# Assessment Requirements for ICTICT404
# Use online learning tools

**Release: 1**

# Assessment Requirements for ICTICT404 Use online learning tools

## Modification History

| Release | Comments |
|---|---|
| Release 1 | This version first released with ICT Information and Communications Technology Training Package Version 1.0. |

## Performance Evidence

Evidence of the ability to:

- identify current and future skills needs
- develop and implement learning plan and assessment
- use online learning tools to acquire knowledge and skills to meet client requirements
- maintain currency of skills within the workplace.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

## Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline the current and future industry trends
- identify and describe relevant legislation and statutory requirements
- describe organisational training policies, plans and procedures
- identify and apply a range of online training tools
- explain the principles and techniques of measuring performance and self-assessment
- identify methods to recognise and prioritise required learning needs
- describe the systems and processes used to direct learning
- identify relevant competency standards and assessment relative to learning needs.

## Assessment Conditions

Gather evidence to demonstrate consistent performance in conditions that are safe and replicate the workplace. Noise levels, production flow, interruptions and time variances must be typical of those experienced in the general information and communications technology (ICT) industry, and include access to the internet to use online learning tools.

Assessors must satisfy NVR/AQTF assessor requirements.
