ICTSS00183 Enterprise Server Virtualisation Specialist Skill Set

Release 1

ICTSS00183 Enterprise Server Virtualisation Specialist Skill Set

Modification History

Release	Comments
Release 1	This version first released with the Information and Communications Technology Training Package Version 8.0. Supersedes and is not equivalent to ICTSS00057 Enterprise Server Virtualisation Specialist Skill Set.

Description

This skill set addresses the skills and knowledge required to configure specialist enterprise servers and computers when managing virtualisation activities.

Pathways Information

This skill set provides credit towards ICT50220 Diploma of Information Technology and other qualifications that allow for selection of these units.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

Skill Set Requirements

ICTNWK552 Install and configure network access storage devices

ICTNWK553 Configure enterprise virtual computing environments

ICTNWK554 Manage enterprise virtual computing environments

ICTNWK557 Configure and manage advanced virtual computing environments

ICTNWK558 Monitor and troubleshoot virtual computing environments

ICTNWK559 Install an enterprise virtual computing environment

Target Group

This skill set is for individuals who work in server virtualisation roles, including professional server virtualisation technology specialists, and other related roles, who are responsible for leading the deployment and maintenance of virtual computing environments using virtualisation servers.

Suggested words for Statement of Attainment

These units of competency from the ICT Information and Communications Technology Training Package meet competency requirements as network professionals specialising in virtualisation technology.
