolution body as appropriate

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description

Assessment Requirements for FNSILF507 Manage group life insurance policy administration

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- effectively administer group life insurance policies by:
 - interpreting requirements, collecting relevant information and reviewing group life policies
 - calculating premium calculations and adjustments, and managing cancellations
 - updating relevant documentation
 - handling complaints and disputes in accordance with relevant procedures and in line with regulatory requirements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the group life insurance industry and types of products available
- outline key features of group life insurance policy terms and conditions
- identify the relevant organisational procedures associated with life insurance policy administration
- explain the internal and external dispute resolution processes
- outline the group life insurance policy payment criteria
- explain the organisational guidelines relating to automatic acceptance under group life insurance policies
- explain the procedural fairness requirements in management of group life policies
- describe relevant regulatory requirements
- explain the group life profit sharing systems and the provisions for collection of stamp duty

- list the stakeholders in the management of a group life policy.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the life insurance field of work and include access to:

- office equipment, technology, software and consumables
- organisational records, policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSINC301 Work effectively in the financial services industry

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to correctly interpret and apply industry and organisational procedures, guidelines, policies, ethical standards and sustainability requirements to day-to-day work in the financial services industry.

It applies to individuals with the fundamental skills required to work in the financial services industry and underpins other units used in all sectors of the industry.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Assessment Requirements for FNSINC301 Work effectively in the financial services industry

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- access, interpret and comply with organisational policy and procedures
- communicate effectively with others and act as an effective team member
- use proprietary and industry-specific software effectively in day-to-day activities
- accurately interpret and comply with relevant workplace legislation and codes of practice used in the financial services industry
- effectively perform work within a quality customer service environment
- follow workplace health and safety (WHS) and environmentally sustainable workplace practices.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the key features of the financial services industry and the way it operates
- explain the ethical principles that apply when working in the financial services industry
- explain key features of organisational policy and procedures, and work practices
- describe effective questioning and listening techniques
- describe approaches to environmental and resource efficiency, and relevant procedures for own work area
- identify key features of industry codes of practice and relevant legislation and statutory requirements that impact on the industry, including WHS and sustainable work practices
- identify proprietary and/or organisational software that can be used to develop workplace documents, input and extract data, and make calculations.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the industry capability field and include access to:

- organisational policy, procedures, legislation, regulations and codes of practice
- common office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSINC401 Apply principles of professional practice to work in the financial services industry

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to identify industry professional approaches to procedures, guidelines, policies and standards, including ethical requirements, and to model and meet expectations of these in all aspects of work.

It applies to individuals who work in senior roles in the financial services industry and underpins other specialist units used in all sectors of the industry.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Industry capability

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify scope, sectors and responsibilities of industry	1.1 Identify and consider external forces impacting on financial services industry while carrying out activities 1.2 Identify main sectors of financial services industry and interrelationship between sectors in carrying out activities 1.3 Identify roles and responsibilities of other participants in financial services industry in carrying out activities

ELEMENT	PERFORMANCE CRITERIA
2. Identify and apply guidelines, procedures and legislation	<p>2.1 Collect, apply and analyse information on relevant legislation, regulations and codes of practice as applied to financial services industry</p> <p>2.2 Clarify own work practice and regularly refine in light of relevant legislation, regulations and codes of practice, and organisational policy, guidelines and procedures</p> <p>2.3 Apply relevant codes of practice in an ethical approach to workplace practice and decisions</p>
3. Identify sustainability issues	<p>3.1 Obtain and analyse information on sustainability policies, strategies and impacts on industry from a range of sources</p> <p>3.2 Identify and promote environmental sustainability as an integral part of business planning and business opportunity</p> <p>3.3 Incorporate and support triple bottom line principles in work planning</p>
4. Manage information	<p>4.1 Read and discuss with appropriate persons relevant documents and reports that could impact on work effectiveness and compliance</p> <p>4.2 Analyse, evaluate and check documents, reports, data and numerical calculations to meet customer and organisational requirements</p> <p>4.3 Present information in format appropriate for audience</p>
5. Participate in and facilitate work team activities	<p>5.1 Provide feedback to team members to encourage, value and reward individual and team efforts, and contributions</p> <p>5.2 Actively encourage team members to participate in and take responsibility for team activities and communication processes</p> <p>5.3 Support team to identify and resolve problems which impede its performance</p> <p>5.4 Ensure own work serves as role model for others and enhances organisation's image and financial services industry</p>
6. Plan work to be completed	<p>6.1 Determine tasks to be done and identify relevant conditions to work autonomously or in team environment</p> <p>6.2 Plan work to manage resources, time and priorities</p> <p>6.3 Contribute to organisational planning process as required to achieve service improvement</p> <p>6.4 Adapt to changes in technology and work organisation in timely manner</p>

ELEMENT	PERFORMANCE CRITERIA
7. Develop and maintain personal competency	<p>7.1 Identify and review personal professional development needs and goals on regular basis</p> <p>7.2 Clarify and comply with competency, authorisation and licensing requirements</p> <p>7.3 Seek professional development opportunities that reflect needs and goals in agreed timeframe</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Learning	7.1, 7.3	<ul style="list-style-type: none"> Identifies, plans and implements strategies to manage gaps in personal knowledge
Reading	1.1-1.3, 2.1, 2.2, 3.1, 4.1, 4.2	<ul style="list-style-type: none"> Analyses and consolidates information and data from a range of sources, against defined criteria and requirements, and checks for accuracy and completeness
Writing	4.3, 5.1, 6.2	<ul style="list-style-type: none"> Prepares a range of textual information appropriate for audience for informal and formal purposes
Oral Communication	4.1, 4.3, 5.1, 5.2	<ul style="list-style-type: none"> Participates in verbal exchanges of information using language, tone and pace appropriate to audience and environment Uses listening and questioning techniques to elicit the views and opinions of others and to confirm understanding
Numeracy	3.3, 4.2, 6.2	<ul style="list-style-type: none"> Performs mathematical calculations to interpret and compare financial data and information Defines timeframes in accordance with schedule requirements
Navigate the world of work	2.1-2.3, 3.1, 4.1, 7.2	<ul style="list-style-type: none"> Accepts responsibility and ownership for the task and makes decisions on completion parameters and the need for coordination with others Takes personal responsibility for following explicit and implicit policies, procedures and legislative requirements
Interact with	2.2, 3.2, 5.1-5.4	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols

