Assessment Requirements for MARO001

Perform basic lookout duties

Release: 1

Assessment Requirements for MARO001 Perform basic lookout duties

Modification History

Release 1. New unit of competency.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- communicating effectively with others on lookout issues and arrangements
- communicating required information in a timely manner
- correctly reporting other ships, objects, lights and navigation marks in relation to the ship's head
- identifying and reporting lights, buoys and sound signals
- monitoring and anticipating hazards and risks that may arise during lookout duties
- monitoring VHF equipment
- providing required amount of detail in reports
- responding to helm and engine orders given by the Master.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- International Regulations for Preventing Collisions at Sea
- navigation lights, shapes and sound signals
- typical emergency situations and appropriate action and solutions.

Assessment Conditions

Assessors must satisfy National Vocational Education and Training Regulator (NVR)/Australian Quality Training Framework (AQTF) assessor requirements.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- tools, equipment, machinery, materials and personal protective equipment currently used in industry

- applicable documentation such as legislation, regulations, codes of practice, workplace procedures and operational manuals
- range of relevant exercises, case studies and/or simulations.
