enhancements and international roaming  
agreements**

**Release: 1**

# ICTRFN501 Test cellular handset enhancements and international roaming agreements

## Modification History

Release	Comments
Release 1	This version first released with ICT Information and Communications Technology Training Package Version 2.0.

## Application

This unit describes the skills and knowledge required to conduct and analyse the results of testing a subscriber's cellular phone service in a public land mobile network (PLMN) overseas and make recommendations accordingly.

It applies to individuals who work as technical officers and supervisors. They are proficient in the use of specialised testing equipment, are effective communicators and operate with a high degree of autonomy.

No licensing, legislative or certification requirements apply at the time of publication.

## Unit Sector

Telecommunications – radio frequency networks

## Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare to conduct roaming tests	1.1 Obtain relevant legislation, codes, regulations and standards for compliance when conducting work 1.2 Identify need for tests from service provider mobile network deployment taskforce 1.3 Develop enterprise test procedure according to roaming arrangements and manufacturer test regime 1.4 Arrange access to location where tests are to be conducted according to required procedure 1.5 Select resources needed to conduct tests, complying with

	<p>roaming arrangements</p> <p>1.6 Confirm details of international roaming partners and agreements with partner mobile operators</p> <p>1.7 Advise network operations centre of test details and test schedule</p>
2. Conduct tests and analyse test results	<p>2.1 Conduct tests according to enterprise test procedure</p> <p>2.2 Analyse recorded test results for roaming compliance and functionality of subscriber identity module (SIM) card and phone enhancements</p>
3. Document results	<p>3.1 Document details of roaming tests, SIM card validity and functionality of phone enhancements, and make recommendations to appropriate person</p> <p>3.2 Report non-compliance to appropriate person for investigation with international roaming partners and mobile phone manufacturer</p>

## Foundation Skills

*This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.*

Skill	Performance Criteria	Description
Reading	1.2, 1.3, 2.1	<ul style="list-style-type: none"> <li>Recognises and interprets enterprise, regulatory and technical information from relevant sources to determine all specifications and frameworks</li> </ul>
Writing	1.3, 1.6, 1.7, 3.1, 3.2	<ul style="list-style-type: none"> <li>Uses clear, specific and industry related terminology to complete and update workplace documentation and in written communications to relevant personnel</li> </ul>
Oral Communication	1.2, 1.6, 1.7, 3.1, 3.2	<ul style="list-style-type: none"> <li>Provides advice and guidance using relevant language with enterprise personnel, international roaming partners and clients to maintain a client focus and consider client needs</li> <li>Uses listening and questioning techniques to confirm understanding</li> </ul>
Numeracy	2.1, 2.2	<ul style="list-style-type: none"> <li>Performs mathematical calculations to check, analyse and confirm results of system tests</li> </ul>

Navigate the world of work	1.1	<ul style="list-style-type: none"> <li>• Takes personal responsibility for adherence to legal and regulatory requirements</li> </ul>
Get the work done	1.1, 1.4, 1.5, 2.1, 2.2	<ul style="list-style-type: none"> <li>• Determines job priorities, resources and equipment. and works logically and systematically to undertake clearly defined and familiar tasks</li> <li>• Implements actions according to a predetermined plan, making slight adjustments if necessary and addressing some unexpected issues</li> <li>• Takes responsibility for routine decision making by selecting from a range of predetermined options in routine situations, identifying and taking situational factors into account</li> <li>• Responds to typical challenges in different situations and implements standard solutions</li> <li>• Uses and investigates new digital technologies and applications to manage and manipulate data, and communicate effectively with others, in a secure and stable digital environment</li> <li>• Uses experiences to evaluate and identify improvements for future work</li> </ul>