others		<p>when communicating with clients and co-workers in a range of work contexts</p> <ul style="list-style-type: none"> • Recognises when personal values and beliefs impact on work group and implements basic strategies to moderate the effect • Recognises and accommodates basic differences and priorities of others • Cooperates with others and contributes to work practices where joint outcomes are expected and deadlines are to be met • Recognises behaviours and triggers that contribute to conflict and implements strategies to moderate conflict • Elicits feedback and provides feedback to others to improve self or workgroup behaviours
Get the work done	1.1-1.3, 2.1, 3.1-3.3, 4.1- 4.3, 6.1-6.4, 7.3	<ul style="list-style-type: none"> • Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effective outcomes • Makes routine decisions and implements standard procedures for routine tasks, using formal decision-making and problem-solving processes for more complex and non-routine situations • Uses the main features and functions of digital tools to complete work tasks and access information

Assessment Requirements for FNSINC401 Apply principles of professional practice to work in the financial services industry

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- access, interpret and analyse product and service information provided by industry sectors in an effective and timely manner
- interpret and comply with relevant financial services legislation, regulations and industry codes of practice, and ethics applicable to the workplace
- recognise and implement sustainability principles and work practices
- accurately analyse, evaluate and organise relevant information
- effectively plan work and maintain a team environment, taking into account any constraints and available resources
- identify and evaluate appropriate professional development opportunities.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- discuss environmental or sustainability legislation, regulations and codes of practice applicable to industry and organisations
- outline the main sectors in the financial services industry and the interrelationships between the sectors
- explain industry and organisational policy and procedures and ethical behaviours in regard to customer service and administration
- outline industry and organisational security practices and rationale
- identify internal administration systems such as accounting systems and databases
- explain principles, practices and available tools and techniques of sustainability management relevant to the industry context

- explain key requirements of relevant legislation, statutory requirements and industry codes of practice as they relate to:
 - consumer credit
 - privacy
 - financial transaction reporting
 - corporations (including accounting standards)
 - financial services
- identify the economic and political climate relating to the financial services industry
- explain triple bottom line principles used in work planning.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the industry capability field and include access to:

- organisational policy, procedures, legislation, regulations and codes of practice
- specialist financial services software and data
- common office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSINC402 Develop and maintain in-depth knowledge of products and services used by an organisation or sector

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to develop and maintain an in-depth knowledge of the financial products and services provided by an organisation, or those an organisation uses, and how they may be applied to client needs.

It applies to individuals who work in various financial services industry job roles and with a wide range of financial products or services.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Industry capability

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify products and services organisation uses	1.1 Identify products and services used by organisation or sector and determine their purpose 1.2 Identify characteristics of products and services and their strengths, weaknesses, terms and conditions 1.3 Communicate clearly to clients the characteristics of products and services 1.4 Access and apply organisation's promotional strategy for

ELEMENT	PERFORMANCE CRITERIA
	products and services in business activities
2. Identify compliance implications of product	2.1 Establish and document compliance implications 2.2 Provide client with all necessary information and documentation as per compliance requirements
3. Determine appropriate users for products and services	3.1 Identify and document function of each product and service, and client needs it satisfies 3.2 Determine client characteristics that best suit each product 3.3 Compare products and services used by organisation or sector with products of competitors 3.4 Determine most effective approach to matching products to client needs 3.5 Evaluate approaches to selling products and services in competitive marketplace 3.6 Determine effective approaches to meeting client needs
4. Maintain product knowledge	4.1 Review relevant products and services regularly and apply any changes to terms and conditions in daily work 4.2 Establish and use systems for keeping up with changes and maintaining up-to-date knowledge about relevant products and services 4.3 Review emerging trends affecting the financial services industry and apply to product and service knowledge

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Learning	4.2	<ul style="list-style-type: none"> Identifies, plans and implements strategies to manage gaps in personal knowledge

Assessment Requirements for FNSINC502 Assess financial products and services vulnerability to money laundering and terrorism financing

Modification History

Release	Comments
Release 2	This version first released with FNS Financial Services Training Package Version 1.1 Version 2 created to correct mapping information
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- maintain currency of knowledge of financial products and their compliance requirements, analyse the potential use of these products in money laundering and terrorism financing, and assess anti-money laundering and counter terrorism financing (AML/CTF) controls.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain systems that can be accessed to obtain up-to-date information on products and services
- describe the products and services used by the organisation or sector and their purpose
- outline compliance requirements for products and services used by the organisation or sector
- describe characteristics of products and services that make them vulnerable to money laundering and terrorism financing
- assess AML/CTF controls
- outline general client characteristics and needs for the organisation or sector.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the industry capability field and include access to:

- common office equipment, technology, software and consumables
- financial services product information.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSINC601 Apply economic principles to work in the financial services industry

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to apply broad principles of financial economics that underpin a range of tasks and functions in the financial services industry. It includes understanding how financial instruments are priced in markets, and techniques and processes government and organisations use to manage financial risk, demonstrating broad knowledge of economic theories and related decision making in a national and organisational economic context.

