ICTPMG8142A Manage a telecommunications workplace

Release: 1
ICTPMG8142A Manage a telecommunications workplace

Modification History
Not Applicable

Unit Descriptor

| Unit descriptor | This unit describes the performance outcomes, skills and knowledge required to fulfil workplace management responsibilities at a managerial and supervisory level in a telecommunications business environment. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement but users should confirm requirements with the relevant federal, state or territory authority. |

Application of the Unit

| Application of the unit | Telecommunications engineering staff with management responsibilities apply the skills and knowledge in this unit. They combine technical skills with management skills to manage technical staff in an advanced technological environment. |

Licensing/Regulatory Information
Refer to Unit Descriptor

Pre-Requisites
**Employability Skills Information**

| Employability skills | This unit contains employability skills. |

**Elements and Performance Criteria Pre-Content**

| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. **Support human resources activities** | 1.1. Assist and advise on recruitment action and induction of new staff

EVIDENCE GUIDE

Speaking background may have second language issues.

Access must be provided to appropriate learning and assessment support when required.

Assessment processes and techniques must be culturally appropriate, and appropriate to the oral communication skill level, and language and literacy capacity of the candidate and the work being performed.

In all cases where practical assessment is used it will be combined with targeted questioning to assess required knowledge. Questioning techniques should not require language, literacy and numeracy skills beyond those required in this unit of competency.

Where applicable, physical resources should include equipment modified for people with special needs.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Relevant personnel may include:

- colleagues
- employee groups
- managers
- OHS committees and other people with specialist responsibilities
- employees
- specialist resource managers
### RANGE STATEMENT

| **Decision-making procedures** may include: | • objectivity  
|                                          | • qualitative  
|                                          | • quantitative  
|                                          | • subjectivity.  |

| **Customer and owner** may include: | • customer:  
|                                       | • external  
|                                       | • internal  
|                                       | • owner:  
|                                       | • management  
|                                       | • shareholders.  |

| **Management characteristics** may include: | • authority  
|                                           | • coaching  
|                                           | • consultation  
|                                           | • control  
|                                           | • delegation  
|                                           | • duties  
|                                           | • management hierarchy  
|                                           | • mentoring  
|                                           | • ownership  
|                                           | • partnership  
|                                           | • responsibility  
|                                           | • skilling and training.  |

| **Communications channels** may include: | • industrial relations  
|                                          | • internal  
|                                          | • pro-active  
|                                          | • public relations  
|                                          | • retro-active.  |

| **Information processing** may include: | • classification  
|                                          | • flagging  
|                                          | • follow-up  
|                                          | • procedures  
|                                          | • storage.  |

| **Channels** may refer to: | • oral  
|                            | • non-verbal  
|                            | • written:  
|                            | • agendas  
|                            | • minutes  |
