# ICTSS00068 Designer Skill Set

Release 2

## ICTSS00068 Designer Skill Set

#### **Modification History**

Release	Comments
Release 2	This version released with ICT Information and Communications Technology Training Package Version 5.0.
Release 1	This version first released with ICT Information and Communications Technology Training Package Version 2.0.

#### Description

This skill set addresses the skills and knowledge required to design information and communications technology (ICT) access networks.

### **Pathways Information**

This skill set provides credit towards ICT41119 Certificate IV in Telecommunications Network Design.

#### Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

#### **Skill Set Requirements**

```
ICTBWN303 Install lead-in module and cable for fibre to the premises
ICTCBL253 Construct underground telecommunications infrastructure
ICTCBL333 Install aerial cable for communications applications
ICTNPL402 Plan the deployment of access network architectures
ICTPMG504 Prepare project specifications
```

## **Target Group**

This skill set is for individuals, with limited experience in the telecommunications industry, who require training in network design.

### Suggested words for Statement of Attainment

These units of competency meet industry requirements for designing access networks.

## **Custom Content Section**

Not applicable.