It applies to individuals who have an understanding of economics and how this impacts on work in the financial services industry. It also underpins other skills required for work in the financial services industry and may be applied in all sectors of the industry.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Industry capability

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Apply economic principles and theories	1.1 Develop and apply knowledge of economic principles relevant to the industry 1.2 Apply microeconomic theory of markets and influences on

ELEMENT	PERFORMANCE CRITERIA
	financial products and services to determine structure of organisation 1.3 Apply capital adequacy regulation and requirements to work functions
2. Evaluate economic aspects that apply to decision making	2.1 Apply relevant financial modelling techniques to economic data to inform decision making 2.2 Analyse and apply appropriate asset pricing models 2.3 Apply models to determine organisational value in relation to capital structure
3. Review own work	3.1 Evaluate own work in context of relevant economic principles 3.2 Improve performance through understanding of how economics applies to own decision making
4. Maintain personal understanding of economic policies	4.1 Research current economic theories and their impact on the industry to ensure relevant current knowledge 4.2 Integrate contemporary economic principles into work practices

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 2.1, 2.2, 4.1	<ul style="list-style-type: none"> Critically analyses complex documentation from a variety of sources, and consolidates information relating to specific criteria to assist in making high level business and organisational decisions
Numeracy	2.2, 2.3	<ul style="list-style-type: none"> Performs mathematical calculations to analyse financial information, costs and values for pricing models and capital structure
Navigate the world of work	1.3, 3.1, 3.2, 4.1	<ul style="list-style-type: none"> Works autonomously, making high level decisions to achieve and improve organisational goals Monitors and reviews organisational policy, procedures and adherence to legislative requirements to implement and manage change Ensures knowledge of products, legislation, regulations

		and standards relevant to role is accurate, comprehensive and current
Get the work done	1.1, 1.2, 1.3, 2.1, 2.2, 2.3, 4.2	<ul style="list-style-type: none"> Plans strategic priorities and outcomes within a flexible, efficient and effective context in a diverse environment exposed to competing demands Identifies key factors that impact on decisions and their outcomes, drawing on experience, competing priorities and decision-making strategies where appropriate Explores and incubates new and innovative ideas through unconstrained analysis and critical thinking to develop and improve organisational goals Uses the main features and functions of digital tools to complete work tasks and access information

Assessment Requirements for FNSINC601 Apply economic principles to work in the financial services industry

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- research economic trends, evaluate impacts, and access and interpret corporate regulations
- analyse and apply a range of financial modelling techniques and tools
- reflect on and review own performance in applying knowledge of economic principles in day-to-day work functions.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline key features of common economic theories that relate to the financial services industry
- outline key features of microeconomic principles and how they relate to financial services industry products, services and organisational practices
- explain capital adequacy requirements for financial services organisations based on financial product mix
- explain asset pricing models and their use in identifying organisational value and capital structures
- explain and apply economic theories and valuation of assets
- identify and apply financial modelling techniques and tools
- outline industry or organisation financial markets, products and services
- describe key features of relevant legislation, statutory requirements and industry codes of practice
- identify and describe techniques and tools for evaluation and interpretation of research data
- describe the economic and political climate relating to the financial services industry.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the industry capability field and include access to:

- common office equipment, technology, software and consumables.
- current financial services industry economic literature and research.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSINC602 Interpret and use financial statistics and tools

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to access, interpret and analyse statistical data relevant to the financial services industry. It encompasses producing new statistical information and reports from existing data using a range of tools and processes.

It applies to individuals with a thorough understanding of the sources of financial data, and statistical methods and techniques for analysis. It is a base unit on which other skills required for work in the financial services industry can be built. It may be applied in all sectors of the industry.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Industry capability

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Apply statistical methods to work	1.1 Evaluate and select appropriate statistical methods that apply to financial services work to suit required work outcome 1.2 Understand and effectively use suitable tools and techniques for statistical analysis
2. Source and interpret	2.1 Identify and access internal and external data and information

ELEMENT	PERFORMANCE CRITERIA
statistical data	<p>sources to gather relevant current data</p> <p>2.2 Validate data in accordance with industry statistical standards</p> <p>2.3 Use data summaries and trends to verify currency and utility</p> <p>2.4 Interpret correctly and use sampling techniques and diagrammatic, graphical and tabular information for required purpose</p>
3. Analyse data using appropriate techniques and tools	<p>3.1 Reflect organisational requirements and priorities in analysis of statistical data</p> <p>3.2 Use analysis and descriptive tools and techniques to meet required outcomes and correct any data errors</p> <p>3.3 Produce on time reports of analysis in appropriate detail and format, including use of diagrammatic, graphical and tabular information</p>
4. Record statistical data analysis results and records	<p>4.1 Validate records of data and statistical analysis to ensure accuracy and consistency with industry and organisational standards</p> <p>4.2 File and store records for easy retrieval while meeting all security requirements</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 2.1-2.4, 3.2, 4.1	<ul style="list-style-type: none"> Critically analyses complex statistical documentation from a variety of sources and consolidates information relating to specific criteria to determine requirements
Writing	2.4, 3.2, 3.3, 4.1	<ul style="list-style-type: none"> Accurately records information and prepares reports and documentation, using clear language and organisational formats and protocols
Numeracy	1.1, 1.2, 2.1, 2.2, 2.3, 2.4	<ul style="list-style-type: none"> Performs mathematical calculations to analyse statistical information and research to accurately consolidate and inform others
Navigate the world of	3.1, 4.1, 4.2	<ul style="list-style-type: none"> Works autonomously, making high level decisions to achieve and improve organisational goals Develops and implements strategies that ensure

work		<p>organisational policy, procedures and regulatory requirements are being met</p> <ul style="list-style-type: none"> Monitors and reviews organisational policy, procedures and adherence to legislative requirements to implement and manage change
Get the work done	1.1, 1.2, 2.1, 3.1, 3.2, 4.2	<ul style="list-style-type: none"> Plans strategic priorities and outcomes within a flexible, efficient and effective context in a diverse environment exposed to competing demands Gathers and analyses data and seeks feedback to improve organisational outcomes Explores and incubates new and innovative ideas through unconstrained analysis and critical thinking to develop and improve organisational goals Uses features and functions of digital tools to complete work tasks and access information according to security requirements

