Release	Comments
Release 2	<p>Updated:</p> <ul style="list-style-type: none"> • assessor requirements statement • foundation skills lead in statement • licensing statement • modification history to reflect 2012 standards <p>Equivalent outcome.</p>
Release 1	<p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the 2012 Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria. New evidence requirements for assessment, including volume and environment requirements.</p> <p>Pre-requisite units removed.</p>

Application

This unit describes the skills and knowledge required to help support clients considering renal replacement therapy and to provide routine care for clients undertaking dialysis in the community setting.

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers working independently and as part of a multidisciplinary team to deliver primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

The skills in this unit must be applied in accordance with Commonwealth and State/Territory legislation, Australian/New Zealand standards and industry codes of practice.

Elements and Performance Criteria

ELEMENT

PERFORMANCE CRITERIA

Elements define the essential outcomes.

Performance criteria specify the level of performance needed to demonstrate achievement of the element.

1. Assist clients to make

1.1 Provide information on renal failure and renal

ELEMENT	PERFORMANCE CRITERIA
informed choices on renal replacement therapy	<p>replacement therapy options to clients with chronic renal failure and their families, in consultation with the health care team</p> <p>1.2 Identify and provide to clients appropriate health education resources on renal disease dialysis and transplantation</p> <p>1.3 Provide information and practical assistance to renal clients who need to travel to distant referral centres for assessment, treatment or training</p> <p>1.4 Support current and potential future dialysis ‘helpers’ with information and practical assistance in their role</p> <p>1.5 Ensure client access to specialist nephrology care</p>
2. Measure hydration status of renal dialysis clients	<p>2.1 Obtain history of shortness of breath or postural dizziness</p> <p>2.2 Measure ‘wet’ or ‘dry’ weight and compare with ideal body weight</p> <p>2.3 Elicit physical signs of fluid overload</p> <p>2.4 Interpret client weight, blood pressure and other clinical signs to determine hydration status</p> <p>2.5 Revise ideal body weight estimates in consultation with senior staff</p> <p>2.6 Document assessments in accordance with organisational policies and procedures</p>
3. Undertake routine pathology testing for dialysis clients	<p>3.1 Provide information on routine dialysis tests to clients in plain language</p> <p>3.2 Collect blood specimens and complete pathology request forms according to standard protocols</p> <p>3.3 Interpret routine test results and give basic client feedback</p> <p>3.4 Refer abnormal test results to medical staff for action</p>
4. Support renal clients to access	<p>4.1 Provide clients with plain language information</p>

ELEMENT	PERFORMANCE CRITERIA
and use medicines wisely	on mechanisms of action, dosing and common side-effects of medicines commonly used in dialysis care
	4.2 Identify potential drug interactions, special precautions, contraindications and side-effects and refer to a medical practitioner
	4.3 Administer medicine by oral and intramuscular routes in accordance with medicine orders, organisation policies and procedures and legal frameworks
	4.4 Support and monitor client adherence to medicines regimen
	4.5 Provide assistance with supply of medicines and use of dose administration aids according to client needs
	4.6 Keep records of chronic medicines supply and administration in accordance with organisation policies and procedures

Foundation Skills

The Foundation Skills describe those required skills (language, literacy, numeracy and employment skills) that are essential to performance.

Numeracy

- in order to interpret test results, including normal and abnormal readings and measurements

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

Unit Mapping Information

No equivalent unit.
