New evidence requirements for assessment, including volume and frequency requirements. Significant change to knowledge evidence. Removed prerequisite.</p>

Application

This unit describes the skills and knowledge required to develop, implement and monitor infection prevention and control systems and procedures in work contexts where health and personal care services are provided.

This unit applies to people working in roles with managerial responsibilities for infection prevention and control in small to medium sized organisations. There may or may not be a team of workers involved.

The skills in this unit must be applied in accordance with Commonwealth and State/Territory legislation, Australian/New Zealand standards and industry codes of practice.
