**Release: 1**

# Assessment Requirements for FWPCOT2202 Rack material

## Modification History

Release	Comments
1	<p>Replaces equivalent unit FPICOT2202B Rack material, which was first released with FPI11 Forest and Forest Products Training Package Version 2.2. This is the first release of this unit in the new standards format.</p> <p>Assessment requirements now specify the performance and knowledge evidence, as well as assessment conditions for this unit of competency. These sections simplify and replace components used in the previous unit format, including Required Skills and Knowledge, Evidence Guide and Range Statement\</p>

## Performance Evidence

A person demonstrating competency in this unit must satisfy all of the elements, performance criteria and foundation skills of this unit. If a specific volume or frequency is not stated below, then evidence must be provided that the following requirements have been performed on at least one occasion:

- follow organisational policies and procedures relevant to racking material
- safely prepare, sort and rack material to industry standards
- identify, separate and safely dispose of material with faults.
- 

## Knowledge Evidence

A person competent in this unit must be able to demonstrate knowledge of:

- environmental protection practices for disposing of, recycling and reusing timber and other waste
- range of industry standard diameters, lengths, cross sections, tolerances, stress grades and applicable terminology
- methods of visual estimation, grading, colour identification and tagging
- purpose, features and operation of equipment used to rack materials
- requirements for quality and dimensions of bearers
- organisational procedures specific to racking material:
  - workplace health and safety with particular emphasis on use of personal protective equipment

- communication reporting lines
- recording and reporting processes and equipment faults.
- 

## Assessment Conditions

The following resources must be made available:

- tools and equipment used to rack materials
- personal protective equipment (PPE) suitable for racking material
- commercial quantities of timber materials to be racked
- work order with specific instructions for racking material
- template documents for recording processes and equipment faults
- organisational procedures for racking material.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessor requirements

Assessors must:

- hold the appropriate assessor competency standards as outlined in regulations; and
- be able to demonstrate vocational competencies at least to the level being assessed; and
- be able to demonstrate how they are continuing to develop their VET knowledge and skills as well as maintaining their industry currency and assessor competence.
-
