FWPCOT5203 Manage installation and commissioning of equipment

Release: 1

FWPCOT5203 Manage installation and commissioning of equipment

Modification History

Release	Comment
1	Replaces equivalent unit FPICOT5203B Manage installation and commissioning of equipment, which was first released with FPI11 Forest and Forest Products Training Package Version 2.2. This is the first release of this unit in the new standards format.

Application

This unit of competency describes the outcomes required to plan and manage the installation and commissioning of equipment to ensure compliance with budgetary, legal and contractual requirements.

The unit applies to managers or supervisors of timber manufacturing facilities where acquisition of new equipment is required to update or extend existing production targets.

Licensing, legislative, regulatory or certification requirements apply to this unit but may differ according to state or territory jurisdiction. Refer to state or territory licensing body.

Pre-requisite Unit

Nil

Unit Sector

Timber Manufactured Products

Sawmilling and Processing

Elements and Performance Criteria
