# Assessment Requirements for ICTICT504 Confirm transition strategy for a new system

# Assessment Requirements for ICTICT504 Confirm transition strategy for a new system

## Modification History

| Release | Comments |
|---|---|
| Release 1 | This version first released with ICT Information and Communications Technology Training Package Version 1.0. |

## Performance Evidence

Evidence of the ability to:

- confirm acceptance plan
- develop a data take-up plan
- confirm cut-over plan.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

## Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- discuss and apply conversion strategies
- outline current business practices related to transition strategies
- discuss cut-over strategies
- discuss post-converging strategies.

## Assessment Conditions

Gather evidence to demonstrate consistent performance in conditions that are safe and replicate the workplace. Noise levels, production flow, interruptions and time variances must be typical of those experienced in the general information and communications technology (ICT) industry, and include access to:

- ICT specifications
- change management plan
- acceptance test plan
- ICT security assurance specifications.

Assessors must satisfy NVR/AQTF assessor requirements.