Assessment Requirements for FNSINC602 Interpret and use financial statistics and tools

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- apply statistical methods to work in the financial services industry
- source and access statistical and other data, and produce and interpret statistics
- use financial data tools and calculations to produce accurate and informative statistical reports from data
- efficiently record and store data for retrieval.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain and apply mathematical principles and statistical methods
- describe the range of statistical ratios and analysis tools relevant to the financial services industry
- outline sources of relevant information available to the financial services industry, and their relevance
- recognise and explain types of graphs, charts, diagrams and tables used in statistical modelling and reporting
- explain the principles of statistical standards and sampling techniques that are used to gather valid data.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the industry capability field and include access to:

- statistical modelling software and data
- common office equipment, technology, software and consumables
- statistical reports and data.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSISV301 Evaluate risk for renewal business

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to evaluate the risk for renewal business, including gathering the risk information, and reviewing and assessing it against appropriate risk criteria such as underwriting risk.

It applies to individuals carrying out insurance broking roles in a range of insurance sectors within organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Obtain information on risk	1.1 Gather information in accordance with organisational guidelines on changes in risk since initial acceptance, if required 1.2 Identify claims on risk 1.3 Gather information on customer history, if applicable 1.4 Commission surveys or reports, if applicable to risk 1.5 Use exception reporting, if applicable

ELEMENT	PERFORMANCE CRITERIA
	1.6 Adhere to legislative and compliance requirements in all cases
2. Review risk information	2.1 Review information to determine its relevance and reliability 2.2 Check and document any claims on risk 2.3 Check compliance with risk management conditions
3. Assess information against established risk criteria	3.1 Check risk acceptance criteria, including net retentions, for any changes over past period 3.2 Compare and assess risk information against risk acceptance criteria and procedures 3.3 Liaise with other internal departments to assess impact on business, if applicable 3.4 Document risk assessment data according to organisational policy and procedures

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 1.3, 2.1, 2.2, 3.1, 3.2	<ul style="list-style-type: none"> Reads and interprets complex documents from a variety of sources, checking for new and relevant information
Writing	1.3, 1.4, 1.5, 2.2, 2.3, 3.3, 3.4	<ul style="list-style-type: none"> Records and consolidates relevant information Accurately records and completes organisational documents and correspondence using clear language and correct spelling, grammar and terminology
Oral Communication	1.1, 1.3, 3.3	<ul style="list-style-type: none"> Uses questioning and active listening to determine or confirm information
Numeracy	1.2, 2.2, 2.3, 3.1	<ul style="list-style-type: none"> Performs basic mathematical calculations to check and compare financial information
Navigate the world of work	1.1, 1.6, 2.3, 3.2, 3.4	<ul style="list-style-type: none"> Complies with explicit organisational policy and procedures
Interact with others	1.3, 1.4, 3.3	<ul style="list-style-type: none"> Uses a limited range of accepted practices for communicating in a work environment to seek or share information

Get the work done	1.1, 1.2, 1.3, 1.4, 1.5, 2.1, 3.1, 3.3	<ul style="list-style-type: none"> Plans and implements routine tasks and workload, making limited decisions on sequencing, timing and collaboration, and seeking assistance in setting priorities Responds to predictable routine problems by implementing standard or logical solutions Uses digital technologies to access, enter and store information required to complete work tasks

Assessment Requirements for FNSISV301 Evaluate risk for renewal business

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- identify and evaluate risks for renewal business following relevant legal obligations and organisational procedures
- maintain and apply knowledge of relevant organisational products and services
- investigate risk as it relates to renewal business in accordance with underwriting and organisational guidelines
- accurately document risk assessment data in accordance with organisational procedures and relevant underwriting guidelines.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- define organisational or industry sector policy wording
- identify organisational policy, procedures, underwriting guidelines and authorities
- explain key features of organisational products
- identify key features of relevant legislation, regulatory guidelines and industry sector codes of practice relating to risk in business renewal
- outline interim cover as it relates to expiry of contracts and cancellations
- outline reinsurance, treaty and facultative policies
- identify risk prevention methods and application.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance services field of work and include access to:

- organisational records
- organisational policy and procedures
- a range of common technology and software.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSISV302 Process alteration to insurance policy

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- process alterations to insurance contracts across a representative range of products, customers and conditions in accordance with organisational operating procedures and legislative requirements
- check policy alterations and issue in accordance with legislative requirements and organisational operating guidelines
- undertake timely and relevant updating of organisational information systems
- accurately handle receipts and refunds in relation to policy alterations.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify relevant legislation and regulatory requirements for adjustments to insurance policies
- outline organisational and departmental policy, procedures and authorities as they relate to altering insurance policies
- explain the importance of wording of insurance policies in keeping with the organisation or industry sector
- summarise the industry sector compliance requirements in relation to policy alterations
- list the organisation's range of insurance products.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance services field of work and include access to:

- organisational records
- organisational policy and procedures for insurance policies
- a range of common technology and software
- an appropriate work environment and conditions.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSISV303 Issue contract of insurance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the following must be provided:

- interpret and apply relevant legislation accurately
- identify and clarify the customer's request
- issue insurance contract according to organisational and legislative requirements
- update documentation and systems according to organisational procedures.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline basic compliance requirements for this industry sector
- outline organisational and departmental policy, procedures and authorities as they relate to contracts of insurance
- explain the wording of insurance policies in terms of the organisation and industry sector
- outline organisational information technology and communication systems used to process insurance policies
- explain the interpretation of applicable ratings
- identify and describe insurance products available to customers
- outline the relevant industry legislation and regulations that apply to insurance policies
- explain underwriter terms and conditions
- explain survey requirements to gather and analyse appropriate information to issue contracts of insurance.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance services field of work and include access to:

- organisational records
- organisational policy, procedures, legislation and regulations as they relate to contracts of insurance
- a range of common technology and software.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSISV304 Issue insurance renewal advice

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to issue notices covering invitations to renew existing insurance contracts.

