MEA117 Apply self in the aviation maintenance environment

Release: 1

MEA117 Apply self in the aviation maintenance environment

Modification History

Release 1 - New unit of competency

Application

This unit of competency requires application of skills and knowledge relating to ethical behaviour, effective work performance and skills development relating to all aspects of aircraft and aircraft component maintenance during scheduled or unscheduled maintenance. Work may be performed individually or as part of a team.

The unit is part of all Certificate II training pathways. It covers the competencies required to work ethically and effectively in the maintenance of aircraft and aircraft components at Certificate II level while contributing to the development of the individual's own capabilities.

The unit is used in workplaces that operate under the airworthiness regulatory systems of the Australian Defence Force (ADF) and the Civil Aviation Safety Authority (CASA).
