FWPSS00042 Timber Wall Frame Manufacture Skill Set

Release 1

FWPSS00042 Timber Wall Frame Manufacture Skill Set

Modification History

Release	Comments
Release 1	This version released with FWP Training Package Version 6.0.

Description

This skill set is designed to cover the knowledge and skills required to assemble timber wall frames. It includes applying knowledge and skills to work and handle materials safely in a manufacturing environment, assess timber and apply information from fabrication plans to the assembly of timber wall frames.

Pathways Information

These units of competency provide credit towards FWP30920 Certificate III in Timber Frame or Truss Manufacture from the FWP Forest and Wood Products Training Package.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

Skill Set Requirements

- CPCCOM1015 Carry out measurements and calculations
- FWPCOR2205 Follow WHS policies and procedures
- FWPCOT2257 Use hand-held tools
- FWPCOT3226 Assess timber for manufacturing potential
- FWPCOT3308 Assemble timber wall frames
- FWPTMM3213 Read and interpret timber truss or wall frame fabrication plans
- TLID1001 Shift materials safely using manual handling methods

Target Group

This skill set is for fabricators working in the timber frame and truss manufacturing industry who assemble timber wall frames.

Suggested words for Statement of Attainment

These competencies from the *FWP Forest and Wood Products Training Package*, *TLI Transport and Logistics Training Package* **and** the *CPC Construction, Plumbing and Services Training Package* meet the industry requirements for assembling timber wall frames.