It applies to individuals in customer service, data processing or underwriting roles in a range of insurance sectors within organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify contracts due for renewal	1.1 Access computer generated reports to determine policies due for renewal 1.2 Identify contracts requiring further investigation prior to invitation to renew, and assess appropriately against organisational operating protocols 1.3 Refer contracts requiring further investigation to appropriate personnel for resolution

ELEMENT	PERFORMANCE CRITERIA
2. Advise renewal terms of insurance to the insured	<p>2.1 Issue notices and information required by legislation and codes of practice to insured parties within required timeframes and according to operating procedures</p> <p>2.2 Advise customer on any disclosures that need to be made, noting any privacy considerations</p> <p>2.3 Action errors and changes required to database records as a result of non-delivery of renewal advice according to organisational operating procedures</p>
3. Finalise renewal terms	<p>3.1 Finalise terms of renewal according to operating procedures and specified criteria</p> <p>3.2 Complete all relevant documentation promptly according to operating procedures</p> <p>3.3 Carry out customer follow up as required and action enquiries according to organisational guidelines</p>

Assessment Requirements for FNSISV304 Issue insurance renewal advice

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- issue renewal advice accurately and effectively following organisational policy and procedures, codes of practice and legislative requirements
- enter data in organisational systems and complete workplace documentation, ensuring accuracy and attention to detail.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify relevant industry legislation as it applies to insurance renewals
- explain the wording of industry sector insurance policies in terms of the organisation and departmental policy, procedures and authorities
- identify and describe the organisation's insurance products available to customers
- explain how information technology and communication systems are used in processing insurance renewals
- outline the relevant industry sector compliance requirements
- explain the term 'duty of disclosure'
- outline principles of privacy policy when dealing with customers.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance services field of work and include access to:

- organisational records

- organisational policy, procedures, legislation and regulations as they relate to contracts of insurance
- a range of common technology and software
- an appropriate work environment and conditions.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSISV308 Process facultative and treaty reinsurance claims

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- accurately process facultative and treaty reinsurance claims across a representative range of products, customers and conditions by:
 - receiving, recording and clarifying the reinsurance claim information
 - notifying the customer of claim and payment outcomes
 - documenting and communicating outcomes to the reinsurer
- calculate payments within facultative and reinsurance arrangements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe the difference between facultative and treaty reinsurance
- outline key features of relevant legislation, regulations and organisational policy and procedures for processing facultative and treaty reinsurance claims
- interpret key wording used in policies relating to facultative and treaty reinsurance
- explain reinsurance terminology and concepts such as:
 - any one risk
 - any one event
 - reinstatement premium
- outline principles and methods of filing and storing documentation
- outline terms and conditions of reinsurance arrangements between insurers and reinsurers.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance services field of work and include access to:

- organisational records
- organisational policy, procedures, legislation and regulations as they relate to contracts of insurance
- a range of common technology and software

Assessors must satisfy NVR/AQTF assessor requirements.

FNSISV309 Settle insurance claims

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to settle insurance claims, including the negotiation of terms, recording of detail, finalisation of payments and filing of documents.

It applies to individuals employed in a range of insurance sectors and may be applied within organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Calculate claim entitlement	1.1 Gather and evaluate information to determine amount of loss suffered by customer 1.2 Determine settlement terms according to policy wording, legislation and codes of practice
2. Negotiate and communicate settlement terms	2.1 Advise promptly terms and conditions of settlement to customer and/or third party according to organisational claims procedures, where appropriate

ELEMENT	PERFORMANCE CRITERIA
	<p>2.2 Consider response by customer and/or third party to terms of settlement offer and assess whether adjustment is required to take into account value of lost or damaged goods</p> <p>2.3 Undertake negotiation in endeavour to reach mutual agreement on valuation</p> <p>2.4 Modify terms and conditions of settlement as necessary and advise customer and/or third party promptly</p>
3. Document liability decisions	<p>3.1 Clearly communicate claim decisions to relevant parties in manner required by policy wording, legislation, organisational operating procedures and codes of practice</p> <p>3.2 Document decisions in such a way as to determine basis on which decision was reached and consider all evidence and information, where applicable</p> <p>3.3 Send claims documentation to reinsurers</p>
4. Finalise settlement	<p>4.1 Make or give instructions for payments within the required timeframe once settlement is reached</p> <p>4.2 Obtain settlement release from customer and/or third party, as applicable</p> <p>4.3 Refer claim for recovery action if appropriate, and appoint loss recovery agent if applicable</p> <p>4.4 Initiate recovery action from reinsurers, if applicable</p> <p>4.5 Store and maintain finalised claims files according to organisational policy, legislative requirements and codes of practice, as applicable</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2	<ul style="list-style-type: none"> Analyses and consolidates information and data from a range of sources, against defined criteria and requirements, and checks for accuracy and completeness
Writing	2.1, 2.3, 2.4, 3.1,	<ul style="list-style-type: none"> Accurately records and completes organisational documents and correspondence using clear language

	3.2, 3.3, 4.1, 4.3, 4.4, 4.5	and correct spelling, grammar and terminology
Oral Communication	1.1, 2.1, 2.3, 2.4, 3.1, 4.3	<ul style="list-style-type: none"> • Presents complex information using vocabulary, tone and pace appropriate for the audience and purpose • Uses questioning and active listening to clarify and confirm understanding
Numeracy	1.1, 1.2, 2.2, 4.1	<ul style="list-style-type: none"> • Performs mathematical calculations to analyse financial data and statistics, and to accurately process settlement payments
Navigate the world of work	1.2, 3.1, 4.5	<ul style="list-style-type: none"> • Complies with explicit policies and procedures, and legislative and regulatory requirements
Interact with others	2.1-2.4, 4.2, 4.3	<ul style="list-style-type: none"> • Complies with work instructions and contributes to work group discussions using accepted conventions • Negotiates with customers, recognises common cultural and other differences of people in the work context and makes adjustments in addressing the differences
Get the work done	1.1, 1.2, 2.2, 2.3, 3.3, 4.1-4.5	<ul style="list-style-type: none"> • Plans and implements routine tasks and workload, making limited decisions on sequencing, timing and collaboration, and seeking assistance in setting priorities • Makes low-impact decisions within familiar situations, based on a range of predefined or routine practices • Uses digital technologies to access, enter and store information required to complete work tasks

