community participation**

Release: 1

Assessment Requirements for HLTAHA004 Support client independence and community participation

Modification History

Release	Comments
Release 1	<p>This version was released in <i>HLT Health Training Package release 2.0</i> and meets the requirements of the 2012 Standards for Training Packages.</p> <p>Merged HLTCR402C/HLTCR403C. Significant changes to elements and performance criteria. New evidence requirements for assessment including volume and frequency requirements. Minimum work hours added. Significant change to knowledge evidence.</p>

Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be evidence that the candidate has:

- facilitated 3 different clients, 1 in a simulated environment and 2 in the workplace, to access and participate in the community within the context of rehabilitation plans
- assisted with facilitation of 3 different clients, 1 in a simulated environment and 2 in the workplace, involvement and participation in daily living activities within the context of rehabilitation plans
- performed the activities outlined in the performance criteria of this unit during a period of at least 120 hours of work

Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- cross cultural issues in a community rehabilitation context
- community care service providers
- work health and safety (WHS) issues and requirements, risk assessment and risk management associated with working in client homes and the community
- philosophy and values of community rehabilitation
- psychological impact of illness and/or injury, especially in relation to client participation in daily living activities and routines

- range of aides, appliances, modifications and services that could promote client participation in daily living activities and facilitate community access
- relevant national and/or state-based community services and programs and local community care service providers
- importance of community access and participation to client well being
- motivational strategies to promote client interest in accessing and participating in the community
- the importance and meaning of home and belongings to clients and the nature and significance of working in the client's home and community settings
- principles and practices of self management

Assessment Conditions

All aspects of the performance evidence must have been demonstrated using simulation prior to being demonstrated in the workplace under the direction and supervision (direct, indirect, remote) as determined by the health professional.

The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including rehabilitation plans and any relevant equipment outlined in the plan
- modelling of industry operating conditions and contingencies, including provision of services to real people

Assessors must satisfy the Standards for Registered Training Organisations (RTOs) 2015/AQTF mandatory competency requirements for assessors.
