Assessment Requirements for HLTAHW013 Respond to emergencies

Release: 2

Assessment Requirements for HLT AHW013 Respond to emergencies

Modification History

Release	Comments
Release 2	<p>Updated:</p> <ul style="list-style-type: none"> • assessor requirements statement • foundation skills lead in statement • licensing statement • modification history to reflect 2012 standards <p>Equivalent outcome.</p>
Release 1	<p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the 2012 Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria. New evidence requirements for assessment, including volume and environment requirements.</p>

Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- participated in workplace practice drills for each of the following emergency situations:
 - fire
 - bomb threat
- contributed to the planning of at least one emergency response as a member of a primary health care team by:
 - identifying conditions and factors contributing to an emergency situation
 - accessing existing emergency plans, procedures and protocols relevant to different emergency situations
 - identifying scope of own role in contributing to an emergency response
 - identifying possible actions for particular emergencies
 - determining appropriate means of communication in the event of an emergency and alternatives if required

- identifying relevant personnel and authorities to contact in the event of an emergency
- identifying follow-up measures once emergency situation has been handled.

Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- organisation policies and procedures and legislation or regulations relating to:
 - client confidentiality
 - referral, including various levels of urgency, and follow-up of client
 - mandatory reporting
 - notifiable communicable diseases
 - limits of own ability and authority
 - reporting procedures
 - documentation
- relevant organisation policies, protocols and procedures relating to emergencies, including definition of emergency situations
- organisational and community meeting points for emergency situations
- potential emergency situations including:
 - violence from individuals or groups
 - hazardous environmental incidents
 - car and other vehicle accidents
 - plane crashes
 - mining accidents
 - epidemic diseases
 - fire, floods, extreme weather, earthquakes and other natural disasters
 - bomb threats
 - any other situations which require an urgent response
- local disaster planning processes
- immediate actions to deal with the emergency, including:
 - evacuation from affected area
 - sheltering in a safe location
 - medical treatment
 - raising awareness (both within and externally) of the emergency faced by the community
 - securing a particular area within an organisation or community
 - removal of individuals or groups from an area
- strategies to deal with ongoing impact of the emergency, including:

- counselling
- community trauma responses
- provision of resources and services
- debriefing
- community ceremonies
- implementing actions requested by the community council
- employee assistance programs
- roles and responsibilities as defined by the emergency action plan
- emergency response agencies at local, state, territory or federal level
- community views, considerations and directions on responding to emergencies
- cultural and community specific information
- locations and facilities of suitable and/or alternative venues to provide emergency responses
- communication means during emergency procedures and contingency back-ups.

Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of, and under the supervision of, a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the Standards for Registered Training Organisations (RTOs) 2015/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

an Aboriginal and/or Torres Strait Islander Health Worker or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.