Assessment Requirements for FNSISV309 Settle insurance claims

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- evaluate information and then calculate the claim entitlement
- engage in negotiation with the customer to determine agreed settlement
- prepare all required documentation and file as appropriate.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- state the accountability requirements of individuals involved with insurance settlements and identify the level at which settlements should be referred to senior staff
- outline key features of organisational policy and procedures required for processing insurance claims
- outline key features of relevant legislation, regulation and codes of practice that apply to insurance claims
- define the term 'policy coverage' and state how it relates to the settlement of insurance claims.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance services field of work and include access to:

- organisational records
- organisational policy, procedures, legislation and regulations as they relate to contracts of insurance
- a range of common technology and software.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSISV310 Process insurance claims payments

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to generate and process claim related payments and required documentation in a timely manner.

It applies to individuals in a range of insurance sectors and may be applied within organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Process payments	1.1 Identify, check and accurately record payment information 1.2 Authorise all payments according to organisational operating procedures 1.3 Generate payments within timeframes with reference to legislation, organisational policy and operating procedures, and codes of practice if applicable 1.4 Complete payment documents and identify relevant details

ELEMENT	PERFORMANCE CRITERIA
	1.5 Observe payment limits for amounts requiring personal signing
2. Notify reinsurer, if appropriate	2.1 Check reinsurance information related to claims payment 2.2 Notify reinsurers of claim payment amount and details under relevant reinsurance arrangements, where appropriate
3. Finalise claims payment information to facilitate payment	3.1 Finalise payment information and enter on system for prompt payment, where required 3.2 Despatch claims payment data or payments within required timeframe 3.3 Copy and file documents for auditing purposes according to organisational operating procedures 3.4 Advise interested parties according to operating procedures where liability is not accepted

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.4, 2.1	<ul style="list-style-type: none"> Interprets and consolidates information and data from a range of sources, against defined criteria and requirements, and checks for accuracy and completeness

FNSISV401 Evaluate risk for new business

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to evaluate risk for new business, including gathering the risk information, and reviewing and assessing it against appropriate risk criteria.

It applies to individuals performing underwriting roles in a range of insurance sectors in organisations of various sizes and across a range of client bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify and obtain risk information	1.1 Identify, record and gather all sources of risk information and rectify deficiencies 1.2 Review information to determine its relevance and reliability, and the integrity of its source 1.3 Format data for easy access 1.4 Adhere to legislative and compliance requirements in all cases

ELEMENT	PERFORMANCE CRITERIA
2. Assess information against established risk acceptance criteria	2.1 Assess all relevant risk information to determine if it is comprehensive and pertinent to nature of the risk 2.2 Review and commission surveys and/or reports, if applicable to risk 2.3 Interpret data on risk exposure from survey report 2.4 Compare risk information against risk acceptance criteria and organisational capacity to assess and accept risk according to terms and conditions of risk assessment 2.5 Liaise with other internal departments to assess impact on business, if applicable 2.6 Review and compare proposed amendments to organisational wording and compare to acceptance criteria 2.7 Document risk assessment data according to organisational policy and procedures
3. Issue quotation	3.1 Prepare quote based on all risk assessment data 3.2 Communicate information regarding quote to relevant personnel if required

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 2.1, 2.2, 2.3, 2.4, 2.6	<ul style="list-style-type: none"> Analyses complex documentation from a variety of sources and consolidates information relating to specific criteria to determine requirements

Assessment Requirements for FNSISV401 Evaluate risk for new business

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- interpret and comply with all relevant legal obligations and organisational procedures
- identify and thoroughly assess risks to develop a suitable insurance quote for a new business
- prepare a quote accurately, applying relevant underwriting guidelines
- identify and investigate risk as it relates to new business in accordance with underwriting and organisational guidelines
- accurately document risk assessment data in accordance with organisational guidelines
- identify and apply risk acceptance criteria for insurance products.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe key features of relevant legislative requirements and industry regulations in the context of insurance risk
- describe the potential market share for the product or line of business
- explain the importance of wording of insurance policies in line with industry norms
- identify key features of organisational policy, procedures, underwriting guidelines and authorities
- describe insurance risks associated with organisational products
- define the difference between treaty and facultative reinsurance
- outline relative industry hazards associated with insurance products
- explain the application of relevant common law, legal systems and procedures relating to:
 - insurance contracts

- insurance agents and brokers
- competition and consumer practices
- describe 'interim cover' as it relates to expiry and cancellations of contracts
- describe risk prevention methods and application.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance services field of work and include access to:

- organisational records
- organisational policy, procedures, legislation and regulations as they relate to insurance risk
- a range of common technology and software.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSISV402 Underwrite new business

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to conduct underwriting of new business, including determining the terms and conditions, risk acceptance, evaluating the response of the client, negotiating and finalising the cover.

