**Assessment Requirements for HLTDEP004
Establish and record jaw relationships and
select artificial teeth**

Release: 1

Assessment Requirements for HLTDEP004 Establish and record jaw relationships and select artificial teeth

Modification History

Release	Comments
Release 1	<p>This version was released in <i>HLT Health Training Package release 3.0</i> and meets the requirements of the 2012 Standards for Training Packages.</p> <p>Significant changes to the elements and performance criteria. New evidence requirements for assessment including volume and frequency requirements.</p> <p>Removal of pre-requisites.</p> <p>240 work placement hours</p> <p>Supersedes HLTDP604D</p>

Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be evidence that the candidate has completed the following tasks:

- performed the activities outlined in the performance criteria of this unit during a period of at least 240 hours of work in a clinical dental workplace environment
- followed procedures to ensure patient safety during procedures
- customised the form of the registration rims prior to recording the jaw relationships and occlusions for at least 4 different patients including:
 - 2 complete maxillary and mandibular dentures
 - and any 4 dentures of the following, 2 of which must be partial dentures:
 - complete maxillary or mandibular denture opposing partial maxillary or mandibular denture
 - opposing partial maxillary and mandibular dentures
 - partial maxillary or mandibular denture opposing natural dentition
- established and recorded jaw relationships and occlusion for 4 different patients
- selected appropriate shade and mould for artificial teeth for 4 different patients.

Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the work role. This includes knowledge of:

- techniques for establishing and recording jaw relationships and occlusion
- rationale and objectives for establishing and recording of jaw relationships and occlusion
- legal and ethical issues relating to: informed consent, duty of care, confidentiality, disability awareness
- factors which influence selection of tooth shades such as skin tone, age, hair colour, natural teeth, light
- dental practice or organisation policy and procedures, including registration standards and guidelines.

Assessment Conditions

Skills must have been demonstrated in the dental workplace with the addition of simulations and scenarios where the full range of contexts and situations cannot be provided in the workplace. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources including:
 - dental clinic
 - de-identified dental and medical records and charts
 - personal protective equipment
 - Dental Board of Australia guidelines on infection control on which the candidate bases the planning process
- modelling of industry operating conditions including access to real people for simulations and scenarios of prosthetic procedures.

Assessors must satisfy the Standards for Registered Training Organisations (RTOs) 2015/AQTF mandatory competency requirements for assessors.
