Assessment Requirements for FWPCOR2204 Follow fire prevention procedures

Release: 1

Assessment Requirements for FWPCOR2204 Follow fire prevention procedures

Modification History

Release	Comment
1	<p>Replaces equivalent unit FPICOR2204B Follow fire prevention procedures, which was first released with FPI11 Forest and Forest Products Training Package Version 2.2. This is the first release of this unit in the new standards format</p> <p>Assessment requirements now specify the performance and knowledge evidence, as well as assessment conditions for this unit of competency. These sections simplify and replace components used in the previous unit format, including Required Skills and Knowledge, Evidence Guide and Range Statement</p>

Performance Evidence

A person demonstrating competency in this unit must satisfy all of the elements, performance criteria and foundation skills of this unit. If a specific volume or frequency is not stated below, then evidence must be provided that the following requirements have been performed on at least one occasion:

- identify problems and equipment faults that might lead to fires, and recognise signs of fires
- select and use fire extinguishing equipment
- follow site, legal and organisational requirements and protocols relevant to fire procedures in the workplace
- locate, record and report information about fires.

Knowledge Evidence

A person competent in this unit must be able to demonstrate knowledge of:

- legal and organisational requirements and codes of practice relevant to the full range of processes for fire prevention
- environmental protection requirements, including the safe disposal of waste material
- organisational and site policies and procedures for fire prevention
- environmental risk assessment and hazard identification for:
 - flammable liquid and gases that might be used or found in the workplace
 - storage areas for flammable liquids or gases
 - mixing and blending vessels for flammable liquids or gases
- types of tools and equipment, and their safe use, for fire prevention

- procedures for recording and reporting workplace information
- signs of fire
- personal protective equipment and its fire protection properties
- fire weather evaluation.

Assessment Conditions

The following resources must be made available:

- fire extinguishers
- policies and procedures for fire prevention
- personal protective equipment.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessor requirements

Assessors must:

- hold the appropriate assessor competency standards as outlined in regulations; and
- be able to demonstrate vocational competencies at least to the level being assessed; and
- be able to demonstrate how they are continuing to develop their VET knowledge and skills as well as maintaining their industry currency and assessor competence.