It applies to individuals in a range of insurance sectors and may be applied within organisations of various sizes and across a range of client bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine terms and conditions of risk acceptability	1.1 Collect risk acceptance information and determine terms and conditions of acceptance 1.2 Determine risk acceptability within authority limitations and capacities 1.3 Determine terms and conditions of risk acceptance in accordance with risk acceptance criteria

ELEMENT	PERFORMANCE CRITERIA
	1.4 Determine referrals, where appropriate 1.5 Place facultative reinsurance, where appropriate
2. Communicate result of risk assessment	2.1 Prepare and communicate quotation, if required 2.2 Advise client of terms and conditions of risk acceptance, including expiry date of offer and pricing, within appropriate timeframes 2.3 Advise rejection of risk, if applicable, as soon as it is evident that risk falls outside guidelines or as soon as decision is made not to underwrite risk
3. Evaluate client response	3.1 Assess client response to determine whether action to modify terms and conditions is required 3.2 Modify offer as necessary and prepare advice to client according to operating procedures 3.3 Ensure modified offer complies with underwriting acceptance authorities and criteria, or seek appropriate referral approval
4. Negotiate agreement	4.1 Undertake negotiation on revised offer to reach mutually satisfactory agreement, including change to reinsurance where applicable 4.2 Advise client of acceptance or rejection of risk according to operating procedures 4.3 Establish mechanism to check that conditions have been met, if conditions have been placed on acceptance of risk
5. Issue interim cover where required	5.1 Specify disclosure requirements in all cases 5.2 Issue initial documentation to client in organisation's format and according to operating procedures 5.3 Confirm reinsurance cover, as appropriate 5.4 Obtain additional information, as required 5.5 File and store documents in accordance with organisational operating procedures 5.6 Monitor expiry of interim cover following standard operating procedures, to ensure any required terms are met prior to issue of policy

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2 1.3, 1.4,	<ul style="list-style-type: none"> Critically analyses complex documentation from a variety of sources and consolidates information relating to specific criteria to determine requirements
Writing	1.1, 2.1-2.3, 3.2, 4.1, 4.2, 5.2, 5.3, 5.4	<ul style="list-style-type: none"> Accurately records and completes organisational documents and correspondence using clear language and correct spelling, grammar and terminology Writes, edits and proofreads documents to ensure clarity of meaning, and accuracy and consistency of information
Oral Communication	2.1-2.3, 3.1, 3.3, 4.1, 4.2	<ul style="list-style-type: none"> Interacts effectively in verbal exchanges, using active listening and questioning to convey and clarify information Clearly explains detailed information using language, tone and pace appropriate to audience
Numeracy	1.1, 1.2, 1.5, 2.1, 2.2, 2.3, 3.2, 4.1	<ul style="list-style-type: none"> Performs mathematical calculations to analyse financial data and statistics to accurately process insurance cover
Navigate the world of work	1.2, 1.3, 1.4, 2.3, 3.2, 3.3, 4.2, 5.1, 5.2, 5.5, 5.6	<ul style="list-style-type: none"> Accepts responsibility and ownership for the task and makes decisions on completion parameters and the need to coordinate with others Takes personal responsibility for following explicit and implicit policies, procedures and legislative requirements
Interact with others	1.4, 2.1, 2.2, 2.3, 3.1-3.3, 4.1, 4.2, 5.2, 5.3	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with clients and co-workers in a range of work contexts Recognises and accommodates basic differences and priorities of others Recognises behaviours and triggers that contribute to conflict and implements strategies to reduce issues during negotiations
Get the work done	1.1-1.5, 2.1-2.3, 3.2, 3.3, 4.3, 5.3-5.6	<ul style="list-style-type: none"> Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effective outcomes Accepts responsibility for addressing less predictable problems and initiates standard procedures in response, applying problem-solving processes to determine solutions

		<ul style="list-style-type: none"> • Uses digital technologies to access, enter and store information required to complete work tasks

Assessment Requirements for FNSISV403 Survey potential risk exposure

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- interpret and comply with all legal obligations and organisational procedures
- develop a suitable insurance contract or policy after identifying and thoroughly assessing hazards and exposures to identify risks
- conduct comprehensive surveys of potential risk exposure and develop recommendations to control or minimise risk of loss
- monitor loss control measures in accordance with underwriter's guidelines and organisational procedures
- monitor risk improvements against loss control measures.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and apply relevant legislation, regulatory guidelines and industry sector compliance requirements
- explain the calculation of maximum probable loss (MPL)
- describe the potential market share for the product or line of business
- outline organisational policy, procedures, underwriting guidelines and levels of authority
- describe relevant underwriting principles related to insurance products and define the difference between treaty and facultative reinsurance
- outline relative industry hazards
- identify and describe key features of relevant legislative and compliance requirements
- explain risk prevention methods and application
- identify relevant statutory hazard, health and safety legislation.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance services field of work and include access to:

- organisational records
- organisational policy, procedures, legislation and regulations as they relate to contracts of insurance
- a range of common technology and software.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSISV404 Underwrite renewal business

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to underwrite renewal business, including determining the terms and conditions of risk acceptance, evaluating the response of the client, negotiating and finalising the cover.

It applies to individuals in job roles of underwriting in a range of insurance sectors and may be applied within organisations of various sizes and across a range of client bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine terms and conditions of risk acceptability	1.1 Identify and review risk acceptance information 1.2 Determine risk acceptability within authority limitations 1.3 Check terms and conditions of risk acceptability for changes since last time it was reviewed for underwriting 1.4 Determine terms and conditions of risk acceptance in accordance with risk acceptance criteria, including client history

ELEMENT	PERFORMANCE CRITERIA
	1.5 Propose alternative terms or adjusted benefits, if applicable
2. Communicate result of risk assessment	2.1 Make offer of renewal, if applicable, in accordance with legislative requirements 2.2 Issue provisional notice of expiry to client 2.3 Decline renewal, if applicable, in accordance with legislative provisions
3. Evaluate client response	3.1 Assess client response to determine whether action to modify terms and conditions is required 3.2 Modify offer as necessary and prepare advice to client according to operating procedures 3.3 Ensure offer complies with underwriting acceptance authorities and criteria, or seek appropriate referral approval
4. Negotiate agreement	4.1 Undertake negotiation on revised offer to reach mutually satisfactory agreement 4.2 Advise client of acceptance or rejection of risk according to operating procedures (including information on dispute resolution procedure if necessary)
5. Cancel, lapse or renew cover	5.1 Issue revised documentation to client in organisational format and according to organisational operating procedures and legislative requirements 5.2 Confirm reinsurance cover as appropriate 5.3 Issue lapse notice to client, if applicable, in accordance with organisational procedures 5.4 File and store documentation according to operating procedures

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.3, 1.4, 3.1, 3.3	<ul style="list-style-type: none"> Analyses and consolidates information and data from a range of sources, against defined criteria and requirements, and checks for accuracy and

		completeness
Writing	1.5, 2.1-2.3, 3.2, 4.2, 5.1, 5.3	<ul style="list-style-type: none"> Accurately records information and prepares correspondence and documentation using clear language and organisational formats and protocols
Oral Communication	2.1, 2.3, 4.1, 4.2	<ul style="list-style-type: none"> Effectively participates in verbal exchanges using active listening and questioning to convey and clarify information
Numeracy	1.5, 3.2	<ul style="list-style-type: none"> Performs mathematical calculations to analyse financial data to accurately process documentation
Navigate the world of work	1.2, 2.3, 3.2, 3.3, 5.1, 5.3, 5.4	<ul style="list-style-type: none"> Takes personal responsibility for following explicit and implicit policies, procedures and legislative requirements Identifies and acts on issues that contravene relevant policies, procedures and legal requirements
Interact with others	2.2, 3.1, 3.3, 4.1, 4.2	<ul style="list-style-type: none"> Uses collaborative techniques to establish a sense of connection, build rapport and negotiate positive outcomes with clients Recognises and accommodates basic differences and priorities of others
Get the work done	1.1-1.5, 2.3, 3.3, 4.2, 5.2-5.4	<ul style="list-style-type: none"> Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effective outcomes Addresses less predictable problems and initiates standard procedures in response, applying problem-solving processes in determining solutions Uses digital technologies to access, enter and store information required to complete work tasks

Assessment Requirements for FNSISV404 Underwrite renewal business

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- comply with all legal obligations and organisational procedures
- identify and assess risks, and develop suitable proposals for underwriting renewal business
- negotiate agreements
- interpret and apply underwriting guidelines
- complete and file relevant documentation in accordance with organisational guidelines.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe the industry market position relative to product or line of insurance business
- identify key features of relevant legislation, regulatory guidelines and industry sector compliance requirements
- explain the importance of wording of insurance policies in keeping with the organisation or industry sector
- outline possible terms and conditions relating to risk acceptability
- outline organisational policy, procedures, underwriting guidelines and levels of authority
- describe relevant organisational products that relate to insurance underwriting
- describe the difference between treaty and facultative reinsurance
- outline relative industry hazards
- explain risk prevention methods and application.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance services field of work and include access to:

- organisational records
- organisational policy, procedures, legislation and regulations as they relate to contracts of insurance
- a range of common technology and software.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSISV405 Analyse insurance claims

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to analyse insurance claims including researching and validating the claim information, and maintaining records and lines of communication.

It applies to individuals whose job roles involve client service, data processing or underwriting in a range of insurance sectors and may be applied within organisations of various sizes and across a range of client bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Collect and organise information relating to claim	1.1 Obtain all relevant information to determine whether valid claim exists 1.2 Organise relevant information into coherent and valid body of case knowledge 1.3 Maintain confidentiality of information according to legislative requirements and industry principles

ELEMENT	PERFORMANCE CRITERIA
	1.4 Identify any information deficiencies and seek additional information from appropriate sources
2. Research claim and validate claim information	<p>2.1 Check claims information to determine legitimacy of claim, including validity of policy and whether claimant is eligible to claim on policy</p> <p>2.2 Identify needs for investigation and/or further information and appoint appropriate service providers where necessary</p> <p>2.3 Undertake investigation and research within established claims management criteria and authorities</p> <p>2.4 Monitor progress of investigation, if applicable</p> <p>2.5 Refer all missing information, abnormalities or classification uncertainties to an appropriate authority</p>
3. Maintain records and lines of communication	<p>3.1 Maintain regular contact with relevant parties to ensure they are aware of current status of claim and are actively participating in process</p> <p>3.2 Communicate information promptly to underwriter, which impacts on policy</p> <p>3.3 Maintain regular and accurate diary system, and adhere to timelines</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.4, 2.1, 2.2, 2.3, 2.4	<ul style="list-style-type: none"> Critically analyses complex documentation from a variety of sources and consolidates information relating to specific criteria to determine requirements
Writing	1.2, 1.4, 2.2, 2.5, 3.1, 3.2, 3.3	<ul style="list-style-type: none"> Accurately records information in an organised way and prepares correspondence and documentation using clear language and organisational formats and protocols
Oral Communication	3.1, 3.2	<ul style="list-style-type: none"> Conveys and clarifies information effectively to a range of personnel using active listening and questioning to clarify understanding

Numeracy	1.1, 2.1	<ul style="list-style-type: none"> Performs mathematical calculations to analyse financial data and statistics to accurately assess claim
Navigate the world of work	1.3, 2.3	<ul style="list-style-type: none"> Takes personal responsibility for following explicit and implicit policies, procedures and legislative requirements Identifies and acts on issues that contravene relevant policies, procedures and legal requirements
Interact with others	1.4, 2.2, 2.5, 3.1, 3.2	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating to clients and co-workers in a range of work contexts Uses a range of strategies to establish a sense of connection and build rapport with clients Recognises and accommodates basic differences and priorities of others during negotiations
Get the work done	1.1-1.4, 2.1-2.5, 3.1, 3.3	<ul style="list-style-type: none"> Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effective outcomes Addresses less predictable problems and initiates standard procedures in response, applying problem-solving processes in determining a solution Uses digital technologies to access, enter and store information required to complete work tasks
